FEES AND USER CHARGES
BIENNIAL REPORT

December 2012

Peter Franchot
Comptroller
November 20, 2012

Honorable Martin O’Malley, Governor
Honorable Thomas V. Mike Miller, Jr., President of the Senate
Honorable Michael E. Busch, Speaker of the House

Gentlemen:

The “Fees and User Charges” Report of the State of Maryland is submitted as required by Title 2, Section 107 of the State Finance and Procurement Article of the Annotated Code of Maryland. The Report provides information on fees and user charges collected by State agencies for the year ended June 30, 2012. In addition, the Report includes a comparison of actual revenues to the total costs of providing the service or performing the function for which the fees or charges are imposed.

The extensive information was compiled by the General Accounting Division based upon reports submitted by various state agencies. I extend my appreciation to all those involved with this effort.

Sincerely,

Peter Franchot
Comptroller

STATE FEES AND CHARGES

Additional Discussion

The structure of fees and costs in the judicial system is complex. Historically, court fee/cost schedules were developed locally to cover the cost of court operations. The complexity of the schedule developed as a result of the growth in the body of laws and the types of cases brought before the court. While the current fee/cost structure reflects the origins of court operations, it does not reflect the original purpose of the fees/costs. Modern court fees and costs typically do not cover the cost of services provision; therefore, requiring a subsidy from the State general funds. This subsidy pricing structure attempts to avoid unreasonable limitations on access to the judicial system.

The logic that will drive the fee structure of the Circuit Court in the future is one of standardization and consolidation. In standardizing fees, the Circuit Court will alleviate the confusion of trying cases in different jurisdictions. The Administrative Office of the Courts would like to eliminate the smaller fees and raise the initial filing fees. The fees will be designed to recover some of the costs of processing a case, ensure access to the court, and provide a disincentive for frivolous lawsuits. This approach to fee setting may allow a larger portion of fees to be collected by the court, thereby increasing revenues.

In addition to the state component of Circuit Court financing, which is the focus of this report, there is a local component as well. Circuit Courts generate revenue from fines, forfeitures, and certain appearance fees, which are returned to the subdivisions. Fees and charges are also levied for such functions as collection of non-support payments and domestic relations matters. In these cases, revenues are used to support the local governments’ costs either of the direct function or other judicial-related functions such as local court libraries. For the period July 1, 2011 through June 30, 2012, the total of these local revenues is approximately $126,952,415 statewide.

Additional Information
The Real Property Record Improvement Fund was to expire on June 30, 2015, but the sunset provision was again removed by the Legislature during the special session. (CJ §§ 13-601-13-606).

Additional Discussion
The Circuit Court Real Property Records Improvement Fund is established by (§§13-601-13-606) of the Courts and Judicial Proceedings Article of the Annotated Code of Maryland for the purposes of repairing and modernizing the equipment, and equipment related services in the Land Records offices of the Circuit Courts. The surcharges have been $40.00 for mortgages, leases, deeds and deeds of trust, with all other instruments being assessed a $2.00 fee. During the 1999 Session, the General Assembly enacted legislation to capture additional Fund revenues from copies made on equipment purchased through the Fund. For the period July 1, 2011 through June 30, 2012, the special fund revenue generated from the surcharge and copy fees totaled $31,835,482.57.

The surcharge resembles market pricing in its intent to provide funds to cover the cost of improvements to service delivery at the land records office and in assigning the costs of service expansion to the direct beneficiaries of the service. Despite adding another fee to the land recordation process, the burden of the surcharge is not substantial. Given the fiscal condition of the state, this approach to financing automation of the land records offices seems reasonable.

STATE FEES AND CHARGES

Additional Information

Criminal defendants, in both the Circuit and District Courts, are required to pay costs of the dedicated funds set up to assist the victims and witnesses of crimes. These costs - $3 for non-jailable vehicle offense, $20 Criminal Injury Compensation, $12.50 Victims of Crime, $2.50 Victim & Witness Protection & Relocation fund for other crimes tried in the District Court, Offenses, and $45 for other crimes tried in the Circuit Court – are deposited into three funds for victims’ programs.

Chapter 455, Acts of 1968, created the Criminal Injuries Compensation Board, to pay unpaid medical expenses and other specific disability payments to individuals injured or killed while preventing crimes, during crimes or in apprehending criminals (Article 27 §815 et seq.). By Chapter 224, Acts of 1993, The Criminal Injuries Compensation Fund was created to fund the awards made by the Board.

Chapter 165, Acts of 1987, the General Assembly created the Maryland Victims of Crime Fund Accounting (Article 27 §854 (j)), for deposit of defendants’ assets resulting from movie deals, book contracts and other contracts relating to, and resulting from, the notoriety of their crimes. After payments to victims, money remaining in the Account was to be used for implementation of statutory guidelines for treatment of victims and witnesses. Chapters 256/257, Acts of 1988, created the State Board of Victim Services (Article 27 §837) to oversee such implementation and to encourage various victim/witness programs and on ratification of Art. 47 of the Maryland Declaration of Rights, charged the Board with implementation of that Article.

Chapter 474, Acts of 1994, created a program for protection of victims and witnesses and for their relocation for that purpose or to facilitate participation in court proceedings (Article 27 §835), together with the Victim and Witness Protection and Relocation Fund (Article 27 §836), for implementation of the program.

The first $500,000 of the $3 fee, collected by the District or Circuit Court, is allocated equally between the Maryland Victim of Crime Fund and the Criminal Injuries Compensation Fund, with the latter getting all money above $500,000.

The $45 fee collected by the Circuit Court for other crimes is allocated as follows:
- $22.50 to the Maryland Victims of Crime Fund Account
- $ 2.50 to the Victim and Witness Protection and Relocation Fund
- $20.00 to the Criminal Injuries Compensation Fund

Other Revenue Sources:
The Attorney General is to deposit into the Maryland Victims of Crime Fund Account any money remaining in an escrow account, derived from notoriety of crimes contracts with defendants, after payments under Article 27 §854, such as subrogation claims of the State, court ordered restitution, and judgments arising out of the crime. FINDER Online Product, 2011 Edition is described on the next page.

FINDER Online contains the tools you need to view electronic tax maps and to search (by
owner name, address, account number and/or map and parcel) for parcel locations in a
jurisdiction or a region. Once a parcel or group of parcels is selected, you can link directly to
current parcel information via the State Department of Assessments and Taxation (SDAT)
Real Property website, view the tax map where the parcel is located and print parcel reports.
You can also download and save tax maps in electronic (.tif) file format to your computer for
viewing and/or printing later.

FINDER Online also includes Computer Assisted Mass Appraisal (CAMA) data for
residential parcels as well as the most recent Sale update file for a 12-month period ending
near the FINDER Maps and Data DVD release date. To help orient Subscribers, FINDER

| Fee associated with use of Microsoft SQL server software on an Archives’ server. | $40/mo. |
| Fee associated with system administration tasks. | $80/mo. |
| Fee associated with advanced system administration tasks, such as creating specialized scripts and/or customized utilities. | $145.00/hr. |

### CONNECTIVITY SERVICES

#### Network Security

Fee associated with network security. Includes the configuration and maintenance of all firewall servers; software upgrades; and annual hardware upgrades. In addition, log files are monitored and tape backups are made and archived on and off site. All incoming and outgoing email is scanned for viruses, attachments with viruses are deleted, and users are alerted to any problems.

$5,100/year

#### Email Anti-Virus/Anti-Spam Services

Fee associated with expanding the email services to gateway services where the Archives can pick up client’s inbound email at the Archives, scan for spam and viruses, then pass the email onto our client’s internal email server. The reverse is also possible, where the Archives takes the client’s outbound email, scans for spam and viruses, and then delivers the email to the Internet. This option is very helpful to clients who do not have their own mail gateway firewalls and do not want their internal email servers to face the Internet directly.

$500 per domain/year

#### Telecommunications

Fee associated with quarterly telecommunications costs. Fee covers the internet connectivity for the agency as invoiced from the supplier. Also included is routine monitoring and troubleshooting of problems as they arise.

Available upon request.

All prices above for delivery of hard copy final product include shipping via US Postal Service or UPS Ground Shipping. Other delivery options may be requested, such as USPS Priority Mail, UPS Overnight, FedEx Overnight, etc. Please note that some products, such as prints on photographic papers, 100% cotton rag paper, canvas, poster board, etc., may require special shipping and handling. The Archives will inform the patron if an order requires special shipping and handling.

Additional Information

Fee Schedule

Temporary Trip Permits: $42 to obtain travel authority for 15 days, in lieu of obtaining identification markers and being subject to the motor carrier law International Fuel Tax Agreement (IFTA).

Additional Information: Carriers that qualify as IFTA licensees, but do not wish to participate in the IFTA program, must obtain trip permits to travel through member jurisdictions according to the regulations and fees of each member jurisdiction including Maryland on any return trip.

IFTA licensees who are cancelled must also obtain trip permits for interstate travel. Revoked IFTA licensees are not entitled to temporary permits from any jurisdiction.

STATUTORY AUTHORITY REGULATORY CITATION METHOD OF CHANGE
IFTA Identification Markers IFTA Decals Federal – legislative Statute

Credentials are issued by a motor carrier’s base jurisdiction which will allow the IFTA licensee to travel in all IFTA member jurisdictions.

IFTA- annual renewal: Maryland does not charge an annual renewal processing fee for an IFTA license.

IFTA decals are automatically issued to licensees in good standing. Accounts that are cancelled, revoked, or owe additional taxes must complete a renewal application when resolving all outstanding issues.

Additional Information: If a Maryland-based carrier that qualifies for an IFTA license and decals has any qualifying motor vehicles which only travel intrastate, the carrier may elect to have both the intrastate and the interstate qualifying motor vehicles issued IFTA decals. In such case, the operation of those intrastate qualifying vehicles will be included on the IFTA tax report. This provision enables the carrier to convert an intrastate vehicle to interstate operations at any time without additional registration.

Additional Information

Prior to 1992 change--
- Manufacturer’s warehouse operator's license $ 250
- Retailer's license 3
- Sub wholesaler's license 250
- Vending machine operator's license 250
- Wholesaler's license 250

Before obtaining the state retail license, the applicant must file for and receive a county license. In all counties except for Cecil, the application fee for the license is $25. In Cecil County it is $50. This license must be applied for each year, whereas the state retail license can be renewed for a $3 fee yearly.

Although fees were increased in 1992, the renewal fee was not increased until the 1993 Session. Only new licensees, therefore, were paying the increased fee, while those with licenses only had to pay the $250 renewal fee. In 1993, the renewal fee was increased to the original license fee for each category of license.

Effective May, 1993
- Cigarette Wholesaler's License $750
- Cigarette Sub-Wholesaler's License 500
- Cigarette Vending Machine Operator's License 500
- Cigarette Retail License Fee collected
  - By County Clerks 30
- Tobacco License Application Fee 200
- Tobacco Fee Renewal 30

Effective October 1, 1994
- Tobacco Manufacturer’s License 25
- Cigarette Storage Warehouse 25

Effective May 1, 2011 (#B88)
- OTP Wholesaler 250
- OTP Manufacturer 25
- OTP Storage 25

Additional Discussion

The Office of the Comptroller collects fees for cigarette licenses under Title 16 of the Business Regulation Article. The fees, which range from $25 to $750, were first instituted in 1890 and last changed in 2011. Revenues are intended to be used to administer the title and enforce the Maryland Cigarette Sales Below Cost Act (MCSBCA), and are deposited into a special fund.

Additional Information

Section 1-204. Organization and capitalization fee.

(a) Definitions.-
(1) In this section, the following words have the meanings indicated.
(2) “Aggregate par value of capital stock” means the sum of the total par value of all classes of stock.
(3) “Corporation” includes a joint stock company.
(4) “Total par value of a class of capital stock” means:
   (i) For a class of capital stock having par value, the par value per share of stock in the class times the number of authorized shares in the class; or
   (ii) For a class of capital stock not having par value, $20 times the number of authorized shares in the class.

(b) Imposed.-There is an organization and capitalization fee imposed on:
(1) The aggregate per value of capital stock of a Maryland corporation that incorporates;
(2) An increase of the aggregate par value of capital stock of a Maryland corporation;
(3) A consolidation of corporations that results in a Maryland successor corporation that has an aggregate par value of capital stock that exceeds the aggregate par value of the consolidating corporations;
(4) A merger of corporations if the successor corporation has an aggregate par value that exceeds the aggregate par value of capital stock of the merging corporations; or
(5) The incorporation of:
   (i) A Maryland corporation that does not have any capital stock;
   (ii) A savings and loan association; or
   (iii) A credit union.

(c) Schedule. –
(1) Except as otherwise provided in this section, the organization and capitalization fee is as provided in the following schedule:

<table>

(2) The organization and capitalization fee is $20 for the incorporation of:
   (i) A Maryland corporation that does not have any capital stock;
   (ii) A savings and loan association; or
   (iii) A credit union.

(d) Fee for increase in aggregate par value of capital stock.
   (1) Except as otherwise provided in this subsection, the organization and capitalization fee for an increase in aggregate par value of capital stock is the fee computed on the aggregate par value including the proposed increase less the fee computed on the aggregate par value excluding the proposed increase.
   (2) Except as provided in paragraph (3) of this subsection, the organization and capitalization fee on an increase in aggregate par value of capital stock of a railroad corporation that is incorporated under the laws of this State and any other state is computed by multiplying the fee computed under paragraph (1) of this subsection by the proportion of the total track mileage of the railroad corporation in this State to the total track mileage of the railroad corporation.
   (3) The minimum organization and capitalization fee on an increase in aggregate par value is $20.

(e) Fee for consolidation of existing corporations.
   (1) Except as otherwise provided in this subsection, the organization and capitalization fee for the consolidation of existing corporations to form a Maryland successor corporation is the fee computed on the aggregate par value of capital stock of the successor corporation less the fee computed on the combined aggregate par value of capital stock of the consolidating corporations.

Section 8-110 – Redemption of certain reversions.

§ 8-110. Redemption of certain reversions.

(a) Applicability of section -

(1) This section does not apply to leases of property leased for business, commercial, manufacturing, mercantile, or industrial purposes or any other purpose which is not primarily residential, where the term of the lease, including all renewals provided for, does not exceed 99 years. A lease of the entire property improved or to be improved by any apartment, condominium, cooperative, or other building for multiple-family use on the property constitutes a business and not a residential purpose. The term “multiple-family use” does not apply to any duplex or single-family structure converted to a multiple-dwelling unit.

(2) Except as provided in subsection (f) of this section, this section does not apply to irredeemable leases executed before April 9, 1984.

(3) This section does not apply to leases of the ground or site upon which dwellings or mobile homes are erected or placed in a mobile home development or mobile home park.

(4) This section does not apply to an affordable housing land trust agreement executed under Title 14, Subtitle 5 of this article.
(b) Redemption of reversions in leases for longer than 15 years. -

(1) Except for apartment and cooperative leases, any reversion reserved in a lease for longer than 15 years is redeemable at any time, at the option of the tenant, after 30 days’ notice to the landlord. Notice shall be given by certified mail, return receipt requested, and by first-class mail to the last known address of the landlord.

(2) The reversion is redeemable:

(i) For a sum equal to the annual rent reserved multiplied by:

1. 25, which is capitalization at 4 percent, if the lease was executed from April 8, 1884 to April 5, 1888, both inclusive:

2. 8.33, which is capitalization at 12 percent, if the lease was or is created after July 1, 1982; or

3. 16.66, which is capitalization at 6 percent, if the lease was created at any other time;

(ii) For a lesser sum if specified in the lease; or

(iii) For a sum to which the parties may agree at the time of redemption.

(c) Where reversion is vested in a person without a power of sale. – If a tenant has power to redeem the reversion from a trustee or other person who does not have a power of sale, the reversion nevertheless may be redeemed in accordance with the procedures prescribed in the Maryland Rules.

(d) Applicability of federal regulatory changes. – Notwithstanding subsection (b) of this section, any regulatory changes made by a federal agency, instrumentality, or subsidiary, including the Department of Housing and Urban Development, the Federal Housing Administration, the Government National Mortgage Association, the Federal National Mortgage Association, and the Veterans’ Administration, shall be applicable to redemption of reversions of leases for longer than 15 years.

(e) Donation of reversion. -

(1) Before the entry of a judgment foreclosing an owner’s right of redemption, a reversion in a ground rent or lease for 99 years renewable forever held on abandoned property in Baltimore City, as defined in § 14-817 of the Tax – Property Article, may be donated to Baltimore City or, at the option of Baltimore City, to an entity designated by Baltimore City.

(2) Valuation of the donation of a reversionary interest pursuant to this subsection shall be in accordance with subsection (b) of this section.

(f) Redemption or extinguishment of ground rents; reinstatement; disputes. -

(1) (i) A tenant who has given the landlord notice in accordance with subsection (b) of this section may apply to the State Department of Assessments and Taxation to redeem a ground rent as provided in this subsection.

(ii) When the Mayor and City Council of Baltimore City condemns property that is subject to an irredeemable ground rent, the City shall become the tenant of the ground rent and, after giving the landlord notice in accordance with subsection (b) of this section, may apply to the State Department of Assessments and Taxation to extinguish the ground rent as provided in this subsection.

(iii) When the Mayor and City Council of Baltimore City condemns abandoned or distressed property that is subject to a redeemable ground rent, the City shall become the tenant of the ground rent and, after giving the landlord notice in accordance with subsection (b) of this section, may apply to the State Department of Assessments and Taxation to redeem the ground rent as provided in this subsection.

(2) The tenant shall provide to the State Department of Assessments and Taxation:

(i) Documentation satisfactory to the Department of the lease and the notice given to the landlord; and

(ii) Payment of a $20 fee, and any expediting fee required under § 1-203 of the Corporations and Associations Article.

(3) (i) On receipt of the items stated in paragraph (2) of this subsection, the Department shall post notice on its website that application has been made to redeem or extinguish the ground rent.

(ii) The notice shall remain posted for at least 90 days.

(4) Except as provided in paragraph (5) of this subsection, no earlier than 90 days after the application has been posted as provided in paragraph (3) of this subsection, a tenant seeking to redeem a ground rent shall provide to the Department:
STATE FEES AND CHARGES

Additional Information

(i) Payment of the redemption amount and up to 3 years’ back rent to the extent required under this section and § 8-111.1 of this subtitle, in a form satisfactory to the Department; and

(ii) An affidavit made by the tenant, in the form adopted by the Department, certifying that:

1. The tenant has not received a bill for ground rent due or other communication from the landlord regarding the ground rent during the 3 years immediately before the filing of the documentation required for the issuance of a redemption certificate under this subsection; or

2. The last payment for ground rent was made to the landlord identified in the affidavit and sent to the same address where the notice required under subsection (b) of this section was sent.

(5) No earlier than 90 days after the application has been posted as provided in paragraph (3) of this subsection, a tenant seeking to extinguish an irredeemable ground rent or to redeem a redeemable ground rent on abandoned or distressed property that was acquired or is being acquired by the Mayor and City Council of Baltimore through condemnation shall provide to the Department:

(i) Payment of up to 3 years’ back rent to the extent required under this section and § 8-111.1 of this subtitle, in a form satisfactory to the Department; and

(ii) An affidavit made by the Director of the Office of Property Acquisition and Relocation in the Baltimore City Department of Housing and Community Development certifying that:

1. The property is abandoned property, as defined in § 21-17(a)(2) of the Public Local Laws of Baltimore City, or distressed property, as defined in § 21-17(a)(3) of the Public Local Laws of Baltimore City;

2. The property was acquired or is being acquired by the Mayor and City Council of Baltimore City through condemnation;

3. A thorough title search has been conducted;

4. The landlord of the property cannot be located or identified; and

5. The existence of the ground rent is an impediment to redevelopment of the site.

(6) At any time, the tenant may submit to the Department notice that the tenant is no longer seeking redemption or extinguishment under this subsection.
STATE FEES AND CHARGES

Additional Information

(7) Upon receipt of the documentation, fees, and where applicable, the redemption amount and 3 years’ back rent to the extent required under this section and § 8-111.1 of this subtitle, the Department shall issue to the tenant a ground rent redemption certificate or a ground rent extinguishment certificate, as appropriate.

(8) The redemption or extinguishment6 of the ground rent is effective to conclusively vest a fee simple title in the tenant, free and clear of any and all right, title, or interest of the landlord, any lien of a creditor of the landlord, and any person claiming by, through, or under the landlord when the tenant records the certificate in the land records of the county in which the property is located.

(9) The landlord, any creditor of the landlord, or any other person claiming by, through, or under the landlord may file a claim with the Department in order to collect all, or any portion of, where applicable, the redemption amount and 3 years’ back rent to the extent required under this section and § 8-111.1 of this subtitle, without interest, by providing to the Department:

(i) Documentation satisfactory to the Department of the claimant’s interest; and

(ii) Payment of a $20 fee, and any expediting fee required under § 1-203 of the Corporations and Associations Article.

(10) (i) A landlord whose ground rent has been extinguished may file a claim with the Baltimore City Director of finance to collect an amount equal to the annual rent reserved multiplied by 16.66, which is capitalization at 6 per cent, by providing to the Director:

1. Proof of payment to the landlord by the Department of back rent under paragraph (9) of this subsection; and

2. Payment of a $20 fee.

(ii) A landlord of abandoned or distressed property condemned by the Mayor and City Council of Baltimore City whose ground rent has been redeemed may file a claim with the Baltimore City Director of Finance to collect the redemption amount, by providing to the Director:

1. Proof of payment to the landlord by the Department of back rent under paragraph (9) of this subsection; and
STATE FEES AND CHARGES

Additional Information

2. Payment of a $20 fee.

(11) (i) In the event of a dispute regarding the extinguishment amount as calculated under paragraph (10(i) of this subsection, the landlord may refuse payment from the Baltimore City Director of finance and file an appeal regarding the valuation in the Circuit Court of Baltimore City.

(ii) In an appeal, the landlord is entitled to receive the fair market value of the landlord’s interest in the property at the time of the extinguishment.

(12) In the event of a dispute regarding the payment by the Department to any person of all or any portion of the collected redemption amount and up to 3 years’ back rent to the extent required by this section and § 8-111.1 of this subtitle, the Department may:

(i) File an interpleader action in the circuit court of the county where the property is located; or

(ii) Reimburse the landlord from the fund established in § 1-203.3 of the Corporations and Associations Article.

(13) The Department is not liable for any sum received by the Department that exceeds the sum of:

(i) The redemption amount; and

(ii) Up to 3 years’ back rent to the extent required by this section and § 8-111.1 of this subtitle.

(14) The Department shall credit all fees and funds collected under this subsection to the fund established under § 1-203.3 of the Corporations and Associations Article. Redemption and extinguishment amounts received shall be held in a ground rent redemption and ground rent extinguishment account in that fund.

(15) The Department shall maintain a list of properties for which ground rents have been redeemed or extinguished under this subsection.

(16) The Department shall adopt regulations to carry out the provisions of this subsection.
STATE FEES AND CHARGES

Additional Information

(17) Any redemption or extinguishment funds not collected by a landlord under this subsection within 20 years after the date of the payment to the Department by the tenant shall escheat to the State. The Department shall annually transfer any funds that remain uncollected after 20 years to the State General Fund at the end of each fiscal year.

Additional Discussion

Section 2-206 of the Estates and Trusts Article states that the Register of Wills in each county and Baltimore City are entitled to charge and collect for the performance of their duties. The fee for this service ranges from $50 to over $2,500 depending on the value of the probate estate. In addition, the registers are allowed a commission of 25% of the inheritance tax for receiving and paying over to the State the inheritance tax due. In FY 12, the registers collected $24.3 million from fees and the 25% commission and remitted $3 million in excess fees to the State. Of the $24.3 million collected, $7.1 million was collected from probate fees and $16.2 million was collected from the 25% commission.

The total cost of operations for the Registers in FY 12 was $21.3 million. In the absence of the 25% commission, probate fee revenues alone, $7.1 million in FY 12, would not be adequate to cover Registers’ expenses. However, the 25% commission allows the Registers to cover the costs of collecting the inheritance tax.

The probate fees and 25% commission can be categorized as market pricing since user fees are designed to cover the cost of operations. The fee scale used by the Registers provides a mechanism, estate value, to correlate the fee with "ability to pay".

Trucks at 45 tons or less went from $15 to $30
For each ton in excess of 45 tons rose from $2 to $5

Book Permits good for 45 tons increased from $150 to $300.

Additional Discussion

Operating and capital expenditures for the Department of Transportation are supported by dedicated sources of revenue. The majority of funding is realized from gas and titling tax revenues, miscellaneous fees and taxes, and bond proceeds. Funds are collected and deposited into the Transportation Trust Fund. Expenditures are based on budgetary need.

The Annotated Code (Transportation Article §24-112) permits the Department to set fees for hauling overweight cargo at rates which recover the cost of administration and compliance monitoring. This includes the costs of issuing permits, and the capital and operating costs of the truck weight enforcement activities of the Maryland State Police. For Fiscal Year 2012, fees generated for SHA were $12,063,695.

In addition to the transfers made to the Maryland State Police by SHA, revenues were also distributed by MDOT for their Commercial Vehicle program for Fiscal Year 2012 in the amount of $15,729,564 which includes their part of truck weight enforcement activities.

The Department advises that the fees have not been raised since 1984 in order to keep the rates competitive with those charged by states with competing port operations. The Department meets with representatives of area states on an annual basis to compare fees.

Additional Discussion

Operating and capital expenditures for the Department of Transportation are supported by a dedicated source of revenue. The majority of funding is realized from gas and titling tax revenues, miscellaneous fees and taxes, and bond proceeds. Funds are collected and deposited into the Transportation Trust Fund. Expenditures are based on budgetary need. The Department does not generally consider the costs associated with service provision when determining fee levels.

The Maryland Port Administration derives revenues primarily from acreage, sheds, faculty, dockage, wharfage, crane, & and cargo handling fees as well as equipment rental and terminal leases. Because the Port of Baltimore competes for business with other ports in the region, fees reflect market value for the various services provided.

Most customers have long term leases that provide pricing incentives when volume of cargo exceeds pre-determined levels.

#### Additional Discussion:

The Motor Vehicle Administration collects four different categories of fees: titling/registration fees, driver and regulatory licensing fees, vehicle emissions inspections fees (VEIP), and miscellaneous fees. Revenues from all fees are deposited into the Transportation Trust Fund TR §3-216. Titling and registration revenues go to support the special fund. Revenues from miscellaneous fees, which are set by the administration, are mandated to cover no less than 95% and no more than 100% of the administration’s operating costs. This mandate has been issued by the General Assembly via budget bill language since the 1991 legislative session.

Commemorative Plates:
- Agriculture Plate – A $20 fee is paid upon issuance of the plate. Of the $20, $10 goes to MVA and the other $10 to the Agriculture Foundation. First issued 7/01/01.
- Chesapeake Bay Plates - A $20 fee is paid upon issuance of the plate. Of the $20, $10 goes to MVA and the other $10 to the Chesapeake Bay Foundation. First issued 1/1/91.

Uninsured Motorists Fees §17-106 - Drivers not covered by auto insurance are charged $150 for the first month of being uninsured and $7 each additional day, up to $2,500. The MVA receives 30% of the fines and the remaining 70% is allocated to the School Bus Safety Enforcement Fund, the Vehicle Theft Prevention Fund, the Maryland Automobile Insurance Fund (MAIF), and the General Fund. Prior to June 1, 1996, the MVA received 10% of the first $150 and 50% of all fines collected over $150. The non-MVA allocated fine revenue was distributed to the Theft Prevention Program, the MAIF, and the General Fund prior to June 1, 1996.

Schedule of Vehicle Registration Fees
The fees listed below are the biennial rates for vehicle registration in Maryland unless otherwise noted. Beginning with 1993, registration in Classes A, B, C, D, E, F, H, J, M, P, Q and R are conducted biennially. For example, a typical passenger car would cost the owner $128 for registration every two years ($50.50 fee plus $13.50 surcharge = $64 per year x 2 years = $128.00).

Additional Information

Effective June, 1989, the vehicle inspection was changed from an annual requirement to biennial.

Additional Discussion

Operating and capital expenditures for the Department of Transportation are supported by dedicated sources of revenue. The majority of funding is realized from gas and titling tax revenues, miscellaneous fees and taxes, and bond proceeds. Funds are collected and deposited into the Transportation Trust Fund. Expenditures are based on budgetary need.

Revenues generated by the Vehicle Emissions Inspection Program are part of the administration's miscellaneous fees. Capital costs for the enhanced VEIP will be provided by the Transportation Trust Fund.

## Additional Discussion

Operating and capital expenditures for the Department of Transportation are supported by dedicated sources of revenues. The majority of funding is realized from gas and titling tax revenues, federal fund reimbursement, miscellaneous fees and taxes, and bond proceeds. Funds are collected and deposited into the Transportation Trust Fund. Expenditures are based on budgetary needs. The Department does not generally consider the costs associated with service provision when determining fee levels.
STATE FEES AND CHARGES

The fee structure for the Maryland Transit Administration is adjusted periodically to allow sharing of the cost of the system between two groups.

(1) Riders - the direct beneficiaries who benefit from the convenience of the system itself and riders paying at the fare box.

(2) Motorists - the indirect beneficiaries who benefit from the reduced traffic load on highways and pay via gasoline taxes.

The rates charged by the Maryland Transit Administration are also adjusted for certain riders. Discounts are available through daily, weekly or monthly unlimited use passes. Senior citizens and the disabled receive a two-thirds discount on a single ride in the Baltimore region. The discount partially mitigates hardship to these riders. Also, there are limited programs available through other State agencies. In addition, free ridership for state employees was initiated in spring 2001, to reduce vehicle congestion and environmental impact. Each agency is budgeted for and remits funding to the Transportation Trust Fund to replace lost revenue.

There is no regulatory citation for the fees charged. Schedules are maintained in the MTA schedule of tariffs. Proposed fee modifications are not subject to legislative review or publication in the Maryland Register, but do require publication in the newspapers and at agency facilities followed by public hearings.

Miscellaneous operating revenues (e.g., advertising space, leased space in and above metro stations, building and land rental, BWI parking) are market-based.

Additional Discussion

Maryland Department of Transportation

Operating and capital expenditures for the Department of Transportation are supported by dedicated sources of revenue. The majority of funding is realized from gas and titling tax revenues, miscellaneous fees and taxes, and bond proceeds. Funds are collected and deposited into the Transportation Trust Fund. Expenditures are based on budgetary need. The Department does not generally consider the costs associated with service provision when determining fee levels.

Maryland Aviation Administration

As the fee summary schedule below indicates, aircraft landing and parking fees constitute the largest revenue category for the Maryland Aviation Administration. Landing fees and terminal rents are based on recovery of operating and capital costs. Other fees charged are market-based. The Annotated Code (Transportation Article §5-408 (b)(2)(ii)) states that fees are “to be reasonable. In determining reasonableness the Administration shall consider the charges, fees or prices for the same goods or services at comparable airports”. Fees, which are reviewed annually, are generally based both on volume of activity (e.g., number of passengers, number and weight of aircraft using facilities) and volume of facilities used (e.g., per square footage of ticket counter space). Although the market-based fees are not tied to service expenditure levels, they do provide the flexibility necessary to maintain competitive pricing.

There is no regulatory citation for the fees charged. Schedules are maintained in the BWI Tenant Directive and the Maryland Aviation Administration Rate and Leasing Policy. Proposed fee modifications are not subject to Legislative review or publication in the Maryland Register. Current fees were last modified July 1, 2012 BWI and July 1, 2012 at Martin State Airport.

Additional Information

RATE OF FEE:

1) A $30 annual registration fee is paid by packers and distributors of shell eggs. A packer or distributor who keeps 3,000 or fewer chickens and sells eggs only from those chickens is required to register but is exempt from fees.

2) An inspection fee of 8 cents per 30 dozen cases of sold or delivered shell eggs and a quarterly report detailing the number of shell eggs sold, is due each quarter from packers and distributors. A packer or distributor who keeps less than 3,000 chickens and sells eggs only from those chickens is exempt from filing the report and submitting the fees.

3) If a packer or distributor fails to file a quarterly report and not pay the required inspection fee, then a collection fee is imposed in the amount of ten percent (10%) of the unpaid inspection fee due or $100, whichever is greater.

DATE AND AMOUNT OF LAST CHANGE:

Chapter 542; Acts 1993 -- The annual registration fee was raised from $15 to $30 annually effective January 1, 1994. The fee exemption threshold, which is based on the number of chickens kept by a packer or distributor, was raised from 50 chickens to 3,000 chickens effective July 1, 1993. The collection fee provision became effective July 1, 1993.

Additional Discussion

The Board of Physicians regulates physicians, physician assistants, medical radiation technologists (radiographers), radiation therapists, nuclear medicine technologists, and respiratory care practitioners through licensure and disciplinary actions. The revenues collected are from license and license renewal fees and delegation agreements for physician assistants.

Through FY 1991, the Board of Physicians Quality Assurance (now “Board of Physicians”) was a general fund agency and any fees went into the general fund. Legislation passed in 1991 converted the Board into a special fund agency, creating the Board of Physicians Fund as a non-reverting special fund. At that time, 20% of the fees went into the general fund: 80% went to the Board’s fund. In 1993 (effective FY 1995), 14% of the fees was directed into state scholarship funds, 6% into general funds, and 80% to the Board’s fund. In 1999, the 6% directed into the general funds was returned to the Board’s fund by legislation; therefore, 14% was distributed to the scholarship funds and 86% to the Board’s fund. In legislation passed in 2007, the 14% to the scholarship funds was reduced to 12% effective FY 2009.

Fees from physician assistants were originally distributed as 20% to the general fund and 80% to the Board’s fund by 1992 legislation. That distribution was unchanged until the 2007 legislation directed that, for FY 2008, 14% would go to the scholarship fund and the balance to the Board’s fund and, for FY 2009 and later, 12% would go to the scholarship fund and the balance to the Board’s fund.

Board of Examiners of Psychologists

Source: Maryland Health Occupations Annotated Code, Article 8, sections 2-20.

The Board of Examiners of Psychologists regulates all persons licensed as psychologists by setting standards for licensure and practice, administering examinations, issuing licenses, and investigating suspected violations. Revenues collected from examination, license, and renewal fees are used to support the Board's operating expenditures.

Fee Schedule

Scope.

These regulations govern all those licensed or applying for licensure by the Board, or registering as a psychology associate.

Fees.

The following fees are established by the Board:

A. Licensure application fee $200
B. Psychology associate application fee $100
C. Examination fees:
   1) National examination $500
   2) State examination $250
D. Verification of licensure $20
E. Biennial licensure renewal fee $350
F. Late fee $50
G. Inactive status fee $200
H. Reinstatement fee $300
I. Penalty for returned check $25
J. Duplicate license:
   1) Wall certificate $50
   2) Wallet card $10

Refunds.

Application fees are nonrefundable. Examination fees shall be refunded if the request to cancel an examination is received in writing 2 weeks before the examination date.

Change of Fees.

Fees are subject to change by action of the Board of Examiners of Psychologists. Licensees and applicants shall be notified of the change.

Additional Information

SB 655, enacted in 1992, mandates that all but two of the state’s health occupational licensing boards generate sufficient revenue from professional fees to cover the costs of maintaining a regulatory program. The Board of Nursing Home Administrators & the State Board of Anatomy were granted exemptions.

The Board of Nursing Home Administrators regulates nursing home administrators by setting standards for licensure and practice, administering examinations, issuing licenses, and investigating suspected violations. Revenues collected from examination, license, and renewal fees are paid to the general fund of the State of Maryland. (Health-Occupations Article, 9-206(b).

Additional Information

COMAR 10.49.01 does not include the fee schedule, but describes how the fees are determined. The Board believes that listing the fees in COMAR would mislead the public into thinking that the Board is in the business of selling bodies/parts. The Board wishes to continue in its current schedule. The schedule would be readily available from the Board upon request.

Additional Information

The recently adopted COMAR regulation includes the fees for Autopsy Reports and Proof of Death Certificates for both family and private institutions. However, the Chief Medical Examiner did not include the other fees charged by the Administration. These additional services are normally not requested by the family and were accidentally omitted from the regulation.

Additional Information

Although some fees are based on costs, the State subsidizes this program in order to cover the costs of tests where fees are low to encourage improved public health, i.e., immunizations, communicable diseases. State law prohibits assessment of fees for investigation of infectious diseases and environmental public health. The Secretary of DHMH has the authority in law to rescind fees, if he considers it to be in the best interest of public health.

Additional Information

100% of the budget of the Health Services Cost Review Commission (Commission) is funded by user fee assessments against the hospitals in Maryland that the Commission regulates. Under House Bill 1072, the user fees that the Commission collects from Maryland hospitals will be put into a special continuing non-lapsing fund. This funding status became effective July 1, 1995. At the beginning of the fiscal year, the Commission computes the dollar amount to be assessed for each hospital. The hospitals pay this assessment on a quarterly basis.

3. The owner or lessee of an elevator, dumbwaiter, escalator or moving walk may be assessed an inspection fee if a State inspector concludes that newly installed equipment scheduled for a final acceptance inspection fails to meet the applicable safety codes or has not been tested or is not functional. The owner or lessee of such equipment may also be assessed an inspection fee if a follow-up inspection is required on an annual inspection to ensure compliance with corrections detailed on the inspection checklist. The inspection fee schedule is as follows:

| Half day (up to 4 hours), not to exceed | $250 |
| Full day (up to 8 hours), not to exceed | $500 |

4. The Commissioner may authorize third party qualified elevator inspections to perform certain inspections. These third party inspectors must register with the Commissioner prior to obtaining authorization. The fee to register as a third party qualified elevator inspector is as follows:

Additional Discussion

The amusement ride and elevator inspections done by the Division of Labor and Industry help protect the safety of the general public. Funding for these inspections is generated by assessments on insurance companies collected by the Workers’ Compensation Commission. Insurance companies merely pass along the costs by charging higher premiums to their customers. Since the purchasers of insurance would be liable for any injuries, they are actually the prime beneficiaries of the inspections.

The General Fund is reimbursed only for the special and for indirect costs. Inspections are done on an annual basis.

Boiler and pressure vessel inspections are undertaken by the Division of Labor and Industry to ensure the safety of the population. The inspections were undertaken after a series of incidents that endangered significant elements of the population. The costs of the examinations are borne by the owners of the boilers, who receive much of the benefit for the inspections as they would be held responsible for injuries incurred due to accidents. The fees are set at a sufficiently low level so as to impose no significant hardships on the owners.

Certificates of inspection are valid for 12 to 24 months, depending on the type of equipment.

Inspections on elevators, dumbwaiters, escalators and moving walks are conducted by State inspectors without charge provided the owner or lessee ensures the equipment is installed and maintained to applicable safety codes and regulations. If the equipment is not in compliance, requiring a subsequent inspection(s) from the State inspector, then the owner or lessee is charged an inspection fee.

Department of Labor, Licensing, & Regulation
Safety Inspection P00D0105
Elevator Citation Penalties-Private Section.

1. An owner shall hire a third-party qualified elevator inspector to conduct all periodic annual inspections that are required by the safety code.

2. An inspection by a third-party qualified elevator inspector shall ensure that the elevator unit complies with the safety code and other regulations adopted by the commissioner.

3. After an inspection or investigation, the commissioner determines that, within the immediately preceding 6 months, an elevator unit is in violation of the safety code or another regulation adopted by the commissioner, the commissioner shall issue a citation to the owner.

4. If, after investigation, the commissioner determines that an owner violated the safety code or a regulation adopted by the commissioner, the commissioner may assess and collect a civil penalty of up to $5,000 for each elevator unit in violation of the safety code or regulations.

Mile Thoroughbred and Harness Track Licenses are $25 per race day.

Satellite Simulcast Betting Permit Fee - $500 annually

Note that over five million dollars are disbursed from the special fund for grants, impact aid, track operations and other related activities.

The State Racing Commission, established by §11-201 of the Business Regulation Article, licenses and regulates all employees of racetracks and all participants in races in order to ensure the integrity of the races.

Revenues received by the Department of Labor, Licensing and Regulation under Title 11 of the Business Regulation Article are paid into a special fund. Monies are disbursed from this fund for various purposes, including impact aid to localities with racetracks. At the end of the year, after these statutory disbursements have been made, the remaining money is split between the Maryland Agricultural Education and Rural Development Assistance Fund and Thoroughbred Standardbred breeder programs.

Costs of the Commission are relatively constant, especially the expenditures from the special fund, most of which are set by statute at a certain dollar amount. These costs have been around $5 million since FY 1991. Operating expenses and salaries have totaled around $600,000 for the last three years. Track license fees have consistently generated around $15,000 to $18,000, while the occupational licensing fees bring in between $172,000 and $300,000.

Less than five percent of the Commission’s revenues come from the occupational licenses, and less than one-quarter of one percent from the track licenses.

The Maryland Racing Commission operates a testing laboratory pursuant to 11-212 of the Business Regulation Article. This laboratory analyzes urine and blood specimens from horses that compete in races on which pari-mutuel betting takes place. The cost of operating the laboratory is funded by a special fund appropriation, but, all the associated costs of the operation are reimbursed to the State by the racetracks holding live racing. The Racing Commission estimates the cost of operations and invoices the tracks for their respective portion and makes any adjustments after the close of the fiscal year.

School, Student & Teacher’s fees were eliminated July 1991. The 1991 changes repealed provisions in statute, which set fees and made fee-setting a regulatory matter.

Beginning in 1991, fees were to be structured so as to cover the costs of the Board ((4-302).

Contracted Vendor for Examination Administration, March 1992.

Additional Discussion

The State Board of Barbers, established by {4-201 of the Business Occupations and Professions Article, licenses and regulates barbers in order to ensure that licensees have the experience and knowledge necessary to practice safely and with the degree of expertise indicated by the license.

All revenues received by the Department of Labor, Licensing and Regulation under Title 4 of the Business Occupations and Professions Article are paid into the general fund. The Board is required to set fees (by regulation) so as to cover the direct and indirect expenses of regulation §4-206. Staggered licenses are now in place as of 1999.

House Bill 727 State Board of Barbers-State Board of Cosmetologists-Citations passed in 2005. This bill authorizes inspectors for the State Board of Barbers and the State Board of Cosmetologists to issue citation to impose civil penalties on licensees and permit holders for violation of laws and regulations. Any civil penalties imposed may not exceed $300 for all violations cited per day.

Additional Discussion

The Elevator Safety Review Board is established through Title 8, Subtitle 12 of the Public Safety Article of the Annotated Code of Maryland to assure the entry level and ongoing competence of elevator mechanics and contractors. This is accomplished the Board’s activities regarding the qualification, licensure and regulation of the individuals and businesses providing these services. Beyond the societal benefits of regulation, practitioners benefit from a known set of qualifying requirements and the restriction of competition within the trade.

Additional Discussion

The State Board of Stationary Engineers, regulated by Title 6.5 of the Business Occupations and Professions Article, Annotated Code of Maryland, licenses and regulates those who desire to operate steam and power generators, heating plants and boilers, in order to safeguard the general public and promote the safe operation of such plants and machinery. The benefits associated with this regulation are primarily public in nature.

By law, revenue must be deposited in the general fund and shall be at least equal to the direct and indirect costs associated with the operation of the regulatory program. FY 2006 was the first year of the new Board's operation. Fees were set at a level to recover estimated direct and indirect costs.

Additional Information

The Department of Labor, Licensing and Regulation regulates secondhand precious metal object dealers and pawnbrokers (Business Regulation Article, Title 12). To deal in these areas, one must receive a license from the Department. Licensing ensures that licensees will be cooperative with efforts to recover stolen materials.

The cost of applying for a license was raised in 1991 from $200 to $300, and background checks were instituted, which cost $42 per employee. The renewal fee had increased from $200 every other year to $300 in 1991, but the re-codification of the Business Regulation Article reduced it back to $200. Fees for original licenses and renewals were reduced to $75 in 1997. These fees were increased to $265 during the 2011 Legislative Session. Fee collection for criminal background checks were transferred to CJIS in 1997.

The State Board of Architects, established by §3-201 of the Business Occupations and Professions Article, licenses and regulates architects in order to safeguard life, health, public safety and property and to promote the public welfare.
STATE FEES AND CHARGES

Additional Information, continued

Effective July 1, 2003, the fund status of this Board was changed to special fund as it became part of the Occupational and Professional Licensing Design Board's Fund. Non-examination related revenues and expenditures for five design regulatory Boards were clustered in one operational fund. Board's were granted fee setting authority and equalized the primary original and renewal licensing fees for all Boards at $78. This was reduced to $68 effective April 9, 2007. Revenues are required to cover direct and indirect costs of operating the cluster as certified by the Secretary of Department of Labor, Licensing & Regulation (DLLR).

Additional Information

Fees collected by the Board are deposited into special fund accounts. Fees collected for applications, licenses and service fees are deposited in the State Board of Public Accountancy Fund (Ref. §2-106.5 of the Business Regulation Article) are used to offset the direct and indirect cost to operate the Board. Costs of the Board are relatively constant. Registration fees collected for sections of the Uniform CPA Examination are deposited in Board’s examination special fund. These fees are used exclusively to offset the expenses incurred by the Board for the administration, proctoring, grading and any other expenses associated with the examination.

The State Board of Pilots, established by §11-201 of the Business Occupations and Professions Article, licenses and regulates pilots operating in Maryland waters. The Board is responsible for ensuring that safe pilotage is provided.

The disposition of remaining funds is not specified in statute, but in practice it goes into a special fund for the Board. As licensing fees are the primary source of revenue for the Board, these fees must cover expenses.

Since the Board's compensation must be covered, the Board may require flexibility in setting its fees. Because, over a two-year period, revenues are so much greater than the total expenditures for the Board, flexibility is not needed at the current time, although the fees are set in statute (BOP §11-406) so the Board has relatively less leeway than otherwise possible. The unlimited license fee increased from $400 to $600 in 1989, while the limited licenses have been changed since at least 1984.

Additional Discussion

The State Board of Examiners of Landscape Architects, established by {9-201 of the Business Occupations and Professions Article, regulates and licenses landscape architects in order to safeguard public welfare, health and property and to promote the public good.

It had been the case that statute required all authorized expenses of the Board be payable only from monies collected by the Board. This requirement was changed in 1992, however, when all revenues became general fund revenues. Effective July 1, 2003, the fund status of this Board was again changed to special fund as it became part of the Occupational and Professional Licensing Design Board's fund. Non-examination related revenues and expenditures for five design regulatory Boards were clustered in one operational fund. Boards were granted fee setting authority and equalized the primary original and renewal licensing fees for all Boards at $78 which was reduced to $68 effective May 7, 2007. Additional Discussion

The State Board of Cosmetologists, established by 5-201 of the Business Occupations and Professions Article, licenses and regulates cosmetologists and those in similar occupations in order to ensure that licensees have the experience and knowledge necessary to practice safely and with the degree of expertise indicated by the license.

All revenues received by the Department of Labor, Licensing and Regulation under Title 5 of the Business Occupations and Professions Article are paid into the general fund. The Board is required to set fees (by regulation) so as to cover the direct and indirect expenses of regulation §5-205. Costs of the Board are relatively constant. Staggered licenses were implemented in 1999.

House Bill 727 State Board of Barbers-State Board of Cosmetologists-Citations passed in 2005. This bill authorizes inspectors for the State Board of Barbers and the State Board of Cosmetologists to issue citation to impose civil penalties on licensees and permit holders for violation of laws and regulations. Any civil penalties imposed may not exceed $300 for all violations cited per day.

Additional Discussion

The Maryland Home Improvement Commission was established by Article 56, Section 250 in 1962. The Commission licenses and regulates home improvement contractors, subcontractors and salespersons to ensure that consumers dealing with these licensees are afforded protection under the law.

An applicant for a contractor’s, sub-contractor or salesperson license must pass an examination as required since 1979 under Article 56, Section 257D. Pursuant to Section 8-302(g), Business Regulation Article, the Commission may use a testing service to administer the required examinations.

The Home Improvement Guaranty Fund, established by Article 56, Section 277A in 1985, compensates homeowners for losses due to poor, unworkmanlike, inadequate or incomplete work by licensed contractors. Each contractor pays an initial fee of $100 into the Fund in addition to the licensing fee and a $150 assessment at every license renewal. Over the last fifteen years the assessment at renewal has fluctuated between $50 and $150. Renewal assessments are evaluated by the Commission and the Department every two years, based on the current fund balance, pending claims and past claims pay-out rates. Effective May 1, 2010, the renewal assessment was increased to $150.

All revenues from license fees received by the Department of Labor, Licensing and Regulation under Title 8 of the Business Regulation Article are paid into the general fund. Costs of the Commission are relatively constant and since the initiation of staggered license expiration dates in 1999, revenues have remained consistent. Original licenses issued after April 2000 must be renewed every two years from the date of issuance of the original license. This has eliminated the previous revenue fluctuation when the expiration of all licenses was on the same two-year cycle. The costs of the program are aid by licensees, and the cost associated with regulation may be passed on by licensees to consumers. In 2011, fees for original and renewal licenses were raised by $25 and an application fee of $20 was added for new applicants.

Additional Discussion

The Real Estate Commission, established by §17-201 of the Business Occupations and Professions Article, licenses and regulates real estate brokers and salespeople to ensure that licensees have the experience and knowledge necessary to practice competently.

Through June 30, 2006, all revenues received by the Department of Labor, Licensing and Regulation under Title 17 of the Business Occupations and Professions Article are paid into the general fund. Effective July 1, 2006 all revenues, except penalties and fines shall be deposited in the Real Estate Special Fund. Title 17 as amended establishes that these revenues must be sufficient to cover the direct and indirect cost of licensing and regulatory program for Real Estate Professionals. The Secretary of DLLR shall certify costs annually and effective July 1, 2007 the Commission shall be responsible for establishing fees sufficient to cover costs.

Additional Information

The State waives these fees in several situations. For example, if the participant is indigent, disabled or attending school, they may receive an exemption.

Additional Discussion

The Division of Parole and Probation is responsible for monitoring offenders which have been sentenced to parole or probation. In order to offset the costs of monitoring the offenders, fees are collected and credited to the general fund. However, many offenders do not pay their fees because their funds are limited or they receive other exemptions. Furthermore, courts often place higher priorities on funds received from people within their supervision. For example, funds collected may be assigned to court fees, victim compensation, or fines before the remainder will be turned over to the Parole and Probation Division for supervisory fees. This often results in a shortfall between fees collected and the actual costs of supervision.

The State may waive these fees in several situations. For example, if the participant is indigent, disabled or attending school, they may receive an exemption.

Additional Discussion

The Division of Parole and Probation is responsible for monitoring offenders that are participating in the Drinking Driver Monitor Program. In 2005, the program was moved from a generally funded program to a special fund, which is operated solely from the program fees collected from offenders. In order to offset the costs to monitor the program, fees are collected and credited to the special fund. However, some offenders are exempted from payment of fees. This may result in a shortfall between fees collected and the actual costs of the Drinking Driver Monitor Program.

UNIVERSITY SYSTEM OF MARYLAND TUITION

Tuition Policy

    Annually, the Board of Regents will approve the tuition rates. Tuition for each category of student at an institution will be established either as a annual cost or specified as a cost per credit hour.

    This policy provides for undergraduate tuition to be established independent of tuition at comparable institutions. However, tuition information for comparable institutions within the region and nationally is to be made available to the Board of Regents Committee on Finance at the time it considers the operating budget request and the related tuition adjustments.

Additional Information

An applicant must take all necessary steps to prevent nontidal wetland losses by evaluating project designs that avoid impacts. Based on this evaluation of alternatives, if MDE finds that impacts are necessary and unavoidable, the applicant must utilize the project design that will minimize nontidal wetland impacts and provide appropriate mitigation for those impacts. Mitigation means that the applicant must replace lost wetland acreage, function and value. This is usually accomplished by requiring the creation of new wetlands, restoration of relic wetlands, enhancement of degraded wetlands or some acceptable combination. If the Department determines that mitigation for nontidal wetland losses by the applicant is not a feasible alternative, MDE may also accept monetary compensation. Funds collected by the Department are used to create, restore or enhance nontidal wetlands.

Mitigation requirements are determined using criteria established by the Department, including acreage replacement ratios. Once the appropriate replacement acreage has been calculated, MDE applies the fee structure presented above.

Mitigation is a requirement of a Nontidal Wetland Permit issued by MDE. The Department may accept compensation only if it is determined that creation, restoration, or enhancement of Nontidal Wetlands are not feasible alternatives.

§16-205, Environment Article 26.24.05
Annotated Code of Maryland

RATE OR AMOUNT OF FEE(S): An applicant must take all necessary steps to prevent tidal wetland losses by evaluating project designs that avoid impacts. Based on this evaluation of alternatives, if MDE finds that impacts are necessary and unavoidable, the applicant must utilize the project design that will minimize tidal wetland impacts and provide appropriate mitigation for those impacts. Mitigation means that the applicant must replace lost wetland acreage, function and value. This is usually accomplished by requiring the creation of new wetlands, restoration of relic wetlands, enhancement of degraded wetlands or some acceptable combination. If the Department determines that mitigation for tidal wetland losses by the applicant is not a feasible alternative, MDE may accept monetary compensation. Funds collected by the Department are used to create, restore or enhance tidal wetlands.

Mitigation requirements are determined using criteria established by the Department, including acreage replacement ratios. Once the appropriate replacement acreage has been calculated, MDE applies a flat fee of $75,000/acre.

DATE FEE(S) FIRST AUTHORIZED: July 1, 1970

DATE AND AMOUNT OF LAST CHANGE: July 1, 1995 (Fund transferred to MDE as part of a comprehensive reorganization of MDE and the Maryland Department of Natural Resources.)

PURPOSE OF FEE(S): Funds in the Tidal Wetland Compensation Fund may be used for the creation, restoration, or enhancement of tidal wetlands, including: (1) Acquisition of land or easements; (2) Maintenance of mitigation sites; (3) Purchase of credits in mitigation banks; (4) Management of invasive or nuisance species identified by the department; (5) Cost sharing assistance to landowners in the management and control of Phragmites under Title 8, Subtitle 21 of the Natural Resources Article; and (6) Contractual services.

STATE FEES AND CHARGES

AGENCY: Maryland Department of the Environment, Water Management Administration, Wetlands and Waterways Program

DESCRIPTION OF FEE(S): Wetlands and Waterways Program Fund

STATUTORY AUTHORITY REGULATORY CITATION METHOD TO CHANGE
§5-203.1, Environment Article Annotated Code of Maryland

RATE OR AMOUNT OF FEE(S): The application fee that MDE charges an applicant is based on whether a project is considered to be a minor or a major project. All applications require a minimum application fee of $750. Major projects (i.e., those that involve more than 5,000 square feet of impact, require a public notice, or otherwise implicate endangered species, historical resources, or other sensitive resources and require MDE to coordinate with other State and federal agencies) are assessed an additional impact fee of $750 or more based on the coordination requirements of the application, the proposed impact on sensitive resources, or the impact area in acres. The actual fee schedule is presented in the following table.

DATE FEE(S) FIRST AUTHORIZED: July 1, 2008

DATE AND AMOUNT OF LAST CHANGE: July 1, 2008

PURPOSE OF FEE(S): The implementation of these new fees has enabled MDE to enhance the Wetlands and Waterways Program’s resource management and conservation capabilities and strengthen existing levels of constituent service, insuring a more efficient and effective application review process for the regulated community. As required by statute, MDE convened a Work Group consisting of interested stakeholders in September 2011 to review and assess whether the Program successfully improved the level of service to the regulated community as a result of the new fees. The criteria used by the Work Group to evaluate the success of the Program included: establishment of new positions; improvement in application turnaround times; reduction of the application backlog; and development of enhanced services for the regulated and environmental communities. The consensus of the Work Group was that MDE successfully met the intent of the law through the following accomplishments: (1) increased staffing levels consistent with the intent of the 2008 law by creating 34 new positions; (2) improved permit turnaround time so that the Wetlands and Waterways Program now meets its published turnaround times over 90 percent of the time; (3) eliminated the permit application backlog; and (4) provided enhanced services to the regulated and environmental communities.

   - Disposal at a sanitary landfill: 350
   - Minor modifications: 40
   - Substantive modifications: 130

Note: Renewals are charged the same fee amount as new permits.

**Additional Discussion**

The Sewage Sludge Utilization permit fee is set by regulation, and complements the Annual Generator fee to support the operating expenses of the sewage sludge program within the Land Management Administration. The fees are levied at varying rates, depending upon the type of permit.

2) Generator Fee
   The fee charges for generators of sewage sludge vary dramatically by the amount of sludge generated and the category of the permittee. Essentially, the fee for a sewage sludge generator in Maryland is calculated as a base rate of $1 per wet ton of sewage sludge, which is then multiplied by an adjustment factor from 0.3 to 1.55 based on the classification of the sludge and the activity of the permittee. Basically, the fee is set to reflect the hazard and regulatory effort caused by the permittee.

Electronics Manufacturer Registration fee

This fee applies to all electronics manufacturers that manufactured an average of more than 1,000 covered electronics devices per year in the immediately preceding three year period. This is an annual fee with the first yearly payment due by January 1, 2007. The fee is:

1) $10,000 for the initial registration by the manufacturer;
2) $5,000 for each subsequent annual registration by a manufacturer that did not have an implemented electronics take back program in the prior year; or
3) $500 for each subsequent annual registration by a manufacturer that had an implemented electronics take-back program in the prior year.

The Statewide Electronics Recycling Pilot Program, which requires these fees, became a permanent program October 1, 2007.

Additional Discussion

The maximum fee placed on the sale of new tires is set by legislation. The specific rate is set by the Board of Public Works (BPW). The statutory limit was initially set at $1.00 per tire, and the BPW set the fee at this limit. In 2000 the statutory limit was reduced to $0.40 per tire and the BPW set the fee at $0.40. In 2004 the statutory limit was restored to $1.00 per tire. The fee remained at $0.40 until the BPW increased it to $0.80 per tire effective April 1, 2005.

Additional Discussion

The Oil Disaster Containment, Cleanup and Contingency Fund has been established by the Department of the Environment to support response and clean-up remedies for oil spills and preventative permit and inspection program for petroleum transportation, transfer and aboveground and underground storage in the State.

The Oil Contaminated Site Environmental Clean-Up Fund was established by the Department of the Environment to provide financial assistance to owners of underground storage tanks and aboveground residential heating oil tanks. Applications, as of July 2005, are accepted only for heating oil clean-up. Of the $.0575 collected per barrel of oil, $.0175 per barrel is allocated by legislation to fund this program. This fee is subject to change July 1, 2013.

In April 2006, fees for certification of third party inspectors to conduct environmental compliance audits and inspections of underground storage tank systems were established.

Facility Permit Fees

The rate for facility permit fees is determined by the Department, according to guidelines established in §7-237 of the Environment Article. This Section states that the rates of the fees should be set on the basis of the following criteria:

The threat to the environment posed by the particular controlled hazardous substance.
The anticipated cost of monitoring and regulating the facility.
The anticipated needs for program development activities relating to the management of controlled hazardous substances.
The anticipated cost of removing and properly disposing of any controlled hazardous substance that may escape from the regulated facility.

The law determines the criteria for the setting of fees. Fees are established or amended in regulation.

Hauler’s and Driver’s Certificates

The Department has authority to set the rates of these fees, with a maximum set in law. The statutory provisions are as follows:

As both of the fees are currently set at their maximum rates, a statutory change would be required to increase their rates.

Additional Discussion

With legislative direction, the fee-setting structure for Controlled Hazardous Substance facility permits is specifically determined by regulation. The system of determining the fee for a particular facility (as detailed on the previous page) is based on a combination of the costs to regulate the facility and the potential harm caused by the facility.

The direct costs of permitting activities are supported by special and federal fund revenues as well as general funds. Other necessary activities are supported by general fund subsidies.

These fees are used for implementing and managing the Lead Accreditation and Training Program as established in the Maryland Annotated Code. These fees are used for operation in the following areas:

- receiving and processing applications,
- reviewing and auditing training courses,
- reviewing inspection protocols,
- providing management and oversight,
- and issuing certification and accreditation.

The Maryland Clean Air Fund is established within the Air and Radiation Management Administration to support the Department's efforts to maintain the degree of purity of the air necessary to protect the health, the general welfare, and property of the people of Maryland. Special fund revenue to the Maryland Clean Air Fund is derived from fees, licenses and penalties.

Chapter 358 of the Acts of 1993 has replaced the old system of industry-based operating permit fees in favor of emission-based permit fees for stationary source polluters. The new fee schedule is intended to meet federally-designed "presumptive minimum" funding levels. The breakdown of the FY08 total special fund revenue to the Maryland Clean Air Fund is as follows:

- Clean Air Act Title V Operating Permits $5,141,807
- Non-Title V Operating Permits $659,427
- Construction permits $348,100
- Asbestos Licenses $83,250
- Asbestos Training Fees $19,975
- Penalties $523,509
- RGGI $1,333,327
- TLV Cert of Convenience 60,600
- Total $8,169,995

Clean Air Act Title V Operating Permit Fee Revenues are projected to be as follows:

Additional Discussion

The Department of the Environment supports its Radiological Health Program primarily with fees levied on persons or firms possessing and using radiation machines and radioactive materials.

The fee to cover the costs of inspecting and regulating each dental radiation machine is established in the Maryland Code. All other types of fees are established by regulation, designed to cover the costs of the Department in issuing licenses, registrations, certifications and to regulate the use of the machines or materials.
**STATE FEES AND CHARGES**

Additional Information

Fees are charged annually to two groups of Radioactive Materials users. An annual fee is charged for users holding a Maryland Radioactive Material License. An identical fee is charged to an out-of-state user working in Maryland, under reciprocal recognition of the U.S. Nuclear Regulatory Commission Agreement. Other fees apply to Sealed Source and Device registration and to annual general license fees. The schedule for each fee is as follows:

STATE FEES AND CHARGES

Additional Information

The State requires that all private detectives and private detective agencies be licensed by the state police. The State also requires that security guards acquire licenses and that all agencies providing security guards acquire a Security Guard Agency License. In order to offset the cost of these licenses, the State charges license application and renewal fees. These fees are credited to the general fund.

* Superintendent refers to the Superintendent of the State Police.

Additional Information

The Maryland State Police charges a $5 fee for preparing fingerprint cards. Exempted from this fee are fingerprints taken because of law enforcement action, fingerprints retaken because of an error by the Department and those fingerprint fees waived by the Superintendent. Before the fees were charged, the State Police was the only organization in many areas which provided fingerprints at no cost. This resulted in some police barracks spending too much time preparing fingerprints.
