BIENNIAL REPORT

December 2022

Peter Franchot
Comptroller

Peter Franchot
Comptroller

November 30, 2022

The Honorable Larry Hogan, Governor
The Honorable Bill Ferguson, President of the Senate
The Honorable Adrienne A. Jones, Speaker of the House

Dear Gentlemen and Madam:

The "Fees and User Charges" Report of the State of Maryland is submitted as required by Title 2, Section 107 of the State Finance and Procurement Article of the Annotated Code of Maryland. The Report provides information on fees and user charges collected by State agencies for the year ended June 30, 2022. In addition, the Report includes a comparison of actual revenues to the total costs of providing the service or performing the function for which the fees or charges are collected.

The extensive information was compiled by the General Accounting Division based upon reports submitted by various state agencies. We extend our appreciation to all those involved with this effort.

Sincerely yours,

Peter Franchot
Comptroller

* The current structure of fees reflects a movement toward uniformity among jurisdictions.

The structure of fees and costs in the judicial system is complex. Historically, court fee/cost schedules were developed locally to cover the cost of court operations. The complexity of the schedule developed as a result of the growth in the body of laws and the types of cases brought before the court. While the current fee/cost structure reflects the origins of court operations, it does not reflect the original purpose of the fees/costs. Modern court fees and costs typically do not cover the cost of services provision; therefore, requiring a subsidy from the State general funds. This subsidy pricing structure attempts to avoid unreasonable limitations on access to the judicial system.

The logic that will drive the fee structure of the Circuit Court in the future is one of standardization and consolidation. In standardizing fees, the Circuit Court will alleviate the confusion of trying cases in different jurisdictions. The Administrative Office of the Courts would like to eliminate the smaller fees and raise the initial filing fees. The fees will be designed to recover some of the costs of processing a case, ensure access to the court, and provide a disincentive for frivolous lawsuits. This approach to fee setting may allow a larger portion of fees to be collected by the court, thereby increasing revenues.

Additional Information, continued

In addition to the state component of Circuit Court financing, which is the focus of this report, there is a local component as well. Circuit Courts generate revenue from fines, forfeitures, and certain appearance fees, which are returned to the subdivisions. Fees and charges are also levied for such functions as collection of non-support payments and domestic relations matters. In these cases, revenues are used to support the local governments' costs either of the direct function or other judicial-related functions such as local court libraries. For the period July 1, 2021 through June 30, 2022, the total of these local revenues is approximately \$135,208,511.

Additional Discussion

The Circuit Court Real Property Records Improvement Fund is established by (§§13-601-13-606) of the Courts and Judicial Proceedings Article of the Annotated Code of Maryland for the purposes of repairing and modernizing the equipment, and equipment related services in the Land Records offices of the Circuit Courts. The surcharges have been \$40.00 for mortgages, leases, deeds and deeds of trust, with all other instruments being assessed a variable fee of \$10 to \$75, dependent on the quantity of pages in the document. During the 1999 Session, the General Assembly enacted legislation to capture additional Fund revenues from copies made on equipment purchased through the Fund. For the period July 1, 2021 through June 30, 2022, the special fund revenue generated from the surcharge and copy fees totaled \$42,483,485.

The surcharge resembles market pricing in its intent to provide funds to cover the cost of improvements to service delivery at the land records office and in assigning the costs of service expansion to the direct beneficiaries of the service. Despite adding another fee to the land recordation process, the burden of the surcharge is not substantial. Given the fiscal condition of the state, this approach to financing automation of the land records offices seems reasonable.

Additional Information

Criminal defendants, in both the Circuit and District Courts, are required to pay costs of the dedicated funds set up to assist the victims and witnesses of crimes. These costs - \$3 for non-jailable vehicle offense, \$20 Criminal Injury Compensation, \$22.50 Victims of Crime, \$2.50 Victim & Witness Protection & Relocation fund for other crimes tried in the District Court, Offenses, and \$45 for other crimes tried in the Circuit Court – are deposited into three funds for victims' programs

Chapter 455, Acts of 1968, created the Criminal Injuries Compensation Board, to pay unpaid medical expenses and other specific disability payments to individuals injured or killed while preventing crimes, during crimes or in apprehending criminals (Article 27 §815 et seq.). By Chapter 224, Acts of 1993, The Criminal Injuries Compensation Fund was created to fund the awards made by the Board.

By Chapter 165, Acts of 1987, the General Assembly created the Maryland Victims of Crime Fund Accounting (Article 27 §854 (j)), for deposit of defendants' assets resulting from movie deals, book contracts and other contracts relating to, and resulting from, the notoriety of their crimes. After payments to victims, money remaining in the Account was to be used for implementation of statutory guidelines for treatment of victims and witnesses. Chapters 256/257, Acts of 1988, created the State Board of Victim Services (Article 27 §837) to oversee such implementation and to encourage various victim/witness programs and on ratification of Art. 47 of the Maryland Declaration of Rights, charged the Board with implementation of that Article.

Chapter 474, Acts of 1994, created a program for protection of victims and witnesses and for their relocation for that purpose or to facilitate participation in court proceedings (Article 27 §835), together with the Victim and Witness Protection and Relocation Fund (Article 27 §836), for implementation of the program

The first \$500,000 of the \$3 fee, collected by the District or Circuit Court, is allocated equally between the Maryland Victim of Crime Fund and the Criminal Injuries Compensation Fund, with the latter getting all money above \$500,000

The \$45 fee collected by the Circuit Court for other crimes is allocated as follows:

- \$22.50 to the Maryland Victims of Crime Fund Account
- \$ 2.50 to the Victim and Witness Protection and Relocation Fund
- \$20.00 to the Criminal Injuries Compensation Fund

Other Revenue Sources: The Attorney General is to deposit into the Maryland Victims of Crime Fund Account any money remaining in an escrow account, derived from notoriety of crimes contracts with defendants, after payments under Article 27 §854, such as subrogation claims of the State, court ordered restitution, and judgments arising out of the crime.

Additional Information

Prior to December 7, 2017, according to State Regulations, OPD was required to assess an administrative fee of \$50 or \$25 to applicants for its services, depending on whether the applicant was an adult or juvenile, respectively, regardless of whether the applicant was qualified as a client or any services were provided or the outcome of the case.

Effective December 7, 2017, State regulations no longer require the assessment of administrative fees to applicants for OPD representation.

FINDER Online Product, 2011 Edition is described on the next page.

FINDER Online contains the tools you need to view electronic tax maps and to search (by owner name, address, account number and/or map and parcel) for parcel locations in a jurisdiction or a region. Once a parcel or group of parcels is selected, you can link directly to current parcel information via the State Department of Assessments and Taxation (SDAT) Real Property website, view the tax map where the parcel is located and print parcel reports. You can also download and save tax maps in electronic (.tif) file format to your computer for viewing and/or printing later.

FINDER Online also includes Computer Assisted Mass Appraisal (CAMA) data for residential parcels as well as the most recent Sale update file for a 12-month period ending near the FINDER Maps and Data DVD release date. To help orient Subscribers, FINDER Online contains a State Highway Administration county road map, a county tax map index and ADC page number grids. Tax maps are not provided for Baltimore City – instead, parcels are referenced to a detailed road map. Also included with FINDER Online are a number of additional thematic map layers including land use/land cover data, congressional and legislative district boundary files, census geography, ZIP code boundary files, Priority Funding Area (PFA) designations, floodplain data including DFIRM data for selected jurisdictions, protected land boundaries, watershed data, generalized zoning designations, sewer service area boundaries and color digital-ortho imagery from the National Agriculture Imagery Program (NAIP). Subscription to FINDER Online is Annual, Statewide or by Region

Credentials are issued by a motor carrier's base jurisdiction which will allow the IFTA licensee to travel in all IFTA member jurisdictions; the District of Columbia is currently not an IFTA member jurisdiction.

IFTA- annual renewal: Maryland does not charge an annual renewal processing fee for an IFTA license and decals.

IFTA decals are automatically issued to licensees in good standing.

Additional Information:

If a Maryland-based carrier that qualifies for an IFTA license and decals has any qualifying motor vehicles which only travel intrastate, the carrier may elect to have both the intrastate and the interstate qualifying motor vehicles issued IFTA decals. In such case, the operation of those intrastate qualifying vehicles will be included on the IFTA tax report. This provision enables the carrier to convert an intrastate vehicle to interstate operations at any time without additional registration.

Manufacturer's warehouse operator's license	\$250
Retailer's license	3
Sub wholesaler's license	250
Vending machine operator's license	250
Wholesaler's license	250

Before obtaining the state retail license, the applicant must file for and receive a county license. In all counties except for Cecil, the application fee for the license is \$25. In Cecil County it is \$50. This license must be applied for each year, whereas the state retail license can be renewed for a \$3 fee yearly

Although fees were increased in 1992, the renewal fee was not increased until the 1993 Session. Only new licensees, therefore, were paying the increased fee, while those with licenses only had to pay the \$250 renewal fee. In 1993, the renewal fee was increased to the original license fee for each category of license.

Effective May, 1993

Cigarette Wholesaler's License	\$750

Additional Discussion

The Office of the Comptroller collects fees for cigarette licenses under Title 16 of the Business Regulation Article. The fees, which range from \$25 to \$750, were first instituted in 1890 and last changed in 2017. Revenues are intended to be used to administer the title and enforce the Maryland Cigarette Sales Below Cost Act (MCSBCA) and are deposited into a special fund. As of January 1, 2021, the Office of the Executive Director for the Alcohol and Tobacco Commission collects the fees and issues the licenses under Title 16 of BR through RPE.

(a) Definitions.-

(1) In this section, the following words have the meanings indicated.

(2) "Aggregate par value of capital stock" means the sum of the total par value of all classes of stock.

(3) "Corporation" includes a joint stock company.

(4) "Total par value of a class of capital stock" means:

(i) For a class of capital stock having par value, the par value per share of stock in the class times the number of authorized shares in the class; or

(ii) For a class of capital stock not having par value, \$20 times the number of authorized shares in the class.

(b) Imposed.-There is an organization and capitalization fee imposed on:

(1) The aggregate par value of capital stock of a Maryland corporation that incorporates;

(2) An increase of the aggregate par value of capital stock of a Maryland corporation;

(3) A consolidation of corporations that results in a Maryland successor corporation that has an aggregate par value of capital stock that exceeds the aggregate par value of the consolidating corporations;

(4) A merger of corporations if the successor corporation has an aggregate par value that exceeds the aggregate par value of capital stock of the merging corporations; or

(5) The incorporation of:

(i) A Maryland corporation that does not have any capital stock;

(ii) A savings and loan association; or

(iii) A credit union.

(c) Schedule. –

(1) Except as otherwise provided in this section, the organization and capitalization fee is as provided in the following schedule:

Aggregate Par Value of Capital Stock	Fee
Not over \$100,000	\$20
Over \$100,000 but not over \$1,000,000	\$20, plus \$1 for each \$5,000 or \$1,000,000 fractional part of \$5,000 that exceeds \$100,000
Over \$1,000,000 but not over \$2,000,000	\$200, plus \$10 for each \$2,000,000 \$100,000 or fractional part of \$100,000 that exceeds \$1,000,000
Over \$2,000,000 but not over \$5,000,000	\$300, plus \$15 for each \$5,000,000 \$500,000 or fractional part of \$500,000 that exceeds \$2,000,000
Over \$5,000,000	\$390, plus \$20 for each \$1,000,000 or fractional part of \$1,000,000 or fractional part of \$1,000,000 that exceeds 5000000

(2) The organization and capitalization fee is \$20 for the incorporation of:

(i) A Maryland corporation that does not have any capital stock;

(ii) A savings and loan association; or

(iii) A credit union.

(d) Fee for increase in aggregate par value of capital stock.

(1) Except as otherwise provided in this subsection, the organization and capitalization fee for an increase in aggregate par value of capital stock is the fee computed on the aggregate par value including the proposed increase less the fee computed on the aggregate par value excluding the proposed increase.

(2) Except as provided in paragraph (3) of this subsection, the organization and capitalization fee on an increase in aggregate par value of capital stock of a railroad corporation that is incorporated under the laws of this State and any other state is computed by multiplying the fee computed under paragraph (1) of this subsection by the proportion of the total track mileage of the railroad corporation in this State to the total track mileage of the railroad corporation.

(3) The minimum organization and capitalization fee on an increase in aggregate par value is \$20.

(e) Fee for consolidation of existing corporations.

(1) Except as otherwise provided in this subsection, the organization and capitalization fee for the consolidation of existing corporations to form a Maryland successor corporation is the fee computed on the aggregate par value of capital stock of the successor corporation less the fee computed on the combined aggregate par value of capital stock of the consolidating corporations

Section 8-110 – Redemption of certain reversions.

§ 8-110. Redemption of certain reversions.

(a) Applicability of section -

(1) This section does not apply to leases of property leased for business, commercial, manufacturing, mercantile, or industrial purposes or any other purpose which is not primarily residential, where the term of the lease, including all renewals provided for, does not exceed 99 years. A lease of the entire property improved or to be improved by any apartment, condominium, cooperative, or other building for multiple-family use on the property constitutes a business and not a residential purpose. The term “multiple-family use” does not apply to any duplex or single-family structure converted to a multiple-dwelling unit.

(2) Except as provided in subsection (f) of this section, this section does not apply to irredeemable leases executed before April 9, 1984.

(3) This section does not apply to leases of the ground or site upon which dwellings or mobile homes are erected or placed in a mobile home development or mobile home park.

(4) This section does not apply to an affordable housing land trust agreement executed under Title 14, Subtitle 5 of this article.

- (i) Payment of the redemption amount and up to 3 years' back rent to the extent required under this section and § 8-111.1 of this subtitle, in a form satisfactory to the Department; and
- (ii) An affidavit made by the tenant, in the form adopted by the Department, certifying that:
 - 1. The tenant has not received a bill for ground rent due or other communication from the landlord regarding the ground rent during the 3 years immediately before the filing of the documentation required for the issuance of a redemption certificate under this subsection; or
 - 2. The last payment for ground rent was made to the landlord identified in the affidavit and sent to the same address where the notice required under subsection (b) of this section was sent.
- (5) No earlier than 90 days after the application has been posted as provided in paragraph (3) of this subsection, a tenant seeking to extinguish an irredeemable ground rent or to redeem a redeemable ground rent on abandoned or distressed property that was acquired or is being acquired by the Mayor and City Council of Baltimore through condemnation shall provide to the Department:
 - (i) Payments of up to 3 years' back rent to the extent required under this section and § 8-111.1 of this subtitle, in a form satisfactory to the Department; and
 - (ii) An affidavit made by the Director of the Office of Property Acquisition and Relocation in the Baltimore City Department of Housing and Community Development certifying that:
 - 1. The property is abandoned property, as defined in § 21-17(a)(2) of the Public Local Laws of Baltimore City, or distressed property, as defined in § 21-17(a)(3) of the Public Local Laws of Baltimore City;
 - 2. The property was acquired or is being acquired by the Mayor and City Council of Baltimore City through condemnation;
 - 3. A thorough title search has been conducted;
 - 4. The landlord of the property cannot be located or identified; and
 - 5. The existence of the ground rent is an impediment to redevelopment of the site.
- (6) At any time, the tenant may submit to the Department notice that the tenant is no longer seeking redemption or extinguishment under this subsection.
- (7) Upon receipt of the documentation, fees, and where applicable, the redemption amount and 3 years' back rent to the extent required under this section and § 8-111.1 of this subtitle, the Department shall issue to the tenant a ground rent redemption certificate or a ground rent extinguishment certificate, as appropriate.
- (8) The redemption or extinguishment⁶ of the ground rent is effective to conclusively vest a fee simple title in the tenant, free and clear of any and all right, title, or interest of the landlord, any lien of a creditor of the landlord, and any person claiming by, through, or under the landlord when the tenant records the certificate in the land records of the county in which the property is located.
- (9) The landlord, any creditor of the landlord, or any other person claiming by, through, or under the landlord may file a claim with the Department in order to collect all, or any portion of, where applicable, the redemption amount and 3 years' back rent to the extent required under this section and § 8-111.1 of this subtitles, without interest, by providing to the Department:
 - (i) Documentation satisfactory to the Department of the claimant's interest; and
 - (ii) Payment of a \$20 fee, and any expediting fee required under § 1-203 of the Corporations and Associations Article.
- (10) (i) A landlord whose ground rent has been extinguished may file a claim with the Baltimore City Director of finance to collect an amount equal to the annual rent reserved multiplied by 16.66, which is capitalization at 6 per cent, by providing to the Director:
 - 1. Proof of payment to the landlord by the Department of back rent under paragraph (9) of this subsection; and
 - 2. Payment of a \$20 fee.
- (ii) A landlord of abandoned or distressed property condemned by the Mayor and City Council of Baltimore City whose ground rent has been redeemed may file a claim with the Baltimore City Director of Finance to collect the redemption amount, by providing to the Director:
 - 1. Proof of payment to the landlord by the Department of back rent under paragraph (9) of this subsection; and

- (b) Redemption of reversions in leases for longer than 15 years. -
- (1) Except for apartment and cooperative leases, any reversion reserved in a lease for longer than 15 years is redeemable at any time, at the option of the tenant, after 30 days' notice to the landlord. Notice shall be given by certified mail, return receipt requested, and by first-class mail to the last known address of the landlord.
- (2) The reversion is redeemable:
- (i) For a sum equal to the annual rent reserved multiplied by:
1. 25, which is capitalization at 4 percent, if the lease was executed from April 8, 1884 to April 5, 1888, both inclusive;
 2. 8.33, which is capitalization at 12 percent, if the lease was or is created after July 1, 1982; or
 3. 16.66, which is capitalization at 6 percent, if the lease was created at any other time;
- (ii) For a lesser sum if specified in the lease; or
- (iii) For a sum to which the parties may agree at the time of redemption.
- (c) Where reversion is vested in a person without a power of sale. – If a tenant has power to redeem the reversion from a trustee or other person who does not have a power of sale, the reversion nevertheless may be redeemed in accordance with the procedures prescribed in the Maryland Rules.
- (d) Applicability of federal regulatory changes. – Notwithstanding subsection (b) of this section, any regulatory changes made by a federal agency, instrumentality, or subsidiary, including the Department of Housing and Urban Development, the Federal Housing Administration, the Government National Mortgage Association, the Federal National Mortgage Association, and the Veterans' Administration, shall be applicable to redemption of reversions of leases for longer than 15 years.
- (e) Donation of reversion. -
- (1) Before the entry of a judgment foreclosing an owner's right of redemption, a reversion in a ground rent or lease for 99 years renewable forever held on abandoned property in Baltimore City, as defined in § 14-817 of the Tax – Property Article, may be donated to Baltimore City or, at the option of Baltimore City, to an entity designated by Baltimore City.
- (2) Valuation of the donation of a reversionary interest pursuant to this subsection shall be in accordance with subsection (b) of this section.
- (f) Redemption or extinguishment of ground rents; reinstatement; disputes. -
- (1) (i) A tenant who has given the landlord notice in accordance with subsection (b) of this section may apply to the State Department of Assessments and Taxation to redeem a ground rent as provided in this subsection.
- (ii) When the Mayor and City Council of Baltimore City condemns property that is subject to an irredeemable ground rent, the City shall become the tenant of the ground rent and, after giving the landlord notice in accordance with subsection (b) of this section, may apply to the State Department of Assessments and Taxation to extinguish the ground rent as provided in this subsection.
- (iii) When the Mayor and City Council of Baltimore City condemns abandoned or distressed property that is subject to a redeemable ground rent, the City shall become the tenant of the ground rent and, after giving the landlord notice in accordance with subsection (b) of this section, may apply to the State Department of Assessments and Taxation to redeem the ground rent as provided in this subsection.
- (2) The tenant shall provide to the State Department of Assessments and Taxation:
- (i) Documentation satisfactory to the Department of the lease and the notice given to the landlord; and
 - (ii) Payment of a \$20 fee, and any expediting fee required under § 1-203 of the Corporations and Associations Article.
- (3) (i) On receipt of the items stated in paragraph (2) of this subsection, the Department shall post notice on its website that application has been made to redeem or extinguish the ground rent.
- (ii) The notice shall remain posted for at least 90 days.
- (4) Except as provided in paragraph (5) of this subsection, no earlier than 90 days after the application has been posted as provided in paragraph (3) of this subsection, a tenant seeking to redeem a ground rent shall provide to the Department:

2. Payment of a \$20 fee.

(11) (i) In the event of a dispute regarding the extinguishment amount as calculated under paragraph (10(i) of this subsections, the landlord may refuse payment from the Baltimore City Director of finance and file an appeal regarding the valuation in the Circuit Court of Baltimore City.

(ii) In an appeal, the landlord is entitled to receive the fair market value of the landlord's interest in the property at the time of the extinguishment.

(12) In the event of a dispute regarding the payment by the Department to any person of all or any portion of the collected redemption amount and up to 3 years' back rent to the extent required by this section and § 8-111.1 of this subtitle, the Department may:

(i) File an interpleader action in the circuit court of the county where the property is located; or

(ii) Reimburse the landlord from the fund established in § 1-203.3 of the Corporations and Associations Article.

(13) The Department is not liable for any sum received by the Department that exceeds the sum of:

(i) The redemption amount; and

(ii) Up to 3 years' back rent to the extent required by this section and § 8-111.1 of this subtitle.

(14) The Department shall credit all fees and funds collected under this subsection to the fund established under § 1-203.3 of the Corporations and Associations Article. Redemption and extinguishment amounts received shall be held in a ground rent redemption and ground rent extinguishment account in that fund.

(15) The Department shall maintain a list of properties for which ground rents have been redeemed or extinguished under this subsection.

(16) The Department shall adopt regulations to carry out the provisions of this subsection.

(17) Any redemption or extinguishment funds not collected by a landlord under this subsection within 20 years after the date of the payment to the Department by the tenant shall escheat to the State. The Department shall annually transfer any funds that remain uncollected after 20 years to the State General Fund at the end of each fiscal year.

Section 2-206 of the Estates and Trusts Article states that the Register of Wills in each county and Baltimore City are entitled to charge and collect for the performance of their duties. The fee for this service ranges from \$50 to over \$2,500 depending on the value of the probate estate. In addition, the registers are allowed a commission of 25% of the inheritance tax for receiving and paying over to the State the inheritance tax due. In FY 22, the registers collected \$37.2 million from fees and the 25% commission.

The total cost of operations for the Registers in FY 22 was \$31.99 million.

Book Permits good for 45 tons increased from \$150 to \$300.

Additional Discussion

Operating and capital expenditures for the Department of Transportation are supported by dedicated sources of revenue. The majority of funding is realized from gas and titling tax revenues, miscellaneous fees and taxes, and bond proceeds. Funds are collected and deposited into the Transportation Trust Fund. Expenditures are based on budgetary need

The Annotated Code (Transportation Article §24-112) permits the Department to set fees for hauling overweight cargo at rates which recover the cost of administration and compliance monitoring. This includes the costs of issuing permits, and the capital and operating costs of the truck weight enforcement activities of the Maryland State Police.

For Fiscal Year 2020, fees generated for SHA were \$14,742,828.00

In addition to the transfers made to the Maryland State Police by SHA, revenues were also distributed by MDOT for their Commercial Vehicle program for Fiscal Year 2020 in the amount of \$24,958,742.83 which includes their part of truck weight enforcement activities.

The Department advises that the fees have not been raised since 1984 in order to keep the rates competitive between those charged by states and competing port operations. The Department meets with representatives of area states on an annual basis to compare fees.

Additional Discussion

Operating and capital expenditures for the Department of Transportation are supported by a dedicated source of revenue. The majority of funding is realized from gas and titling tax revenues, miscellaneous fees and taxes, and bond proceeds. Funds are collected and deposited into the Transportation Trust Fund. Expenditures are based on budgetary need. The Department does not generally consider the costs associated with service provision when determining fee levels.

The Maryland Port Administration derives revenues primarily from terminal facility acreage, large cargo storage sheds, vessel dockage, vessel wharfage, crane rentals, World Trade Center office leases, cargo handling fees, equipment rental and terminal leases. Because the Port of Baltimore competes for business with other ports in the region, the fees negotiated reflect market value for the various services provided.

Many marine terminal customers have long term leases that provide pricing incentives (i.e. when volume of cargo exceeds pre-determined levels, and for the longer term commitment)

Additional Discussion:

The Motor Vehicle Administration collects four different categories of fees: titling/registration fees, driver and regulatory licensing fees, vehicle emissions inspections fees (VEIP), and miscellaneous fees. Revenues from all fees are deposited into the Transportation Trust Fund TR §3-216. Titling and registration revenues go to support the special fund. Revenues from miscellaneous fees, which are set by the administration, are mandated to cover no less than 95% and no more than 100% of the administration's operating costs. This mandate has been issued by the General Assembly via budget bill language since the 1991 legislative session.

Additional Discussion:

Commemorative Plates:

Agriculture Plate – A \$20 fee is paid upon issuance of the plate. Of the \$20, \$10 goes to MVA and the other \$10 to the Agriculture Foundation. First issued 7/01/01.

Chesapeake Bay Plates - A \$20 fee is paid upon issuance of the plate. Of the \$20, \$10 goes to MVA and the other \$10 to the Chesapeake Bay Foundation. First issued 1/1/91

Uninsured Motorists Fees §17-106 - Drivers not covered by auto insurance are charged \$150 for the first month of being uninsured and \$7 each additional day, up to \$2,500. The MVA receives 30% of the fines and the remaining 70% is allocated to the School Bus Safety Enforcement Fund, the Vehicle Theft Prevention Fund, the Maryland Automobile Insurance Fund (MAIF), and the General Fund. Prior to June 1, 1996, the MVA received 10% of the first \$150 and 50% of all fines collected over \$150. The non- MVA allocated fine revenue was distributed to the Theft Prevention Program, the MAIF, and the General Fund prior to June 1, 1996.

Schedule of Vehicle Registration Fees

The fees listed below are the biennial rates for vehicle registration in Maryland unless otherwise noted. Beginning with 1993, registration in Classes A, B, C, D, E, F, H, J, M, P, Q and R are conducted biennially. For example, a typical passenger car would cost the owner \$135 for registration every two years (\$50.50 fee plus \$17.00 surcharge = \$64 per year x 2 years = \$135.00).

Additional Information

Effective June, 1989, the vehicle inspection was changed from an annual requirement to biennial.

Additional Discussion

Operating and capital expenditures for the Department of Transportation are supported by dedicated sources of revenue. The majority of funding is realized from gas and titling tax revenues, miscellaneous fees and taxes, and bond proceeds. Funds are collected and deposited into the Transportation Trust Fund. Expenditures are based on budgetary need.

Revenues generated by the Vehicle Emissions Inspection Program are part of the administration's miscellaneous fees. Capital costs for the enhanced VEIP will be provided by the Transportation Trust Fund.

Additional Discussion

Operating and capital expenditures for the Department of Transportation are supported by dedicated sources of revenues. The majority of funding is realized from gas and titling tax revenues, federal fund reimbursement, miscellaneous fees and taxes, and bond proceeds. Funds are collected and deposited into the Transportation Trust Fund. Expenditures are based on budgetary needs. The Department does not generally consider the costs associated with service provision when determining fee levels.

The fee structure for the Maryland Transit Administration is adjusted periodically to allow sharing of the cost of the system between two groups.

(1) Riders - the direct beneficiaries who benefit from the convenience of the system itself and riders paying at the fare box.

(2) Motorists - the indirect beneficiaries who benefit from the reduced traffic load on highways and pay via gasoline taxes.

The rates charged by the Maryland Transit Administration are also adjusted for certain riders. Discounts are available through daily, weekly or monthly unlimited use passes. Senior citizens and the disabled receive a two-thirds discount on a single ride in the Baltimore region. The discount partially mitigates hardship to these riders. Also, there are limited programs available through other State agencies. In addition, free ridership for state employees was initiated in spring 2001, to reduce vehicle congestion and environmental impact. Each agency is budgeted for and remits funding to the Transportation Trust Fund to replace lost revenue.

There is no regulatory citation for the fees charged. Schedules are maintained in the MTA schedule of tariffs. Proposed fee modifications are not subject to legislative review or publication in the Maryland Register, but do require publication in the newspapers and at agency facilities followed by public hearings.

Miscellaneous operating revenues (e.g., advertising space, leased space in and above metro stations, building and land rental, BWI parking) are market-based.

Maryland Department of Transportation

Operating and capital expenditures for the Department of Transportation are supported by dedicated sources of revenue. The majority of funding is realized from gas and titling tax revenues, miscellaneous fees and taxes, and bond proceeds. Funds are collected and deposited into the Transportation Trust Fund. Expenditures are based on budgetary need. The Department does not generally consider the costs associated with service provision when determining fee levels.

Maryland Aviation Administration

As the fee summary schedule below indicates, aircraft landing and parking fees constitute the largest revenue category for the Maryland Aviation Administration. Landing fees and terminal rents are based on recovery of operating and capital costs. Other fees charged are market-based. The Annotated Code (Transportation Article §5- 408 (b)(2)(ii)) states that fees are "to be reasonable. In determining reasonableness the Administration shall consider the charges, fees or prices for the same goods or services at comparable airports". Fees, which are reviewed annually, are generally based both on volume of activity (e.g., number of passengers, number and weight of aircraft using facilities) and volume of facilities used (e.g., per square footage of ticket counter space). Although the market-based fees are not tied to service expenditure levels, they do provide the flexibility necessary to maintain competitive pricing.

There is no regulatory citation for the fees charged. Schedules are maintained in the BWI Tenant Directive and the Maryland Aviation Administration Rate and Leasing Policy. Proposed fee modifications are not subject to Legislative review or publication in the Maryland Register. Current fees were last modified July 1, 2019 BWI and July 1, 2019 at Martin State Airport.

APPN: L00A1203

STATE FEES AND CHARGES

Additional Information

RATE OF FEE:

1) A \$30 annual registration fee is paid by packers and distributors of shell eggs. A packer or distributor who keeps 3,000 or fewer chickens and sells eggs only from those chickens is required to register but is exempt from fees.

2) An inspection fee of 8 cents per 30 dozen cases of sold or delivered shell eggs and a quarterly report detailing the number of shell eggs sold, is due each quarter from packers and distributors. A packer or distributor who keeps less than 3,000 chickens and sells eggs only from those chickens is exempt from filing the report and submitting the fees.

3) If a packer or distributor fails to file a quarterly report and not pay the required inspection fee, then a collection fee is imposed in the amount of ten percent (10%) of the unpaid inspection fee due or \$100, whichever is greater.

DATE AND AMOUNT OF LAST CHANGE:

Chapter 542; Acts 1993 -- The annual registration fee was raised from \$15 to \$30 annually effective January 1, 1994. The fee exemption threshold, which is based on the number of chickens kept by a packer or distributor, was raised from 50 chickens to 3,000 chickens effective July 1, 1993. The collection fee provision became effective July 1, 1993

Half-day (up to 4 hours)	\$250
Full day (up to 8 hours)	\$500

2. Compliance verification inspection: \$50

3. An authorized insurer providing insurance coverage for boilers and pressure vessels is charged the following fees for inspections performed by commissioned inspectors:

Inspection report filing fee if not filed electronically \$5 per report

Special Inspector Commission Fees:

Competency exam or re-exam	\$50
Special inspector commission	\$50
Special inspector commission renewal or replacement or identification card	\$50

4. The owner or lessee of an elevator, dumbwaiter, escalator or moving walk may be assessed an inspection fee if a State inspector concludes that newly installed equipment scheduled for a final acceptance inspection fails to meet the applicable safety codes or has not been tested or is not functional. The owner or lessee of such equipment may also be assessed an inspection fee if a follow-up inspection is required on an annual inspection to ensure compliance with corrections detailed on the inspection checklist. The inspection fee schedule is as follows:

Half day (up to not to exceed)	\$250
Full day (up to not to exceed)	\$500

5. The Commissioner may authorize third party qualified elevator inspections to perform certain inspections. These third party inspectors must register with the Commissioner prior to obtaining authorization. The fee to register as a third party qualified elevator inspector is as follows:

Additional Discussion

The amusement ride and elevator inspections done by the Division of Labor and Industry help protect the safety of the general public. Funding for these inspections is generated by assessments on insurance companies collected by the Workers' Compensation Commission. Insurance companies merely pass along the costs by charging higher premiums to their customers. Since the purchasers of insurance would be liable for any injuries, they are actually the prime beneficiaries of the inspections.

The General Fund is reimbursed only for the special and for indirect costs. Inspections are done on an annual basis. Boiler and pressure vessel inspections are undertaken by the Division of Labor and Industry to ensure the safety of the population. The inspections were undertaken after a series of incidents that endangered significant elements of the population. The costs of the examinations are borne by the owners of the boilers, who receive much of the benefit for the inspections as they would be held responsible for injuries incurred due to accidents. The fees are set at a sufficiently low level so as to impose no significant hardships on the owners.

Certificates of inspection are valid for 12 to 24 months, depending on the type of equipment.

Inspections on elevators, dumbwaiters, escalators and moving walks are conducted by State inspectors without charge provided the owner or lessee ensures the equipment is installed and maintained to applicable safety codes and regulations. If the equipment is not in compliance, requiring a subsequent inspection(s) from the State inspector, then the owner or lessee is charged an inspection fee.

Elevator Citation Penalties-Private Section.

1. An owner shall hire a third-party qualified elevator inspector to conduct all periodic annual inspections that are required by the safety code.

2. An inspection by a third-party qualified elevator inspector shall ensure that the elevator unit complies with the safety code and other regulations adopted by the Commissioner.
3. After an inspection or investigation, the Commissioner determines that, within the immediately preceding 6 months, an elevator unit is in violation of the safety code or another regulation adopted by the Commissioner, the Commissioner shall issue a citation to the owner.
4. If, after investigation, the Commissioner determines that an owner violated the safety code or a regulation adopted by the Commissioner, the Commissioner may assess and collect a civil penalty of up to \$5,000 for each elevator unit in violation of the safety code or regulations.

The State Board of Barbers, established by §4-201 of the Business Occupations and Professions Article, licenses and regulates barbers in order to ensure that licensees have the experience and knowledge necessary to practice safely and with the degree of expertise indicated by the license.

All revenues received by the Department of Labor, Licensing and Regulation under Title 4 of the Business Occupations and Professions Article are paid into a special fund. The Board is required to set fees (by regulation) so as to cover the direct and indirect expenses of regulation §4-206. Staggered licenses are in place as of 1999.

Expected Proposals for new fees in this or related area: Fee regulations to cover renovator mechanics, renovator contractors and accessibility lift mechanics

Additional Discussion

The Elevator Safety Review Board is established through Title 8, Subtitle 12 of the Public Safety Article of the Annotated Code of Maryland to assure the entry level and ongoing competence of elevator mechanics and contractors. This is accomplished the Board's activities regarding the qualification, licensure antiregulation the individuals and businesses providing these services. Beyond the societal benefits of regulation, practitioners benefit from a known set of qualifying requirements and the restriction of competition within the trade.

Effective 2015, all examinees, regardless of category, pay an examination fee of \$65 directly to the state's examination vendor.

Additional Discussion: The State Board of Stationary Engineers, regulated by Title 6.5 of the Business Occupations and Professions Article, Annotated Code of Maryland, licenses and regulates those who desire to operate steam and power generators, heating plants and boilers, in order to safeguard the general public and promote the safe operation of such plants and machinery. The benefits associated with this regulation are primarily public in nature.

By law, revenue must be deposited in the special fund and shall be at least equal to the direct and indirect costs associated with the operation of the regulatory program. FY 2006 was the first year of the new Board's operation. Fees were set at a level to recover estimated direct and indirect costs.

Additional Information

The Department of Labor, Licensing and Regulation regulates secondhand precious metal object dealers and pawnbrokers (Business Regulation Article, Title 12). To deal in these areas, one must receive a license from the Department. Licensing ensures that licensees will be cooperative with efforts to recover stolen materials.

The cost of applying for a license was raised in 1991 from \$200 to \$300, and background checks were instituted, which cost \$42 per employee. The renewal fee increased from \$200 every other year to \$300 in 1991, but the re-codification of the Business Regulation Article reduced it back to \$200. Fees for original licenses and renewals were reduced to \$75 in 1997. These fees were increased to \$265 during the 2011 Legislative Session. Fee collection for criminal background checks were transferred to CJIS in 1997. In 2011, fees increased to \$300 for initial licenses and \$265 for renewal licenses.

Additional Information

The State Board of Pilots, established by §11-201 of the Business Occupations and Professions Article, licenses and regulates pilots operating in Maryland waters. The Board is responsible for ensuring that safe pilotage is provided.

The disposition of remaining funds is not specified in statute, but in practice it goes into a special fund for the Board. As licensing fees are the primary source of revenue for the Board, these fees must cover expenses.

Since the Board's compensation must be covered, the Board may require flexibility in setting its fees. Because, over a two-year period, revenues are so much greater than the total expenditures for the Board, flexibility is not needed at the current time, although the fees are set in statute (BOP §11-406) so the Board has relatively less leeway than otherwise possible. The unlimited license fee increased from \$400 to \$600 in 1989, while the limited licenses have been changed since at least 1984.

Additional Discussion

The State Board of Examiners of Landscape Architects, established by §9-201 of the Business Occupations and Professions Article, regulates and licenses landscape architects in order to safeguard public welfare, health and property and to promote the public good.

It had been the case that statute required all authorized expenses of the Board be payable only from monies collected by the Board. This requirement was changed in 1992, however, when all revenues became general fund revenues. Effective July 1, 2003, the fund status of this Board was again changed to special fund as it became part of the Occupational and Professional Licensing Design Board's fund. Non-examination related revenues and expenditures for five design regulatory Boards were clustered in one operational fund. Boards were granted fee setting authority and equalized the primary original and renewal licensing fees for all Boards at \$78 which was reduced to \$68 effective May 7, 2007.

Revenues are required to cover the direct and indirect costs of operating the cluster as certified by the Secretary of DLLR.

Additional Discussion

The State Board of Cosmetologists, established by {5-201 of the Business Occupations and Professions Article, licenses and regulates cosmetologists and those in similar occupations in order to ensure that licensees have the experience and knowledge necessary to practice safely and with the degree of expertise indicated by the license.

All revenues received by the Department of Labor, Licensing and Regulation under Title 5 of the Business Occupations and Professions Article are paid into the special fund. The Board is required to set fees (by regulation) so as to cover the direct and indirect expenses of regulation §5-205. Costs of the Board are relatively constant. Staggered licenses were implemented in 1999.

Additional Discussion:

The Maryland Home Improvement Commission was established by Article 56, Section 250 in 1962. The Commission licenses and regulates home improvement contractors and salespersons to ensure that consumers dealing with these licensees are afforded protection under the law. An applicant for a contractor's or salesperson license must pass an examination as required since 1979 under Article 56, Section 257D. Pursuant to Section 8-302(g), Business Regulation Article, the Commission may use a testing service to administer the required examinations. The Home Improvement Guaranty Fund, established by Article 56, Section 277A in 1985, compensates homeowners for losses due to poor, unworkmanlike, inadequate or incomplete work by licensed contractors. Each contractor pays an initial fee of \$100 into the Fund in addition to the licensing fee and a \$125 assessment at every license renewal. Over the last fifteen years the assessment at renewal has fluctuated between \$50 and \$150. Renewal assessments are evaluated by the Commission and the Department every two years, based on the current fund balance, pending claims and past claims pay-out rates. Effective January 1, 2016, the renewal assessment was decreased to \$125. All revenues from license fees received by the Department of Labor, Licensing and Regulation under Title 8 of the Business Regulation Article are paid into the general fund. Costs of the Commission are relatively constant and since the initiation of staggered license expiration dates in 1999, revenues have remained consistent. Original licenses issued after April 2000 must be renewed every two years from the date of issuance of the original license. This has eliminated the previous revenue fluctuation when the expiration of all licenses was on the same two-year cycle. The costs of the program are by licensees, and the cost associated with regulation may be passed on by licensees to consumers. In 2011, fees for original and renewal licenses were raised by \$25 and an application fee of \$20 was added for new applicants.

Additional Discussion

The Real Estate Commission, established by §17-201 of the Business Occupations and Professions Article, licenses and regulates real estate brokers and salespeople to ensure that licensees have the experience and knowledge necessary to practice competently.

Through June 30, 2006, all revenues received by the Department of Labor, Licensing and Regulation under Title 17 of the Business Occupations and Professions Article are paid into the general fund. Effective July 1, 2006 all revenues, except penalties and fines shall be deposited in the Real Estate Special Fund. Title 17 as amended establishes that these revenues must be sufficient to cover the direct and indirect cost of licensing and regulatory program for Real Estate Professionals.

UNIVERSITY SYSTEM OF MARYLAND TUITION

Tuition Policy

Annually, the Board of Regents will approve the tuition rates. Tuition for each category of student at an institution will be established either as an annual cost or specified as a cost per credit hour.

This policy provides for undergraduate tuition to be established independent of tuition at comparable institutions. However, tuition information for comparable institutions within the region and nationally is to be made available to the Board of Regents Committee on Finance at the time it considers the operating budget request and the related tuition adjustments.

2 Balancing single-occupancy room rate based on room size and available amenities in relation to other single-occupancy room rates.

3 The triple room is significantly larger than the double room and has a private bathroom. The rate for these rooms is increasing to recognize the added benefits this living arrangement provides relative to the price of a double occupancy room.

4 The 200 MEAL PLUS dining option will be reinstated for FY22 giving residential students without kitchen facilities a second dining option.

An applicant must take all necessary steps to prevent nontidal wetland losses by evaluating project designs that avoid impacts. Based on this evaluation of alternatives, if MDE finds that impacts are necessary and unavoidable, the applicant must utilize the project design that will minimize nontidal wetland impacts and provide appropriate mitigation for those impacts. Mitigation means that the applicant must replace lost wetland acreage, function and value. This is usually accomplished by requiring the creation of new wetlands, restoration of relic wetlands, enhancement of degraded wetlands or some acceptable combination. If the Department determines that mitigation for nontidal wetland losses by the applicant is not a feasible alternative, MDE may also accept monetary compensation. Funds collected by the Department are used to create, restore or enhance nontidal wetlands.

Mitigation requirements are determined using criteria established by the Department, including acreage replacement ratios. Once the appropriate replacement acreage has been calculated, MDE applies the fee structure presented above.

Mitigation is a requirement of a Nontidal Wetland Permit issued by MDE. The Department may accept compensation only if it is determined that creation, restoration, or enhancement of Nontidal Wetlands are not feasible alternatives.

Method To Change: Statutory Amendment

Rate or Amount of Fee(s): The application fee that MDE charges an applicant is based on whether a project is considered to be a minor or major project. All applications require a minimum application fee of \$750. Major projects (i.e., those that involve more than 5,000 square feet of permanent impact, require a public notice, or potentially impact a nontidal wetland of special State concern) are assessed an additional impact fee of \$750 or more based on the impact area in acres. The actual fee schedule is presented in the attached table.

Date Fee(s) First Authorized: July 1, 2008

Date of Last Change: July 1, 2012

Amount of Last Change: See Supplement A March 18, 2001 Administrative penalties were added

Purpose of Fee(s) Fees authorized in 2008 enabled MDE to enhance the Wetlands and Waterways Program's resource management and conservation capabilities and strengthen existing levels of constituent service, insuring a more efficient and effective application review process for the regulated community. As required by statute, MDE convened a Work Group consisting of interested stakeholders in September 2011 to review and assess whether the Program successfully improved the level of service to the regulated community as a result of the new fees. The criteria used by the Work Group to evaluate the success of the Program included: establishment of new positions; improvement in application turnaround times; reduction of the application backlog; and development of enhanced services for the regulated and environmental communities. The consensus of the Work Group was that MDE successfully met the intent of the law through the following accomplishments: (1) increased staffing levels consistent with the intent of the 2008 law by creating 34 new positions; (2) improved permit turnaround time so that the Wetlands and Waterways Program now meets its published turnaround times over 90 percent of the time; (3) eliminated the permit application backlog; and (4) provided enhanced services to the regulated and environmental communities

Additional Discussion

The Sewage Sludge Utilization permit fee is set by regulation, and complements the Annual Generator fee to support the operating expenses of the sewage sludge program within the Land Management Administration. The fees are levied at varying rates, depending upon the type of permit.

2) Generator Fee

The fee charges for generators of sewage sludge vary dramatically by the amount of sludge generated and the category of the permittee. Essentially, the fee for a sewage sludge generator in Maryland is calculated as a base rate of \$1 per wet ton of sewage sludge, which is then multiplied by an adjustment factor from 0.3 to 1.55 based on the classification of the sludge and the activity of the permittee. Basically, the fee is set to reflect the hazard and regulatory effort caused by the permittee.

Additional Information

Facility Permit Fees

The rate for facility permit fees is determined by the Department, according to guidelines established in §7-237 of the Environment Article. This Section states that the rates of the fees should be set on the basis of the following criteria:

The threat to the environment posed by the particular controlled hazardous substance. The anticipated cost of monitoring and regulating the facility.

The anticipated needs for program development activities relating to the management of controlled hazardous substances.

The anticipated cost of removing and properly disposing of any controlled hazardous substance that may escape from the regulated facility

The law determines the criteria for the setting of fees. Fees are established or amended in regulation

Hauler's and Driver's Certificates

The Department has authority to set the rates of these fees, with a maximum set in law. The statutory provisions are as follows:

Type of Certificate	Citation	Maximum Fee	Current Fee
Vehicle Certification	§7-252(a)	\$ 50	\$50

As both of the fees are currently set at their maximum rates, a statutory change would be required to increase their rates.

Additional Discussion

With legislative direction, the fee-setting structure for Controlled Hazardous Substance facility permits is specifically determined by regulation. The system of determining the fee for a particular facility (as detailed on the previous page) is based on a combination of the costs to regulate the facility and the potential harm caused by the facility

The direct costs of permitting activities are supported by special and federal fund revenues as well as general funds. Other necessary activities are supported by general fund subsidies.

Air Quality Construction Permit and Operating Permit Fees Environment Article {2-403, COMAR 26.11.02.16-.19.

Rates: Permit to construct rates are application-specific, and are defined in regulation (COMAR 26.11.02.16-.19). The fees range from \$100 to \$20,500, based on the type of permit.

Permit to operate fees are governed by statute and were amended in 1992 and again in 2008 to comply with requirements of the Federal Clean Air Act Amendments of 1990. Beginning in calendar year 1997, emission based fees have been adjusted in accordance with the Consumer Price Index. The revised fee schedule (see table below) has led to a significant enhancement in revenue to support the costs of achieving federal goals.

CY 1993 - 2006	Range from \$15/ton to \$39.48/ton of regulated emissions	
CY	2007	\$41.02/ton - \$328,047/cap

The Maryland Clean Air Fund was established to support the Department's efforts to maintain the degree of purity of the air necessary to protect the health, the general welfare, and property of the people of Maryland. Special fund revenue to the Maryland Clean Air Fund is derived from fees, licenses and penalties, and funds received from the Strategic Energy investment Fund.

Chapter 358 of the Acts of 1993 has replaced the old system of industry-based operating permit fees in favor of emission-based permit fees for stationary source polluters. The new fee schedule is intended to meet federally-designed "presumptive minimum" funding levels. The breakdown of the total special fund revenue sources to the Maryland Clean Air Fund is as follows:

Clean Air Act Title V Operating Permits

Non-Title V Operating Permits

Construction permits

Asbestos Licenses

Asbestos Training Fees

Penalties

RGG1

Certification Fees

The Department revised regulations in order to implement the permit fee increases provided by Senate Bill 442 Clean Air Permit Fees which was signed into law on April 24, 2008. The revised fee schedule under COMAR 26.11.02.19B became effective October 1, 2008. The specific changes were as follows:

- a). The maximum air quality emissions-based fee was raised to \$50 per ton. This emissions-based fee will be adjusted in January of each calendar year by the percentage change, if any, of the Consumer Price Index (CPI) for the most recent calendar year exceeds the CPI of the previous calendar year, as calculated as of the close of the 12-month period ending on August 31 of each calendar year
- b). The 4000 ton per year limit on a single pollutant was repealed

The Department revised regulations in August 2013, that raised the annual base fee for large air pollution sources in Maryland that are required to obtain a Title V Permit or State Permit to Operate. COMAR 26.11.02.19 was revised to raise the annual base fee from \$200 to \$5000 for federal Title V permit sources, from \$200 to \$1000 for synthetic minor State permit to operate sources and from \$200 to \$500 for all other State permit operate sources

The State's air pollution control program also is funded from sources other than the Maryland Clean Air Fund including General Funds, Special Funds, Federal Funds and Reimbursable Funds.

Additional Discussion

The Department of the Environment supports its Radiological Health Program primarily with fees levied on persons or firms possessing and using radiation machines and radioactive materials.

The fee to cover the costs of inspecting and regulating each dental radiation machine is established in the Maryland Code. All other types of fees are established by regulation, designed to cover the costs of the Department in issuing licenses, registrations, certifications and to regulate the use of the machines or

Fees are charged annually to two groups of Radioactive Materials users. An annual fee is charged for users holding a Maryland Radioactive Material License. An identical fee is charged to an out-of-state user working in Maryland, under reciprocal recognition of the U.S. Nuclear Regulatory Commission Agreement. Other fees apply to Sealed Source and Device registration and to annual general license fees.
