PROGRAM DESCRIPTION

The Subsequent Injury Fund reviews and investigates workers' compensation claims that involve pre-existing health conditions that substantially increase the disability of injured workers. The liability of employers and insurers is limited to compensation for the damages caused by the current injury, and The Subsequent Injury Fund incurs all additional liability from the combined effects of all injuries and/or conditions. The Fund derives its income from assessments of insurance companies on awards of compensation for permanent disability.

MISSION

To provide workers' compensation benefits to disabled workers who experience the combined effects of pre-existing disabilities and accidental work-related injuries.
