# Maryland Health and Higher Educational Facilities Authority

2012 ANNUAL REPORT

The Maryland Health and Higher Educational Facilities Authority believes that Maryland's healthcare institutions, colleges and universities and noncollegiate schools are very important to our state's future.

The mission of the Authority is to assist non-profit educational institutions and hospitals and related healthcare organizations in financing the construction and acquisition of capital projects. In the pursuit of our goal, we strive to keep abreast of opportunities to reduce the cost of capital in order to meet the changing needs of our borrowing institutions and assure their strength as vital assets of the state.

The Authority is empowered to perform a variety of functions on behalf of its constituents, including the following:

- Issuing fixed and variable rate bonds and notes, including commercial paper.
- Financing construction, renovation and equipping of facilities for nonprofit hospitals, colleges, universities, noncollegiate schools, retirement communities, nursing homes, assisted living facilities and other long-term care facilities.
- Entering into leases and subleases of projects and contracts for the operation and management of projects for these institutions.
- Making loans to participating institutions to finance projects, including hospital facilities, ambulatory care centers and other outpatient facilities, parking garages, research facilities, academic buildings, dormitories, dining halls, libraries and athletic facilities.
- Establishing and administering pooled loan programs to reduce financing costs and provide enhanced access to the capital markets.

As an instrumentality of the State of Maryland providing financing for key institutional projects, the Authority is proud of its role in improving the health and well being of the residents of our state.

#### INDEPENDENT AUDITORS' REPORT

To the Members Maryland Health and Higher Educational Facilities Authority

We have audited the accompanying balance sheet of Maryland Health and Higher Educational Facilities Authority (the Authority) as of June 30, 2012, and related statements of revenues, expenses and changes in net assets and cash flows for the year then ended. These financial statements are the responsibility of the Authority's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to in the first paragraph present fairly, in all material respects, the financial position of the Authority as of June 30, 2012, and the changes in its net assets and its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis on pages 5 through 11 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The additional information on pages 23 through 35 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and, accordingly, we express no opinion on it.

#### Introduction

This discussion and analysis of the financial performance of the Maryland Health and Higher Educational Facilities Authority (the "Authority") is supplementary information required by the Government Accounting Standards Board. It introduces the basic financial statements and provides a brief overview of the Authority's financial activities. It should be read in conjunction with the financial statements that follow this discussion.

The Authority is an instrumentality of the State of Maryland which assists non-profit educational institutions and hospitals and related healthcare organizations in financing the acquisition and construction of capital projects.

The Authority does not receive any appropriations from the State of Maryland and is funded entirely from fees charged to participating borrowers and interest earnings on investments.

#### **Overview of the Financial Statements**

The three basic statements presented within the financial statements are as follows:

- Balance Sheet- This statement presents information reflecting the Authority's assets, liabilities and net assets. Assets represent the total of liabilities and net assets.
- Statement of Revenues, Expenses and Changes in Net Assets- This statement reflects the operating revenues and expenses, as well as non-operating revenues and expenses during the fiscal year. Operating revenue is generated from annual administrative fees and application fees charged to borrowers. Operating expense includes staff salaries and other expenses, as well as professional fees. The change in net assets is similar to net profit or loss for a business enterprise.
- Statement of Cash Flows- The statement of cash flows is presented using the direct method of reporting which reflects cash flows from operating, financing and investing activities. Cash collections and payments are reflected in this statement to arrive at the net increase or decrease in cash for the fiscal year.

#### **Summary of Activities**

During fiscal year 2012 the Authority issued and delivered 27 bond issues totaling more than \$1.397 billion. This is an approximate \$897.4 million increase from total issuance in fiscal year 2011. The increase is primarily due to the refinancing of existing Authority fixed rate bond issues, as Borrowers seek to capitalize on the historically low interest rate environment; and the refinancing of existing Authority variable rate bond issues, as Borrowers have chosen to mitigate the market and renewal risk of Letters of Credit with longer term Direct Placements of bonds with lending banks. The proceeds of the fiscal

year 2012 issues were used to purchase land; construct and acquire new facilities; renovate existing facilities; purchase equipment; and refinance prior debt.

- During fiscal year 2012 the Authority also exercised conversion options with respect to the basis on which interest is calculated on two bond issues with outstanding balances totaling more than \$36.1 million.
- Operating revenues increased by approximately \$132,000 due to the volume of new issues which resulted in higher annual administrative fees and application fees. The Authority funds its operations using a combination of annual administrative fees, application fees and investment income. Administrative fees are a maximum of one tenth of one percent of the par amount of debt issued per annum and the application fee is \$5,000. In FY 2012, the Authority waived 75% of the annual administrative fees chargeable to borrowing institutions for financings that were in place prior to FY 2008 and 70% for financings completed in FY 2008 and after.
- Operating expenses increased by approximately \$154,000 due to the level of contractual services, legal services and professional fees paid directly by the Authority.
- The Authority had approximately \$8.913 billion of conduit debt outstanding at June 30, 2012. This is an approximately \$257 million increase from June 30, 2011. A schedule of debt outstanding is included in the additional information to these financial statements. All bonds and notes issued by the Authority are limited obligations payable solely from amounts payable by participating institutions under the loan or lease agreements executed in connection with the issuance of the bonds or revenues of the project financed. The Authority has no outstanding debt constituting a general obligation of the Authority or a pledge of its faith and credit.

#### NOTE 1: ORGANIZATION AND ACCOUNTING POLICIES

#### Organization

The Maryland Health and Higher Educational Facilities Authority (the "Authority") was established to assist non-profit educational institutions, hospitals and related healthcare institutions in the financing and refinancing of projects authorized by the Authority's enabling legislation. Income of the Authority is derived from fees from institutions and projects that have had financing provided by the Authority. Neither the State of Maryland, nor any subdivision thereof, nor the Authority shall be obligated to pay principal or interest on bonds and notes issued by the Authority except from payments from participating institutions and revenues of the related projects. Neither the faith and credit nor the taxing power of the State of Maryland, of any political subdivision thereof or of the Authority is pledged to the payment of the principal or interest on bonds and notes outstanding. The Authority is exempt from federal and state income taxes. The Authority has no taxing power.

#### **Accounting Policies**

**Reporting Entity-** The Authority's reporting entity has been defined in accordance with Governmental Accounting Standards Board ("GASB") Statement 34. The financial statements include all operations for which the Authority is financially accountable.

Basis of Presentation, Revenue and Expense Recognition- The accompanying financial statements are prepared on the accrual basis of accounting. Revenues are recognized when earned and expenses recorded when incurred. The Authority reports its financial activities by applying Standards of Governmental Accounting and Financial Reporting as promulgated by the Governmental Accounting Standards Board (GASB). The Authority has adopted GASB Statement No. 20 Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that Use Proprietary Fund Accounting. Consequently, the Authority applies all applicable GASB pronouncements as well as Financial Accounting Standards Board (FASB) Codification, unless those pronouncements conflict with or contradict GASB pronouncements.

**Cash and Cash Equivalents-** Cash and cash equivalents consist of short term, highly liquid investments that are readily convertible to known amounts of cash and have original maturities of three months or less. Cash and cash equivalents are carried at cost which approximates market value.

**Investments-** Investments are reported at fair market value with net unrealized gains and losses reported as non-operating revenue in the statement of revenues, expenses and changes in net assets. Market values of investment securities are based on quoted market prices. Interest income is accrued on coupon securities from the last coupon date or purchase date and for securities (e.g., U.S. Treasury Bills) on the effective yield method. Realized gains and losses are recorded on the specific identification method and are computed as the difference between the proceeds of the sale and the original cost of the investments sold.

Investments are purchased to mature based on cash flow needs; however, investments may be liquidated in the event there are unanticipated cash flow needs.

**Net Assets-** Net assets represent the residual interest in the Authority's assets after liabilities are deducted. For external accounting and reporting purposes, net assets are classified in the following categories:

**Invested in capital assets, net of related debt-** capital assets, net of accumulated depreciation and outstanding principal balances of debt, if applicable, attributable to the acquisition, construction or improvement of those assets.

**Unrestricted net assets-** net assets that are not subjected to externally imposed stipulations. Unrestricted net assets may be designated for specific purposes by action of management or the Authority or may otherwise be limited by contractual agreements with outside parties. The Authority's unrestricted net assets include an internal designation for operating expenses, maintained at two times the annual operating expenses of the Authority. At June 30, 2012 the designation was \$4,134,000. The Authority has also designated a portion of net assets to fund presently unidentified contingencies which is subject to a limitation equal to 1% of the total bonds outstanding at July 1, 2012. At June 30, 2012, the designated amount was \$17,120,000 which does not exceed the limitation of \$87,631,650.

Invested in Capital Assets- Invested in capital assets are recorded at cost and defined as assets with an individual cost of more than \$1,000 and an estimated useful life of more than one year. Depreciation is calculated on a straight line basis over the asset's estimated useful life.

Estimated useful lives are as follows:

| <ul> <li>Furniture, fixtures and equipment</li> </ul> | 5 to 10 years |
|---|---------------|
| Computer equipment                                    | 3 to 5 years  |
| Office equipment                                      | 5 to 10 years |
| Automobiles   | 5 years       |
| <ul> <li>Leasehold improvements</li> </ul>            | 4 to 7 years  |

**Compensated Absences-** Vacation benefits are earned by employees of the Authority based on time in service. The rights to such vacation benefits are vested and recorded as a liability for amounts due to employees for future absences. Sick leave is also earned and accumulated by employees. However, sick leave does not vest and is not paid unless sickness causes the employee to be absent.

**Use of Estimates-** The preparation of these financial statements in conformity with accounting principles generally accepted in the United States of America requires management, where necessary, to make estimates and assumptions that affect the amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and

the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

#### NOTE 2: INVESTMENTS

**Interest Rate Risk-** Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. As a means of limiting its exposure to fair value losses from rising interest rates, the Authority's Investment Policy requires that the maturities of the investment portfolio be scheduled to meet the cash requirements for ongoing operations.

As of June 30, 2012, the amortized cost and fair values of investments are as follows (in thousands of dollars):

|                       |                   | GROSS                | GROSS               |               |

| Total                 | \$20,573          | \$0                  | \$50                | \$20,623      |

As of June 30, 2012, the amortized cost and fair value of investments at June 30, 2012, by contractual maturity, are shown below (in thousands of dollars). Expected maturities will differ from contractual maturities because issuers may have the right to call or prepay obligations with or without penalties.

|  | FAIR<br>VALUE | AMORTIZED<br>COST |
|--|---------------|-------------------|
| Due in one year or less                | \$ 1,482      | \$ 1,482          |
| Due after one year through five years  | 15,579        | 15,542            |
| Due after five years through ten years | 3,562         | 3,549             |
| Due after ten years                    | 0             | 0                 |
|  | \$20,623      | \$20,573          |

**Custodial Credit Risk-** Custodial credit risk is the risk that in the event of a bank or other counterparty failure, the Authority will not be able to recover its deposits or the value of its collateral securities that are in the possession of an outside party. As of June 30, 2012, the Authority's investments were not subject to custodial credit risk under GASB Statement No. 40. The Authority's investments are held under a safekeeping agreement, kept separate from the assets of the bank and from other trust accounts and are held in the Authority's name.

**Credit Risk and Concentration of Credit Risk-** Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Authority's investment policy is to invest in a manner which will provide the highest return with the maximum security while

meeting cash flow needs. Permissible investments currently utilized include U.S. Treasury obligations; obligations of federal agencies and instrumentalities; repurchase agreements for U.S. Treasury obligations and obligations of federal agencies and instrumentalities; and money market funds operated in accordance with Rule 2a-7 of the Investment Company Act of 1940 and rated in the highest rating category of a nationally recognized statistical rating organization.

As of June 30, 2012, the allocations by type of investment are as follows (in thousands of dollars):

| Asset                                  | Fair<br>Value | Percentage of Total |

| thereafter | 333,860   |
|            | \$788,434 |

#### NOTE 4: CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2012 consisted of the following (in thousands of dollars):

| Capital assets beginning of year               | \$304 |
|--|-------|
| Additions                                      | 0     |
| Retirements                                    | 0     |
| Capital assets end of year                     | 304   |
| Less accumulated depreciation end of year      | 258   |
| Capital assets net of depreciation end of year | \$ 46 |

The Authority recognized \$37,000 of depreciation expense during fiscal year 2012.

#### NOTE 5: PENSION PLAN

The Authority's employees participate in the State Retirement and Pension System of Maryland. The Authority's contribution is based upon a percentage of annual gross wages paid to employees. Employees of the Authority also make a contribution for benefits; the percentage of contributions, as determined by the State Retirement and Pension System of Maryland, was 7.4%, 7.3% and 4.9% of gross wages reported for 2012, 2011 and 2010, respectively. The Authority's pension expense for 2012, 2011 and 2010 amounted to \$66,461, \$76,973 and \$41,457, respectively. The State Retirement and Pension System of Maryland plan information is publicly available from:

State Retirement & Pension System of Maryland 120 East Baltimore Street Baltimore, MD 21202 www.sra.state.md.us

#### NOTE 6: CONDUIT DEBT

The Authority issues indebtedness on behalf of participating institutions. This indebtedness is generally in the form of bonds, notes or financing leases. Funds related to these financings are held in trust by various financial institutions. In general, bonds mature serially in varying annual installments. Certain issues include term bonds payable from annual sinking fund requirements. Notes generally consist of commercial paper that is expected to be paid with proceeds of refunding obligations. The lease and loan payments receivable by the Authority from the institutions correspond to the amortization of the respective bond and note issues. Under the Authority's capital lease financings, institutions may borrow funds to finance equipment and other purchases. Funds disbursed to participating institutions are repayable by the individual institutions and may be collateralized by security interests in the assets financed. The Authority may hold legal title to or a mortgage on the buildings and other assets financed by bonds for the benefit of institutions. Title to any buildings and other assets reverts to the institutions upon final payment of the respective bond issues or leases. Information pertaining to outstanding indebtedness is included in the additional information attached to these financial statements. The Authority is not obligated to pay principal or interest on bonds and notes issued by the Authority except from payments from participating institutions or revenues of the related projects.

The following is a summary of conduit debt activity for the year ended June 30, 2012 (in thousands of dollars):

| Bonds outstanding as of June 30, 2011          | \$8,656,361 |
|--|-------------|
| Plus: Bonds issued during FY 2012              | 1,397,155   |
| Less: Redemptions and refunding during FY 2012 | (1,140,456) |
| Bonds outstanding as of June 30, 2012          | \$8,913,060 |

Additional Information

[THIS PAGE INTENTIONALLY LEFT BLANK]

The Authority is including the following additional information to provide information relating to funds held by third party trustees and escrow agents and outstanding debt for the Authority's conduit financings.

Trustees are appointed under the terms of the financing documents. Trustee responsibilities include, but are not limited to: creation of funds to be held for bonds, disbursements of bond proceeds, deposit of payments received from institutions, and payment of principal and interest.

The Authority maintains books of accounts for the Debt Principal Account and the required Trusteed Funds of each of the issues of bonds and notes outstanding. Trusteed Funds are maintained by third party trustees or other fiscal agents in accordance with the requirements of the respective bond and note issue documents. The financial statements included in the additional information combine the accounts of all bond, note and lease issues outstanding during the year. Interfund activity is eliminated in combination.

The following is a description of the funds and the Debt Principal Account which relate to conduit debt:

**Construction Funds-** Account for the receipt and disbursement of monies held to pay for project costs, including construction and equipment purchases of participating institutions. All Construction, Cost of Issuance, Capitalized Interest and Additional Facilities Accounts are included as Construction Funds.

**Program Funds-** Account for the receipt and disbursement of monies specified as Program Funds in the Pooled Loan Program Series 1985A & B documents.

**Debt Service Funds-** Account for the receipt and disbursement of monies for the payment of interest and principal on bonds and notes. All Debt Service, Bond and Loan Reserve Funds are included as Debt Service Funds.

**Debt Service Reserve Funds-** Account for the receipt and disbursement of monies held in reserve in compliance with certain bond resolutions and indentures. The fund balances are generally required to be maintained at amounts established under the resolution or indenture.

**Project Reserve Funds-** Account for the receipt and disbursement of monies held in reserve for improvements, major repairs, operations and arbitrage/rebate. The fund balances are established by the bond indentures and resolutions of certain issues. All Renewal and Replacement, Depreciation Reserve and Arbitrage Rebate Funds are included as Project Reserve Funds.

**Redemption Funds-** Account for the accumulation of monies not required by other funds for the eventual redemption or repurchase of bonds.

**Debt Principal Account -** Account for the portions of bonds, notes, and lease obligations payable and the principal and lease payments receivable from the institutions. The terms of the lease and loan agreements between the Authority and the institutions generally require payments in amounts necessary to service the interest and principal of the related bonds, notes and lease obligations outstanding. The principal receivable from the institutions represents the minimum amount necessary, when combined with balances available within trusteed funds, to liquidate the principal portion of the related bonds, notes and lease obligations outstanding.

#### **DEFEASED CONDUIT DEBT**

Bonds have been issued for the purpose of refunding bonds that were issued by the Authority. In some cases, the proceeds of the refunding bonds were deposited into irrevocable escrow trusts. The trusts are held by independent trustees and are invested in obligations of the United States Government which mature and bear interest in such amounts and payable at such times as will be sufficient to pay the principal and interest of the defeased bonds when due upon maturity or redemption.

Defeased bonds outstanding at June 30, 2012 are as follows (in thousands of dollars):
