DEPARTMENT OF LEGISLATIVE SERVICES
OFFICE OF POLICY ANALYSIS
MARYLAND GENERAL ASSEMBLY

Karl S. Aro
Executive Director

Warren G. Deschenaux
Director

August 2009

The Honorable Thomas V. Mike Miller, Jr., President of the Senate
The Honorable Michael E. Busch, Speaker of the House of Delegates
Members of the Maryland General Assembly

State law requires the Department of Legislative Services to annually prepare a report that summarizes the effect of the preceding legislative program on State and local governments (State Government Article, Section 2-1237). In accordance with this requirement, I am pleased to submit the following report, *Effect of the 2009 Legislative Program on the Financial Condition of the State*.

This document is divided into five chapters.

Chapter One highlights the major components of the fiscal 2010 operating budget (**House Bill 100/Chapter 484**).

Chapter Two summarizes the fiscal 2010 capital budget and the State's capital program (**House Bill 102/Chapter 485**).

Chapter Three identifies enacted legislation from the 2009 session that affects State revenues or expenditures. The revenue and expenditure effects of the legislation are summarized, as are the number of regular and contractual positions required to implement the legislation.

Chapter Four identifies enacted legislation from the 2009 session that affects local governments. This chapter also identifies State mandates on units of local government and provides an overview of State aid to local governments.

Chapter Five provides a listing of the 2009 bills vetoed by the Governor for policy reasons. The fiscal implications of those bills are also noted.

Further information on issues considered during the 2009 session may be found in *The 90 Day Report – A Review of the 2009 Legislative Session*, issued annually by the Department of Legislative Services following the adjournment of the General Assembly.

The Honorable Thomas V. Mike Miller, Jr.
The Honorable Michael E. Busch
Members of the Maryland General Assembly
August 2009
Page 2

The enclosed report is prepared by the staff of the Office of Policy Analysis. The work was coordinated by Mark W. Collins, Karen D. Morgan, and Hiram L. Burch, Jr., with additional assistance provided by Jennifer K. Botts and Amy A. Devadas. I trust this report will be a useful source of information for you. If you have any questions concerning its contents, please do not hesitate to contact me.

Sincerely,

Warren G. Deschenaux
Director

Fiscal Effects of the 2009 Legislative Program

Enacted legislation with a quantifiable effect is expected to increase general fund revenues by \$184.4 million and reduce general fund expenditures by \$512.8 million in fiscal 2010, an overall positive impact on the general fund of \$697.2 million. The table below summarizes the quantifiable fiscal 2010 to 2014 general fund impact of all enacted legislation from the 2009 regular session. General fund revenues increase and expenditures decrease throughout the five-year period, resulting in a positive general fund impact in each year through fiscal 2014. The chart does not include the current-year impact of the Budget Reconciliation and Financing Act of 2009, which increases general fund revenues by \$780.9 million and decreases general fund expenditures by an estimated \$2.5 million in fiscal 2009.

The increase in fiscal 2010 general fund revenues of \$184.4 million is amplified by a projected increase of \$50.7 million in special fund revenues. The impact of legislation affecting State revenues will be considered by the Board of Revenue Estimates when fiscal 2010 revenue estimates are revised in September 2009.

	FY 2010	FY 2011	FY 2012	FY 2013	FY 2014
General Fund Revenues	\$184,430,172	\$137,641,646	\$23,663,157	\$7,989,544	\$6,706,049
General Fund Expenditures	(\$512,797,956)	(\$332,054,334)	(\$184,697,342)	(\$204,152,963)	(\$192,615,251)
Net General Fund Impact	\$697,228,128	\$469,695,980	\$208,360,499	\$212,142,507	\$199,321,300

Enacted legislation from the 2009 session is expected to reduce fiscal 2010 special fund expenditures by \$41.3 million and increase federal fund expenditures by \$114.5 million. Significant special and federal fund expenditure reductions have already been incorporated into the fiscal 2010 State budget, but increases totaling an estimated \$250.0 million in special fund expenditures and \$128.3 million in federal fund expenditures were not included in the budget adopted by the General Assembly. State agencies may add special and federal funds to their budgets through the budget amendment process, and the fiscal 2010 State budget specifically authorizes the processing of budget amendments for many of the new expenditures. In addition, some of these expenditure increases will be offset by increases in special and federal fund revenues.

A nonbudgeted fiscal 2010 general fund expenditure increase of \$2.6 million may result in deficiency appropriations for the affected agencies, or agencies may absorb the added costs into their existing budgets. The table below details changes to budgeted and nonbudgeted expenditures resulting from enacted 2009 legislation.

	General Funds	Special Funds	Federal Funds
Total Expenditures	(\$512,797,956)	(\$41,339,214)	\$114,548,356
Budgeted Expenditures	(\$515,368,435)	(\$291,356,163)	(\$13,738,819)
Nonbudgeted Expenditures	\$2,570,479	\$250,016,949	\$128,287,175

An estimated 45 regular and 3.2 contractual positions will be required in fiscal 2010 to implement enacted legislation from the 2009 legislative program. As many as 7 additional regular positions and 0.5 contractual position could be necessary in fiscal 2011 as a result of legislation, bringing the two-year total to 52 new regular and 3.7 new contractual positions.

The analysis of fiscal effects excludes the impact of bills for which estimates cannot be quantified. Although the bills do not contribute to the totals shown in the report, each bill with an indeterminate impact is listed in Chapter 3 with an indication of whether it is expected to have a positive or negative impact on the budget. All estimates of the impact of 2009 enacted legislation are based on the assumptions stated in the fiscal and policy notes for the bills.

Chapter One – Operating Budget

- Outlook for Future Budgets
- Budget-related Legislation
- Federal Stimulus Funding
- By the Numbers

Overview

The General Assembly enacted a \$32.2 billion budget for fiscal 2010; an increase of \$1.0 billion, or 3.3%, above fiscal 2009. Federal stimulus funding from the American Recovery and Reinvestment Act of 2009 (ARRA) was instrumental in balancing the fiscal 2009 and 2010 budgets, following nearly \$1.2 billion of downward general fund revenue revisions in March 2009. In the aggregate, Maryland is expected to receive over \$4.1 billion in federal assistance, of which \$2.3 billion will directly support existing budgetary commitments. Additional aid will support new infrastructure spending, enhance local education funding, and fund a variety of programs.

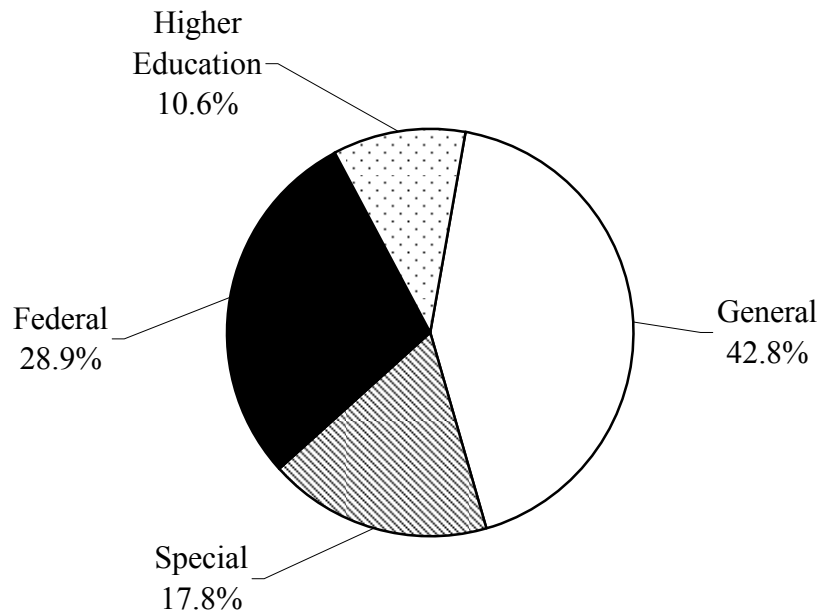

Budget growth (including the use of stimulus funding) is \$106.8 million below the 0.70% level recommended by the Spending Affordability Committee (SAC). Spending increases for local education and library aid, higher education, Medicaid, pay-as-you-go (PAYGO) capital, and debt service payments are largely supported by federal dollars. The fiscal 2010 cash balance is estimated at \$89.6 million, in addition to reserves of \$651.1 million, or 5.0%, of general fund revenues in the Rainy Day Fund.

While the budget is balanced on a cash basis, a structural imbalance of \$1.7 billion exists between ongoing revenues and spending. General fund revenues are projected to decrease by 2.4% in fiscal 2009 and 1.7% in fiscal 2010 before rebounding in fiscal 2011. Remaining federal stimulus dollars will be applied to the fiscal 2011 budget, and \$741 million in balance and cash reserves are available. The direction of the economy and its effect on revenues remains uncertain. The long-term forecast shows that under current assumptions, the State faces significant cash and structural deficits which will require significant additional actions to ensure balanced budgets.

Budget in Brief

The Fiscal Year 2010 Budget Bill, **House Bill 100 (Chapter 484)**, provides \$32.2 billion in appropriations for fiscal 2010. **Exhibit 1.1** illustrates funding by fund source.

Exhibit 1.1
Maryland's \$32.2 Billion Budget
Where It Comes From: Budget by Fund Source

Where It Goes: Budget by Purpose

PAYGO: pay-as-you-go capital

Between fiscal 2009 and 2010, due to a large short-term infusion of federal stimulus dollars, the proportions of the budget supported by general and federal funds is substantially changed in fiscal 2010. General funds decrease from 48%, to just under 43% of the budget. Federal funds increase from 22% to about 29% of spending. Special fund dollars make up 18% of the budget, and higher education revenue provides 11%.

State agency operations constitute the largest area of spending, representing 46% of the total budget. Aid to local governments accounts for 23% of the budget, and 21% supports entitlement programs. Remaining appropriations fund PAYGO capital spending, debt service on State general obligation bonds, and transfers to the State Reserve Fund.

General fund appropriations decrease by \$518.3 million, or 3.6%, below fiscal 2009. However the year-over-year change is misleading due to withdrawn general fund spending which is replaced by federal stimulus dollars. There are additional general funds for employee health and retirement cost increases, higher education, and health programs. Appropriations to the State Reserve Fund total \$139.9 million, a decrease of \$6.6 million compared to 2009. PAYGO capital spending also declines by \$14.9 million.

Special funds decrease by \$149.1 million, or 2.5%, compared to the fiscal 2009 working appropriation. The appropriation provides increases for Medicaid funded from the Rate Stabilization Fund and the Maryland Health Care Coverage Fund to expand coverage to parents of children already eligible for services. Energy assistance programs are funded by the auction of Regional Greenhouse Gas Initiative (RGGI) carbon dioxide allowances, and roughly \$39 million in education aid is supported by video lottery terminal licensing fees. Debt service expenses paid from the Annuity Bond Fund increase \$57 million. These increases are more than offset by \$160 million in reductions to highway user revenues for local jurisdictions, a shift of \$31 million in Program Open Space (POS) spending to bond funding, reduced spending from the Chesapeake Bay 2010 Trust Fund, and contingent reductions in other energy conservation related programs.

Federal funds grow by \$1.6 billion, or 20.9%, largely related to funds received and appropriated from the ARRA of 2009. Education and library aid to local jurisdictions increases by \$572.1 million, or 81.8%. Federal stimulus dollars provide \$156.5 million passed through the Title I formula, \$137.3 million for increased teacher retirement costs, \$110.3 million to fully fund the Geographic Cost of Education Index and supplemental grants, \$107.3 million for special education funding for formulas (IDEA), and lesser amounts for compensatory education, student transportation, and other expenses. PAYGO capital receives an increase of \$371.6 million, or 47.1%. Federal stimulus dollars are applied to transportation capital programs; environmental infrastructure; and housing, veterans, and military projects. Significant increases of federal aid are also received for Medicaid (\$327.6 million, or 10.3%), temporary cash assistance payments (\$99.7 million, or 19.3%), and a variety of programs and purposes ranging from workforce development programs to public safety grants.

The budgets for public higher education institutions increase by \$33.5 million in total funds, or 2.2%, in fiscal 2010. These funds support operations of higher education institutions, including the University System of Maryland (USM), Morgan State University (MSU), St. Mary's

College of Maryland (SMCM), community colleges and Baltimore City Community College (BCCC), and aid to nonpublic institutions. State funding permits undergraduate resident tuition to be frozen for a fourth consecutive year, exclusive of SMCM. Aid to community colleges and BCCC, as well as to the nonpublic institutions, increases by more than 3.0% in fiscal 2010. Due to fiscal conditions, State personnel funding has been reduced. The Governor abolished 893.65 positions during the session and submitted a budget which did not include funding for a general salary increase, merit pay, or a deferred compensation match.

Framing the Session: 2008 Interim Activity

A downturn in the economy since December 2007 impacted revenue collections, as actual fiscal 2008 attainment fell some \$73 million below expectations. Fiscal 2009 revenue estimates were revised downward by approximately \$432 million in September 2008 as problems in the housing market and the subprime mortgage crisis affected the financial sector as well. The Governor implemented several rounds of cost containment through the Board of Public Works (BPW). Revenues were again written down by \$415 million in December 2008.

Against this backdrop, SAC recommended a 0.70% rate of budgetary growth for the 2009 session, which was the lowest level ever recommended. SAC also offered recommendations pertaining to the level of the Rainy Day Fund and position growth.

BPW Withdrawn Appropriations

As shown in **Exhibit 1.2**, the Governor withdrew over \$500 million in spending from the fiscal 2009 budget through BPW at meetings held in June, October, and November 2008 and in March 2009. There were budgetary savings from abolishing 1,700 positions, employee furloughs, and a hiring freeze. Nearly \$50 million was reduced from funds set aside toward the State's Other Post Employment Benefits (OPEB) liability. Cutbacks were made to agency spending, local aid, PAYGO, and entitlement programs. In some cases, reductions were offset by the availability of special fund balances or federal funds.

SAC Recommendations

SAC prepared its final report to the Governor in December 2008 which included the following recommendations pertaining to the operating budget:

Spending Limit: The committee recommended limiting growth on a spending affordability basis to 0.70% over spending approved at the 2008 session.

Exhibit 1.2
Fiscal 2009 Spending Withdrawn through the Board of Public Works

<u>Date of BPW Action</u>	<u>General Funds</u>	<u>Special Funds</u>	<u>Federal Funds</u>	<u>Total Funds</u>	<u>Filled Positions</u>	<u>Vacant Positions</u>
June 2008	\$50.1	\$7.4	\$17.6	\$75.1	0.0	11.5
October/November 2008	297.2	21.1	31.1	349.4	40.0	790.2
March 2009	67.1	9.6	5.0	81.6	2.0	891.7
Total \$414	.4	\$38.1	\$53.7	\$506.1	42.0	1,693.4

Source: Board of Public Works

Personnel: The committee found that fiscal conditions rendered the State's position complement to be unsustainable, and recommended that 1,000 positions should be abolished from the budget.

State Reserve Fund: SAC continued to recommend prudent use of the Rainy Day Fund. Use of the balance below 5.0% was recommended only as a last resort and in combination with a multiyear deficit reduction plan. Instead, it was suggested that federal stimulus dollars be used to address short-term budget balancing needs.

Governor's Spending Plan as Introduced

The fiscal plan submitted by the Administration provided for \$32.0 billion in total spending for fiscal 2010 and \$286.2 million of fiscal 2009 deficiencies. In balancing the budget, the Governor relied upon \$1.1 billion in proposed transfers and nearly \$450.0 million in contingent reductions, which largely required budget reconciliation legislation. The Administration also recognized \$350.0 million in federal stimulus funds through a reduction of general funds in the Medicaid budget. Fiscal 2009 deficiency appropriations totaling \$286.2 million were proposed with the budget, consisting of \$92.8 million in general funds, \$77.7 million in special fund items, and \$115.7 million in federal fund appropriations.

The budget was below the limit recommended by SAC, reflected the planned abolition of over 1,000 Executive Branch positions, and utilized \$210.0 million in the Rainy Day Fund, which was the balance above the recommended 5% level. The Governor's proposed spending plan resulted in an estimated fiscal 2010 general fund balance of \$45.9 million.

As shown in **Exhibit 1.3**, the Governor's plan for balancing the fiscal 2009 and 2010 budgets relied heavily on a combination of fund transfers and reductions contingent upon budget reconciliation legislation. Chief among these was use of Rainy Day Fund balances above 5%, as well as a one-time transfer from a local income tax refund reserve account. In addition to spending already withdrawn by BPW, the Governor proposed to reduce another \$154 million in spending. Finally, balance in fiscal 2010 relied upon \$449 million in spending reductions contingent upon budget reconciliation and other legislation, a variety of across-the-board budget cuts totaling \$86 million and additional revenue and reversion assumptions.

Legislative Consideration of the Budget

As the legislature considered the budget, the Board of Revenue Estimates (BRE) revised general fund revenues downward by a combined \$1.2 billion for fiscal 2009 and 2010, and the Governor submitted two supplemental budgets which added \$1.4 billion in mostly federal fund supported spending. The General Assembly reduced the budget and positions as detailed below.

Revenue and Spending Changes

BRE Revenue Revisions: In March 2009, BRE revised its estimate of general fund revenue for fiscal 2009 downward by \$445.5 million and \$716.5 million for fiscal 2010. Income and sales tax revenues continue to be negatively affected by the recession.

Supplemental Budgets No. 1 and 2: The Governor introduced two supplemental budgets that increased spending by a total of \$1.4 billion. Nearly \$2.3 billion in additional federal funds were appropriated, with the bulk of that derived from federal stimulus legislation. This was offset by nearly \$900 million in withdrawn general fund appropriations. The bulk of federal funds were applied to Medicaid and education programs.

Reductions: The legislature reduced the fiscal 2009 budget by \$16.1 million based on overbudgeted funds for small business health insurance and a cut in school assessments. Changes adopted in the fiscal 2010 budget eliminated 101.5 regular positions and reduced \$911.6 million in all funds.

Notable reductions included:

- \$161.9 million from special fund local highway user revenues;
- \$98.8 million from the Reserve Fund, including \$63.0 million for the InterCounty Connector (ICC) (largely funded in the capital budget) and \$35.8 million above 5.0%;
- \$71.1 million from general and special fund programs supported by RGGI, of which \$35.6 million was a contingent reduction for low-income energy assistance that will be restored by special fund budget amendment;
- \$53.5 million in Medicaid funding that will be restored using available special fund balances;
- \$46.5 million from higher education general funding based on enactment of a provision in the Budget Reconciliation and Financing Act (BRFA) of 2009 to extend the Higher Education Investment Fund (HEIF). This amount will be restored by special fund budget amendment;
- \$34.0 million from community college aid, leaving sufficient funds to increase the appropriation over fiscal 2009 levels;
- \$31.0 million from POS which is funded in the capital budget;
- \$30.8 million in overbudgeted education formula aid; and

- \$24.0 million for all general fund reimbursements of local jail costs, in conjunction with budget reconciliation legislation converting the funding to a grant program.

The budget does not reflect \$192.0 million of special funds that are intended to replace general funded items, which were reduced at the 2009 session but which have yet to be appropriated. **Exhibit 1.4** summarizes the most significant items that will be restored with special funds.

Final Actions Related to SAC

Limiting Spending Growth: As shown in **Exhibit 1.5**, final action by the legislature reduced the budget to a 0.19% rate of growth as measured on a spending affordability basis. The SAC calculation typically does not include federal funds, but an adjustment is included this year to account for the significant influx of federal stimulus aid which was used in part to offset general fund appropriations. With this adjustment, final action on the budget is \$106.8 million below the 0.70% rate recommended by the committee. On the customary basis, the budget is \$1.6 billion below the limit.

Exhibit 1.5
Operating Budget Affordability Limit
(\$ in Millions)

<u>Funds</u>	<u>2008 Session</u>	<u>2009 Session</u>	<u>Dollar Change</u>	<u>Percent Change</u>

Over (Under) Limit			-106.8	-0.51%

SAC: Spending Affordability Committee

Personnel: In March 2009, the Governor abolished 893.65 positions. Action at the 2009 session reduced another 101.5 regular positions. In conjunction with positions abolished by the Governor in preparing the allowance, the State's position complement for fiscal 2010 is over 1,000 positions lower than the fiscal 2009 working appropriation. This is consistent with the SAC recommendation.

State Reserve Fund Balance: Although \$210.0 million was transferred to support fiscal 2010 spending, budget action at the 2009 session leaves a \$651.1 million balance in the Rainy Day Fund. This constitutes a 5% balance. Final action on the budget complied with the SAC recommendation to maintain at least a 5% balance and to first use federal stimulus funds.

Summary of Fiscal 2009 Legislative Activity

Exhibit 1.6 summarizes final legislative action on the budget. In addressing the write down of revenues and additional spending in the two supplemental budgets, the General Assembly adopted \$1.4 billion in transfers including many of the proposed transfers recommended in the Governor's original budget plan. Approximately \$331.5 million of the \$575.8 million in general fund reductions are contingent upon the BRFA of 2009. Based upon these actions, the closing fiscal 2009 balance is estimated at \$432.5 million, and fiscal 2010 is projected to end with a \$89.6 million balance.

Closing Balance	\$432.5	\$89.6

BPW: Board of Public Works

Source: Maryland Budget Highlights Fiscal 2010

In addition to actions within budget reconciliation legislation, two bills increasing general fund revenues contribute to the closing general fund balance for fiscal 2010.

An estimated \$7.0 million in revenue is attributable to **House Bill 193 (Chapter 661)**, which extends for two years, the termination date under which existing qualified organizations and licensed commercial entities may operate electronic instant bingo machines that would otherwise be illegal under the law.

Senate Bill 552 (Chapter 277), requires the Comptroller to declare an amnesty period for delinquent taxpayers for the month of September 2009, for penalties and interest due attributed to the nonpayment, nonreporting, or underreporting of income taxes, withholding taxes, sales and use taxes, or admissions and amusement taxes that are paid during the amnesty period. An estimated \$1.8 million would be credited to the general fund.

Outlook for Future Budgets

As shown in **Exhibit 1.7**, there is a cash balance of \$90 million projected at the end of fiscal 2010, while ongoing spending exceeds ongoing revenues by \$1,693 million. Fiscal 2010 spending is supported by federal stimulus totaling \$1,027 million, use of \$342 million of general fund balance, fund transfers totaling \$234 million, and one-time revenues totaling \$230 million.

The shortfall is projected to increase in fiscal 2011 and decline in fiscal 2012. The fiscal 2011 increase is due to projected increases in entitlements (led by Medicaid growth) and agency growth attributable to increases in personnel costs (such as the annual salary increase, health insurance, and retirement costs) and the one-time nature of many of the reductions taken in agency budgets (such as Department of Information Technology project deferrals).

Video lottery terminal bids received for machines in February 2009 were for less than the number of projected machines. The revenue bids were revised to reflect a slower implementation, thus delaying support for education programs. Instead of supporting programs in fiscal 2011, the estimates now assume substantial funding in fiscal 2012. The narrowing of the budget gap in fiscal 2012 is attributable to \$366 million in video lottery terminal revenues.

⁽¹⁾ Assumes general obligation bond debt service costs supported by State property tax of \$0.112 per \$100 of assessable base. Consistent with Administration policy, debt service cost increases in excess of revenues generated by State property taxes are supported by general funds.

⁽²⁾ Includes \$350 million in Medicaid assumed by the Governor in fiscal 2010 and 2011.

As shown in **Exhibit 1.8**, the structural deficit increases to \$2.2 billion in fiscal 2011 based on a number of factors including personnel and Medicaid growth, as well as the short-term nature of reductions adopted in fiscal 2010. Significant revenue from video lottery terminals is expected to be received beginning in fiscal 2012, which reduces the deficit to about \$1.8 billion. Through fiscal 2014, the shortfall is expected to remain in the range of \$1.8 billion to \$1.9 billion. When economic recovery occurs, it can be expected to improve the overall fiscal picture in the out-years. However, even a robust increase in revenue is unlikely to fully resolve the current imbalance between ongoing revenues and spending. Future balance will depend upon a multiyear approach involving spending reductions in combination with possible revenue considerations.

Budget-related Legislation

Budget Reconciliation and Financing Legislation

House Bill 101 (Chapter 487), the BRFA of 2009 implements \$1.3 billion in actions that benefit the general fund. These actions are summarized in **Exhibit 1.9**

Exhibit 1.9
Summary of Actions in the Budget Reconciliation and Financing Act of 2009
 (\$ in Millions)

Fund Transfers	\$997.5
Contingent Reductions	331.5
Fiscal 2010 Revenues	-6.0
Total Budgetary Action	\$1,323.0

Source: Department of Legislative Services

Actions within the BRFA of 2009 can be categorized into five major types: fund balance transfers; use of special fund revenues in lieu of general funds; changes in formula calculations; revenue actions; and miscellaneous other provisions.

Fund Balance Transfers

As shown in **Exhibit 1.10**, the BRFA of 2009 implements 32 separate fund balance transfers from 29 different funds. The largest single transfer is from the local income tax refund reserve (\$366.8 million), to be replenished over 10 years by the counties. The next largest is a series of actions related to POS and related programs (totaling \$168.0 million). The capital budget includes bond authorization for \$71.3 million to cover prior land purchases and \$31.0 million in lieu of PAYGO funds for Rural Legacy, State capital development projects, and agricultural land preservation. This \$102.3 million, plus an additional \$65.8 million in unencumbered State land acquisition funds, is transferred to the general fund.

A transfer of \$161.9 million is made from highway user revenues to the general fund, with a concomitant reduction in payments to local jurisdictions. Of this total, \$101.9 million is reduced in accordance with the highway user formula, except that municipalities are reduced a total of only \$3.7 million. The remaining \$60.0 million reduction, allocated to Baltimore City and the counties only, is allocated based on wealth and tax effort.

Source: Department of Legislative Services

Other significant transfers include \$ 65.0 million from the Dedicated Purpose Account (DPA) to support the construction costs of the ICC – \$55.0 million in general obligation bonds are provided instead. Similarly, \$52.7 million is transferred from the State Police Helicopter Replacement Fund, and \$52.5 million in bond authorization is provided.

A number of other special fund balances were subject to transfer, including \$29.0 million from the University System of Maryland ; \$28.0 million from the State employees' workers' compensation fund held by the Injured Workers' Insurance Fund; \$17.0 million from the Maryland Trauma Physician Services Fund; \$15.0 million from the Central Collection Unit (CCU); \$12.1 million from the Community Health Resources Commission Fund; and \$12.0 million from the Maryland Economic Development Assistance and Authority Fund. A provision effective in fiscal 2011 will automatically transfer excess balances from the CCU to the general fund.

Use of Special Funds in Lieu of General or Other Funds

In a number of instances, the BRFA of 2009 expanded authorized uses of special funds to allow for a contingent reduction of general or other funds. In the health arena, the Health Care Coverage Fund is tapped to cover the 2010 support of the Prince George's Hospital Center (\$12.0 million), for general Medicaid purposes (\$53.5 million), and for Medicaid hospital payments (\$9.0 million). The statutory requirements for allocating Cigarette Restitution Funds were amended for two years, reducing the Statewide Academic Health Center and Tobacco Prevention and Cessation grants; these changes provide \$19.5 million to offset the need for general funds in several health programs. Special funds in the Maryland Health Insurance Program (\$4.5 million), the Community Health Resources Commission (\$9.1 million) and the AIDS drug rebate program (\$0.9 million) are used in a number of health programs in lieu of general funds.

In the environmental area, the BRFA of 2009 reduces the motor fuel and short-term vehicle rental taxes directed to the Chesapeake Bay 2010 Trust Fund by \$21.5 million, instead directing those revenues to the general fund. The uses of the Strategic Energy Investment Fund, supported by the auction of carbon dioxide allowances, are altered for two years, most significantly to increase the proportion of funds available for low-income energy bill payment assistance, saving an estimated \$35.6 million in general funds each year. An additional \$5.0 million is available for cover crop programs through the Bay Restoration Fund, and several funds are accessed to support operating expenses in the Departments of Natural Resources and the Environment, totaling \$3.7 million. In related provisions, the BRFA of 2009 raises the contingency fund limit for POS and make the Maryland Historical Trust and Historic St. Mary's City eligible for POS capital development funding.

Finally, Medicare Part D reimbursements are applied to the State Employees and Retirees Health and Welfare Benefits Fund in lieu of general funds; the Universal Service Trust Fund supports a portion of the budget for the Maryland School for the Deaf; and the Fair Campaign Financing Fund is authorized to partially fund the new Optical Scan Voting System.

Mandate Relief and Formula Changes

With both specific actions and by a global provision, the BRFA of 2009 alters the fiscal 2010 and future formula calculations in a number of instances. Many are in effect only for one, two, or three years, but these changes moderate the growth that would otherwise occur in the budget. The global provision allows the Governor to not fund any increases in 2011 or 2012 over the amount funded in 2010, with exceptions for certain education formulas, retirement payments, contributions to the Rainy Day Fund, and any statute expressly addressed in this BRFA.

The most significant specific changes are made in preK-12 and higher education. For fiscal 2012, a 1% inflation cap is applied to the foundation aid per pupil amount and student transportation grant to moderate the general fund impact when federal funds from ARRA are no longer available to support the growth in education formulas. The cost-sharing arrangement for special education nonpublic placements is also changed, so that the State share is reduced from 80% to 70% of costs above the local base share, beginning in fiscal 2010. Overpayments of education and library aid, caused by an error in the wealth calculations for fiscal 2009, will be recouped in 2010 and 2011.

County public library and regional library formulas are also altered to moderate the growth in per capita funding. The prior enhancement goals of \$16.00 and \$8.50, respectively, are attained in 2013. Similarly, the Aging Schools Program is funded at \$6.1 million for fiscal 2010 (through the capital budget) and fiscal 2011 and at \$10.4 million in 2012; inflationary increases from this reduced base resume in fiscal 2013. Finally, the eligibility and bonus payments under the Quality Teacher Incentive program are altered.

In higher education, the formulas for community colleges, BCCC, and private colleges and universities are moderated to be more affordable in the next few years. In all three cases, the formulas are “trued up,” meaning that they rely on the funding provided to public four-year institutions in the same year, rather than lagging behind for a year. As with the library formulas, enhancements are provided over the next several years, with the Cade and BCCC formulas reaching their maximum in 2014, and the Sellinger formula in 2015. The percentage of public four-year per student funding is reduced under the true up plan (compared to the percentages in the prior statute), but the same dollar amount of funding is achieved.

In the environmental and economic development areas, the general fund mandate for the Waterway Improvement Fund is eliminated; for two years, the grant to the Maryland Agricultural and Resource-Based Industry Development Corporation is reduced, as is the payment-in-lieu-of-taxes generated from forest and park revenues from non-timber sales. General fund support for the Maryland Tourism Board is maintained at \$6.0 million annually; the Maryland State Arts Council will be funded at \$13.5 million in 2010 and 2011, after which funding will grow at the rate of general fund revenue growth.

Several areas of mandatory relief apply to local government aid. The local jail reimbursement program is converted to a grant program based on a flat per diem amount for the number of inmates serving 12-18 months. The BRFA of 2009 also establishes a cap at the 2010 level for each county's disparity grant payment, and eliminates the State responsibility for payment of prior jail reimbursement expenses and for the retirement costs of certain local employees.

Finally, the rates to be paid to group home operators are frozen for 2010 at the 2009 level, and payments to nonpublic placement providers can only increase 1%. Merit increases (with certain exceptions) and the match to deferred compensation contributions are eliminated for 2010.

Revenue Actions

The BRFA of 2009 raises the monthly fee under the Drinking Driver Monitoring Program to \$55 and removes the sunset on the fee, and for three years, reduces the commissions paid to lottery agents from 5.5 to 5.0%. The Maryland-mined coal tax credit is reduced to \$4.5 million for three years and then set at \$6.0 million in 2013 and 2014 before decreasing to \$3.0 million for 2015 to 2020. The BRFA of 2009 reduces the local jurisdictions' share of highway user revenues from 30.0 to 28.5% beginning in 2012, and reauthorizes, for 2010 only, the allocation of a share of corporate income tax receipts to the Higher Education Investment Fund.

Finally, the BRFA of 2009 addresses several federal tax changes enacted as part of ARRA of 2009. Specifically, the State will remain coupled to favorable tax treatment of the earned income tax credit, enhanced unemployment insurance benefits, and new vehicle excise or sales taxes. Conversely, the State will be decoupled for tax years 2009 and 2010 for provisions related to cancellation of corporate debt.

Other Provisions

The BRFA of 2009 establishes a framework and authority to use bonds in place of transfer tax revenues for capital-eligible POS programs for three years. Contingent on the failure of **House Bill 960 (Chapter 751)** and on the Prince George's County Board of Education proceeding with the purchase or lease of a new administration building, Foundation Aid for Prince George's County Schools is reduced by \$36 million in fiscal 2010. A mechanism is established to provide funds in agency budgets for the development and implementation of a new human resource management technology system. Interagency barriers between the Departments of Human Resources and Juvenile Services (DJS) are removed to facilitate the ability of DJS to claim full reimbursement under the federal IV-E program.

Counties are given additional time, and with an expedited review, to submit requests for a waiver of maintenance of effort for education spending. The BRFA of 2009 also clarifies future maintenance of effort requirements in the event a waiver is granted for 2010. An extension of two years, to 2014, is provided for the Maryland State Department of Education to be delivering educational programming in all facilities operated by DJS. The Maryland Higher Education

Commission is required to incorporate the recommendations of the Commission to Develop the Maryland Model for Funding Higher Education into the updated State Plan and to implement those recommendations that do not require legislation.

Federal Stimulus Funding

On February 17, 2009, President Barack Obama signed ARRA into law. ARRA's provisions support programs by funding infrastructure, education programs, human services programs, and providing discretionary funds. The legislation also affects taxes, by excluding portions of unemployment compensation from gross income and a temporarily increasing the earned income credit. **Exhibit 1.11** shows that ARRA provides \$4.1 billion in formula funding provided to Maryland governments. Of this amount, almost \$2.5 billion was appropriated at the 2009 session.

The federal grants provide \$396.0 million for educational programs, \$765.2 million for infrastructure programs, and \$546.2 million for other programs. These funds provide additional federal support and do not supplant general funds. ARRA also includes \$101.8 million in grants to local governments and aid organizations that are not appropriated in the State budget. These funds will be distributed directly to the local governments and aid organizations.

The legislation also provides federal grants for which State and local governments must compete. For example, this includes grants to support law enforcement officers, habitat conservation, and the arts. At this point, it is unclear how much of these funds the State will receive, and they are not included in the ARRA estimates for Maryland.

Funds Supporting State General Fund Commitments

With respect to the State budget, ARRA's most significant impact relates to the \$2.3 billion that can support State general fund commitments. These funds support Medicaid, education, and discretionary State spending. The funds are used in the place of general funds to sustain State funding from fiscal 2009 to 2011. When the funds are no longer available, the State will need to replace the funds or reduce spending.

Medicaid funds total \$1,435.9 million and are available from October 2008 through the end of December 2010. The largest share is \$891.8 million attributable to a 6.2% increase in the State's Federal Medical Assistance Percentage. The State receives another \$544.1 million based on projected unemployment rates. The federal legislation provides additional funding to a state whose unemployment rate rises by 1.5% since the recession began in December 2007. Maryland qualifies for this throughout the period. Additional funds are received for States whose unemployment rate rises by 2.5%. The budget assumes that Maryland meets this threshold as of February 2009.

Chapter One – Operating Budget 25

The budget introduced by the Administration assumed \$350 million in federal funds for Medicaid in fiscal 2010. Supplemental Budget No. 1 provided another \$435 million in fiscal 2009 and \$302 million in fiscal 2010. Another \$348.9 million is projected in fiscal 2011. The funds are used to replace general funds and match federal funds.

Exhibit 1.12 shows that ARRA provides \$881.6 million in fiscal stabilization funds. The legislation requires that 81.8%, which totals \$721.2 million, support education programs. The education funds must first be used to restore elementary and secondary school reductions to the fiscal 2008 spending levels. Since Maryland has increased spending, this does not apply. Remaining funds must be used to support State formula increases in fiscal 2010 and 2011 for elementary and secondary education or to restore reductions made to State higher education funding below fiscal 2008 or 2009 levels. The Administration has applied these funds to support these elementary and secondary education increases. Supplemental Budget No. 1 provides \$295.9 million in fiscal 2010, leaving another \$425.3 million in unappropriated funds that can be used in fiscal 2011.

Finally, ARRA allows that 18.2% of the fiscal stabilization funds can support general government services. These discretionary funds total \$160.5 million, of which \$1.5 million was appropriated in fiscal 2009 and \$79.6 million was appropriated in fiscal 2010. To promote accountability, State and federal governments have web sites that track ARRA spending. Maryland's web site can be found at <http://statestat.maryland.gov/recovery.asp>, and the federal government's web site can be found at <http://www.recovery.gov/>.

By the Numbers

A number of exhibits summarize the legislative budget action. These exhibits are described below.

Exhibit 1.13 shows the impact of the legislative budget on the general fund balance for fiscal 2009 and 2010. The fiscal 2009 balance is estimated to be \$432.5 million. At the end of fiscal 2010, the closing balance is estimated to be \$89.6 million.

Exhibit 1.13 Final Budget Status Status as of July 1, 2009

Exhibit 1.14, the fiscal note on the budget bill, depicts the Governor's allowance, funding changes made through Supplemental Budgets No. 1 and 2, legislative reductions, and final appropriations for fiscal 2009 and 2010 by fund source. The Governor's original request provided for \$32.0 billion (net of projected general fund reversions) in fiscal 2010 expenditures and \$286.2 million in fiscal 2009 deficiencies.

⁽¹⁾ Reflects \$286.2 million in total deficiencies, minus \$81.6 million in total appropriations withdrawn by the Board of Public Works on March 4, 2009, minus \$84.5 million in estimated agency general fund reversions.

⁽²⁾ Reflects estimated general fund reversion of \$30.0 million, minus \$85.6 million in across-the-board general fund reductions reflected in the budget as introduced.

⁽³⁾ Net of additional reversions estimated in each of Supplemental Budgets No. 1 and No. 2.

The Governor added a net \$1.4 billion in fiscal 2009 and 2010 spending via two supplemental budgets. Nearly \$2.3 billion in federal funds were added, much of which reflects spending of federal stimulus funds received under ARRA of 2009.

The legislature made \$16.1 million in reductions to current year appropriations, resulting in a net appropriation of \$31.2 billion for fiscal 2009. Reductions of \$897.3 million were adopted to the fiscal 2010 budget, which resulted in a final appropriation of \$32.2 billion.

Exhibit 1.15 illustrates budget changes by major expenditure category by fund. Total spending grows by \$1.0 billion, or 3.3%. Debt service grows by 6.5%; aid to local governments grows by 3.7%, entitlement spending increases by 3.5%; and State agency spending (net of reversions and contingent reductions) rises 2.1%. PAYGO capital expenditures increase by 13.1% driven largely by additional federal stimulus funding.

As noted, approximately \$192.0 million in special fund appropriations will be added to the fiscal 2010 budget due to general fund reductions that were adopted where special fund balances were available. If those funds are included, special fund appropriations would increase by \$42.8 million or 0.7% and total spending would increase by \$1.2 billion or 3.9%.

MDTA: Maryland Transportation Authority

Note: The fiscal 2009 working appropriation includes the March 4, 2009 Board of Public Works actions, targeted reversions, deficiencies and legislative cuts to the deficiencies.

⁽¹⁾ Excludes \$65 million in fiscal 2009 appropriated to the Dedicated Purpose Account that is to be transferred to the Maryland Transportation Authority. These monies are included in the transfer to MDTA line. Also excludes \$100 million in fiscal 2008 for the Other Post Employment Benefits liability which is included under the State agencies.

Chapter Two – State Capital Program

- Summary
- Debt Affordability
- Debt Management
- Higher Education
- School Construction
- Transfer Tax

Summary

The 2009 General Assembly passed a capital budget program totaling \$3.505 billion, including \$1.720 billion for the transportation program. Apart from transportation, the program totals \$1.785 billion: \$1.110 billion is funded with general obligation (GO) bonds authorized in the Maryland Consolidated Capital Bond Loan of 2009 (MCCBL), the 2009 capital budget bill **House Bill 102 (Chapter 485)**; \$498.0 million is funded on a pay-as-you-go (PAYGO) basis in the operating budget; \$80.0 million is funded with revenue bonds to be issued by the Maryland Department of the Environment (MDE) to support State and local efforts to upgrade wastewater treatment plants; up to an additional \$70.0 million of revenue bonds can be issued to support Department of Natural Resources (DNR) Program Open Space (POS) as authorized by **House Bill 783 (Chapter 419)**; and \$27.0 million is funded with academic revenue bonds for University System of Maryland facilities authorized in **House Bill 598 (Chapter 409)**.

Exhibit 2.1 presents an overview of the State's capital program for fiscal 2010, **Exhibit 2.2** lists capital projects and programs by function and fund source, and **Exhibit 2.3** provides the individual legislative initiative projects funded in the 2009 MCCBL. The 2009 MCCBL includes funding for:

- State facilities, including colleges and universities, hospitals, District Court facilities, Department of Disabilities accessibility modifications, and correctional facilities;
- grants to local governments for school construction, community college facilities, and local detention centers;
- health and social services facilities, such as senior citizen centers, juvenile services facilities, community health and addiction facilities, and low-income housing;
- environmental programs, such as the Chesapeake Bay Water Quality programs, underground heating and oil storage tank replacement, Community Parks and Playgrounds, Agricultural Cost-Share and Tobacco Transition programs, and Drinking and Stormwater programs; and
- local projects and legislative initiatives.

Notes:

¹ This amount does not include \$3.5 million preauthorized in the 2009 Maryland Consolidated Bond Loan (MCCBL) for fiscal 2011. The \$4.0 million authorization in addition to the pre-authorization will allow the project to be bid for construction in fiscal 2010.

² The 2008 MCCBL included a \$23.8 million pre-authorization for the Rockville District Court – the 2009 MCCBL as introduced reduced this pre-authorization to \$18.0 million. The 2008 MCCBL also included a \$14.8 million pre-authorization for the New Hagerstown Barrack and Garage, but the 2009 MCCBL increased this pre-authorization to \$15.1 million. Amendments to the capital budget bill reduce the 2008 session preauthorization for the New Hagerstown Barrack and Garage project by \$5.0 million and provide a pre-authorization for the remaining amount for fiscal 2011 with language that allows the project to be bid for construction in fiscal 2010.

³ The 2009 MCCBL as introduced included language authorizing the use of bond premiums from the sale of State general obligation bonds in March 2009 and in fiscal 2010 available in the State and Local Facilities Loan Fund for the Aging Schools Program. The final capital budget bill struck this language and instead provides general obligation bond funds for this purpose. The \$260.0 million for Public School Construction (IAC) is also supplemented with \$5.2 million from the IAC Contingency Fund bringing the total to \$265.2 million.

⁴ The Budget Reconciliation and Financing Act of 2009 provides for the transfer of \$172.0 million of transfer tax revenue to the general fund – the 2009 MCCBL replaces \$102.0 million of the transferred funds with general obligation bond funds – House Bill 783 allows for the sale of revenue bonds backed by future transfer tax revenues which can be used to replace up to an additional \$70.0 million of diverted transfer tax revenues and would provide the full replacement of all transfer tax diversions.

⁵ This amount does not include \$5.5 million preauthorized in the 2009 MCCBL for fiscal 2011.

⁶ This amount does not include \$27.0 million preauthorized in the 2009 MCCBL for fiscal 2011. The \$34.0 million general obligation bond and Academic Revenue Bond authorizations in addition to the pre-authorization will allow the project to be bid for construction in fiscal 2010.

⁷ This amount does not include \$35.8 million preauthorized in the 2009 MCCBL for fiscal 2011. The \$35.7 million general obligation bond and Academic Revenue Bond authorizations in addition to the pre-authorization will allow the project to be bid for construction in fiscal 2010.

⁸ This amount does not include \$14.3 million preauthorized in the 2009 MCCBL for fiscal 2011. The \$28.0 million authorization in addition to the pre-authorization will allow the project to be bid for construction in fiscal 2010.

⁹ This amount does not include \$39.6 million preauthorized in the 2009 MCCBL for fiscal 2011. The \$84.3 million authorization in addition to the pre-authorization will allow Prince George's Community College's Center for Health Studies, Montgomery College's Germantown Bioscience Center, Hagerstown Community College's Arts and Sciences Complex, and Wor-Wic Community College's Allied Health Building projects to be bid for construction in fiscal 2010 and allow the Community Colleges Facilities Grant Program to fund all 22 projects on the Maryland Association of Community Colleges' priority list during fiscal 2010.

¹⁰ This amount does not include \$26.9 million preauthorized in the 2009 MCCBL for fiscal 2011. The \$27.4 million authorization in addition to the pre-authorization will allow the project to be bid for construction in fiscal 2010.

¹¹ This amount does not include \$2.5 million preauthorized in the 2009 MCCBL for fiscal 2011.

¹² This does not reflect a \$114.0 million reduction in the amount of bonds to be issued due to revised forecasts for the special fund capital program. The revised estimates made between the January and March 2009 forecast indicate that the debt coverage ratio would be exceeded; therefore, the amount of anticipated bonds to be issued is expected to be \$114.0 million less than what is currently reflected in the fiscal 2010 appropriation.

Match Key: 1 = real property; 2 = in kind contribution, 3 = prior expended funds; U = unequal match

In addition to GO debt, the State's capital program is funded with general, special, and federal funds appropriated in the operating budget referred to as PAYGO funds which are used primarily to support economic development, housing, and environmental programs. The use of PAYGO funds is generally restricted to capital grant and loan programs for which the use of tax-exempt debt is limited under federal tax guidelines, programs that are administered through the use of special non-lapsing funds for which revenue from principal and interest payments are used to support additional appropriations, and in instances where federal funds assist in the capitalization of State revolving grant and loan fund programs. The PAYGO portion of the fiscal 2010 capital program was increased by the availability of additional federal funds provided through the American Recovery and Reinvestment Act of 2009 (ARRA), most notably an additional \$123.0 million for MDE Water Quality Loan and Drinking Water Loan programs and \$33.9 million for Department of Housing and Community Development foreclosure assistance. Despite the increased availability of federal funds to support the capital program, the GO bond program was used to reduce operating budget appropriations and to replace POS funds transferred to the general fund as shown in **Exhibit 2.4**.

Exhibit 2.4
Use of General Obligation Bond Program to Relieve Pressure on the
Operating Budget
(\$ in Millions)

- **Transfer Tax Diversion to the General Fund:** Transfers to the general fund include \$31.0 million of fiscal 2010 transfer tax revenues that would have otherwise supported various Program Open Space (POS) programs and \$71.3 million of stateside POS fund balance all of which was replaced with GO bond authorizations in the 2009 Maryland Consolidated Capital Bond Loan. An additional \$70.0 million of stateside POS fund balance was also transferred to the general fund; however, replacement of these transferred funds is authorized with revenue bonds through **House Bill 783 (Chapter 419)**. Total POS transfers authorized in the 2009 Budget Reconciliation and Financing Act (BRFA) amount to \$172.3 million. \$102.3

- **InterCounty Connector Funding:** Budgeted at \$146.9 million in the capital budget bill as introduced, the amount was reduced to \$55.0 million in the capital budget as passed to reflect a more fiscally prudent Transportation Trust Fund cash flow projection and the anticipated fiscal 2010 expenditures for the project. The required statutory changes are included in the 2009 BRFA. 55.0

- **Medevac Helicopter Replacement:** The BRFA of 2009 includes the transfer of the \$51.5 million fund balance from the State Police Helicopter Replacement Fund to the general fund which effectively eliminated the use of the fund for the purposes of procuring Medevac helicopters. The \$52.5 million of general obligation (GO) bond funds are intended to fund the purchase of three helicopters during fiscal 2010. 52.5

- **Use of GO Bond Funds to Fund Capital Programs Traditionally Funded with General Funds:** This principally includes \$7.5 million for the Public Safety Communication System; \$15.0 million for the Department of Housing and Community Development revolving loan program; and \$5.5 million for Maryland Department of the Environment water quality and drinking water loan programs. 28.1

Total \$238.1

Debt Affordability

As shown in **Exhibit 2.5**, the long range plan adopted by the Capital Debt Affordability Committee (CDAC) in November 2008 provides for a total of over \$5.25 billion in debt authorizations from 2009 to 2013. This is an increase of \$150.0 million over the amount recommended by CDAC in its October 2007 report for the five-year planning period considered by the committee. The revised GO bond debt limit is not programmed to remain in the base permanently as the committee recommended the additional GO bond authorizations beginning with the 2010 session return to the level recommended in the committee's 2007 report.

Source: *Report of the Capital Debt Affordability Committee on Recommended Debt Authorizations*, October 2007 and November 2008

For the 2009 session, CDAC recommended \$1.11 billion of new GO bond authorizations to support the capital program. The 2009 MCCBL passed by the General Assembly is consistent with the level of new GO debt authorizations recommended by CDAC. An additional \$30.8 million in GO bonds from prior years is deauthorized in the capital budget of 2009, thereby increasing the amount of new GO debt included in the capital program to \$1.14 billion. Included in the \$1.14 billion of new debt is \$18.0 million authorized in the 2008 MCCBL to complete the Rockville District Court; \$10.1 million authorized in the 2008 MCCBL for the Department of State Police New Hagerstown Barrack and Garage (\$14.8 million was preauthorized in the 2008 MCCBL for this project, but this amount was reduced to \$10.1 million with an additional \$5.0 million preauthorized for the 2010 session capital budget bill which allows the project to be bid for construction during fiscal 2010); and \$5.0 million authorized in the Southern Maryland Regional Strategy-Action Plan for Agriculture Loan of 2001 for the Tobacco Transition Program as amended by Chapter 46 of 2006, which completes the State's bond funded Tobacco Transition Program.

Chapter Two – State Capital Program 59

The State's capital program for fiscal 2010 also includes other actions that affect debt affordability, debt issuance, and future capital budgets.

- The Maryland Department of the Environment plans to issue \$80.0 million in revenue bonds to fund the upgrade of wastewater treatment plants. Chapter 428 of 2004 established the Bay Restoration Fund and authorized the Administration to issue bonds to provide grants to upgrade the 66 largest wastewater treatment plants in the State. Security for the bonds is the revenues from a fee imposed on users of wastewater facilities, septic systems, and sewage holding tanks. The bonds are considered State tax supported debt and are, therefore, incorporated in the CDAC's annual debt affordability analysis.
- **House Bill 783 (Chapter 419)** authorizes \$70.0 million in bond funds for DNR's State Program Open Space land acquisition program and authorizes the transfer of up to \$5.0 million of this amount to the Maryland Department of Agriculture's Maryland Agricultural Land Preservation Fund (MALPF). Property transfer tax revenue must be used to pay principal and interest on the POS bonds prior to any other distribution. POS bond funds are intended to supplement other POS funds and may not affect the POS funding allocation formula specified in current law. Also, POS bond funds may not be used to reimburse the State for the acquisition of land prior to the bill's effective date.
- The 2009 MCCBL includes \$172.1 million of general obligation bond authorizations that will not take effect until fiscal 2011. The pre-authorizations include \$3.5 million to fund renovations and alterations of the Lowe House Office Building; \$5.0 million to complete the design, construction, and capital equipping of the Western Maryland Regional Library in Hagerstown; \$26.9 million for the construction of the New Center for the Built Environment at Morgan State University; \$34.1 million for the construction of a new Fine and Performing Arts Building at Bowie State University; \$35.8 million to fund the construction of the Towson University New College of Liberal Arts Complex Phase II; \$14.3 million for the construction of the Salisbury University New Perdue School of Business; \$39.6 million for four community college projects; \$5.0 million to complete the construction funding for the Department of State Police New Hagerstown Barrack and Garage; \$2.5 million to complete the State grant to Sinai Hospital for the Samuelson Children's Hospital; and \$5.5 million for construction of the Phase I addition to the St. Mary's County Detention Center. The fiscal 2010 authorizations for all but Sinai Hospital and St. Mary's County Detention Center projects include language added by the General Assembly that allows for the contracts to be bid without the full authorization needed to fully fund the contract. The pre-authorization for the St. Mary's County Detention Center does not include this language since the project will not commence during fiscal 2010, and Sinai Hospital funding is provided as a grant.

Debt Management

The 2009 session included legislation that affects the State's capital program for fiscal 2010 and also includes other actions that affect debt management.

- **House Bill 1081 (Chapter 707)** amends prior authorization bond bills by extending matching fund deadlines, extending deadlines for expending or encumbering funds, altering the purposes for which funds may be used, modifying certification requirements, renaming grant recipients, or altering project locations which are consolidated into an omnibus bill. Prior to the 2008 session, individual prior authorization bills were passed by the General Assembly. **House Bill 1081** also amended prior Qualified Zone Academy Bond (QZAB) authorizations to expand the eligible uses of these bond funds to include equipment. In addition, the bill authorizes the Comptroller to advance funds for authorized QZAB expenditures, provided that the next sale of QZABs includes at least the amount of funds advanced.
- **Senate Bill 1060 (Chapter 649)** allows the Board of Public Works (BPW) to sell GO bonds at a private, negotiated sale if the board determines that (1) extraordinary credit market conditions exist; and (2) the terms and conditions of a negotiated sale are more advantageous to the State than the terms that can be obtained through a public, competitive sale. However, it declares State policy to be that the preferred method of sale of GO bonds is by public, competitive sale. The bill authorizes BPW to issue bonds in a form that qualifies for tax credits, interest subsidies, or other federal tax benefits, and also ratifies the validity of any tax credit bonds sold prior to the bill's effective date.
- **House Bill 1330 (Chapter 719)** authorizes BPW to issue up to \$2 million in general obligation bonds to replenish specified capital reserve funds to be established and administered by the Community Development Administration. The bonds may only be issued if (1) the balance of a capital reserve fund falls below the minimum capital reserve requirement; and (2) operating revenues generated by the local government infrastructure projects for which the capital reserve funds support are insufficient. The bill further stipulates that it is the intent of the General Assembly that the general obligation bonds not be included as part of the annual general obligation debt limit unless and until the bonds are issued.
- **House Bill 809 (failed)** – Under current law, if the State Treasurer issues variable-rate bonds, the ongoing cost of fiscal agents for those bonds is most likely paid with a series of special fund appropriations from bond proceeds. The Treasurer's Office estimates annual costs of \$250,000 for each \$100 million of variable debt issued. Authorizing payment from the Annuity Bond Fund for the cost of fiscal agents associated with variable interest rate bonds and interest rate exchange agreements has no overall effect on State expenditures for debt service but may provide an operational benefit by not requiring separate appropriations for these expenses. The bill specifies that the ongoing

Chapter Two – State Capital Program 61

servicing costs of variable-rate bonds be paid in the same manner as principal and interest.

- Uncodified Section 11 of the Public School Facilities Act of 2004 directs CDAC to review school construction funding needs and make specific recommendations regarding additional funding for school construction when recommending the State's annual debt limit and GO bond authorization level. The 2009 MCCBL struck this provision after issues were raised concerning the need for such a requirement since CDAC's role does not include funding level recommendations for other capital programs or projects.
- **House Bill 1192 (Chapter 559)** requires a for-profit or nonprofit entity or association that receives State aid during a fiscal year and is not a unit of State or local government to submit a report to the Department of Information Technology (DoIT) by September 1 after each fiscal year the grantee receives State aid. DoIT must develop and operate a searchable web site, accessible to the public at no cost, which provides grantee report information in a specified format. The Office of Legislative Audits is authorized to conduct audits or reviews of grantees. State aid is defined as a contribution, grant, or subsidy of \$50,000 or more provided through the State operating or capital budget or by the action of a unit of State government from State funds appropriated to that unit. State aid does not include reimbursements to providers participating in a State program. Grantee reports must contain the following information: a summary of the purpose for which the State aid was provided; the number of jobs created or retained as a result of the State aid; the amount and source of any funds, other than State aid, the grantee secured for the same purpose for which the State aid was provided, or as a result of the State aid; a description of how the State aid served the citizens of the State; and the number of citizens served as a result of the State aid.

Higher Education

The fiscal 2010 capital program for all segments of higher education is \$304.7 million, including GO bonds and academic revenue bonds. Of the total funding, four-year public institutions receive \$208.2 million and independent colleges receive \$9.0 million. Community colleges, including Baltimore City Community College, receive \$87.5 million in fiscal 2010, the highest funding level in a single year for community colleges. The *Capital Improvement Program* (CIP), after legislative changes to the fiscal 2010 capital budget, shows \$1.691 billion in capital spending for higher education projects from fiscal 2010 through 2014. **Exhibit 2.6** shows the fiscal 2009 and 2010 legislative appropriation for higher education capital projects and the funds anticipated in the CIP for fiscal 2011 through 2014. **Exhibit 2.7** shows the fiscal 2010 capital funding by institution.

Total \$304	,673¹

¹This does not include \$28.5 million authorized for the University of Maryland Medical System. This also does not include \$24.0 million of nonbudgeted funds representing private donor contributions.

School Construction

The fiscal 2010 budget for public school construction contains \$265.2 million. The budget includes \$260.0 million in general obligation bonds, and \$5.2 million from the Public School Construction Program’s Statewide Contingency Fund, of which \$1.9 million is reserved for specific local school systems. The Public School Facilities Act of 2004 established a State goal to provide \$2.0 billion in State funding over the following eight years to address deficiencies, or \$250.0 million per year through fiscal 2013. Fiscal 2010 will be the fifth consecutive year that the goal has been met or exceeded. The local school systems have requested a total of approximately \$766.0 million for fiscal 2009, of which \$493.6 million is eligible for funding.

Seventy-five per cent of the preliminary \$260.0 million school construction allocation announced by the Governor in October, or \$195.0 million, was recommended for specific projects by the Interagency Committee on School Construction (IAC) and approved by BPW in January 2009. The IAC, in accordance with a new requirement codified in the fiscal 2008 capital budget bill language, made recommendations equal to 90% of the total allowance, an additional \$39.3 million, in March 2009. This was presented to the General Assembly and will be reviewed by BPW for approval after May 1, 2009.

Capital-eligible public school funding is also supported through the Aging Schools Program. As introduced, the capital budget bill authorized the use of \$6.1 million of bond premium revenues from the Annuity Bond Fund. However, as passed, the capital budget bill strikes the use of bond premiums and instead includes \$6.1 million in general obligation bond funds for the program. The capital budget also includes \$250,000 for the Relocatable Classroom Repair Fund.

Transfer Tax

The property transfer tax is the primary funding source for State land conservation programs. In light of the fiscal condition of the State, a number of actions reduce the fiscal 2010 budget appropriations from the transfer tax and direct transfer tax revenue to the general fund. This is the first time in four years that the transfer tax is directed to the State's general fund and the actions taken affect fiscal 2009 and 2010. In each instance, the amount of diverted transfer tax to the general fund is replaced with either GO bond funds authorized in the 2009 MCCBL or through the authorization of revenue bonds backed by future transfer tax revenues authorized in separate legislation.

In fiscal 2009, \$70 million of the unencumbered balance for POS state aid is directed to the general fund through the BRFA of 2009. This action is accompanied by **House Bill 783 (Chapter 419)** which authorizes the Department of Natural Resources to issue up to \$70 million in revenue bonds for which the debt service is pledged with future transfer tax revenues.

Also in fiscal 2009, \$71.3 million in transfer tax revenue that would have been used for two property purchases is directed to the general fund through the BRFA of 2009. The State Treasurer issued a Declaration of Official Intent for each of the two property purchases at the time the purchases were taken before the Board of Public Works. The Declaration of Official Intent is a form filed with the Internal Revenue Service that allows for the reimbursement of State expenditures with tax-exempt general obligation bond proceeds within 18 months of the original expenditure. The capital budget includes \$71.3 million in general obligation bonds to replace the funds for the Foster Property (\$14.4 million) and Maryland Province of the Society of Jesus Properties (\$56.9 million) purchases.

In fiscal 2010, \$18 million of the fiscal 2010 transfer tax funding for POS capital development projects and Rural Legacy Program allocations and \$13 million of the transfer tax funding for the Maryland Agricultural Land Preservation Program (MALPP) are directed to the

general fund. The combined amount of \$31 million is reimbursed on a one-for-one basis in the fiscal 2010 capital budget with general obligation bonds. **Exhibit 2.8** shows how transfer tax revenue will be replaced with general obligation bonds in fiscal 2010.

Exhibit 2.8
Programs Traditionally Funded with Transfer Tax Revenue
Fiscal 2010
(\$ in Millions)

	<u>Transfer Tax</u> <u>Special Funds</u>	<u>Other</u> <u>Special Funds</u>	<u>Federal</u>	<u>GO</u> <u>Bonds</u>	<u>Total</u>
Department of Natural Resources					
Program					
Open Space					
State	\$12.6	\$0	\$1.0	\$0	\$13.6
Local	6.1	0	1.0	0	7.1
Capital Development	0	0	0	6.2	6.2
Rural Legacy Program	0	0	0	11.8	11.8
Heritage Conservation Fund	1.4	0	0	0	1.4
Department of Agriculture					
Agricultural Land Preservation	0	10.6	2.0	13.0	25.6
Total	\$20.1	\$10.6	\$4.0	\$31.0	\$65.6

A total of \$44.1 million will be available for local and State land conservation projects in fiscal 2010, as shown in **Exhibit 2.9**; however, there is an additional \$11.8 million for the Rural Legacy Program and \$13.0 million for MALPP in the fiscal 2010 capital budget. The decrease in transfer tax funds available for fiscal 2010 is due to the directing of funds to the general fund and to lower transfer tax estimates that reflect a sluggish real estate market. The decrease in funding partially is mitigated by a lower amount of underattainment. Both fiscal 2009 and 2010 are impacted by underattainment of revenues from fiscal 2007 and 2008, respectively. The fiscal 2007 underattainment impacting fiscal 2009 is \$52.0 million while the fiscal 2008 underattainment impacting fiscal 2010 is \$35.0 million.

Exhibit 2.9
Land Conservation Funded by the Property Transfer Tax
Fiscal 2009 and 2010
(\$ in Millions)

	<u>Fiscal 2009</u> <u>Appropriation</u>	<u>Fiscal 2010</u> <u>Allowance</u>	<u>Fiscal 2010</u> <u>Appropriation</u>
Program Open Space (POS)			
POS State	\$20.9	\$11.8	\$11.8
POS Local	18.6	6.1	6.1

Maryland Agricultural Land Preservation Program (MALPP)	18.6	13.0	0 *
Rural Legacy	13.5	11.8	0 *
Heritage Conservation Fund	2.0	1.4	1.4
Maryland Heritage Areas Authority	3.0	3.0	3.0
Forest and Park Service	21.0	21.0	21.0
Total \$98.	7	\$68.9	\$44.1

Note: POS and MALPP receive funding from other sources (federal funds, agricultural transfer tax, and matching funds from local jurisdictions). For fiscal 2010, MALPP receives \$13.0 million in general obligation bonds, and Rural Legacy Program receives \$11.8 million in replacement of the transfer tax allocation. For fiscal 2010, there is \$9.8 million for State land acquisition. Of the total \$12.6 million in POS State land acquisition funds, \$1.6 million is directed to three capital projects in Baltimore City, and \$1.2 million is directed to operating expenses through the fiscal 2010 budget.

* General obligation bond funds are authorized in the 2009 Maryland Consolidated Capital Bond Loan to fully replace the transfer tax special funds originally intended to be used to support the MALPP and Rural Legacy programs.

Chapter Four – Local Government

- State Aid to Local Governments
- State Mandates on Local Governments
- Legislation Affecting Local Government Revenues
- Legislation Affecting Local Government Expenditures

State Aid to Local Governments

Overview

The slow-down in the State's economy coupled by declining revenues affected the ability of the General Assembly to fully fund local programs in fiscal 2010. Even with the influx of federal stimulus funds, most of which were targeted to education programs, State aid to local governments will decrease by \$42.6 million, or 0.7%, from the prior year. However, local school systems and community colleges will realize a modest increase in State funding in the upcoming year. State aid to local school systems will increase by \$127.9 million, or 2.4%; whereas, community colleges will receive a \$12.6 million, or 4.9%, increase in State aid. Increased funding for local school systems is due primarily to increased federal funding under the American Recovery and Reinvestment Act of 2009. Public libraries will receive a slight increase in State funding (0.5%) in fiscal 2010 while local health departments will be level funded in the upcoming year. County and municipal governments, however, will experience a significant decrease in State funding. The State aid decrease is estimated at \$183.4 million in fiscal 2010. Over the last three years, State aid to county and municipal governments has decreased by \$386.2 million. **Exhibit 4.1** shows the annual increase in State aid over the last eight years. **Exhibit 4.2** shows the change in State aid in fiscal 2010 by governmental entity.

State Support for Local Governments Impacted by Cost Containment

The General Assembly approved \$301.8 million in reductions to local government programs in fiscal 2010. State aid accounts for \$268.7 million of the reductions, while local park and jail programs account for the remaining \$33.1 million. Nearly two-thirds of the total reductions will affect county and municipal governments, while local school systems will have to absorb 22% of the reductions (**Exhibit 4.3**). State funding for local highways and transportation projects received the largest share of the reductions.

	<u>FY 2010</u>	<u>Percent of Total</u>
Public Schools	-\$65.1	21.6%
Libraries	-4.7	1.5%
Community Colleges	-34.0	11.3%
Health	0.0	0.0%
County/Municipal	-198.0	65.6%
Total	-\$301.8	100.0%

Source: Department of Legislative Services

Funding for local highway user grants will be reduced by \$101.9 million in fiscal 2010, with an additional \$60.0 million reduction based on local wealth and tax effort. State retirement payments for certain local officials will be eliminated resulting in a \$2.5 million reduction. Local school systems will realize a \$65.1 million reduction over current law, most of which involves nonpublic placements for special education students, the aging schools program, and recapture of formula overpayments in the prior year. Funding for local libraries will be reduced by \$4.7 million; whereas, community college funding increases required under current law will be reduced by \$34.0 million.

The General Assembly also approved a measure that prohibits the Department of Natural Resources from making revenue sharing payments to counties in fiscal 2010 and 2011, with the exception of payments for revenues generated from the sale of lumber. The allocation to counties represent either 15 or 25% of the revenue derived from forests and parks, depending on the percent of county land dedicated to State forest and parks. Local revenues are projected to decrease by \$1.9 million in fiscal 2010 and \$2.0 million in fiscal 2011.

In addition, State funding for local jail reimbursements will decrease by \$31.3 million in fiscal 2010. Since the implementation of a statutory change in 1986, the State has partially reimbursed local jails for the confinement of inmates who have been sentenced under the Division of Correction jurisdiction and are serving sentences in local correctional facilities for more than 3 months but not more than 18 months. Reimbursement costs are estimated to be \$29.6 million for fiscal 2010. The Budget Reconciliation and Financing Act of 2009 converts the reimbursement to a grant program that will provide each county at least \$45 for each inmate day between 12 and 18 months, based on actual data from the most recent fiscal year. It is estimated that the grants would total \$13.3 million in fiscal 2010; however, the General Assembly eliminated all funding for the reimbursements in fiscal 2010, thereby, deferring implementation of the grant until 2011. The Budget Reconciliation and Financing Act of 2009 also converts to a grant program that the State reimbursements for each day an inmate who is sentenced to a State correctional facility is held in a local correctional facility. This action is estimated to reduce the reimbursements about \$1.7 million.

Exhibits 4.4 through 4.6 show the funding reductions by program for each county. Even with these reductions, State aid for most local school systems, community colleges, and local libraries will increase in fiscal 2010.

¹Excludes an additional \$ 11.9 million owed by the State for past reimbursements that is being eliminated as a liability.

Reliance on State Aid

State aid is the largest revenue source for most county governments in Maryland, accounting for 25.8% of total county revenues. In five counties (Anne Arundel, Baltimore, Queen Anne's, Talbot, and Worcester), State aid is the second largest revenue source after property taxes. In Howard County, State aid is the third largest revenue source after both property and income taxes. Whereas in Montgomery County, State aid is the fourth largest revenue source after property and income taxes and service charges. For most municipal governments, State aid is the third largest revenue source representing 8.2% of total municipal revenues. As with counties, the reliance on State aid varies for municipalities, ranging from 2.2% of total revenues for municipalities in Talbot County to 28.4% for municipalities in Kent County. State aid to municipalities is targeted primarily to highway maintenance, police and fire services, and parks and recreation.

Dependence on State aid varies across Maryland with less affluent jurisdictions relying on State aid as their primary revenue source and more affluent jurisdictions relying more heavily on local property and income taxes. For example, State aid accounts for 14% of total revenues in Montgomery County but 49% in Somerset County. This difference reflects the State's policy of targeting resources to less affluent jurisdictions that have a lower capacity to raise revenues from local sources. Utilizing local wealth measures to distribute State aid improves the fiscal equity among counties by making certain counties less dependent on their own tax base to fund public services thereby offsetting the inequalities in the revenue capacity among local governments. Currently, nearly 70% of State aid is distributed inversely to local wealth. The disparity in local tax capacities among counties in Maryland is illustrated in **Exhibit 4.7** which shows the per-capita local wealth and State aid amounts for each county for fiscal 2010.

Changes by Program

Four counties will receive an increase in State aid in fiscal 2010, while 20 counties will receive a decrease. **Exhibit 4.8** summarizes the distribution of direct aid by governmental unit and shows the estimated State retirement payments for local government employees. **Exhibit 4.9** compares total State aid in fiscal 2009 and 2010 by program.

Source: Department of Legislative Services

Primary and Secondary Education

State funding for public schools remains a high priority. Over the last eight years, State funding for public schools has increased by over \$2.6 billion, even though the State government was confronted with major fiscal challenges during most of this period. On a per pupil basis, State funding has increased from \$3,432 in fiscal 2002 to \$6,758 in fiscal 2010, a 96.9% increase. In fiscal 2010, local school systems will receive \$5.5 billion in State funding – a \$127.9 million, or 2.4%, increase. State funding for public school construction projects will total around \$260 million in fiscal 2010. Over the last eight years, the State has provided nearly \$2.0 billion in funding for public school construction.

Foundation Program: The foundation program is the basic State education funding mechanism for public schools which ensures a minimum per pupil funding level and requires county governments to provide a local match. The formula is calculated based on a per pupil foundation amount and student enrollment. The per pupil foundation amount for fiscal 2010 is set at \$6,694, and the student enrollment count used for the program totals 814,779 students. Enrollment for the formula is based on the September 30, 2008, full-time equivalent student enrollment count. Less affluent local school systems, as measured by a assessable base and net taxable income, receive relatively more aid per pupil than wealthier school systems. The State provides funding for roughly 50% of the program's cost.

State aid under the foundation program will total \$2.8 billion in fiscal 2010. This amount includes \$48.4 million in supplemental grants for 11 local school systems. The supplemental grants were established during the 2007 special session to guarantee increases of at least 1% in State education aid for all local school systems during the two years, fiscal 2009 and 2010, that inflationary increases for the per pupil foundation amount were eliminated. Supplemental grants will not be recalculated in future years but will continue at fiscal 2010 levels, less a \$4.7 million reduction in fiscal 2011 that will recapture overpayments to 8 local school systems that are due to a miscalculation in school system wealth bases in fiscal 2009.

The foundation program decreases \$41.9 million, or 1.5%, from the prior year. This reflects the elimination of the inflationary increase in the per pupil foundation, a small decrease in enrollment, and the recapture of \$30.8 million in overpayments that occurred in fiscal 2009 because of an error in the wealth base calculation for Montgomery County.

Compensatory Education: The compensatory education program provides additional funding based on the number of economically disadvantaged students. The formula recognizes disparities in local wealth by adjusting the grants per eligible student by local wealth. The formula is calculated based on 97% of the annual per pupil amount used in the foundation program and the number of students eligible for free and reduced-price meals. The State provides funding for 50% of the program's cost. State aid under the compensatory education program will total \$940.7 million in fiscal 2010, representing a \$26.3 million, or 2.9%, increase

over the prior year. The per pupil State funding amount for fiscal 2010 is set at \$3,247, and the student enrollment count used for the program totals 274,924.

Special Education: State aid for special education recognizes the additional costs associated with providing programs for students with disabilities. Most special education students receive services in the public schools; however, if an appropriate program is not available in the public schools, students may be placed in a private school offering more specialized services. The State and local school systems share the costs of these nonpublic placements.

The special education formula is calculated based on 74% of the annual per pupil foundation amount and the number of special education students from the prior fiscal year. The per pupil State funding amount for fiscal 2010 is set at \$2,477, and the student enrollment count used for the program totals 102,951. State funding for public special education programs will total \$268.4 million in fiscal 2010, representing a \$4.3 million, or 1.6% decrease over the prior year. Funding for nonpublic placements is \$112.8 million in fiscal 2010, representing a \$14.8 million, or 11.6%, decrease over the prior year. The decrease reflects a change in the cost share formula for nonpublic placements. Under current law, a local school system pays its respective local share of the basic cost of education for each nonpublic placement plus two times the total basic cost of education in the system, as well as 20% of any expense above that sum. The State pays 80% of the costs above the base local funding. Due to the Budget Reconciliation and Financing Act, the State share decreases from 80 to 70% of the costs above the base local share; while the local share of these costs increases from 20 to 30%.

Student Transportation: The State provides grants to assist local school systems with the cost of transporting students to and from school. The grants consist of three components: regular student ridership funds; special education student ridership funds; and additional enrollment funds. The regular student ridership funds are based on the local school system's grant in the previous year increased by inflation; increases cannot exceed 8% or be less than 3%. Local school systems with enrollment increases receive additional funds. The special education student ridership funds are based on a \$1,000 per student grant for transporting disabled students. The fiscal 2010 budget includes \$217.2 million for regular transportation services and \$25.1 million for special transportation services. This represents a \$17.3 million, or 7.7%, increase from the prior year.

Limited English Proficiency: The State provides grants based on non- and limited-English proficient (LEP) students using a definition consistent with federal guidelines. The LEP formula is based on 99% of the annual per pupil foundation amount, with the State providing funding for 50% of the program's cost. The fiscal 2010 grant per LEP student is \$3,314. State funding for the program will total \$148.6 million in fiscal 2010, representing a \$4.7 million, or 3.3% increase over the prior year. The number of LEP students in Maryland totals 42,532 for the 2008-2009 school year, a 5.3% increase from the prior year.

Geographic Cost of Education Index: This is a discretionary formula that provides additional State funds to local school systems where costs for educational resources are higher

than the State average. Funding for the formula was provided in fiscal 2009 for the first time, and fiscal 2010 funding totals \$ 126.4 million reflecting a 100% phase-in for the formula. Thirteen local school systems receive funding from the geographic cost of education index formula.

Guaranteed Tax Base Program: The Bridge to Excellence in Public Schools Act included an add-on grant for jurisdictions with less than 80% of statewide per pupil wealth that contributed more than the minimum required local share under the foundation program in the prior year. The grant equals the difference between actual and required spending per pupil, up to 20% of the per pupil foundation amount. Ten local school systems will qualify for grants totaling \$63.8 million in fiscal 2010.

Aging Schools Program: The Aging Schools program provides State funding to local school systems for improvements, repairs, and deferred maintenance of public school buildings. These repairs are generally not covered by the capital school construction program and are necessary to maintain older public schools. State funding for the Aging Schools program will total \$6.1 million in fiscal 2010 with an additional \$6.1 million for school wiring.

Judy Hoyer and Head Start Programs: These programs provide financial support for the establishment of centers that provide full-day, comprehensive, early education programs, and family support services that will assist in preparing children to enter school ready to learn. This program also provides funding to support childhood educators, and statewide implementation of an early childhood assessment system. The fiscal 2010 State budget includes \$7.6 million for Judy Center grants, \$3.0 million for school readiness and program accreditation, and \$1.8 million for head start programs.

School Improvement Grants: Grants are provided to schools and local school systems that are low-performing in meeting adequate yearly progress targets. Schools and local school systems receiving grants may be categorized in three stages – in improvement, corrective action, or restructuring. The grants support technical assistance and professional development for school personnel to improve school performance. State funding for school improvement grants totaled \$8.6 million in fiscal 2009; however, funding was discontinued in fiscal 2010.

Teacher Quality Incentives: The State provides salary enhancements for teachers obtaining national certification, a signing bonus for teachers graduating in the top of their class, and a stipend for teachers and other non-administrative certificated school employees working in low-performing schools. The Budget Reconciliation and Financing Act of 2009 alters eligibility and bonus amounts for the Quality Teacher Incentives, including the elimination of the \$1,000 salary signing bonuses for qualifying teachers. Together, the changes result in a \$5.3 million funding reduction for teacher quality incentives. The fiscal 2010 State budget includes \$4.2 million for teacher quality incentives; \$96,000 for the Governor's Teacher Excellence Award Program which distributes awards to teachers for outstanding performance; and \$1.4 million for teacher quality and national certification grants.

Food and Nutrition Services: In addition to federal funds provided under the School Lunch Act of 1946, the State provides matching funds to support food and nutrition programs for low-income children. The programs provide free and reduced price breakfasts, lunches, and snacks to public or private nonprofit school students. All public schools in the State are required to provide subsidized or free nutrition programs for eligible students. The fiscal 2010 State budget includes \$7.2 million for food and nutrition services.

Infants and Toddlers Program: This program involves a statewide community-based interagency system of comprehensive early intervention services for eligible children who are less than three years old. Eligible children include those who have developmental delays or disabilities. State funding for infants and toddlers programs will total \$10.4 million in fiscal 2010, the same amount that was provided in the prior year.

Adult Education: The State provides funding for adult education services through four programs: adult general education; external diploma program; literacy works grant; and adult education and literacy works. The State budget includes \$6.9 million for adult education programs in fiscal 2010, the same amount that was provided in the prior year.

School-based Health Centers: The fiscal 2010 State budget includes \$2.7 million for school-based health centers, which provide primary medical care as well as social, mental health, and health education services for students and their families. The funding for these centers was transferred from the Subcabinet Fund to the Maryland State Department of Education in fiscal 2007.

Science and Math Education Initiative: This program includes summer sessions for teachers and an equipment incentive fund to strengthen science and math education. The State budget includes \$1.3 million for this initiative in fiscal 2010.

Environmental Education: The fiscal 2010 State budget includes \$0.6 million for student participation in an outdoor education program that opened in August 2005 at North Bay in Cecil County. The program, which can serve 11,000 students per year, is structured as a four-night stay for sixth graders that provides an outdoor education experience aligned with the State curriculum.

Principal Development Program: Chapter 408 of 2005 established a statewide Principal Fellowship and Leadership Development Program, which provides incentive payments for distinguished principals to work in low-performing schools. Funding for this program totaled \$160,000 in fiscal 2009; however, funding is discontinued in fiscal 2010.

Teachers' Retirement Payments: The State pays 100% of the employer's share of retirement costs for local school system employees in the Teachers' Retirement and Pension Systems maintained by the State. Rather than distributing the aid to the local boards of education and billing them for the retirement contributions, the State appropriates a lump-sum payment to the retirement system "on behalf of" the local boards. The appropriation is calculated by increasing the second prior year's salary base by 5% and applying the contribution

rate certified by the retirement system. Teachers' retirement payments will total \$759.1 million in fiscal 2010, representing a \$137.3 million, or 22.1%, increase over the prior year. The large increase reflects 8.1% growth in the teachers' salary base and a 12.4% increase in the contribution rate applied to the salary base.

Local Libraries

Local libraries receive over 20% of their funding from the State government. In fiscal 2010, State aid to local libraries will total \$64.1 million, representing a \$312,000, or 0.5%, increase over the prior year.

Minimum Per Capita Library Program: The State provides assistance to public libraries through a formula that determines the State and local shares of a minimum per capita library program. The minimum library program is specified in statute. Overall, the State provides 40% of the minimum program, and the counties provide 60%. However, the State/local share of the minimum program varies by county depending on local wealth. Chapter 481 of 2005 started a phase-in of enhancements for the library aid formula, increasing the per resident allocation by \$1 per year from \$12 per resident in fiscal 2006 to \$16 per resident by fiscal 2010. However, Chapter 2 of the 2007 special session deferred the \$1 formula increase for fiscal 2009 and restarted the phase-up in fiscal 2010.

The Budget Reconciliation and Financing Act of 2009 freezes the per resident amount used in the local library aid formula at \$14 for fiscal 2010 and 2011. The phase-in of formula enhancements restarts in fiscal 2012 at \$15 per resident and reaches the \$16 per resident formula target by fiscal 2013. This change results in a \$3.0 million reduction in fiscal 2010 relative to the previously established funding level. The fiscal 2010 amount also reflects a reduction of \$553,243 to recapture fiscal 2009 overpayments that occurred because of a wealth base calculation error for Montgomery County. Due to these changes, State funding in fiscal 2010 will total \$33.2 million, which represents a \$1.3 million, or 3.8%, decrease over the prior year.

State Library Network: The network consists of the Central Library of the Enoch Pratt Free Library System in Baltimore City, three regional resource centers, and metropolitan cooperative service programs. The Enoch Pratt Free Library operates as the designated State Library Resource Center. In addition to the State center, regional resource centers serve Western Maryland (Hagerstown), Southern Maryland (Charlotte Hall), and the Eastern Shore (Salisbury). Funding for the State Library Resource Center has equaled \$1.85 per State resident since fiscal 2004. Chapter 481 of 2005 started a phase-in of enhancements for the regional resource centers, increasing the per resident allocation by \$1.00 per year to move from \$4.50 per resident in fiscal 2006 to \$8.50 per resident by fiscal 2010. However, Chapter 2 of the 2007 special session deferred the \$1.00 formula increase for fiscal 2009 and restarted the phase-up in fiscal 2010.

The Budget Reconciliation and Financing Act of 2009 decreases the per resident allocations to the State Library Resource Center and the State's three regional resource centers. Funding for the State Library Resource Center is reduced from \$1.85 per State resident to \$1.67 per resident for fiscal 2010 and 2011. Funding for regional resource centers decreases to \$6.75 per resident of the region in fiscal 2010 and 2011 and increases to \$7.50 per resident in fiscal 2012 and \$8.50 per resident in fiscal 2013. Due to these changes, State funding in fiscal 2010 will total \$9.4 million for the State Library Resource Center and \$6.2 million for the regional centers.

Retirement Payments: The State pays 100% of the employer's share of retirement costs for local library employees in the Teachers' Retirement and Pension Systems maintained by the State. State funding for library retirement payments will total \$15.3 million in fiscal 2010, a \$2.4 million, or 18.4%, increase from the prior year.

Community Colleges

Local community colleges receive about 25% of their funding from the State government. In fiscal 2010, State aid to local community colleges will total \$267.3 million – a \$12.6 million, or 4.9%, increase from the prior year. Baltimore City Community College, which is operated by the State, will receive a State appropriation of \$41.7 million in fiscal 2010.

Senator John A. Cade Funding Formula: The fiscal 2010 State budget includes \$210.3 million for the Senator John A. Cade formula, an increase of \$7.7 million over the fiscal 2009 amount. The increase reflects 3.1% growth in full-time equivalent enrollment at community colleges, a 0.5% increase in the per pupil funding amount, and a \$295,000 hold harmless grant for the Community College of Baltimore County that will bring funding for the school back to its fiscal 2008 level. In future years, funding for the Cade formula will be determined by taking a percentage of the funding provided to the public four-year institutions of higher education in the same fiscal year rather than the prior fiscal year. This change was made in the Budget Financing and Reconciliation Act of 2009 which also reestablished a phase-in of future enhancements for the Cade formula.

Special Programs: State funding in fiscal 2010 will total \$3.3 million for the small college grants and \$0.6 million for the Allegany/Garrett counties unrestricted grants. Funding for statewide and regional programs will total \$7.2 million. The English as a Second Language program will receive \$3.7 million.

Retirement Payments: The State pays 100% of the employer's share of retirement costs for community college faculty in the Teachers' Retirement and Pension Systems maintained by the State. State funding for community college retirement payments will total \$29.2 million in fiscal 2010 – a \$5.1 million, or 20.9% increase. In addition, State funding for the optional retirement program will total \$12.9 million in fiscal 2010, representing a \$0.9 million, or 7.8%, increase.

Local Health Departments

The State provides funds to support the delivery of public health services in each of Maryland's 24 jurisdictions. Support for this program is formula-driven, with increases based on inflation and population growth. Due to cost containment, State aid for local health departments will total \$57.4 million in fiscal 2010, the same amount as in the prior year.

County and Municipal Governments

Less than 10% of State aid goes to county and municipal governments. State funding for counties and municipalities will total \$567.4 million in fiscal 2010, representing a \$183.4 million, or 24.4%, decrease over the prior year. Over the last four years, State aid to counties and municipalities has decreased by approximately \$386.2 million, with State aid in fiscal 2007 totaling \$953.5 million. State aid to county and municipal governments is targeted primarily to highway maintenance, police and fire services, and parks and recreation. The State also provides disparity grants to less affluent counties to address the differences in the abilities of counties to raise revenues from the local income tax.

Highway User Revenues: Due to fiscal constraints, the General Assembly approved measures that reduced State funding for local transportation purposes. The Budget Reconciliation and Financing Act of 2009 reduces the formula allocation by \$101.9 million in fiscal 2010 and 2011, while establishing Baltimore City's share at 10.8%. The municipality share of the formula reduction is set at approximately \$3.7 million under the legislation. Funding for the counties and Baltimore City is also reduced by an additional \$60 million in fiscal 2010 based on wealth and local tax effort. Beginning in fiscal 2012, local governments will receive 28.5% of the share of highway user funds instead of 30%. Due to these changes and lower revenue attainment, local governments will receive \$308.5 million in local highway user revenues in fiscal 2010, representing a \$169.8 million decrease from the prior year.

Other Transportation Aid: State funding for elderly/disabled transportation grants will decrease by \$2.0 million, with funding set at \$4.3 million in fiscal 2010. State funding for paratransit grants will remain at \$2.8 million.

Police Aid Formula: Maryland's counties and municipalities receive grants for police protection through the police aid formula. The police aid formula allocates funds on a per capita basis, and jurisdictions with a higher population density receive greater per capita grants. Municipalities receive additional grants based on the number of sworn officers. The Maryland State Police recovers 30% of the State crime laboratories costs relating to evidence-testing services from each county's formula allocation. After the crime laboratory adjustment, police aid will total \$66.0 million in fiscal 2010, representing a \$0.1 million, or 0.2%, increase from the prior year.

Public Safety Grants: State funding for targeted public safety grants will total \$14.4 million in fiscal 2010. These grants include violent crime grants for Baltimore City and Prince George's County, police foot patrol and community policing grants for Baltimore City, a drug enforcement grant for Prince George's County, S.T.O.P. gun violence grants, school bus traffic enforcement grants, domestic violence grants, law enforcement and correctional officers training grants, Baltimore City war room, sex offender and compliance enforcement, and the body armor grants. In addition, \$2.0 million will be provided to the Baltimore City State's Attorney Office to assist in the prosecution of gun offenses and repeat violent offenders and \$174,000 will be provided to the Annapolis Crime Project, an ongoing initiative to fight crime in the City of Annapolis.

Vehicle Theft Prevention Program: This program provides grants to law enforcement agencies, prosecutors' offices, local governments, and community organizations for vehicle theft prevention, deterrence, and educational programs. Funds are used to enhance the prosecution and adjudication of vehicle theft crimes. Funding for the program is provided through the Vehicle Theft Prevention Fund, a non-lapsing dedicated fund that receives up to \$2.0 million a year from penalties collected for lapsed or terminated insurance coverage. Additional funds are received from inspection fees collected for salvaged vehicle verification. State funding for this program will total \$2.3 million in fiscal 2010.

Fire, Rescue, and Ambulance Services: The State provides formula grants to the counties, Baltimore City, and qualifying municipalities for local and volunteer fire, rescue, and ambulance services. The grants are for equipment and renovation projects, not operating costs. The program is funded through the Maryland Emergency Medical System Operations Fund. The grant level is set at \$10.0 million in fiscal 2010.

9-1-1 Emergency Systems Grant: The State imposes a 25-cent fee per month on telephone subscribers that is deposited into a trust fund that provides reimbursements to counties for improvements and enhancements to their 9-1-1 systems. Counties may only use the trust fund money to supplement their spending, not to supplant it. State funding to local 9-1-1 emergency systems will increase to \$16.4 million in fiscal 2010.

Program Open Space Grants: Under Program Open Space (POS), the State provides grants to local governments for land acquisition and the development of parks and recreation facilities. The State property transfer tax funds POS and related programs. Local POS grants will total \$6.1 million in fiscal 2010, which represents a \$12.4 million decrease from the prior year. In addition, Baltimore City will receive a \$3.1 million special POS grant. The decrease in local POS grants is due primarily to the downturn in the real estate market. In the last four years, State funding for POS has decreased by \$128.0 million. In addition, legislation passed at the 2007 special session redirected \$21.0 million of local POS funds to the Maryland Park Service.

Disparity Grants: Disparity grants address the differences in the abilities of counties to raise revenues from the local income tax, which is the third largest revenue source for counties after State aid and property taxes. Counties with per capita local income tax revenues less than 75% of the State's average receive grants, assuming all counties impose a 2.54% local income

tax rate. Aid received by a county equals the dollar amount necessary to raise the county's per capita income tax revenues to 75 % of the State average. In fiscal 2010, Baltimore City and seven counties (Allegany, Caroline, Dorchester, Garrett, Prince George's, Somerset, and Wicomico) qualify for disparity grants. The fiscal 2010 State budget includes \$121.4 million for disparity grants, a \$5.9 million increase from the prior year. The fiscal 2010 grant under the statute is based on population estimates for July 2007 and calendar 2007 local income tax revenues raised from a 2.54% local income tax rate. State funding for disparity grants will be affected in future years due to a provision in the Budget Reconciliation and Financing Act of 2009 that caps each county's funding under the program at the fiscal 2010 level.

Retirement Payments for Certain Local Officials: Under State law, appointed or elected officials of the State are eligible to be members of the State employees' retirement systems. The statute specifies that this provision applies to State's Attorneys and sheriffs. Over the years, judicial decisions and Attorney General opinions have interpreted these provisions to include the following officials: county treasurers; county commissioners; orphans' court judges; bingo board members; and liquor and license board members. The fiscal 2010 budget included \$2.5 million for employer retirement costs associated with these locally paid officials and employees. The Budget Reconciliation and Financing Act of 2009 eliminates funding for this program beginning in fiscal 2010.

Local Voting Grants: The State budget includes \$10.8 million in fiscal 2009 and \$3.9 million in fiscal 2010 to purchase voting machines and support the statewide voting system.

State Assumed Functions in Baltimore City

The State assumption of functions or responsibilities performed by local governments is another aspect of State/local fiscal relationships. There was considerable activity in this area in the 1970s when the State assumed the responsibility for several programs including the District Court, Medical Assistance, public assistance, and property assessments. During the 1990s, the State assumed several local government functions in Baltimore City to help reduce the city's fiscal pressures. These services included the local community college, city detention center, and the central booking facility. The cost for these assumed functions will total \$184.3 million in fiscal 2010 – a \$9.3 million, or 5.3%, increase from the prior year.

Summary of State Mandates		
Election	Law	1
Finance	and Taxes	2
	Maryland-National Capital Park and Planning Commission	2
	Planning and Zoning	4
Public	Schools	3
Public	Safety	1
Une	mployment Insurance	1
Workers'	Compensation	1
Total		15

***Mandate** is defined as a directive in a bill requiring a local government unit to perform a task or assume a responsibility that has a discernible fiscal impact on the local government unit (*Maryland Annotated Code*, State Government Article, § 2-1501(c)). In the following sections, legislation that imposes a State mandate is marked accordingly.

Legislation Affecting Local Government Revenues

<u>Bill #</u>	<u>Title</u>	<u>Comment</u>	<u>Mandate</u>
Legislation Affecting All/Multiple Local Jurisdictions			
SB 16	Baltimore City and Prince George’s County – Organization of Parents and Teachers – Matching Fund (Ch. 189)	Potential increase in local revenues in Baltimore City and Prince George’s County from private donations. State aid for education increases by approximately \$200,000 in FY 2011 and 2012.	No
SB 39	Municipal Corporations – Tax Increment Financing – Application of Bond Proceeds (Ch. 191)	Potential increase in municipal bond proceeds related to tax increment financing (TIF) for certain municipalities.	No
SB 63	Oral Health Safety Net Program – Sunset Repeal (Ch. 352)	Local revenues increase due to continued grant funding.	No
SB 87	Property Tax – Homestead Tax Credit – Eligibility (Ch. 362)	Potential minimal property tax revenue decrease.	No
SB 88	Tax – Property – Exempt Manufacturing Personal Property Application Deadline (Ch. 363)	Potential minimal property tax revenue decrease.	No
SB 92	Motor Carriers – Identification Markers – Forged Documents – Criminal Penalties (Ch. 364)	Potential minimal increased fine revenue.	No
SB 151	Hate Crimes – Prohibitions and Protected Classes – Expansion to Homeless Persons and Groups and Gender (Ch. 201)	Potential increased fine revenue.	No
SB 174/HB 171	Business Regulation – Vending Machine Sales – Bulk Vending Machine Exemption (Ch. 209/Ch. 210)	Minimal decrease due to the reduction in vending machine licenses issued.	No

Legislation Affecting Local Government Revenues

<u>Bill #</u>	<u>Title</u>	<u>Comment</u>	<u>Mandate</u>
SB 183/HB 85	College Textbook Competition and Affordability Act of 2009 (Ch. 520/Ch. 521)	Potential decrease in community college bookstore revenues in FY 2010.	No
SB 218	Criminal Procedure – Offender Registry – Minors (Ch. 524)	Local law enforcement agencies will collectively receive approximately \$80,000 annually for expense reimbursements.	No
SB 277	Vehicle Laws – Speed Monitoring Systems – Statewide Authorization and Use in Highway Work Zones (Ch. 500)	Revenues increase substantially in any jurisdiction that authorizes speed monitoring.	No
SB 304/HB 583	Crimes – Financial Exploitation of Elderly – Penalty (Ch. 236/Ch. 237)	Potential increased fine revenues.	No
SB 335/HB 42	Dorchester County and Talbot County – Property Tax Credit for Habitat for Humanity of Talbot & Dorchester Counties, Inc. (Ch. 241/Ch. 242)	Property tax revenues in Dorchester County and Cambridge decrease by \$1,300 and \$1,100 annually beginning in FY 2010. Property tax revenues in Talbot County and Easton decrease by \$1,500 and \$1,300 annually beginning in FY 2010.	No
SB 372/HB 538	Foster Care – Tuition Exemption – Expanded Eligibility (Ch. 251/Ch. 252)	Potential decrease in community college tuition revenues.	No
SB 373	Higher Education – Public Institutions of Higher Education – Nonresident Tuition Exemption (Ch. 253)	Potential increase in State aid for community colleges beginning in FY 2012.	No
SB 377/HB 662	Business Regulation – Home Builder Guaranty Fund – Fee (Ch. 58/Ch. 59)	Minimal increase to defray administrative costs associated with fee collection.	No
SB 507/HB 370	Maryland Locksmiths Act (Ch. 551/Ch. 552)	Potential minimal fine revenues.	No

Legislation Affecting Local Government Revenues

<u>Bill #</u>	<u>Title</u>	<u>Comment</u>	<u>Mandate</u>
SB 538	Property Tax Assessment – Home Improvements (Ch. 274)	Potential property tax revenue decrease.	No
SB 550	Online Child Safety Act of 2009 (Ch. 557)	Potential minimal increase in revenues due to the imposition of existing penalty provisions.	No
SB 552	Tax Amnesty Program (Ch. 277)	Potential significant increase in local income tax, admissions and amusement taxes, and local highway user revenue in FY 2010 and 2011.	No
SB 554	Chesapeake Bay Nitrogen Reduction Act of 2009 (Ch. 280)	Decrease in income tax revenues from bill’s subtraction modification for counties with critical areas.	No
SB 581	Natural Resources – Roadside Trees – Protection and Enforcement (Ch. 289)	Potential increased fine revenue.	No
SB 604	Tax Credits for Qualifying Employees with Disabilities – Sunset Extension (Ch. 290)	Local highway user revenues decrease by \$2,600 in FY 2010, \$4,600 in FY 2011, and \$1,900 in FY 2012.	No
SB 617/HB 1191	Local Government – Deposits of Unexpended or Surplus Money (Ch. 84/Ch. 85)	Potential minimal increase in investment income.	No
SB 621	Sales and Use and Property Tax – Exemptions – Solar Energy Equipment and Property (Ch. 574)	Minimal property tax revenue decrease beginning in FY 2010.	No
SB 644	Property Tax Credit – Marine Trade Waterfront Property (Ch. 297)	Potential significant property tax revenue decrease for counties and municipalities.	No
SB 666	Natural Resources – No Net Loss of Forest Policy – Forest Conservation Act (Ch. 298)	Potential significant increase in Forest Conservation Fund revenues.	No

Legislation Affecting Local Government Revenues

<u>Bill #</u>	<u>Title</u>	<u>Comment</u>	<u>Mandate</u>
SB 684/HB 571	Senior Investment Protection Act (Ch. 301/Ch. 302)	Potential minimal increase due to the imposition of penalty provisions.	No
SB 689	High Schools and High School Students – Options for Accelerated Graduation (Ch. 303)	Potential decrease in State education aid in FY 2013.	No
SB 850/HB 539	Public Safety – Electronic Control Devices – Requirements (Ch. 320/Ch. 321)	Potential minimal increase in fine revenues.	Yes
SB 909	Workplace Fraud Act of 2009 (Ch. 188)	Potential significant increase in local income tax revenues.	No
SB 952/HB 739	Maryland Medical Assistance Program – Substance Abuse Services (Ch. 331/Ch. 332)	Decrease in grant funding but increase in Medicaid reimbursement for substance abuse services.	No
SB 958/HB 921	Construction Permits – Expiration Dates (Ch. 334/Ch. 335)	Potential decrease in fee and tax revenues for local jurisdictions through FY 2010.	Yes
HB 42/SB 335	See entry for SB 335.		
HB 66	Criminal Law – Theft – Penalties (Ch. 655)	Potential minimal decreased fine revenues.	No
HB 79	Real Property – Mortgage Fraud – Creation of Fraudulent Documents (Ch. 126)	Potential minimal increase due to the imposition of penalty provisions.	No
HB 85/SB 183	See entry for SB 183.		

Legislation Affecting Local Government Revenues

<u>Bill #</u>	<u>Title</u>	<u>Comment</u>	<u>Mandate</u>
HB 101	Budget Reconciliation and Financing Act of 2009 (Ch. 487)	Local revenues from direct State aid decrease by \$264.6 million in FY 2010 due to reductions in transportation, public school, community college, and library funding. Reductions in local jail reimbursements and payments in lieu of taxes for State parks decrease local revenues by another \$33.1 million. Some of the reductions are permanent, but many are temporary. Beginning in FY 2012, the proportion of highway user revenues allocated to local jurisdictions decreases from 30% to 28.5%.	No
HB 171/SB 174	See entry for SB 174.		
HB 193	Gaming – Bingo (Ch. 661)	Increase in local tax and fee revenues, particularly in Anne Arundel and Calvert counties.	No
HB 259	Environmental Health Monitoring and Testing – Reimbursement of Costs (Ch. 665)	Potential increase in reimbursement revenue from parties responsible for certain environmental violations.	No
HB 267	Family Law – Child Abduction by Relative (Ch. 666)	Potential minimal increased fine revenue.	No
HB 300	Tax Increment Financing and Special Taxing Districts - Transit-Oriented Development (Ch. 182)	Potential increase in local government bond proceeds related to TIF for counties and municipalities that exercise this authority.	No
HB 370/SB 507	See entry for SB 507.		
HB 420	Environment – Limitation of Actions – Political Subdivisions (Ch. 391)	Potential impact due to a change in the number of actions able to be brought to court.	No
HB 538/SB 372	See entry for SB 372.		
HB 539/SB 850	See entry for SB 850.		

Legislation Affecting Local Government Revenues

<u>Bill #</u>	<u>Title</u>	<u>Comment</u>	<u>Mandate</u>
HB 542	Criminal Law – Human Trafficking – Inducing or Enticing (Ch. 143)	Potential minimal increase in fine revenue.	No
HB 560	Hate Crimes – Prohibitions and Protected Classes – Disability (Ch. 402)	Potential minimal increase in fine revenue.	No
HB 571/SB 684	See entry for SB 684.		
HB 582	Estates and Trusts – Real and Leasehold Property – Valuation (Ch. 405)	Potential fluctuation in local income tax revenues.	No
HB 583/SB 304	See entry for SB 304.		
HB 662/SB 377	See entry for SB 377.		
HB 706	Electronic Health Records – Regulation and Reimbursement (Ch. 689)	Potentially significant revenue increase for local health departments beginning in FY 2012.	No
HB 739/SB 952	See entry for SB 952.		
HB 781	Property Tax Credit – Seniors (Ch. 416)	Potential significant property tax revenue decrease for counties and municipalities beginning in FY 2010.	No
HB 788	Baltimore City and Baltimore County – Child in Need of Supervision Pilot Program – Extension (Ch. 420)	State grants of \$167,000 for Baltimore City and \$83,000 for Baltimore County are provided annually from FY 2011 to 2013.	No
HB 796	Agriculture – Emerald Ash Borer Grant Fund (Ch. 421)	Potential significant increase in grant revenues.	No

Legislation Affecting Local Government Revenues

<u>Bill #</u>	<u>Title</u>	<u>Comment</u>	<u>Mandate</u>
HB 921/SB 958	See entry for SB 958.		
HB 923	Higher Education – Community Colleges – BRAC – Exemption from Out-of-State and Out-of-County Fees (Ch. 697)	Potential minimal increase in State aid for community colleges beginning in FY 2012.	No
HB 1171	Alternative Energy Tax Incentive Act of 2009 (Ch. 444)	Minimal property tax revenue decrease beginning in FY 2010.	No
HB 1191/SB 617	See entry for SB 617.		
HB 1399	Department of Housing and Community Development – Neighborhood and Community Assistance Program – Individual Donor Eligibility – Tax Credit (Ch. 166)	Potential minimal increase in local highway user revenues beginning in FY 2011.	No
HB 1404	Higher Education – Children of Fallen State or Local Public Safety Employees – Exemption from Nonresident Tuition (Ch. 461)	Potential minimal increase in State aid for community colleges.	No
HB 1406	Business and Economic Development – Maryland Public Art Initiative – Sunset Repeal (Ch. 724)	Potential revenue increase to the extent that funding is appropriated as grants to local government.	No
HB 1414	Community Legacy Program – Neighborhood Intervention Project Applications and Financial Assistance Fund (Ch. 726)	Potential revenue increase during emergencies due to shift of funds to dedicated account.	No
HB 1417	Water Quality and Drinking Water Quality Revolving Loan Funds – Use of Funds (Ch. 168)	Significant increase in federal funds for water quality and drinking water financing.	No

Legislation Affecting Local Government Revenues

<u>Bill #</u>	<u>Title</u>	<u>Comment</u>	<u>Mandate</u>
HB 1429	Business and Economic Development – BRAC Community Enhancement Act (Ch. 728)	Potential deferral and increase in property tax and impact fee revenues.	No
HB 1517	Maryland-National Capital Park and Planning Commission – Disbursement of Funds to Prince George’s County and Montgomery County MC/PG 127-09 (Ch. 474)	Maryland-National Capital Park and Planning Commission transfers \$5 million to Montgomery County in FY 2010 and transfers \$30 million to Prince George’s County in FY 2010 and 2011.	Yes
HB 1526	Workforce Development – Maryland Workforce Corporation (Ch. 476)	Potential minimal decrease in FF revenues for workforce development.	No
HB 1542	Health – Licensing of Food Establishments – Exception for Egg Producers (Ch. 478)	Minimal license fee revenue decrease.	No
HB 1567	Clean Energy Loan Programs (Ch. 743)	Local governments that establish a Clean Energy Loan Program receive an increase in revenues from bond proceeds and from property tax surcharges.	No
HB 1573	Business Regulation – Soda Fountain License – Repeal (Ch. 483)	Local revenues may decrease by approximately \$230,000 beginning in FY 2010 based on the Comptroller’s interpretation of current law that requires more businesses to obtain licenses.	No

Legislation Affecting Local Government Revenues

<u>Bill #</u>	<u>Title</u>	<u>Comment</u>	<u>Mandate</u>
Legislation Affecting Local Governments by Subdivision			
<i>Allegany County</i>			
HB 489	Allegany County – Upper Potomac River Commission – Savage River Dam – Borrowing Authority (Ch. 676)	Increase in bond proceeds to fund infrastructure improvements.	No
HB 624	Allegany County – Alcoholic Beverages – Volunteer Company License (Ch. 147)	Application and license fees increase by \$8,900 in FY 2010. License fees increase by \$8,000 annually thereafter.	No
<i>Anne Arundel County</i>			
SB 11	Anne Arundel County Tourism and Economic Development Promotion Act of 2009 (Ch. 505)	City of Annapolis: Reduction in hotel tax revenues of \$60,000 in FY 2012 and \$260,000 in FY 2014 and thereafter due to increased distributions to the Annapolis and Anne Arundel County Conference and Visitor’s Bureau and the Arts Council of Anne Arundel County.	Yes
SB 25	City of Annapolis – Alcoholic Beverages – Administrative Proceedings and Fines (Ch. 14)	Fine revenues increase by \$5,800 in FY 2010 and by \$7,700 annually thereafter.	No
SB 107	Anne Arundel County and City of Annapolis – Alcoholic Beverages – Hours of Sale – Inauguration Day (Ch. 1)	Potential increase in licensing revenue in Anne Arundel County and the City of Annapolis in FY 2009 only.	No
SB 434	Anne Arundel County – Alcoholic Beverages – Yacht Club License (Ch. 65)	License fees increase by \$7,500 annually.	No
HB 1304	Anne Arundel County – Alcoholic Beverages Act of 2009 (Ch. 716)	License revenue increases by at least \$37,900 annually beginning in FY 2010.	No

Legislation Affecting Local Government Revenues

<u>Bill #</u>	<u>Title</u>	<u>Comment</u>	<u>Mandate</u>
<i>Baltimore City</i>			
SB 983	Baltimore City – Alcoholic Beverages – Beer, Wine, and Liquor Tasting License (Ch. 342)	Potential minimal increase in annual license fees beginning in FY 2010.	No
SB 991	Business Occupations – Crane Operators – Certificate of Competence (Ch. 640)	Potential minimal fine revenue increase.	No
HB 143	Baltimore City – Newly Constructed Dwelling Property Tax Credit – Modification and Reauthorization (Ch. 373)	Property tax revenues decrease through FY 2014. The decrease is estimated at \$4.7 million in FY 2010 and \$4.4 million in FY 2014.	No
<i>Baltimore County</i>			
SB 158	Baltimore County – Property Tax Credit – Civic League of Inverness, Inc. (Ch. 203)	Property tax revenues decrease by approximately \$1,900 annually beginning in FY 2010.	No
HB 795	Baltimore County – Property Tax Credit – Loreley Beach Community Association (Ch. 154)	Property tax revenues decrease by approximately \$2,100 annually beginning in FY 2010.	No
<i>Calvert County</i>			
SB 518/HB 217	Calvert County – Alcoholic Beverages (Ch. 555/Ch. 556)	License fees increase by at least \$30,000 annually.	No
HB 148	Calvert County – Reimbursement of Costs – Authority (Ch. 660)	Potential minimal increase in reimbursement from parties responsible for hazardous materials releases.	No
HB 217/SB 518	See entry for SB 518.		

Legislation Affecting Local Government Revenues

HB 225	Calvert County – Public Facilities Bonds (Ch. 381)	Bond revenues increase by up to \$19.0 million.	No
<i>Caroline County</i>			
HB 46	Caroline County – Alcoholic Beverages – Special Multiple Event Licenses (Ch. 365)	Potential minimal annual license fee increase.	No
<i>Carroll County</i>			
SB 779	Carroll County – Public Facilities Bonds (Ch. 601)	Bond revenues increase by up to \$42.0 million.	No
<i>Cecil County</i>			
SB 484	Cecil County – Public Facilities Bond Bill (Ch. 266)	Bond revenues increase by up to \$13.6 million.	No
HB 941	Cecil County – Tobacco Products – Distribution to Minors (Ch. 430)	Minimal fine revenue increase.	No
HB 1045	Cecil County – Regulation of Domestic Animals (Ch. 434)	Potential minimal animal control fine revenue increase.	No
<i>Charles County</i>			
HB 372	Charles County – Alcoholic Beverages Violations – Penalties (Ch. 668)	Fine revenues increase by \$5,200 in FY 2010 and by \$6,900 annually thereafter.	No

Legislation Affecting Local Government Revenues

<u>Bill #</u>	<u>Title</u>	<u>Comment</u>	<u>Mandate</u>
HB 1370	Charles County – Special Taxing Districts – Hotel Rental Taxes (Ch. 722)	Bond revenues and hotel taxes may increase from creation of a special taxing area.	No
HB 1463	Charles County – Alcoholic Beverages Sales – Proximity to Churches (Ch. 732)	Potential increase in license revenue if new licenses are issued. Revenues increase by \$500 to \$2,400 for each new license.	No
<i>Dorchester County</i>			
SB 333/HB 425	Dorchester County – Alcoholic Beverages Act of 2009 (Ch. 50/Ch. 51)	License fee revenues may increase by \$1,750 annually beginning in FY 2010.	No
HB 425/SB 333	See entry for SB 333.		
<i>Frederick County</i>			
HB 82	Frederick County – Overdue Water and Sewer Charge – Restoration of Service Penalty (Ch. 368)	Potential fine revenue increase.	No
HB 721	Frederick County – Alcoholic Beverages – Wine Festival License (Ch. 151)	Potential minimal license fee revenue increase beginning in FY 2010.	No
HB 1512	Frederick County – Multivenue Wine License (Ch. 472)	Potential minimal license fee revenue increase.	No
<i>Garrett County</i>			
SB 651/HB 803	Garrett County – Code of Ordinances – Natural Gas (Ch. 581/Ch. 582)	Potential significant annual decrease in natural gas severance tax revenues. Distribution of revenues is altered, providing additional revenues to the county general fund.	No

Legislation Affecting Local Government Revenues

<u>Bill #</u>	<u>Title</u>	<u>Comment</u>	<u>Mandate</u>
HB 218	Garrett County – Sanitary Commission – Collection of Unpaid Benefit Assessments (Ch. 135)	Potential minimal revenue increase in FY 2010 only due to the potential earlier realization of repayment for sanitary service under expedited procedures.	No
HB 334	Garrett County – Alcoholic Beverages – Wine and Beer Tasting License – Off-Site Retail Delivery Procedures – Fees (Ch. 137)	Potential minimal increase in annual license and administrative fees beginning in FY 2010.	No
HB 803/SB 651	See entry for SB 651.		
<i>Harford County</i>			
SB 228/HB 865	Harford County – Property Tax Credit for Homes Near a Refuse Disposal System (Ch. 228/Ch. 229)	Property tax revenues decrease by approximately \$83,200 annually beginning in FY 2010.	No
SB 821	Harford County – Property Tax Credit – Continuing Care Facility for the Aged (Ch. 613)	Potential significant decrease in county and municipal property tax revenues.	No
HB 146	Harford County – Gaming (Ch. 374)	Minimal increase in licensing fees.	No
HB 865/SB 228	See entry for SB 228.		
<i>Montgomery County</i>			
HB 822	Montgomery County – Railroad Grade Crossings – Automated Enforcement Systems MC 907-09 (Ch. 423)	Potential minimal fine revenue.	No
