September 30, 2015

To the Members of the Board of Education and Citizens of Anne Arundel County:

In compliance with the Public School Laws of the State of Maryland, the Division of Financial Operations publishes the Comprehensive Annual Financial Report of the Board of Education of Anne Arundel County which governs Anne Arundel County Public Schools (AACPS). Management is responsible for the financial information and representations contained in the financial statements and other sections of the annual report. In preparing the financial statements, the staff of the Division of Financial Operations makes estimates and judgments based on the best currently available information related to the effects of certain events and transactions.

The Comprehensive Annual Financial Report is presented in three sections: introductory, financial, and statistical. The introductory section includes this transmittal letter, the government's organizational chart, and a list of principal officials. The report of our independent public accountants, CliftonLarsonAllen LLP, appears at the beginning of the financial section of the report. Their audit of the basic financial statements was performed in accordance with auditing standards generally accepted in the United States of America. It included a review of the school system's budgetary and accounting controls.

Generally accepted accounting principles require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The Anne Arundel County Public Schools' MD&A can be found immediately following the report of the independent auditors.

All funds of the Board of Education (the Board) are included in this Comprehensive Annual Financial Report. For financial reporting purposes, the Board has been defined as a component unit of the Anne Arundel County Government (the County). Therefore, the Board of Education is included in the Comprehensive Annual Financial Report of Anne Arundel County.

The Single Audit Act and Office of Management and Budget (OMB) Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations," govern the auditing of federal awards made to non-federal entities. Information related to this single audit, including the supplemental schedule of federal grant awards, and independent auditors' reports on compliance and internal controls related to federal programs will be issued in a separate report on or before December 31, 2015.

This report is distributed in a manner which makes the financial information available to all interested parties. Copies are furnished to members of the Board, the Superintendent and staff, appropriate officials of the Federal Government, State of Maryland, Anne Arundel County, and the county libraries. Copies are also furnished upon request to other school districts, individuals, and organizations. The report may be found on the school system's web site: *www.aacps.org*.

Members of the Board of Education Page 2 September 30, 2015

All matters relating to education and operations in Anne Arundel County Public Schools are governed and controlled by the Board, as provided by the Public School Laws of Maryland. The Board has the authority to establish schools and to determine the geographical attendance areas for all schools.

AACPS is the 5th largest school system in Maryland with an enrollment that exceeds 80,000 students. It operates 79 Elementary, 19 Middle and 12 High schools. In addition it has responsibility for 21 *Alternate Educational Centers* that include Charter Schools and Evening High School Programs. Projections show that the student population will continue to grow and is expected to reach 84,985 in 2019. Detailed information on enrollments, school buildings, cost per pupil, insurance in force, and other supplemental information are included in the statistical section of the report. This information is presented for purposes of supplemental analysis, and management believes the information is accurate and complete.

STAFF AND STUDENT ACHIEVEMENTS

Anne Arundel County Public Schools is one of the best school systems in Maryland, a state considered among the leaders in the nation in education. AACPS continued to surpass the state four-year graduation rate and the district saw significant improvement in the graduation rate for several racial and ethnic student groups, students who receive special education services, and those who receive free and reduced-price meals, according to data released by the Maryland State Department of Education. AACPS' four-year graduation rate – measured by the percentage of students who receive diplomas four years after entering high school, rose more than 2 percentage points, from 85.57 percent (Class of 2013) to 87.75 percent (Class of 2014). AACPS' rate is more than 1.3 points higher than the state rate of 86.39 percent. Our schools, students, and employees continue to be recognized on state, local, and national levels.

Here are just a few of their accomplishments in the 2014-2015 school years:

- Jeanne Luning Prak of *Broadneck High School*, Cassandra Boyle of *South River High School*, and Jamie Shade of *Old Mill High School* are the most recent students to be added to the impressive list of National Merit Scholars, announced recently by the National Merit Scholarship Corporation.
- **Desmond Beggarly** is a senior and salutatorian at *Glen Burnie High School*, and for the first time in 26 years, is a repeat winner of the Ed Casey Youth of the Year Award. A panel of seven judges said they were impressed with how Beggarly overcame obstacles, including homelessness, to achieve success. Desmond became the winner of the State Youth of the Year award as well.
- *North County High School* student **Jack Andraka** invented an early detection test for pancreatic cancer, was invited as first lady Michelle Obama's guest for the 2013 State of the Union address, had an audience with the Pope, and has received acceptance letters from some of the nation's top colleges, among many other accomplishments. Last month, his memoir, "Breakthrough: How One Teen Innovator Is Changing the World," was published by HarperCollins.
- Chloe Diggs of *North County High School* and Christopher Umanzor of *Old Mill High School* have been named winners of prestigious Gates Millennium Scholarships that will pay the bulk of their expenses for undergraduate, graduate school, and post-graduate education.

They are the sixth and seventh county students in the last four years to claim one of the 1,000 scholarships awarded by the Bill & Melinda Gates Foundation.

- South River High School sophomore Ava Grounds claimed the grand award at the 48th annual Anne Arundel County Regional Science and Engineering Fair, and schoolmates Ashlee Brennan and Hannah Hall made it a clean sweep of the two awards by taking second with their joint project.
- *Southern High School* student **Bailey Stalnaker** won the bull-riding competition at the Maryland High School Rodeo Association State Championships. The victory qualified him to compete in the National High School Finals Rodeo in Rock Springs, Wyoming.
- *The South River High School* **Power Hawks FIRST Robotics Team** joined the ranks of the world's elite by earning the Regional Chairman's Award at the recent New York Tech Valley Regional FIRST Robotics competition. The Power Hawks are the first county team to win the award, considered the most prestigious in the scholastic robotics world.
- Members of the Class of 2014 received more than \$136.1 million in scholarship offers, a record for the school system and an amount that is nearly 7 percent higher than the Class of 2013. Eight of the county's 13 high schools pulled in more than \$10 million in offer each, with South River's \$18.6 million leading the way.
- Fifty-nine middle and high school students from across the county have been recognized as being among the best in Maryland by earning All-State status from the Maryland Music Educators Association. The students were among more than 6,000 who auditioned for Junior Band, Senior Band, Junior Orchestra, Senior Orchestra, Jazz Band, Junior Chorus, Senior Women's Chorus, and Senior Mixed Chorus.
- Recognizing the focus and ambition it takes to be successful academic achievers and community contributors, the A Tribute to Women of Color (ATWOC) organization will honor the work of 33 young men and women from across the county at its 22nd annual awards luncheon.
- 31 Anne Arundel County Public Schools students were named 2015 Carson Scholars. The awards are given annually by the foundation of retired Johns Hopkins neurosurgeon Dr. Ben Carson. The Carson Scholars Fund awards college scholarships to students in grades 4 through 11 who excel academically and are dedicated to serving their communities.

Staff Achievements:

- *Glen Burnie High School* dance teacher **Dianne Rosso** represented Maryland in the 2014 Ms. Senior America Pageant. Her accomplishments include introducing a dance curriculum for credit that includes a "Dance for the Athlete" class that has been featured in national dance magazines, in newspapers, and on television.
- *Freetown Elementary School* first-grade teacher **Susan Burg** has been named Anne Arundel County's winner of the 2015 Agnes Meyer Outstanding Teacher Award by *The Washington Post*. The award recognizes teachers in prekindergarten through 12th grade who ensure students receive a high-quality education through first-class and creative instruction.

Members of the Board of Education Page 4 September 30, 2015

- Olivia Weathers, chief custodian at *Linthicum Elementary School*, saw a student having difficulty swallowing and patted him on the back. Then he looked up and made a motion to his throat that he was choking and her response was automatic she picked him up and administered the Heimlich maneuver successfully.
- *Park Elementary School* Principal **Sandy Blondell** has been named a recipient of the Distinguished Educational Leader Award (DELA) by *The Washington Post*. DELA recognizes "those principals who go beyond the day-to-day demands of their position to create an exceptional educational environment."
- Jennie Merrill, a fifth-grade teacher at *Severna Park Elementary School*, was named the 2014-2015 Anne Arundel County Public Schools Teacher of the Year. She will now represent county public school teachers as the school system's nominee for Maryland Teacher of the Year.
- This year, 61 Anne Arundel County Public Schools (AACPS) educators are among an elite group nationwide to achieve National Board Certified (NBC) status, the highest teaching credential in the nation. AACPS now boasts 434 NBC teachers who completed the rigorous assessments.

School Awards and Accomplishments:

- Five county high schools (*Severna Park, Annapolis, Broadneck, Old Mill, and Arundel*) rank in the top 50 in the region when it comes to preparing their students for the rigors of college, according to a recent survey by The Washington Post. The newspaper's *Most Challenging High Schools* Index is an annual barometer of the efforts made by schools prepares students for college-level coursework and exams.
- Lake Shore and Severna Park elementary schools were among the six schools to be named 2015 Maryland Blue Ribbon Schools of Excellence. Eighteen county schools have now earned the prestigious state honor given by the Maryland State Department of Education (MSDE). The Severna Park Cluster is the first in Anne Arundel County with all of its schools as Blue Ribbon winners
- *Linthicum Elementary School* was named a *National Blue Ribbon School* by U.S. Secretary of Education Arne Duncan, becoming the 13th county school and the first in the North County cluster to receive the prestigious honor. Linthicum, one of the 337 schools across the nation to be recognized this year, is the fifth county school in the last seven years to receive the distinction.
- *Meade Heights* and *Pershing Hill* elementary schools have received national recognition from the *Alliance for a Healthier Generation* for their efforts to fight childhood obesity. The group bestowed bronze awards on both schools, honoring them for leading comprehensive health, physical activity, and wellness efforts during the 2014-2015 school years.
- For the second time in four years, *Oakwood Elementary School* has done what very few schools do even once. It's the only school in the county and one of four from Maryland to be named a *2015 National School of Character* by Character.org, a national leader and advocate for character education (they also won the national award in 2011).

Members of the Board of Education Page 5 September 30, 2015

• Eleven county public schools have earned Maryland Green School designation for the first time or have been recertified according to the Maryland Association for Environmental and Outdoor Education. Newly designated Green Schools are *Annapolis* and *Tracey's elementary schools*, and the *Center of Applied Technology South*. Recertified schools include: *Eastport, Four Seasons, Bodkin, Davidsonville*, and *Sunset* elementary schools, *Severna Park* and *Wiley H. Bates* middle schools, and *Ruth Park Eason School*.

Other Accomplishments:

- For the third consecutive year and fifth time overall, the National Procurement Institute (NPI) has recognized Anne Arundel County Public Schools' Purchasing Office as one of the best in the United States. Just six organizations in Maryland and 23 across the United States earned the award.
- In its first *Great Give* effort, the Anne Arundel County Public Schools community made a strong showing by raising more than \$21,000 to supplement and enhance programs and resources for students. With nearly 350 donors, the school system had the third highest number of donors among the 170 non-profit groups that participated in the Great Give 2015.

FINANCIAL INFORMATION

The Board believes that all students have the right to educational opportunities that will permit them to realize their full potential as informed and productive citizens in a democratic society. Anne Arundel County Public Schools wants to provide the highest quality education in the State. Toward this end, we are committed to ambitious goals that will serve all students' individualized needs. Attaining these goals and objectives – accelerating student achievement, a safe and orderly environment, communication and community collaboration – will ensure that students graduate from our schools endowed with basic and advanced skills that will allow them to enter higher education or the workforce.

All children should have the opportunity for a quality education conducted in a caring and disciplined environment, and accomplished at a cost in keeping with the best principles of financial management and responsibility to taxpayers. The cost of public education in Maryland is financed primarily by the county and State of Maryland. Local Boards of Education in Maryland have no tax levying or borrowing authority and are required to maintain accounting records in a uniform format.

Management maintains a system of budgetary and accounting controls designed to ensure the reporting of reliable financial information. The system is designed to provide reasonable assurance that assets are safeguarded and transactions are recorded and executed with Management authorization. Internal control systems are subject to inherent limitations because of the need to balance costs against the benefits produced. Management believes that the existing system of budgetary and accounting controls provides reasonable assurance that errors or irregularities that could be material to the financial statements are prevented or would be detected within a timely period.

The Board utilizes a detailed line item budget which is prepared according to the guidelines and requirements set forth in the Public School Laws of Maryland, the Bylaws of the State Board of Education, and the State Financial Reporting Manual. The operating and capital budgets are deliberated by the Board through a series of public hearings and forwarded to the County Executive and County Council for their consideration as the funding authority. Under state law, the County government sets the appropriation levels by major categories and projects for the Board. The Board Members of the Board of Education Page 6 September 30, 2015

may transfer funds among major categories or projects with approval of the County government. The Board has the authority to transfer funds within the major categories.

The Board is provided a monthly financial update for the General Fund, and annual budget information and financial statements are available to officials, staff, and the public on the website. Interim financial statements are prepared for the Capital Projects Fund and are distributed to the Board, County officials, and school system administrators. The statements for the Capital Projects Fund include the appropriation balances remaining to be spent by project, category, and/or object of expenditure. Financial reports and/or statements prepared as often as required for the Food Service Fund, grant programs, and other funds are distributed to management and the various funding agencies.

Administrators and school principals have daily information available showing the status of the expenditure accounts for which they are responsible. This information includes a detail of transactions and a summary of the balances to be spent from the appropriations allocated for goods and services among the programs so managed. The General Fund and Capital Projects Fund also have a test for the availability of a funding source in the accounting system which precludes any requisition for services, equipment, or supplies and materials from becoming an encumbrance if the account or group of accounts would be over-obligated.

MISSION, VISION AND GOALS

It is the mission of our school system to educate all of our students to be well-prepared for college and the workforce and to empower them to create a better quality of life for themselves, their communities, and the next generation. Our ultimate goal is to ensure that every student meets or exceeds standards as achievement gaps are eliminated. While our students are enrolled in our schools, we believe it is our responsibility to also instill in them the values of leadership, innovation, compassion, social responsibility, and environmental stewardship.

In order for us to achieve our goal, we believe strongly that we must establish and maintain caring and supportive educational environments that allow every student to reach his or her full potential. We take seriously our obligation to Anne Arundel County taxpayers to expend the resources they provide us in a cost-efficient and fiscally prudent manner. This effort requires the work not only of AACPS employees, parents, and students, but of every resident of our county.

LOCAL ECONOMY, FINANCIAL CONDITIONS, AND PLANNING

The Board's major funding sources, Anne Arundel County and State of Maryland, have started recovering from the last few years of economic downturn, albeit slowly. As these tough economic times continue, the Board has to balance between the needs of the school system with the recognition of the fiscal constraints of the State of Maryland and Anne Arundel County. Increases in federal, state and local revenues resulted in the approval of \$1.02 billion operating budget. State aid formulas were fully funded and County funds totaled \$603.5 million, an increase of \$7 million (a 1.17% increase). Due to prevailing low interest environment, investment earnings have provided relatively negligible source of revenue. Despite the constraint on resources, no school-based programs were impacted in fiscal year 2015.

Due to these economic factors, the Board continues to examine ways to reduce costs and still maintain a higher level of service to our students and citizens. For example, the Board employees

Members of the Board of Education Page 7 September 30, 2015

continued to work four extended days for five weeks this summer so that buildings could be closed on Fridays to save energy and transportation costs.

The County continues to anticipate future growth in enrollment as new residents move into the area as a result of the Base Realignment and Closure (BRAC) plans and an increase in the influx of immigrant population which is putting an additional burden on the school system. This growth should boost some revenue sources but, coupled with the economic constraints noted above, will challenge the Board and management to examine ways to reduce costs, while still providing for growth and maintaining a higher level of service to our students and citizens.

GFOA AND ASBO CERTIFICATES

The Government Finance Officers Association (GFOA) of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting to Anne Arundel County Board of Education for the fiscal year ended June 30, 2015. The award is shown on page 11 of this report. For thirty-three (33) consecutive years, Anne Arundel County Board of Education has received the GFOA Certificate of Achievement for Excellence in Financial Reporting.

The Anne Arundel County Public Schools also received the Association of School Business Officials (ASBO) Certificate of Excellence in Financial Reporting for the Fiscal Year Ended June 30, 2015. The award is shown on page 12 of this report. For thirty-four (34) consecutive years, Anne Arundel County Board of Education has received the ASBO Certificate of Excellence in Financial Reporting. We believe our current report continues to conform to the requirements of these programs, and we are submitting it to GFOA and ASBO to determine its continuing eligibility for the certificates.

ACKNOWLEDGMENTS

The preparation of this report could not have been accomplished without the efficient and dedicated services of the entire staff of the Division of Financial Operations, the Internal Auditing Office, and others. We would like to express appreciation to all those who assisted in the closing of the school system's financial records and the preparation of this report. Also, we would like to express our appreciation to other departments and individuals who assisted in the preparation of this report.

Members of the Board of Education Page 8 September 30, 2015

CONCLUSION

Should you have any questions about the financial details, needs, or plans for Anne Arundel County Public Schools, please do not hesitate to call or write the Division of Financial Operations.

Independent Auditors' Report

Members of the Board of Education of Anne Arundel County Annapolis, Maryland

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, the general fund budgetary comparison, and the aggregate remaining fund information of the Board of Education of Anne Arundel County (the Board), a component unit of Anne Arundel County, Maryland, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Board's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, the general fund budgetary comparison, and the aggregate remaining fund information of the Board of Education of Anne Arundel County as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

Change in Accounting Principle

During fiscal year ended June 30, 2015, the Board adopted GASB Statement No. 68, Accounting and Financial Reporting for Pension and the related GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68. As a result of the implementation of these standards, the Board reported a restatement for the change in accounting principle (See Note 13). Our auditors' opinion was not modified with respect to the restatement.

Correction of an Error

As described in Note 13 to the financial statements, the Board restated beginning net position of the governmental activities and Self Insurance Fund resulting from the correction of an accounting error that occurred in the prior period. Our opinion was not modified with respect to the restatement.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management discussion and analysis on pages 19 through 31, the schedules of funding progress on page 70, the schedule of the Board's proportionate share of the net pension liability on page 71, and the schedule of board contributions on page 72 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Board of Education of Anne Arundel County's basic financial statements. The combining fund statements and schedules and schedule of revenues, expenditures and changes in fund balances as listed in the accompanying table of contents, collectively referred to as supplementary information, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relates

directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and statistical tables listed in the table of contents have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 8, 2015, on our consideration of the Board of Education of Anne Arundel County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the result of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Board's internal control over financial reporting and compliance.

Management's Discussion and Analysis

This section of the Board of Education of Anne Arundel County's (the Board) annual financial report presents management's discussion and analysis of the Board's financial activities during the fiscal year ended June 30, 2015.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of financial resources of the Board exceeded its liabilities and deferred inflows of financial resources at the close of the fiscal year ended June 30, 2015, by \$582,517,162, an increase of \$10,268,507 from the restated fiscal year 2014 net position of \$572,248,655. There was an increase in the Other Post-Employment Benefits (OPEB) liability of \$53,125,000 and each year as projected retiree health care costs continue to escalate and since there is no annual contribution toward an OPEB plan, we anticipate that the OPEB liability will continue to show an upward trend. Capital assets increased due to major construction projects such as Severna Park High School, several elementary schools, maintenance and renovation projects, and the capital improvements necessary to facilitate an all-day kindergarten and pre-kindergarten program.
- At the close of the current fiscal year, the Board's General Fund reported a total fund balance of \$43,916,297. Of this amount, \$12,500,000 has been appropriated in fiscal year 2016, \$16,122,722 is restricted for specific uses by outside parties, and \$10,122,021 is encumbered for specific purchases.
- The unassigned fund balance in the General Fund of \$3,616,065 may be used to meet the Board's ongoing obligation to the citizens and children of Anne Arundel County.
- At the end of the current fiscal year, the Special Revenue (Food Services) Fund had a fund balance of \$5,420,821, which will only be used to support the Board's food service program.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Board's basic financial statements. The Board's basic financial statements consist of: (1) Government-Wide financial statements, (2) fund financial statements, (3) budgetary comparison statement - General Fund, and (4) Notes to the Basic Financial Statements.

Government-Wide Financial Statements

The Government-Wide financial statements are designed to provide readers with a broad overview of the Board's finances, in a manner similar to a private-sector business. The Statement of Net Position presents information on all of the Board's assets, deferred outflows of financial resources, liabilities and deferred inflows of financial resources, with the difference between them reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Board is improving or deteriorating.

The Statement of Activities presents information showing how the Board's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation leave).

Management's Discussion and Analysis

All of the Board's basic services are included in the Government-Wide statements. These statements reflect, in total, the results of the governmental funds (i.e. General Fund, Capital Projects Fund, Food Services Fund, and Other Governmental Funds) and the Internal Service Fund (i.e., Self- Insurance Fund). Expenses are shown by function (State Budget Category). Revenues are shown as charges for services, operating grants and contributions, capital grants and contributions, or general revenue. This breakdown shows the amount of general county revenue and unrestricted federal and state revenue that supports the Board's mission. The Government-Wide financial statements can be found on pages 33 and 34 of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Board, like other governmental units, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Board can be divided into three categories: Governmental Funds, Proprietary Funds, and Fiduciary Funds.

<u>Governmental Funds</u> - Governmental funds are used to account for essentially the same functions as those reported in the Government-Wide financial statements. However, unlike the Government-Wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a Board's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the Government-Wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented in the Government-Wide financial statements. By doing so, readers may better understand the long-term impact of the Board's near-term decisions. The Governmental Funds Balance Sheets and the Governmental Funds Statements of Revenues, Expenditures, and Changes in Fund Balance provide a reconciliation to facilitate this comparison between governmental funds and Government-Wide financial statements.

The Board maintains eight individual governmental funds. Information is presented separately in the Governmental Fund Balance Sheets and in the Governmental Funds Statements of Revenues, Expenditures, and Changes in Fund Balances for the General Fund, Capital Projects Fund and Special Revenue (Food Services) Fund and non-major Governmental Funds. The basic governmental fund financial statements can be found on pages 36 - 38 of this report.

<u>**Proprietary Funds</u>** - Proprietary Funds provide the same type of information as the Government-Wide financial statements. Internal service funds are an accounting device used to accumulate and allocate costs internally among the Board's various functions. The Board uses an internal service fund to account for the cost of medical, dental, vision, disability, and life insurance benefits provided to employees and retirees. The basic proprietary fund financial statements can be found on pages 40 - 42 of this report.</u>

<u>Fiduciary Funds</u> - Fiduciary Funds are used to account for resources held for the benefit of parties outside the government. Fiduciary Funds are not included in the Government-Wide financial statements because the resources of those funds are not available to support the Board's own programs. The basic Fiduciary Funds financial statements can be found on pages 43 and 44 of this report.

Management's Discussion and Analysis

Budgetary Comparison Statement

The budgetary comparison statement as presented on page 39 shows the original appropriated budget, the final adopted budget including transfers and supplemental appropriations as approved by the County. Differences between the legally prescribed reporting requirements and generally accepted accounting principles (GAAP) in the United States of America are set forth in Note 2 of the Notes to the Basic Financial Statements on page 52.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the Government-Wide and fund financial statements. The Notes to the Basic Financial Statements can be found on pages 45 - 69 of this report.

Required Supplemental Information

The financial statements also contain required supplemental information in addition to the basic financial statements themselves, containing a schedule of funding progress for pension and other postemployment benefit plans. The schedule of funding progress can be found on page 70 of this report. In addition tables related to the Board's proportionate share of pension liability and schedule of Board contributions are shown in page 71 and 72 of this report.

Management's Discussion and Analysis

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Statement of Net Position

The schedule below presents a comparison of Net Position for the Board's governmental activities:

Table 1: Comparative Schedule of Net Position

| | | | 2014 |

| Total Net Position | \$ 582,517,162 | \$ | 617,047,445 |

*The Board implemented GASB Statement No. 68 effective July 1, 2014. The 2014 amounts presented have not been restated to reflect the implementation of GASB 68. However, the 2014 amounts have been restated to reflect a correction of an error. Please refer to Note 13 on page 66.

Management's Discussion and Analysis

As noted earlier, net position may serve over time as a useful indicator of the Board's financial position. Assets and deferred outflows of financial resources exceeded liabilities and deferred inflows of financial resources by \$582,517,162 at the close of fiscal year ended June 30, 2015. By far the largest portion of the Board's net position reflects its investment in capital assets (e.g., land, buildings, software, furniture and equipment), less accumulated depreciation and retainage payable related to capital assets and any related outstanding capital leases used to acquire those assets. The Board uses these assets to provide educational and other related services; consequently, these assets are not available for future spending.

The long-term liabilities represent the estimated amount due for unfunded pension liability (GASB 68), compensated absences (annual and sick leave), health care OPEB liability, and capital leases in periods beyond fiscal year 2015.

As said earlier, effective for fiscal year 2015 the Board adopted GASB 68. AACPS, which is considered a Participating Governmental Unit (PGU) of MSRPS, is required to report its proportionate share of the systems unfunded liability attributable to AACPS employee system participants, as the close of fiscal year 2015 and for each fiscal year thereafter. Accordingly, the Net Pension Liability (NPL) attributable to AACPS for fiscal year 2015 stands at \$45,779,604. Additional details for long-term liabilities can be found in Notes 9 - 13 on pages 58 – 66 of this report.

Statement of Activities

The following schedule compares the changes in governmental activities net position from fiscal year 2015 to 2014.

*The Board implemented GASB Statement No. 68 effective July 1, 2014. The 2014 amounts presented have not been restated to reflect the implementation of GASB 68. However, the 2014 amounts have been restated to reflect a correction of an error. Please refer to Note 13 on page 66.

County and State funding continue to provide a substantial portion of the revenues. In fiscal year ended 2015, the County funding totaled \$621,775,976 of unrestricted revenues and \$120,013,261 of construction funds. Total County funding was 59.9% and 57.5% of total revenues in fiscal year 2015 and 2014, respectively. In fiscal year 2015 the State provided \$282,280,594 for unrestricted operating funds

Management's Discussion and Analysis

and \$138,611,928 of grants for restricted programs and construction. State sources comprised 34.0% and 36.3% of total revenues in fiscal years 2015 and 2014, respectively.

Operating grants for instructional and special needs of students continue to be available as a result of the aggressive grant application strategy undertaken by the Board as well as the federal stimulus funding for education. In addition to the food services grants of \$18.2 million, \$22.2 million transportation funding and \$54.6 million in other Special Education funding, the Board managed over 100 restricted grants totaling approximately \$43.0 million during the fiscal year ended June 30, 2015. This compared to \$41.3 million the previous year. The increase in grant funding was primarily a result of the final year of Race to the Top funds.

FINANCIAL ANALYSIS OF FUND FINANCIAL STATEMENTS

As noted earlier, the Board uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The focus of the Board's governmental funds is to provide information on near-term inflows, outflows, and fund balances. Such information is useful in assessing the Board's resources available for spending at the end of the fiscal year. The governmental funds include the General Fund, the Food Services Fund, the Capital Projects Fund, and several smaller special revenue funds. The Self Insurance Fund is an internal service fund utilizing Board, employee, and retiree health insurance contributions to pay for health care costs.

General Fund

Anne Arundel County increased their funding of the Board's operating budget from fiscal year 2014 to 2015 by \$8,012,342. The increase is exclusively due to an increase in student enrollment as Maintenance of Effort was met in 2015. The State of Maryland funding increased \$10,251,753 due to increase in total students as well as increase in eligible students under compensatory education and limited English proficiency programs. Federal funding increase of \$1,282,292 reflects the final year of the Race to the Top funds.

The total expenditures for fiscal year 2015 increased by \$14.9 million compared to fiscal year 2014. When comparing expenditures in fiscal year 2015 to 2014, four substantial fluctuations are noted. Instructional Salaries increased by \$14.9 million due to the teachers receiving a step and a scale salary adjustment while all other employees received a 2% COLA equivalent. Pupil transportation increased by \$1.3 million due to the increase in the number of students being transported. Special education expenditures increased by \$5.8 million due non-public tuition cost increases. There were decreases in Fixed Charges of \$7.0 million due to a reduction in the employer's share of health care contributions.

Special Revenue (Food Services) Fund

The table that follows provides a summary of the revenues and expenditures for this fund for fiscal year 2015 and 2014. The total revenues for the fiscal year ended June 30, 2015 were \$28,853,768. Related expenditures were \$28,374,607, resulting in a net increase in fund balance of \$479,161. This resulted in a fund balance of \$5,420,821 at June 30, 2015. Federal regulations provide for the maintaining of a fund balance equal to an amount not to exceed three months expenditures so that funds are available to pay bills promptly and to handle emergency situations. The Food Services Fund balance complies with this limit.

During fiscal 2015 the price of student breakfast and lunch was increased by 15 cents. Although the number of lunches and breakfasts served increased, the revenue from the sale of food was relatively flat from the prior year due to an increase in free lunches by 172,130 and breakfasts served by 278,599.

Management's Discussion and Analysis

The total number of lunches and breakfasts served in 2015 went up by 445,823 and 650,490 respectively. There was an improvement in the collection from delinquent student accounts through improved procedures for monitoring and collection. Additional Federal revenue of \$1,915,905 is the result of the increased number of Free & Reduced priced meals served to eligible students. The increase in equipment costs is due to the Board's replacement of several old freezers and other kitchen equipment. Percent increase (decrease) in revenues and expenditures over the previous year is shown in the following tabulations:

Table 3. Food Services

| | Tant . | | 0 | | % Increase (Decrease) from |

| Equipment | | 632,745 | | 390,377 | 62.1% |
| Total Expenditures | \$ | 28,374,607 | \$ | 25,954,457 | 9.3% |

Capital Projects Fund

Spending for new construction and renovation of facilities through the Capital Budget increased by \$24.2 million from \$119.3 million in fiscal year 2014 to \$143.5 million in fiscal year 2015. Spending for Severna Park High School construction increased to \$25.0 million and Benfield Elementary to \$11.5 million which was offset by completion of projects, including schools such as George Cromwell Elementary School and Northeast High School.

Self-Insurance Fund

The Board maintains this internal service fund to account for employee medical, dental, vision, disability, and life insurance. The Board has a self-insured medical, prescription drug, dental and vision program with CareFirst. The Federal Government, through the Medicare Program, provided the Board with subsidies to cover a portion of the cost of prescription drugs for eligible retirees and provided rebates for the costs of health care for early retirees. These federal sources totaled \$1,816,978 in fiscal year 2015. Nationally, health care costs continue to rise at rates in excess of general inflationary trends.

Management's Discussion and Analysis

The Board's health care self-insured and insurance premium costs were \$157,218,305, an increase of \$13,901,829, or 9.7% from the prior year. Board contributions to the Self-Insurance Fund decreased by \$14,220,111 in fiscal year 2015 compared to 2014 as a part of budget balancing actions.

The table below provides a comparative presentation of this fund's revenues and expenses for fiscal year 2015 and 2014. In fiscal year 2014 insurance claims and expenses have been restated by \$3,834,912 to reflect the drug rebates received for fiscal year 2014 in fiscal year 2015, effectively reducing insurance claims and expenses.

Table 4: Health Insurance Fund

| <u>Revenue Source</u> | 2015 | 20 | 14 (restated) | Percent Increase (Decrease) from Previous Year |

ANALYSIS OF BUDGETARY BASIS STATEMENTS

General Fund (Operating Budget)

The total revenues for the fiscal year ended June 30, 2015, for the General Fund, on a non-GAAP, Budgetary basis, were \$982,710,270. Related expenditures were \$990,290,590. The Board realized a favorable liquidation of prior year encumbrances of \$1,196,171. This activity combined with a fund balance from the prior year of \$22,083,202 resulted in a budgetary fund balance of \$15,699,053.

The increase in the General Fund operating budget from the original approved budget to the final budget was \$52,484,000 of which \$ 41,578,500 is related to the State Board opinion No. 14-16 requiring full budgeting of all self-insured revenues and expenditures; however, the Internal Service Fund is not a component of the General Fund, these revenues will never be recognized in the General Fund Statement. The major reason for increases to the budget is increased enrollment which caused state and county formula funding to increase. The final budgets for Textbooks & Instructional Supplies increased

Management's Discussion and Analysis

\$3,310,800 due to Race to the Top technology purchases for schools, Operations increased by \$3,576,600 during the fiscal year due to projected utility costs, and other categories increased \$4,018,100.

Expenditures realized were under the final approved budget by \$54,011,710, of which \$37,935,700 is related to the State Board opinion No 14-16 requiring full budgeting of all self-insured revenues and expenditures; however, the Internal Service Fund is not a component of the General Fund, these expenditures will never be recognized in the General Fund statements. Approximately \$2,734,525 savings in operational cost occurred in the operations category. About \$3,795,300 is due to restricted grants not fully utilized and being carried over to 2016. \$9,546,360 million is a result of funding not being used across all categories, representing just less than 1 % of approved final budget.

The following table provides the budgetary results for fiscal year 2015.

CAPITAL ASSETS AND CAPITAL PROJECTS FUND

The Board's investment in capital assets net of accumulated depreciation and retainage as of June 30, 2015, was \$1,019,953,023. This investment in capital assets includes land, buildings, software, furniture, and equipment as well as construction in progress. Several school improvement projects for a total of \$159 million were completed and put into service in 2015 causing an increase in the buildings and additions category. However, construction in progress decreased. Additional information on the Board's capital assets can be found in Note 7 on pages 56 - 57 of this report.

Management's Discussion and Analysis

NONCURRENT LIABILITIES

The following table presents the balances in noncurrent liabilities:

Table 8: Noncurrent Liabilities

For year ended June 30

| | 2015 | | 2014* |
|----------------------------------|------|-------------|-------------------|
| Capital Leases | \$ | 12,793,928 | \$ 14,625,727 |
| Compensated Absences | | 38,720,695 | 38,219,265 |
| Net Pension Liability/Obligation | | 45,779,604 | - |
| Net OPEB Obligation | | 435,303,000 | 382,178,000 |
| Total Noncurrent Liabilities | \$ | 532,597,227 | \$ 435,022,992 |

*The Board implemented GASB Statement No. 68 effective July 1, 2014. The 2014 amounts presented have not been restated to reflect the implementation of GASB 68.

The Board leases equipment under several agreements each fiscal year. The most significant capital leases relate to the computer equipment refresh program. Each year the Board uses the proceeds of the new lease to refresh older computers and other equipment. The balance of the capital lease obligation has decreased approximately \$1,831,799, or 12.5%.

The obligation for compensated absences is relatively consistent with fiscal year 2015 obligation at \$38,720,695 compared to \$38,219,265 in 2014. Total liability for accumulated sick leave stood at \$18,339,293, while the annual leave payout and personnel business day payout stood at \$19,656,299 and \$725,103, respectively. The net obligation for employees' post-retirement health care continues to grow as the escalation of health care costs causes projected claims to increase significantly. Additional information on the Board's noncurrent liabilities can be found in Notes 9 - 12 on pages 58 - 61 of this report.

COUNTY FINANCIAL OUTLOOK

Anne Arundel County is fortunate to have a balanced economy enabling the county to remain steady during national economic fluctuations. The County's diverse economic base ranges from a strong government sector supported by the presence of Fort George G. Meade and the National Security Agency, a stable tourism sector, and home to one of the State's most important economic engines, Baltimore/Washington International Thurgood Marshall Airport.

One key driver of the County's sustained economic performance is federal procurement spending. Anne Arundel County ranks number one in Maryland for defense procurement contracts. Defense procurement spending continues at a high pace due to the expansion at Fort George G. Meade as a result of the Base Realignment and Closure process (BRAC). The National Security Agency (NSA) is also continuing its expansion by hiring additional personnel over the next several years. Additional growth of personnel is projected as contractors cluster around Fort Meade to support government agencies located on the base.

Although the factors noted above have lessened the effect of the difficult economic times for Anne Arundel County, resources at the State and County levels have declined over the past years which have

Management's Discussion and Analysis

tightened the available revenue for the Board. Unfortunately, predictions are that the Board will continue to receive, at most, minimum increases required by law, which may not fully cover anticipated growth in operating expenses despite ongoing cost containment measures.

Requests for Information

This financial report is designed to provide a general overview of the Board's finances for all those with an interest in the system's finances. Questions concerning any of the information provided in this report, or requests for additional finance information, should be addressed to the Division of Financial Operations, 2644 Riva Road, Annapolis, Maryland 21401.

GOVERNMENT-WIDE

FINANCIAL STATEMENTS

The Government-Wide financial statements are designed to provide readers with a broad overview of the Board's finances, in a manner similar to a private-sector business.

FUND FINANCIAL STATEMENTS

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Board, like other governmental units, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the Board funds can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions as those reported in the Government-Wide financial statements. However, unlike the Government-Wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a school system's near-term financing requirements.

Proprietary Funds

Proprietary Funds provide the same type of information as the Government-Wide financial statements. Internal Service Funds are an accounting device used to accumulate and allocate costs internally among the school system's various functions. The Board uses an Internal Service Fund to account for the cost of health, dental, vision, disability and life insurance benefits provided to employees and retirees.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not included in the Government-Wide financial statements because the resources of those funds are not available to support the Board's own programs.

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balance of Governmental Funds to the Statement of Activities For the Year Ended June 30, 2015

| Net Change in Fund Balance - Total Governmental Funds | (4,833,538) |
|--|---------------------------|
| Amounts reported in the Statement of Activities are different because: | |
| Governmental Funds report capital outlays as expenditures. However, for the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. Capital Asset Additions Governmental funds do not recognize loss on disposal of fixed assets. However, in the Statement of Activities the difference between cost and accumulated depreciation of fixed assets is recorded as a loss on disposal of fixed assets. This amount is the amount in which the cost of disposal assets of \$12,093,103 exceeded accumulated depreciation of \$11,171,045 | 129,491,345 (922,058) |
| Depreciation Expense | (50,437,337) |
| Current year portion of Board's obligation in County's Self-Insurance Fund are not considered current financial obligations and therefore are not reported as revenue in governmental funds. | (354,089) |
| Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. Compensated Absences Net OPEB Obligation | (501,430) (53,125,000) |
| The amount financed by the leases is reported in the governmental funds as a source of financing. On the other hand, capital leases are not revenues in the statement of activities, but rather constitute long term liabilities in the statement of net position. Also expenditures for principal repayment of capital leases are measured by the amount of financial resources used by governmental funds and have no effect on net position. | 1,831,799 |
| Internal service funds are used by management to charge the costs of certain activities, such as health and life insurance, to individual funds. The net revenue (expense) of the internal service funds is reported with governmental activities. | (13,077,680) |
| Governmental funds report Board's pension contribution as expenditure. However, in the statement of Activities, the cost of pension benefits earned net of employee contributions is reported as expense. | 2,196,495 |
| Change in Net Position of Governmental Activities | \$ 10,268,507 |

Notes to the Basic Financial Statements June 30, 2015

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Board of Education of Anne Arundel County (the Board) conform to generally accepted accounting principles (GAAP) in the United States of America for governmental entities.

Reporting Entity

For financial reporting purposes, the Board of Education of Anne Arundel County has been defined as a component unit of the Anne Arundel County Government. Therefore, the financial information of the Board is included in the financial statements of the Anne Arundel County Government. The following circumstances set forth Anne Arundel County's financial accountability for the Board: (1) The County Council is responsible for approving the Board's budget and establishing spending limitations; (2) The County Council is responsible for levying taxes and collecting and distributing the funds to the Board; (3) The Board cannot issue bonded debt, but the County can and does issue bonds to finance the Board's capital improvements. As a financial reporting entity, the Board includes in its financial statements the various operating departments of the Board and the public schools within Anne Arundel County. No other entities have been included in the Board's financial statements.

<u>Government-Wide and Fund Financial Statements</u> - The Government-Wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the Board. The effect of interfund activity has been removed from these statements. Interfund activity between the governmental funds and the fiduciary funds are not eliminated as these fund types are not combined in the financial statements.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or category. *Program revenues* include 1) charges to students, parents, or others who purchase, use, or directly benefit from a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Revenue not properly included among program revenues are reported instead as *general revenues*. As a general rule, restricted funds are spent before unrestricted funds.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the Government-Wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

<u>Government-Wide</u> - The Government-Wide financial statements are reported using the *economic* resources measurement focus and the accrual basis of accounting, as are the Internal Service Fund and Private-Purpose Trust Funds financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

<u>Fund Financial Statements</u> - Governmental fund financial statements are reported using the *current* financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as the monies are both measurable and available. Revenues are considered to be *available* when collectible within the current period, or soon enough thereafter, to pay liabilities of the current period.

Notes to the Basic Financial Statements June 30, 2015

The Board considers revenue collected within 60 days of the end of the year as available. Under the modified accrual method, revenues from Federal and State expenditure-driven grant programs are deemed available and subject to accrual to the extent that eligible expenditures have been incurred and Federal or State funds are requested to pay invoices.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded when paid.

Food Services Fund revenue includes the value of commodities donated by the United States Department of Agriculture which were received during the fiscal year. Expenditures include the value of commodities consumed during the fiscal year.

The Internal Service Fund and Private-Purpose Trust Funds are reported using *the economic resources measurement focus* and the *accrual basis of accounting*. The Agency Fund has no measurement focus but utilizes the *accrual basis of accounting* for reporting its assets and liabilities.

Fund Types

The Board has the following funds:

<u>General Fund</u> - The General Fund is a governmental fund used to account for all financial resources of the Board used to provide the basic educational program and any financial resources that are not required to be accounted for in another fund.

<u>Food Services Fund</u> - The Food Services Fund is a governmental fund used to account for the financial resources of the school food services programs. A substantial portion of its revenues are derived from other governments and it is not intended to be self-sustaining from food sales. The Board exercises the appropriate budgetary and accounting control through use of an annual budget prepared by the Division of Food and Nutrition Services, which is reviewed and monitored by management during the fiscal year. There is no legal requirement for an approved budget.

<u>Capital Projects Fund</u> - The Capital Projects Fund is a governmental fund used to account for all financial resources relating to the construction of additional schools, as well as alterations and additions to existing schools. The budget for this fund is controlled by appropriation authority issued for each project for the life of that project. Appropriation authority does not lapse until the purpose for which the appropriation was made has been accomplished or abandoned by the Board.

<u>Non-Major Governmental Funds</u> - The Other Governmental (Special Revenue) Funds are governmental funds used to account for, and report the proceeds of, specific revenue sources that are restricted, committed, or assigned for specified purposes.

<u>Internal Service (Self-Insurance) Fund</u> - The Self-Insurance Fund is used to account for the financial resources relating to health, dental, vision, disability and life insurance benefits provided to Board employees. The Statement of Revenues, Expenses, and Changes in Fund Net Position for the Internal Service Fund has categorized revenue sources into operating and non-operating revenues. Operating revenues include Board contributions, contributions by employees and system retirees, and other contributions. Interest earnings are categorized as non-operating revenues.

Notes to the Basic Financial Statements June 30, 2015

<u>Fiduciary Funds</u> - Fiduciary funds are used to report assets held in a trustee or agency capacity for others and; therefore, cannot be used to support the Board's own programs. Fiduciary funds use the economic resources measurement and accrual basis of accounting. These funds consist of Private Purpose Trust Funds for scholarships and agency funds held for School Activity Funds, Class Reunion Funds, and certain grant funding passed through the Board to other local Boards of Education. Agency funds assets are offset by liabilities in equal amount; no fund balance exists.

Fund Equity

The Government-Wide financial statements utilize a net position presentation. The proprietary funds use a balance sheet approach, but utilize the same net position categorization as the Government-Wide statements. Net position is categorized as net investment in capital assets (net of related debt), restricted, and unrestricted.

<u>Net Investment in capital assets</u> - This category groups all capital assets including infrastructure into one component of net position. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction or improvement of these assets reduce the balance in this category. The Board did not have any outstanding debt related to capital assets, except for retainage payable of \$12,939,712, at June 30, 2015.

<u>Restricted net position</u> - This category presents net position with external restrictions imposed by creditors, grantors, or laws and regulations of other governments.

<u>Unrestricted net position</u> - This category presents the net position of the Board not restricted for any purpose.

In the fund financial statements, governmental funds report classifications of fund balance in a hierarchy based primarily on the extent of constraints on the related funding sources. In fiscal year 2015, the Board adopted the *Classification of Fund Balances policy* that provides authority, guidance and limitations for determining classification and limitations on the use of Board's fund balances. As of June 30, 2015, fund balances of the governmental funds are classified as follows:

<u>Nonspendable</u> – Nonspendable fund balance represents amounts that cannot be spent either because the related assets are not in nonspendable form or are legally or contractually required to be maintained intact. Examples of such assets are inventory, prepaid expenses and long term receivables.

<u>Restricted</u> – Restricted fund balance can only be spent for specific purposes established by constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

<u>Committed</u> – Committed fund balance can be used only for specific purposes determined by a formal action of the Board, the highest level of decision-making authority. Commitments may be established, modified, or rescinded only through Board resolution – via voting approval at a regularly scheduled Board meeting.

<u>Assigned</u> – Assigned fund balance does not meet the criteria to be classified as restricted or committed, but is intended to be used for specific purposes. Assignments may be established, modified, or rescinded only by the Board or its designee, Superintendent of school.

Notes to the Basic Financial Statements June 30, 2015

<u>Unassigned</u> – Unassigned fund balance represents all other spendable amounts not included in the other categories. A negative unassigned fund balance may be reported in other governmental funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes.

When expenditures are incurred for purposes for which both restricted and unrestricted fund balance is available, the Board considers restricted funds to have been spent first. When expenditures are incurred for which committed, assigned, or unassigned fund balances are available, the Board considers amounts to have been spent first from committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board has provided otherwise in its commitment or assignment actions.

Budgetary Requirements

<u>Operating Budget (General Fund)</u> - The Board operates within the following budget requirements for local educational agencies as specified by State law.

- The Board must submit an annual school budget in writing to the County Executive by March 1st of each year.
- The County Executive must submit a recommended budget for the Board to the County Council by May 1st of each year.
- The County Council must approve the Budget Appropriation Ordinance by June 15th of each year.
- The budget is prepared and approved by major expenditure/encumbrance categories as specified in the State law and as set forth in Note 3 of this report. The Board may not exceed the appropriation authority granted for each major category without County Government approval.
- The Board may not transfer funds between major categories without approval by the County Government. The Board has the authority to transfer funds between objects (i.e., salaries and wages, contracted services, supplies and materials, other charges and equipment) within the major categories, but must notify the County of such action.
- Unencumbered appropriations lapse at the end of each fiscal year.

Under the law, the county government sets the appropriation levels by major categories. The Board may transfer funds among the major categories only with the approval of the county government. The General Fund is the only fund that has a legally adopted annual budget. The Capital Projects Fund has a legally adopted projects budget which is for the life of the project and not by fiscal year.

Specific Financial Statement Elements

<u>Cash and Cash Equivalents</u> - Cash and Cash Equivalents are short-term investments with a maturity of three months or less when purchased. The Board's investments in money market pools, as discussed in Note 4, are considered cash equivalents and are presented as such on the Statement of Net Position and on the Balance Sheets.

<u>Inventories</u> - Inventories are recorded at the lower of cost or market on a first-in, first-out (FIFO) valuation method and are considered expended when consumed. The value of inventory at fiscal yearend is included in the nonspendable fund balance category.

Notes to the Basic Financial Statements June 30, 2015

<u>Capital Assets</u> - Capital assets, which include property, buildings, computer software, and furniture/equipment, are reported in the Government-Wide financial statements. Furniture and equipment is defined by the Board as assets with an initial, individual cost of at least \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost, if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs to buildings that do not add to the value of the asset or materially extend assets lives are not capitalized. The Board defines normal maintenance and repairs as any expense of \$250,000 or less. Major outlays for capital assets and improvements are capitalized as projects are constructed. Land and Construction in progress are not depreciated. The cost of purchasing and developing major software systems/upgrades are capitalized if internal and external development costs reach \$250,000. Buildings, software, furniture, and equipment are depreciated using the straight line method over the following estimated useful lives:

| Assets | Years | Assets | Years |
|-------------------------|--------------|-------------------------------|--------------|
| Buildings and Additions | 2 - 40 | Automobiles and Light Trucks | 10 |
| School Buses | 12 | Software | 5 - 10 |
| Heavy Trucks | 15 | Furniture and Other Equipment | 3 - 30 |

<u>Deferred Outflows of Resources</u> - A deferred outflow of resources represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expenditure) until the future period. The Board recognizes deferred outflows for changes in actuarial assumptions that are being amortized over a five-year period and contributions made subsequent to the measurement date related to pensions. The Board recognized \$8,188,185 as deferred outflows related to Pension Contributions made subsequent to measurement date, the difference between actual and proportionate share of contributions and changes in pension plan assumptions.

<u>Due To Student Groups</u> - The balance due to student groups represents financial resources held on behalf of a particular class, group, or club. If the student group were to be dissolved, all financial resources held on their behalf would become available to the general student population of the particular school. If the school were to close, the financial resources would become available to the Board for general educational use.

<u>Unearned Revenue</u> – The balance in unearned revenue is comprised of cash or receivables recorded for which the related revenue is not yet earned. At June 30, 2015, \$5,668,120 is deferred capital contributions not yet expended, \$1,444,070 represents employee health premiums collected, but not earned, \$570,084 is unexpended student account balances in the Food Services Fund, and the remaining relates to grant deferrals and deposits received in fiscal year 2015 for July 2015 summer camps.

<u>Annual and Sick Leave</u> - Board employees are granted annual and sick leave at varying rates according to type of employee and years of service. Employees may accumulate annual leave up to a maximum which varies according to type of employee and years of service. Upon termination of employment, an employee is paid a per diem for accumulated annual leave and those with more than 15 years of service are paid a specified daily rate for sick leave which varies according to bargaining unit. Upon retirement, an employee is paid a per diem for accumulated annual leave and a specified daily rate for sick leave which varies according to bargaining unit. Upon retirement, an employee is paid a per diem for accumulated annual leave and a specified daily rate for sick leave which varies according to bargaining unit. The current year's payments of annual and sick leave is included in the appropriate Governmental Fund expenditures. The future year anticipated cost is shown as liabilities in the Government-Wide Statements.

Notes to the Basic Financial Statements June 30, 2015

<u>School Construction Debt</u> - The Board is not obligated to repay principal or interest on any debt incurred for school construction. Such bonds and loans are obligations of the County or State government. Accordingly, the Board does not record school construction debt service revenues, expenditures, or outstanding school construction debt in statements prepared in accordance with GAAP.

<u>Deferred Inflows of Resources</u> - A deferred inflow of resources represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until the future period. For government-mandated and voluntary non-exchange transactions, a deferred inflow is reported when resources are received before time requirements are met. The Board reported deferred inflows of \$5,010,876 related to difference between projected and actual earnings on pension plan investments.

<u>Encumbrances</u> - Outstanding purchase order commitments (encumbrances) are reported as assignments of fund balances, since encumbrances do not constitute expenditures or liabilities on a GAAP basis.

<u>Restricted Net Position</u> - There are three restrictions on net position at June 30, 2015, including inventory restricted for use of Food Services Fund in the amount of \$452,924, the balance held in escrow for lease of computer equipment of \$5,228,805, and \$10,883,917 of fees collected by the Board for the performance of Medicaid eligible services, which must be used for Special Education initiatives.

<u>Use of Estimates</u> - The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

<u>Restatement of Prior Year Net Position</u> - Beginning net position on the Government-Wide statements and Internal Service Fund were restated due to prior period adjustments. The details of the adjustments are provided in Note 13 on page 66.

<u>Pensions</u> - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about fiduciary net position of the Maryland State Retirement and Pension System (System) and additions to/deductions from the System's fiduciary net position have been determined on the same basis as they are reported by the System. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Governmental Accounting Standards Board (GASB) Pronouncements

In June 2012, The Governmental Accounting Standards Board (GASB) issued GASB Statement No. 68, *Accounting and Financial Reporting for Pension Plans*, an amendment of GASB Statement No. 27 and the related GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date* an amendment of GASB statement No. 68. These pronouncements prescribe new financial reporting requirements for state and local government pension plans and state and local governments that provide pensions through pension plans that meet certain criterion. The Teachers Retirement System of the State of Maryland, the Teachers' Pension System of the State of Maryland, the Employees Retirement System of the State of Maryland, or the Employees' Pension System meet this criterion. As such, all local governments and schools districts that participate in either plan are impacted by this change in accounting

Notes to the Basic Financial Statements June 30, 2015

treatment. Specifically, these statements will change how local governments calculate and report the costs and obligations associated with pensions in important ways. The intent is to improve the decision-usefulness of reported pension information and to increase the transparency, consistency, and comparability of pension information across governments. The Board has implemented the statements and the Notes 12 and 13 on pages 61- 66 contain the details of the impact.

<u>Pending Pronouncements</u> - GASB has issued the following Statements which will become effective in future years as shown below.

- <u>Statement No. 72</u> Fair value measurement and application (issued Feb 2015). This Statement addresses accounting and financial reporting issues related to fair value measurements. The definition of fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This Statement provides guidance for determining a fair value measurement for financial reporting purposes. This Statement also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements. The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2015. The Board continues to evaluate the effect of implementation of this statement.
- <u>Statement No. 73</u> Accounting and Financial Reporting for Pensions and Related Assets that are not within the Scope of GASB Statement 68 and Amendments to Certain Provisions of GASB Statements 67 and 68. The objective of this Statement is to improve the usefulness of information about pensions included in the general purpose external financial reports of state and local governments for making decisions and assessing accountability. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits with regard to providing decision-useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency. This statement is effective for financial statements for fiscal years beginning after June 15, 2015. The Board continues to evaluate the effect of implementation of this statement.
- <u>Statement No. 74</u> Financial Reporting for Postemployment Benefit Plans Other than Pension Plans. The objective of this Statement is to improve the usefulness of information about post-employment benefits other than pensions (Other Post-Employment Benefits or OPEB) included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all post-employment benefits (pensions and OPEB) with regard to providing decision-useful information, supporting assessments of accountability and inter period equity, and creating additional transparency. The provisions of this statement are effective for financial statements ending June 15, 2016. The Board continues to evaluate the effect of implementation of this statement.
- <u>Statement No. 75</u> Accounting and Financial Reporting for Postemployment Benefits Other Than *Pensions*. This establishes new accounting and financial reporting requirements for governments whose employees are provided with OPEB, as well as for certain non-employer governments that have a legal obligation to provide financial support for OPEB provided to the employees of other entities. The provisions of this statement are effective for financial statements ending June 15, 2017. The Board continues to evaluate the effect of implementation of this statement.

Notes to the Basic Financial Statements June 30, 2015

- <u>Statement No. 76</u> The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments. The objective of this Statement is to identify, in the context of the current governmental financial reporting environment, the hierarchy of generally accepted accounting principles (GAAP). The GAAP hierarchy consists of the sources of accounting principles used to prepare financial statements of state and local governmental entities in conformity with GAAP and the framework for selecting those principles. This Statement reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within a source of authoritative GAAP. This Statement supersedes Statement No. 55, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*. The provisions of this statement are effective for financial statements ending June 15, 2016. The Board continues to evaluate the effect of implementation of this statement.
- <u>Statement No. 77</u> Tax Abatement Disclosures. This statement establishes guidance requiring state and local governments to disclose key information about tax abatement agreements. The new guidance is intended to make the financial impact of these transactions readily transparent. The standard takes effect for financial statements for periods beginning after Dec. 15, 2015. The Board continues to evaluate the effect of implementation of this statement.

NOTE 2 BUDGETARY BASIS OF ACCOUNTING

The accompanying Statement of Revenues, Expenditures, Encumbrances, and Changes in Fund Balance - Budget and Actual - General Fund has been prepared on a budgetary basis of accounting which differs from GAAP. The purpose of the budgetary basis of accounting is to demonstrate compliance with the legal requirements of Anne Arundel County, the State of Maryland and special Federal and State grant programs. The differences between the two methods are set forth below.

| | Revenue | Expenditures | Fund Balance |
|---|------------------|------------------|---------------|
| Reported on the GAAP Basis of Accounting | \$ 1,070,673,162 | \$ 1,076,238,964 | \$ 43,916,297 |
| Effect of Grant Revenue: | | | |
| Prior Year | (308,688) | - | - |
| Current Year | 60,938 | - | 60,938 |
| Effect of Encumbrances | - | 2,377,453 | (10,121,270) |
| Effect of Inventory | - | (354,755) | (1,565,489) |
| Capital Leases | (6,239,719) | (6,239,719) | - |
| Retirement costs paid on Board's behalf | | | |
| by State of Maryland | (62,052,080) | (62,052,080) | - |
| Health Services & other costs paid on Board's | | | |
| behalf by Anne Arundel County | (18,292,726) | (18,292,726) | - |
| Smaller funds not included in General Fund | (1,130,617) | (732,581) | (11,362,618) |
| Lease proceeds held in escrow | | (653,966) | (5,228,805) |
| | \$ 982,710,270 | \$ 990,290,590 | \$ 15,699,053 |

Notes to the Basic Financial Statements June 30, 2015

NOTE 3 GENERAL FUND APPROPRIATION TRANSFERS

For the fiscal year ended June 30, 2015, the Anne Arundel County Council approved the following supplemental appropriations and appropriation transfers among the following categories. Other instructional costs, special education and operation of the plant exceeded their appropriation and appropriations were transferred to those categories from Mid-level administration and pupil transportation.

| | Supplemental R | evenue Sources | Appropriations Transferred | | | | |
|--------------------------------|----------------|----------------|----------------------------|--------------|--|--|--|
| | То | From | То | From | | | |
| Revenue Sources: | | | | | | | |
| United States Government | \$ - | \$ 10,835,400 | \$ - | \$ - | | | |
| State of Maryland | - | 5,281,000 | - | - | | | |
| Local Resources | - | 27,235,900 | - | - | | | |
| Other Sources | - | 9,132,300 | - | - | | | |
| Expenditures Categories: | | | | | | | |
| Administration | 323,630 | - | - | 11,630 | | | |
| Mid-Level Administration | 178,460 | - | - | 1,651,460 | | | |
| Instructional Salaries & Wages | 1,116,470 | - | - | 893,770 | | | |
| Textbooks & Classroom Supplies | 2,728,030 | - | 582,770 | - | | | |
| Other Instructional Costs | 1,376,830 | - | 1,108,670 | - | | | |
| Special Education | 2,000,660 | - | 1,308,640 | - | | | |
| Pupil Services | 1,000 | - | 431,100 | - | | | |
| Pupil Transportation | 106,790 | - | - | 1,166,990 | | | |
| Operation of Plant | 3,009,190 | - | 567,410 | - | | | |
| Maintenance of Plant | - | - | | 239,100 | | | |
| Fixed Charges | 41,598,950 | - | - | 20,450 | | | |
| Community Services | 44,590 | - | 6,610 | - | | | |
| Capital Outlay | - | - | - | 21,800 | | | |
| - | \$ 52,484,600 | \$ 52,484,600 | \$ 4,005,200 | \$ 4,005,200 | | | |

NOTE 4 CASH AND CASH EQUIVALENTS

The Board of Education maintains pooled and various separate cash accounts for its funds. The cash balances of the School Activity Funds on the Statement of Fiduciary Net Asset consist of individual demand accounts maintained by the schools. The Board considers any instrument with a maturity of three months or less when purchased as cash equivalents.

Deposits

At June 30, 2015, the carrying value of the Board's cash on hand and combined deposits was \$180,850,423. Of this amount, \$126,402,271 was invested in the Maryland Local Government Investment Pool (MLGIP) and \$5,228,805 was held in a money market account in escrow.

Notes to the Basic Financial Statements June 30, 2015

The related bank balance was \$182,678,606 and cash on hand was \$2,300. Of the bank balance, \$131,631,076 was in investment pool and money markets. \$1,242,133 was covered by federal depository insurance and \$49,805,397 was covered by collateral held by the Federal Reserve Bank of Richmond in the Board's name. Statutes authorize secured time deposits in Maryland banks. Statutes require uninsured deposits to be fully collateralized. Therefore, under the reporting requirements of Governmental Accounting Standards Board (GASB) Statement No. 40, the Board's deposits are not subject to custodial or credit risk at year end. Because of the short-term maturity and type of the investments, there is limited interest rate risk.

Investments

Statutes authorize the Board to invest in obligations of the U.S. Government, federal government agency obligations, and repurchase agreements secured by direct government or agency obligations.

The Board is a participant of the Maryland Local Government Investment Pool (MLGIP), which provides all local government units of the State a relatively safe investment vehicle for the short-term investment of funds. The State Legislature created MLGIP with the passage of Article 95 22G, of the Annotated Code of Maryland. The MLGIP, under the administrative control of the State Treasurer, is managed by a single Baltimore - based financial institution, PNC. The pool has an AAAm rating from Standard and Poor's and maintains a \$1.00 per share value. An MLGIP Advisory Committee of current participants was formed to review the activities of the Fund on a quarterly basis and to provide suggestions to enhance the pool. The fair value of the pool is the same as the value of the pool shares.

The Board and HP Financial have entered into a capital lease financing arrangement whereby the proceeds are held in escrow and restricted for purchases of computer and related equipment. The escrowed funds are held in an account with Deutsche Bank in the US Treasury Cash Reserve Fund, which is rated AAAm by Standard & Poor's. At June 30, 2015, the balance in that account was \$5,288,805. The fair value of the fund is the same as the value of the shares.

Additionally, in accordance with reporting requirements of GASB Statement No. 40, the Board does not have any interest rate risk associated with these investments. Investments in the MLGIP and Deutsche Bank US Treasury Cash Reserve Fund (both are 2a7-like pools) are priced on a daily basis, with funds available daily. It should also be noted that the Board does not have foreign currency risk associated with its investments

Notes to the Basic Financial Statements June 30, 2015

NOTE 5 DUE FROM (TO) OTHER GOVERNMENTS

Amounts due from other Governments:

| | Federal | | State of Maryland | | Ar | nne Arundel County | Total | |

| Statement of Net Assets Total | \$ | 1,246,983 | \$ | 69,783 | \$ | 25,412 | \$ | 1,342,178 |

NOTE 6 INTERFUND BALANCES

All payroll and benefit costs generated in the Human Resources/Payroll system are recorded through the General Fund resulting in an interfund receivable. Certain other transactions that result in costs to various funds are paid from one fund resulting in an interfund receivable. All of these transactions are settled on a regular basis. Individual interfund receivables and payables as of June 30, 2015, are as follows:

| | Food | | | | | | |
|--------------------|-----------------|------------------|--|--|--|--|--|
| | General Fund | Services Fund | | | | | |
| Due From: | | | | | | | |
| Food Services Fund | \$ 1,124,595 | \$ - | | | | | |

|---------------------------|-----------|---------------------------|------------------|
| Mid-Level Administration | 443,238 | Maintenance of Plant | 49,174,343 |
| Other Instructional Costs | 555,241 | Food Services | 37,237 |
| Special Education | 23,414 | Total Depreciation | \$ 50,437,337 |
| Pupil Transportation | 44,591 | | |

Notes to the Basic Financial Statements June 30, 2015

The following table provides the active projects that comprise total Construction in Progress at June 30, 2015.

| Project | Spent to Date | Remaining Commitment |
|---------------------------|------------------|-------------------------|
| Benfield Elementary | \$ 13,536,888 | \$ 6,249,843 |
| Crofton Elementary | 21,938,655 | 2,581,239 |
| Lothian Elementary | 24,552,945 | 2,544,733 |
| Mills-Parole Elementary | 21,243,389 | 3,777,996 |
| Rolling Knolls Elementary | 10,922,332 | 7,357,296 |
| West Annapolis Elementary | 8,454,690 | 4,512,030 |
| Severna Park Senior | 31,935,216 | 34,215,468 |
| Additions | 6,624,941 | 954,863 |
| All Day Kindergarten | 2,365,661 | 1,284,129 |
| Open Space Enclosures | 2,257,261 | 3,313,164 |
| Sytemic | 9,672,938 | 11,512,050 |
| | 153,504,916 | 78,302,811 |
| Other Projects | 1,344,156 | 11,431,534 |
| | \$ 154,849,072 | \$ 89,734,345 |

Active School Construction Projects as of June 30, 2015

NOTE 8 INTERNAL SERVICE FUND

The Board established an Internal Service Fund effective July 1, 2002, to account for employee's medical, dental, vision, disability and life insurance. The cost of these programs is funded by employee premium payments and a Board contribution. The unpaid claims amount represents incurred but not reported (IBNR) claims. The Board's objective is to retain approximately two months of claims expenses in net position. Changes in the balances of claims liability during the past two years are shown below.

| | Year Ended | | | | | |
|-----------------------------------|------------|---------------|----|-------------------------------|--|--|
| | Ju | ne 30, 2015 | | une 30, 2014 (as restated) | | |
| Unpaid Claims, Beginning of Year | \$ | 8,410,000 | \$ | 8,670,000 | | |
| Incurred Claims (including IBNRs) | | 157,298,305 | | 143,056,476 | | |
| Claim Payments | | (157,218,305) | | (143,316,476) | | |
| Unpaid Claims, End of Year | \$ | 8,490,000 | \$ | 8,410,000 | | |

Notes to the Basic Financial Statements June 30, 2015

NOTE 9 NONCURRENT LIABILITIES

The following is a summary of the changes in noncurrent liabilities during the fiscal year:

| | Balance | | | | | |
|------------------------------|-----------------------------|-------------------|--------------------|----|-------------------------|------------------------|
| | uly 1, 2014 as restated) | Additions | Deductions | Jı | Balance une 30, 2015 | Oue Within One Year |
| Capital Leases | \$ 14,625,727 | \$ 6,239,719 | \$ (8,071,518) | \$ | 12,793,928 | \$ 6,769,370 |
| Compensated Absences | 38,219,265 | 20,328,546 | (19,827,116) | | 38,720,695 | 16,166,025 |
| Net OPEB Obligation | 382,178,000 | 102,184,144 | (49,059,144) | | 435,303,000 | - |
| Net Pension Obligation | 50,810,207 | _ | (5,030,603) | | 45,779,604 | |
| Total Noncurrent Liabilities | \$ 485,833,199 | \$ 128,752,409 | \$ (81,988,381) | \$ | 532,597,227 | \$ 22,935,395 |

Capital leases and compensated absences are funded with annual appropriations in the General Fund. Payments for health care (OPEB obligation) are paid through the Self-Insurance Fund, except when paid directly by grants.

NOTE 10 CAPITAL AND OPERATING LEASES

<u>Capital Leases</u> - The Board leases equipment under agreements recorded as capital leases. The value of these capital lease assets is below the Board's capitalization threshold. The annual lease payments are recorded as expenditures in the General Fund and the interest portion is recorded as an expense in Government-Wide Statement of Activities. The costs of assets purchased through these leases are lower than the capitalization threshold. As of June 30, 2015, obligations under capital lease agreements are recorded at the present value of future minimum lease payments. The capital lease terms extend through the year ending June 30, 2019. Future minimum payments on obligations under capital lease agreements are as follows:

| | Lease |
|-------------------------------|------------------|
| Year ended June 30, | Payments |
| 2016 | \$ 7,256,684 |
| 2017 | 4,207,221 |
| 2018 | 1,899,729 |
| 2019 | 209,948 |
| Total Future Minimum Payments | 13,573,582 |
| Less: Interest Component of | |
| Future Minimum Payments | (779,654) |
| Net Capital Lease Obligations | \$ 12,793,928 |
| | |

<u>Operating Leases</u> - The Board leases facilities and equipment under agreements reported as operating leases. The annual lease payments are recorded as expenses in the Government-wide Statement of Activities and as expenditures in the General Fund. Operating lease terms extend through the year ending June 30, 2018. Future minimum payments on operating leases with an initial or remaining noncancellable term in excess of one year are \$1,537,959; \$913,446; and \$454,280 in 2016; 2017; and 2018, respectively. Operating lease costs for the year ended June 30, 2015, were approximately \$1,918,279.

Notes to the Basic Financial Statements June 30, 2015

NOTE 11 POST EMPLOYMENT HEALTHCARE PLAN

Plan Description

An employee of the Board who is eligible to receive retirement annuity benefits from the State Retirement Agency and a member of the Board's group medical insurance plan may elect to continue membership in the Board's group medical, dental, and vision plans after retirement. The portion of the premium not funded by the Board must be deducted from the annuity which the member receives from the retirement agency. If the annuity is not sufficient to pay the premium, the retiree will be ineligible for the Board's benefits.

The Board provides medical, prescription drug, vision, and dental insurance benefits to retirees and their dependents with a Single-Employer Defined Benefit OPEB Plan. The Board pays a portion of the cost of medical, prescription drug, and dental benefits (for eligible retirees) for retirees, disabled retirees, and their spouses and dependents. Retirees pay the full cost for vision benefits and retirees hired after September 15, 2002, also pay the full cost for dental benefits. The Board maintains separate healthcare plans for active employees and retirees. The retiree plan is rated separately based on claims experience of the retiree group.

As of July 1, 2014, the effective date of the biennial OPEB evaluation, there were 14,440 eligible participants, including 9,668 Active Employees and 4,772 Retirees. There have been no significant changes in the number covered or the type of coverage since that date.

Funding Policy

The Board currently pays for post-employment health care benefits on a pay-as-you-go basis. The Board in conjunction with County government has studied various funding options, including establishment of an OPEB trust fund; however, these financial statements assume that pay-as-you-go funding will continue. The Board anticipates utilizing a trust fund in the future to manage the retiree health care unfunded actuarial accrued liability. A schedule of funding progress for the past four years is included as Required Supplementary Information, immediately following these Notes to the Basic Financial Statements.

Annual OPEB Cost and Net OPEB Obligation

The Board's annual OPEB cost is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined using the projected unit credit cost method in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over an open period of thirty years. The net OPEB obligation of \$435,303,000 has been shown as a non-current liability in the Government-Wide financial statements. The following table shows the components of the Board's annual OPEB cost for the year and the amount actually contributed to the plan.

Notes to the Basic Financial Statements June 30, 2015

| | Fiscal Year H | Ended | June 30, (Rou | inded | to thous ands) | | |

| UAAL as a % of Covered Payroll | 245.2% | | 267.7% | | 263.8% | 246.3% | 232.2% |

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the types of benefits provided at the time of the valuation and the sharing of benefit costs between the employer and plan members at that time. The unfunded actuarial accrued liability is being amortized over 30 years (open period) on a level percentage of payroll using a 3.5% payroll growth rate. A 3.5% discount rate was used based on the Board's pay-as-you-go funding method. Actuarial valuations for OPEB plans involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revisions as results are compared to past expectations and new estimates are made about the future. The actuarial calculations of the OPEB plan reflect a long term perspective. The following tables present additional trends and assumptions used in the actuarial calculation.

Notes to the Basic Financial Statements June 30, 2015

Actuarial Assumptions:

| Valuation Date Actuarial Cost Method Amortization Method Asset Valuation Method | July 1, 2014 Projected Unit Credit Cost Method Level percentage of projected payroll over a 30-year period Market value |

NOTE 12 PENSION PLANS

General Information about the Plan

Plan Description

The employees of the Board are covered by the Maryland State Retirement and Pension System (the System), which is a cost sharing employer public employee retirement system. While there are five retirement and pension systems under the System, employees of the Board are a member of either the Teachers' Retirement and Pension Systems or the Employees' Retirement and Pension Systems. The System was established by the State Personnel and Pensions Article of the Annotated Code of Maryland to provide retirement allowances and other benefits to State employees, teachers, police, judges, legislators, and employees of participating governmental units. The Plans are administered by the State Retirement Agency. Responsibility for the System's administration and operation is vested in a 15-member Board of Trustees. The System issues a publically available financial report that can be obtained at http://www.sra.state.md.us.

Benefits Provided

The System provides retirement allowances and other benefits to State teachers and employees of participating governmental units, among others. For individuals who become members of the Teachers' Retirement and Pension Systems and the Employees' Retirement and Pension Systems on or before June 30, 2011, retirement/pension allowances are computed using both the highest three years Average Final Compensation (AFC) and the actual number of years of accumulated creditable service. For individuals who become members of the Teachers' Pension System and Employees' Pension System on or after July 1, 2011, pension allowances are computed using both the highest five years AFC and the actual number of years of accumulated creditable service. Various retirement options are available under each system which ultimately

Notes to the Basic Financial Statements June 30, 2015

determines how a retirees' benefits allowance will be computed. Some of these options require actuarial reductions based on the retirees' and/or designated beneficiary's attained age and similar actuarial factors.

A member of either the Teachers' or Employees' Retirement System is generally eligible for full retirement benefits upon the earlier of attaining age 60 or accumulating 30 years of creditable service regardless of age. The annual retirement allowance equals 1/55 (1.81%) of the member's average final compensation (AFC) multiplied by the number of years of accumulated creditable service.

A member of either the Teachers' or Employees' Pension System on or before June 30, 2011 is eligible for full retirement benefits upon the earlier of attaining age 62, with specified years of eligibility service, or accumulating 30 years of eligibility service regardless of age. An individual who becomes a member of either the Teachers' or Employees' Pension System on or after July 1, 2011, is eligible for full retirement benefits if the members' combined age and eligibility service equals at least 90 years or if the member is at least age 65 and has accrued at least 10 years of eligibility service.

For most individuals who retired from either the Teachers' or Employees' Pension System on or before June 30, 2006, the annual pension allowance equals 1.2% of the members AFC, multiplied by the number of years of credible service accumulated prior to July 1, 1998, plus 1.4% of the members AFC, multiplied by the number of years of credible service accumulated subsequent to June 30, 1998. With certain exceptions, for individuals who are members of the Teachers' or Employees' Pension System on or after July 1, 2006, the annual pension allowance equals 1.2% of the member's AFC, multiplied by the number of years of credible service accumulated subsequent to June 30, 1998. With certain of credible service accumulated prior to July 1, 1998 plus 1.8% of the members AFC, multiplied by the number of years of credible service accumulated subsequent to June 30, 1998. Beginning in July 1, 2011, any new member of the Teachers' or Employees' Pension System shall earn an annual pension allowance equal to 1.5% of the member's AFC multiplied by the number of years of credible by the number of years of credible service accumulated subsequent to June 30, 1998. Beginning in July 1, 2011, any new member of the Teachers' or Employees' Pension System shall earn an annual pension allowance equal to 1.5% of the member's AFC multiplied by the number of years of creditable service accumulated subsequent of the Teachers' or Employees' Pension System.

Contributions

The Board and covered members are required by State statute to contribute to the System. Members of the Teachers' Pension System and Employees' Pension System are required to contribute 7% annually. Members of the Teachers' Retirement System and Employees' Retirement System are required to contribute 5-7% annually, depending on the retirement option selected. The contribution requirements of the System members, as well as the State and participating governmental employers are established and may be amended by the Board of Trustees for the System.

The State makes a substantial portion of the Board's annual required contribution to the Teachers' Retirement and Pension Systems on behalf of the Board. The State's contributions on behalf of the Board for the year ended June 30, 2015, was \$62,052,080. The fiscal year 2015 contributions made by the State on behalf of the Board have been included as both revenues and expenditures in the General Fund in the accompanying Statement of Revenues, Expenditures, and Changes in Fund Balances and are also included as revenues and expenses in the Statement of Activities.

Beginning in fiscal year 2013, the State of Maryland General Assembly passed a bill that required the Boards of Education in Maryland to begin paying the normal cost for their teachers into the Teachers' Retirement and Pension Systems. The legislation structured this as a four year phase in to the full normal cost so that 50% was paid in fiscal year 2013. Full normal cost will be paid in fiscal year 2017 and each year thereafter. The Board's required contribution to the Teachers' Retirement and Pension Systems for the year ended June 30, 2015 was \$17,425,639.

Notes to the Basic Financial Statements June 30, 2015

The Board's contractually required contribution rate for the Employees' Retirement and Pension Systems for the year ended June 30, 2015, was 6.72% of annual payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The Board made its share of the required contributions during the year ended June 30, 2015, of \$6,294,530.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Employees Retirement and Pension Systems

At June 30, 2015, the Board reported a liability of \$45,779,604 for its proportionate share of the net pension liability of the System. The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Board's proportion of the net pension liability was based on actual employer contributions billed to participating government units for the year ending June 30, 2014. The contributions were increased to adjust for differences between actuarial determined contributions and actual contributions by the State of Maryland. As of June 30, 2014, the Board's proportionate share was 0.25796%.

For the year ended June 30, 2015, the Board recognized pension expense of \$4,098,035. At June 30, 2015, the Board reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

| | Deferred Outflows of | | outflows of Inflows of | | ows of |
|--|-------------------------|-----------|------------------------|--------|---------|
| | R | esources | _ | Res | ources |
| Changes in pension plan assumptions | \$ | 662,237 | | \$ | - |
| Net difference between projected and actual | | - | | 5,0 | 010,876 |
| earnings on pension plan investments | | | | | |
| Net difference between actual and proportionate | | 1,231,418 | | | - |
| share of contributions | | | | | |
| Board contributions subsequent to measurement date | | 6,294,530 | _ | | - |
| | \$ | 8,188,185 | _ | \$ 5,0 | 010,876 |

The amount of \$6,294,530 reported as deferred outflows of resources related to pensions resulting from Board contributions subsequent to the measurement date will be recognized as a reduction in net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Year ended June 30, | |
|---------------------|-----------|
| 2016 | (779,305) |
| 2017 | (779,305) |
| 2018 | (779,305) |
| 2019 | (779,306) |

Notes to the Basic Financial Statements June 30, 2015

Teachers Retirement and Pension Systems

At June 30, 2015, the Board did not report a liability related to the Teachers' Retirement and Pension Systems due to a special funding situation. The State of Maryland pays the unfunded liability for the Board and the Board pays the normal cost related to the Boards members in the Teachers Retirement and Pension Systems; therefore, the Board is not required to record its share of the unfunded pension liability but instead, that liability is recorded by the State of Maryland. The amount recognized by the Board as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the Board were as follows:

| State's Proportionate share of net pension liability | \$ 201,622,624 |
|--|----------------|
| Board's Proportionate share of net pension liability | - |
| Total | \$ 201,622,624 |

The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

For the year ended June 30, 2015, the Board recognized pension expense of \$79,477,719 and revenue of \$62,052,080 for support provided by the State. Due to the special funding situation noted above related to the Teachers Retirement and Pension Systems, the Board did not report deferred outflows of resources and deferred inflows of resources related to the Teachers Retirement and Pension Systems.

Actuarial Assumptions

The total pension liability in the June 30, 2014, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation | 2.90% general, 3.4% wage |
|---------------------------|-------------------------------------|
| Salary increases | 3.40% to 11.9%, including inflation |
| Investment rate of return | 7.65% |

Mortality rates were based on RP-2000 Combined Healthy Mortality Table projected to the year 2025.

The economic and demographic actuarial assumptions used in the June 30, 2014 valuation were adopted by the System's Board of Trustees based upon review of the System's experience study for the period 2006-2010, which was completed during fiscal year 2011. Certain assumptions from the experience study including mortality rates, retirement rates, withdrawal rates, disability rates and rates of salary increase were adopted by the Board for the first use in the actuarial valuation as of June 30, 2012. The System's Board of Trustees adopted new economic assumptions for the June 30, 2013, valuation, in particular, an investment return assumption of 7.70% and an inflation assumption of 2.95%. The ultimate assumptions of a 7.55% investment return and 2.80% price inflation are being phased in over a four-year period. As a result, an investment return assumption of 7.65% and an inflation assumption of 2.90% were used for the June 30,

Notes to the Basic Financial Statements June 30, 2015

2014, valuation. The COLA, salary increase and payroll growth assumptions have also changed as a result of the change in the inflation assumption.

The long term expected rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-range expected rate of return by weighing the expected future real rates by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return were adopted by the Board after considering input from the System's investment consultant(s) and actuary(s). For each major asset class that is included in the System's target asset allocation, these best estimates are summarized in the following table:

| | Target | Long Term Expected |
|--------------------|------------|---------------------|
| Asset Class | Allocation | Real Rate of Return |
| Public Equity | 35% | 4.70% |
| Fixed Income | 10% | 2.00% |
| Credit Opportunity | 10% | 3.00% |
| Real Return | 14% | 2.80% |
| Absolute Return | 10% | 5.00% |
| Private Equity | 10% | 6.30% |
| Real Estate | 10% | 4.50% |
| Cash | 1% | 1.40% |
| Total | 100% | |

The above was the System's Board of Trustees adopted asset allocation policy and best estimate of geometric real rates for each major asset class as of June 30, 2014.

For the year ended June 30, 2014, the annual money-weighted rate of return on pension plan investments, net of the pension plan expense was 14.38%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Discount Rate

The single discount rate used to measure the total pension liability was 7.65%. This single discount rate was based on the expected rate of return on pension plan investments of 7.65%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plans fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Notes to the Basic Financial Statements June 30, 2015

Sensitivity of the Net Pension Liability

Regarding the sensitivity of the net pension liability to changes in the single discount rate, the following presents the Board's net pension liability, calculated using a single discount rate of 7.65%, as well as what the Board's net pension liability would be if it were calculated using a single discount rate that is one-percentage-point lower or one-percentage-point higher for the Employees Retirement and Pension Systems:

| | | Current | | |
|--|------------------------|--------------------------|------------------------|--|
| | 1% Decrease (6.65%) | Discount Rate (7.65%) | 1% Increase (8.65%) | |
| Board's proportionate share of the net pension liability | \$65,974,078 | \$45,779,604 | \$28,864,102 | |

Due to the special funding situation noted above related to the Teachers Retirement and Pension Systems, the Board did not record a net pension liability related to the Teachers Retirement and Pension Systems.

Pension Plan Fiduciary Net Positon

Detailed information about the pension plan's fiduciary net position is available in the separately issued System's financial report.

NOTE 13 RESTATEMENT OF PRIOR PERIOD

The beginning net positions in the Government-wide statement and Internal Service fund had to be restated due to a new accounting pronouncement and a correction of an error.

The Board adopted GASB Statement No. 68, Accounting and Financial Reporting for Pension Plans, an amendment of GASB Statement No. 27 and the related GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date, an amendment of GASB statement No. 68, which improves accounting and financial reporting by state and local government employers whose employees are provided benefits through pensions. The Board is now required to record a liability for future pension benefits in excess of accumulated plan contributions. This pronouncement requires the restatement of the June 30, 2014, net positon of governmental activities for the net amount of \$44,798,790.

In addition to the new accounting pronouncements, net position at July 1, 2014 of governmental activities and internal service fund has been restated to correct an error in accounting for rebates. The cumulative impact of these two adjustments on net position is as follows:

Notes to the Basic Financial Statements June 30, 2015

Government-Wide Restatement

| Net position July 1, 2014, as stated | \$ 613,212,533 |
|--|-------------------|
| Cumulative affect of application of GASB 68, net pension liability | (50,810,207) |
| Cumulative affect of application of GASB 71, deferred outflow of resources for Board | |
| contributions made to the plan during the fiscal year ending June 30, 2015 | 6,011,417 |
| Effects of correction of an error | 3,834,912 |
| Net position July 1, 2014, as restated | \$ 572,248,655 |
| | |

Self-Insurance Fund Restatement

| Net position July 1, 2014, as restated | \$ 38,215,996 |
|--|------------------|
| Effects of correction of an error | 3,834,912 |
| Net Position July 1, 2014, as restated | \$ 42,050,908 |

NOTE 14 COMMITMENTS AND CONTINGENCIES

In the normal course of operations, the Board is subject to lawsuits and claims. In the opinion of management, the disposition of such lawsuits and claims will not have a material effect on the Board's financial position or changes in financial position.

<u>Capital Project and Food Services Encumbrances</u> - The Capital Projects Fund had outstanding commitments (encumbrances) in the amount of \$89,734,345 as of June 30, 2015. However, revenues provided by the State and County needed to liquidate encumbrances outstanding are not received until invoices for goods and services are rendered. The Food Services Fund had outstanding commitments (encumbrances) of \$459,543 at June 30, 2015.

<u>Grant Expenditures</u> - Most grants specify the types of expenditures, for which the grant funds may be used, and the reporting and record keeping with which the Board must comply. The expenditures made by the Board under some of these grants are subject to audits by Federal or State agencies. In the opinion of management, adjustments for unallowable costs, if any, resulting from future audits will not have a material effect on the accompanying financial statements.

Notes to the Basic Financial Statements June 30, 2015

NOTE 15 FUND BALANCES

The fund balances presented on the Governmental Funds Balance Sheet are comprised of the following:

| | General Fund | Food Services Fund | Capital Projects Fund | Other Governmental Funds | Total Governmental Funds |
|--------------------------------------|-----------------|--------------------------|-----------------------------|--------------------------------|--------------------------------|
| Fund Balances | | | | | |
| Nonspendable for: | | | | | |

NOTE 16 SPECIAL GRANT PROGRAM REVENUE

Certain programs serving specific needs and purposes of the school system and the welfare of the students are funded by restricted Federal and State grants. Monies and subsidies received, amounting to approximately \$43.0 million during the fiscal year ended June 30, 2015, were expended for the designated programs and did not supplant funding for the unrestricted programs. The grants were accounted for in the Governmental Funds.

Notes to the Basic Financial Statements June 30, 2015

NOTE 17 <u>RISK MANAGEMENT</u>

The Board is exposed to various risks of loss related to torts: theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. To protect against these risks the Board has executed an agreement with Anne Arundel County to participate in the Anne Arundel County Self-Insurance Fund and in a Consolidated Commercial Insurance Program.

Vehicle, professional and general liability, and workers' compensation coverage is provided through the County's self-insurance fund. The Board's contribution to this fund is actuarially determined based on the Board's claims experience and is charged annually to the Fixed Charges category of the General Fund. Anne Arundel County maintains the self-insurance fund and is responsible for the adjustment, defense, and payment of all claims along with a provision calculating our incurred but not reported (IBNR) claims.

Commercial insurance is provided through the County's Consolidated Commercial Insurance Program. Insurance is purchased to provide coverage to the Board for property, equipment breakdown, employee dishonesty, contract school bus liability, public official bonds, and accident insurance. The Board is charged for its share of the insurance premiums, either through a one-time charge or by monthly installments, to the Operation of Plant and Transportation Fixed Charges categories.

| Format | Boar Cost | ds' Share of | General Fund Category |
|------------------------------------|--------------|--------------|------------------------|
| County self Insurance | | | |
| General Liability, workers | | | |
| Compensation and Vehicle Liability | \$ | 7,030,400 | Fixed Charges |
| Board Purchased Policies | | | |
| Real Property | | 850,462 | Operation of the plant |
| Boiler and Miscellaneous | | 68,083 | Fixed Charges |
| Private Bus Contractors | | 779,929 | Transportation |
| Total | \$ | 8,728,874 | |

There have been no significant reduction in insurance coverage or any settled claims that have exceeded the amount of coverage in any past three years. The Board's share of County's self-insurance fund deficit at June 30, 2015 is \$1,246,983.

SUPPLEMENTAL INFORMATION

COMBINING FUND STATEMENTS AND SCHEDULES

The purpose of Combining Fund Statements is to provide a "link" between the fund financial statements and the non-major funds. Description of the nature and purpose of each non-major special revenue fund is show below:

<u>Special Revenue Funds</u> - These funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.

<u>Athletic Gate Receipts</u> – This fund is used to account for the expenditure of the Board's share of gate receipts from High School athletic events.

<u>Center of Applied Technology-North (CAT-North) Student Baking</u> – This fund is used to account for the purchase of baked goods by Maryland Live Casino to support the development of student lab competencies in the Baking and Pastry Program at CAT North.

<u>External Diploma Program</u> – This fund is used to account for the expenditure of tuition and fees from the state-wide program to provide adults an opportunity to obtain a high school diploma.

<u>Summer Camps and Environmental Education</u> – This fund is used to account for the amounts and activities related to various self supporting summer camps as well as Arlington Echo's Environmental Education programs.

SELECTED STATISTICAL INFORMATION (UNAUDITED)

Overview

This section of the Comprehensive Annual Financial Report (CAFR) presents detailed data as a context for understanding what the information in the financial statements, note disclosures and required supplementary information say about the Board's overall financial health. The Statistical Section is supplementary information that is not subject to audit. Unless otherwise noted, the financial information in this section is derived from the School System's annual financial reports for the relevant years.

Content

Data contained in the Statistical Section of a CAFR typically covers five areas: financial trends, revenue capacity, debt capacity, demographic information, and operating information. However, since the Board does not have any material "own-source revenue," no revenue capacity schedules are presented in this Statistical Section.

<u>*Financial Trends*</u> - These schedules contain trend information to help the reader understand how the Board's financial performance and well-being has changed over time. Some of these schedules are presented for seven years only, extending back to when GASB 34 was implemented.

<u>Debt Capacity</u> - These schedules present information to help the reader assess the affordability of the Anne Arundel County Government's outstanding debt and ability to absorb additional debt in the future.

<u>Demographic Information</u> - These schedules offer demographic and economic indicators to help readers understand the environment of Anne Arundel County, in which the Board's financial activities take place.

<u>Operating Data</u> - These schedules offer operating data to help understand how the information in the Board's financial report relates to the services it provides and the activities it performs.

Net Position by Component Fiscal Years 2006-2015

| Fiscal Year | Net Investments in Capital Assets | Restricted | Unrestricted | Total Net Position |
|----------------|---|------------|---------------|-----------------------|

Cost Per Pupil - General Fund School Years 2010 Through 2014

(1) The above calculations for cost per pupil follow the guidelines recommended by the Maryland State Department of Education. Not included are the expenditures made directly by the State of Maryland and allocated to the local school system, such as pension contributions to the Teachers' Retirement Systems of Maryland.
