Re: 2017 Joint Chairmen's Report (p. 88) – Opiate Dependence Treatment Medications

Dear Chairs Kasemeyer and McIntosh:

During the 2017 legislative session, the legislature requested a Joint Chairmen's Report on *Opiate Dependence Treatment Medications*. This referred to a July 2016 change in the Medicaid program which designated suboxone film as "non-preferred" on the Maryland Medicaid Preferred Drug List (PDL). This move to "non-preferred" status required physicians to seek prior authorization for the film. At the same time, Zubsolv tablets were designated as "preferred" on the PDL.

While the legislature was interested in how the change in the PDL impacted the smuggling of suboxone film into state correctional facilities, this change to Medicaid's drug formulary was recently altered. Regulations require the Maryland Department of Health to review drugs that are on Medicaid's PDL annually. In May of this year, the Pharmacy and Therapeutics (P&T) Committee met to review all opioid dependence therapies, including buprenorphine (Subutex), naloxone (Narcan), Naltrexone (Revia), Bunavail, Narcan nasal spray, Suboxone film, Vivitrol, and Zubsolv. The committee made the recommendation to create open access for all these treatments. I accepted the Committee's recommendation and effective July 1, 2017, Medicaid's PDL was changed to make all of these drugs "preferred." A copy of Medicaid's PDL has been enclosed for your reference.

Given the change in the Medicaid program's PDL, I kindly request that you accept this letter as the Department's submission on *Opiate Dependence Treatment Medications* required by the 2017 Joint Chairmen's Report. If you have questions or need more information on the contents of this letter, please contact Webster Ye, Deputy Chief of Staff, at (410) 767-6480 or webster.ye@maryland.gov.

Sincerely,

Dennis R. Schrader
Secretary

Only drugs that are part of the listed therapeutic categories are affected by the Maryland Medicaid Preferred Drug List (PDL). Therapeutic categories not listed here are not part of the PDL and will continue to be covered as they always have for Maryland Medicaid patients.

Note: Brand names listed in parentheses are only listed as a reference. For most multi-source products, the generic products are usually preferred and the branded innovator product is non-preferred. If a generic product is non-preferred, the corresponding brand product is also non-preferred except where specifically noted as “**(generic only)**”. PDL products that are new to market require prior authorization until they are reviewed.
