Jack R. Smith, Ph.D.
Superintendent of Schools

Maryland's Largest School District

MONTGOMERY COUNTY PUBLIC SCHOOLS

Board of Education of Montgomery County

GUIDING TENETS

- VISION:** We inspire learning by providing the greatest public education to each and every student.
- MISSION:** Every student will have the academic, creative problem solving, and social emotional skills to be successful in college and career.
- CORE PURPOSE:** Prepare all students to thrive in their future.

CORE VALUES

LEARNING

WE BELIEVE that we must engage every student, every day; learning is achieved by cultivating curiosity and encouraging determination, focus, and hard work; and adult learning and engagement are key to student learning.

THEREFORE, we will encourage and support critical thinking, problem solving, active questioning, and risk taking to continuously improve; stimulate discovery by engaging students in relevant and rigorous academic, social, and emotional learning experiences; and challenge ourselves to analyze and reflect upon evidence to improve our practices.

RELATIONSHIPS

WE BELIEVE that meaningful collaboration is vital to our success; strong partnerships are built on trust and open and honest communication; and building relationships with our diverse community requires us to understand the perspectives and experiences of others.

THEREFORE, we will get to know student and staff members as individuals to better serve them; engage in interest-based decision making with our partners to achieve mutually agreed upon goals; and build strong relationships with students, family, staff, and community to support learning.

RESPECT

WE BELIEVE that each individual's contributions add value to our learning community; fair treatment, honesty, openness, and integrity are essential; and the diversity of our culture, interests, skills, and backgrounds is an asset that makes us stronger.

THEREFORE, we will model civility in all interactions and encourage candid conversations; deal fairly and honestly with each other; and listen to others' perspectives with openness and accept that there are various points of view.

EXCELLENCE

WE BELIEVE that raising the bar and setting high standards is necessary to ensure that all students graduate ready for college and career; we have to expect the best to get the best from everyone, every day; and creating intellectual excitement and supporting personal growth inspires us all toward excellence.

THEREFORE, we will push unceasingly for continuous improvement; hold our practice and our work to the highest possible standards; and nurture a culture of creativity and inquiry that supports innovation and progress.

EQUITY

WE BELIEVE that each and every student matters; outcomes should not be predictable by race, ethnicity, or socioeconomic status; equity demands the elimination of all gaps; and creating and maximizing future opportunities for students and staff is necessary.

THEREFORE, we will hold high expectations for all students and staff; distribute resources as necessary to provide extra supports and interventions so all students can achieve; identify and eliminate any institutional barriers to students' success; and ensure that equitable practices are used in all classrooms and workplaces.

INTRODUCTORY SECTION

Board of Education of Montgomery County
June 30, 2020

Quince Orchard High School Football Player, 2019

September 29, 2020

Members of the Board of Education and Citizens of Montgomery County, Maryland:

Maryland State law requires that Local Education Agencies (LEAs) publish at the close of each year a complete set of financial statements presented in conformity with generally accepted accounting principles (U.S. GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. In compliance with that requirement, we hereby submit the Comprehensive Annual Financial Report (CAFR) of the Board of Education of Montgomery County (the Board) for the fiscal year (FY) ended June 30, 2020.

This report has been prepared pursuant to Education Article Section 5-109 of the Annotated Code of Maryland. The report consists of management's representations concerning the finances of the Board. Management assumes full responsibility for the completeness and reliability of all the information presented in this report. Management has established a comprehensive internal control framework. Internal accounting controls are designed to provide reasonable assurance that assets are safeguarded and accounted for properly and to ensure the reliability of accounting information for preparing financial statements in conformity with U.S. GAAP. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived, and the valuation of costs and benefits requires estimates and judgments by management. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The Board financial statements have been audited by CliftonLarsonAllen LLP, an independent firm of licensed certified public accountants. The independent auditor's report is located at the front of the financial section of this report. Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

The Board also is required to undergo a federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. In addition to reporting on the fair presentation of the

financial statements, the single audit places special emphasis on internal controls and legal requirements involved in the administration of federal awards. These reports are available in the Board's separately issued Single Audit Report.

Board Profile

The Montgomery County Board of Education is the elected body, corporate and politic, established under Maryland State law to provide public education in kindergarten through twelfth grade to children residing within the borders of Montgomery County, Maryland. The Board is composed of five district members and two at-large members elected for a four-year term, and one student member elected for a one-year term. The Board determines educational policy and employs a superintendent of schools to administer the school system. Primary funding is provided by Montgomery County from its general revenues. Funds are also received from state and federal sources for general school aid and specific purpose grants.

The Board has no power to levy and collect taxes, which is the case for all of the LEAs in Maryland. Each year the Board, with the involvement of the superintendent, parents, guardians, students, MCPS staff, residents and other stakeholders in the community, will adopt an annual operating budget. This budget must be approved by the Montgomery County Council. Funding for the capital budget is handled differently. In November 1996 the Montgomery County charter was amended by referendum to require a biennial, rather than annual, Capital Improvements Program (CIP) review and approval process. The total six-year CIP is now reviewed and approved for each odd-numbered fiscal year. For even-numbered fiscal years, only amendments are considered where changes are needed in the second year of the six-year CIP. FY 2021 is an odd-numbered fiscal year and, therefore, all CIP projects were considered with a full review by the county executive and the County Council. Because of the relationship with Montgomery County, the Board is considered a component unit of the County Government, as defined by U.S. GAAP for governmental entities. As such, much of the data presented in this CAFR will also appear in the Montgomery County, Maryland CAFR for the corresponding year.

The basic financial statements and supplementary data in this report include all funds administered by the Board in conjunction with its mission of providing elementary and secondary public education. The reporting entity also includes a component unit of the Board, the Montgomery County Public Schools Educational Foundation, Inc. (the Foundation). The Foundation is legally separate from the Board but is included in the Board reporting entity because of the significance of its financial relationship with the Board, and because the Board is considered financially accountable for the Foundation.

Relevant Financial Policies

The school system financial policies, endorsed by the Board's policies and regulations, remain unchanged: organize and optimize resources for improved academic results; deliver high academic results at a low student cost; evaluate the use of resources for applicability to goals of the Board's strategic planning framework; provide financial accountability and transparency to the citizens of Montgomery County; obtain a fair share of state aid; and carefully manage indebtedness and debt service.

The Board uses zero-based budgeting as a tool to manage its exposure to rising costs and to assure spending is efficient. Innovative approaches to continuous improvement are employed to streamline processes, eliminate waste, and to measure process performance in meeting the goals of the Board's strategic planning framework.

Factors Affecting Financial Condition

The county executive submitted his recommended FY 2021 operating budget for the county on March 16, 2020. This budget included revenue estimates based on information available in January and early February 2020. Due to the COVID-19 pandemic health emergency, the county and state began stay-at-home orders to prevent the spread of the virus that shut down or revised the operations of the economy. The Montgomery County Council adopted an FY 2021 operating budget on May 19, 2020. The approved budget included revenue estimates from the March 2020 budget recommendation because revised estimates were not available at the time.

In a memorandum dated July 9, 2020, from Mr. Gene Smith, legislative analyst to the County Council, an update was provided about the county's tax revenue estimates and the impact that the COVID-19 pandemic has had on the economy.

FY 2020 tax revenue estimates are revised down by \$47.7 million compared to estimates in the approved FY 2021 budget. This reduction results in fewer resources available to fund expenditures in FY 2020. It is unknown how this revision will impact the overall FY 2020 budget closeout for the county because this update does not include revisions to the county's expenditures or the use of federal grant funding to offset FY 2020 expenditures.

FY 2021 tax revenue estimates are down \$192 million compared to the estimates in the approved FY 2021 budget. Approximately 62 percent of this reduction is due to a decrease from the county's income taxes. This reduction only applies to tax revenues available to fund the FY 2021 budget. It does not include revisions to the following important items:

- Revisions to the county's expenditures in FY 2021. The county executive recently recommended reductions totaling \$38.3 million in the county's FY 2021 operating budget and \$27.2 million in savings from the FY 2021 capital budget.
- Revisions to the county's state aid. The State of Maryland is also faced with a significant reduction in resources to fund its budget, including aid to the counties.
- Offsetting federal grants. The county still has a portion of the federal funding already received to help offset certain expenditures in FY 2021.

FY 2021 property tax estimates are mostly unchanged compared to the approved FY 2021 budget. This tax revenue is approximately 40 percent of the county's tax revenues each year, and county staff is still waiting for updated information related to potential appeals in FY 2021.

Actual tax revenues decreased by \$188.2 million combined in FY 2010 and FY 2011 due to the recession of 2007. This provides a historical context to the last time the county received less tax revenue compared to the previous year.

The potential impact on future MCPS funding as a result of these downward estimates is yet to be determined.

Long-term Financial Planning

The county has decreased FY 2021-2026 income tax revenue estimates because of a projected decrease in resident employment for several years. Further revisions to the FY 2021-2026 income tax estimates are likely following the November 2020 distribution to the county.

FY 2021-2026 estimated property tax revenue estimates have been decreased by the county because of the estimated changes to the Consumer Price Index (CPI). The County Charter restricts growth to real property tax revenues to the CPI, unless all Councilmembers vote to exceed it. The county indicates additional revisions to property tax estimates are likely but the information will be unavailable until after September 2020 when the first installment of property taxes is due.

Negotiated Agreements

The bargaining units for MCPS are the Montgomery County Education Association (MCEA), representing certificated non-administrative employees; Service Employees International Union (SEIU) Local 500, representing supporting services employees; and the Montgomery County Association of Administrators and Principals/Montgomery County Business and Operations Administrators (MCAAP/MCBOA), representing certificated and non-certificated administrators and non-certificated supervisory employees in separate units. The two MCAAP units are covered in

a single contract for both units. In addition, the three-year contract agreements that the Board of Education approved expired at the end of FY 2020.

Update on Contract Negotiations

At its August 6, 2020, meeting, Board members received an update on association negotiations. It was reported that MCPS reached an agreement with the SEIU Local 500 and MCAAP associations and will move toward ratification of those contracts. It was reported that MCPS and MCEA have not yet reached an agreement and are at an impasse. In addition, MCPS and MCEA will continue to negotiate terms with the assistance of the Public School Labor Relations Board.

In the interim, and on the superintendent's recommendation, the Board approved the following resolution concerning MCEA:

Resolved, That the Board of Education will continue to apply the relevant terms and conditions of the Negotiated Agreement, except as modified by any Memorandum of Understanding between the parties related to the COVID-19 pandemic; and be it further

Resolved, That this resolution automatically expires upon ratification of a successor Negotiated Agreement between the parties, or on September 30, 2020, whichever occurs first.

Enrollment—MCPS experienced another year of significant enrollment growth. For the 2019–2020 school year, official September 30, 2019, enrollment was 165,267 students, a one-year increase of 2,587 students. Much of this enrollment growth is attributable to our international student enrollment that not only will impact the capital budget, but will impact the operating budget as well. Since the 2009–2010 school year, enrollment has increased by 23,490 students. Total MCPS student enrollment, by the 2025–2026 school year, is projected to increase by 6,052 students to reach 171,319 students. This is a remarkable amount of growth for any school system to accommodate.

School capacity continues to be an issue, as the Board continues to catch up with enrollment increases that have occurred in the past, while facing additional enrollment increases in the future. Additional space needs are the result of increases in county births and migration into the school system. For the 2019–2020 school year, 434 relocatable classrooms were in use to address overutilization at various schools throughout the system. To relieve overutilization of schools, the adopted Capital Improvements Program includes funding for the planning, design, and/or construction of 14 elementary school capacity projects, five middle school capacity projects, and five high school capacity projects. It also includes funding for nine revitalization/expansion projects and many countywide systemic projects that address systemwide needs of our aging

facilities. The average age of schools has been increasing and as of June 30, 2020 is 26 years. In the next six years, based on the adopted Capital Improvements Program, a total of 442 classrooms will be added through new schools, classroom additions, and expansion of schools. Even with all of these capital projects, the Board will continue to face space shortages in many of our schools.

Accomplishments and Awards

Graduation rates—The Board has one of the highest graduation rates among the nation’s largest school districts, according to an *Education Week* report. The Schott Foundation reports that the Board has the highest graduation rate in the nation for African American males among the nation’s largest districts.

Top high schools—Five MCPS high schools made the top 500 *U.S. News & World Report 2020* list of Best High Schools. The Board had the top four high schools in the state of Maryland.

Academic progress—Students at all levels are demonstrating improved academic achievement. The emphasis on rigorous course taking resulted in more than 41,000 Advanced Placement (AP) exams taken by the Board’s students in 2019. Students earned a college-ready score (3 or higher) on 71 percent of those exams. In 2019, the percentage of AP exams taken by the Board’s African American students (48.1 percent) that earned college-ready scores of three or higher is significantly higher than the percentages of 42.8 percent in Maryland and 30.6 percent in the nation. In 2019, the percentage of AP exams taken by Hispanic students that earned college-ready scores of three or higher (55.0 percent) was slightly lower than the percentage of exams for Hispanic students in Maryland (55.2 percent) and significantly higher than the nation (43.2 percent).

Return on Investment—More than \$730 million in scholarships were offered to students in the Class of 2019.

Financial reporting awards—The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Board for its CAFR for the fiscal year ended June 30, 2019, for the sixteenth consecutive year. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program’s requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate. For 39 consecutive years, the Board has received the Association of School Business Officials (ASBO) Certificate of

Excellence in Financial Reporting. This award, valid for one year, is granted after an intensive review of the CAFR by an expert panel of certified public accountants and practicing school business officials. The Board plans to submit the 2020 CAFR to ASBO and believes the report continues to meet ASBO certificate program requirements.

Acknowledgements

The preparation of this report on a timely basis could not have been accomplished without the efficient and dedicated services of the entire staff of the Office of Finance. The high standard of conformity of this report reflects the professional competence of all individuals responsible for its preparation. We express our appreciation for a job well done.

Sincerely,

Jack R. Smith, Ph.D.

INDEPENDENT AUDITORS' REPORT

Board of Education
of Montgomery County, Maryland
Rockville, Maryland

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of The Board of Education of Montgomery County, Maryland operating as Montgomery County Public Schools (the Board) a component unit of Montgomery County, Maryland, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Board's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Board's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the component unit governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Board as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management discussion and analysis on pages 17 through 30 and the required supplementary information on pages 87 through 97, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Board's basic financial statements. The supplementary data as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary data, as listed in the table of contents, are the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary data is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and statistical section listed in the table of contents have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Board of Education
of Montgomery County, Maryland

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated September 29, 2020, on our consideration of the Board's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Board's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Board's internal control over financial reporting and compliance.

Board of Education of Montgomery County Management's Discussion and Analysis

This section of the Board of Education of Montgomery County (the Board) Comprehensive Annual Financial Report presents a narrative overview and analysis of the financial activities of the Board for the fiscal year ended June 30, 2020. Readers are encouraged to consider the information presented here in conjunction with additional information presented in the transmittal letter, which can be found on pages 1 – 7 of this report.

Financial Highlights

- The assets and deferred outflows of the Board exceeded its liabilities and deferred inflows at June 30, 2020, by \$262.1 million, which represents its net position.
- The Board's net position increased during the year by \$101.2 million.
- 80 percent of capital asset additions were directed toward instructional facilities.
- The Board successfully generated \$30.3 million in Fiscal Year (FY) 2020 budgetary savings to be used to fund future operating budgets.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Board financial statements. The Board's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide Financial Statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the Board's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the Board's assets, liabilities, and deferred inflows/outflows of resources, if applicable, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Board is improving or deteriorating.

The *statement of activities* presents information showing how the Board's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will result only in cash flows in future fiscal periods (e.g., depreciation and earned but unused annual leave).

Both of the government-wide financial statements distinguish functions of the Board that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the Board include most of the district's basic services, such as regular and special education, transportation, and administration. The business-type activities of the Board include food services, real estate management operations, field trip services, and entrepreneurial activities.

The government-wide financial statements include not only the Board itself (known as the *primary government*), but also the Montgomery County Public Schools (MCPS) Educational Foundation, Inc. for which the Board is financially accountable. Financial information for this *component unit* is reported separately from the financial information presented for the primary government itself.

The government-wide financial statements can be found on pages 33–35 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Board, like other governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Board can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financial decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Board maintains three individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund and the capital projects fund—both of which are considered to be major funds—and the special revenue fund.

The Board adopts annual appropriated budgets for its governmental funds. Budgetary comparison statements have been provided for the governmental funds to demonstrate compliance with these budgets.

The basic governmental fund financial statements can be found on pages 36–40 of this report.

Proprietary funds. The Board maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The Board uses enterprise funds to account for its food services, real estate management, field trip, and entrepreneurial activities. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the Board's various functions. The Board uses an internal service fund to account for its active employees' health benefit plan costs. Because this plan predominantly benefits governmental rather than business-type functions, it has been included within *governmental activities*.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the food services

operation which is considered to be major fund of the Board. Data for the other three proprietary funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for each of these nonmajor proprietary funds is provided in the form of *combining statements* elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 41–43 of this report.

Fiduciary funds. The Board is the trustee, or fiduciary, for assets that belong to others, which includes the Montgomery County Public Schools Employee Retirement and Pension Plan, the Other Postemployment Benefits (OPEB) Plan Trust, and the student activities funds. The Board is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The Board excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

The basic fiduciary fund financial statements can be found on pages 44–45 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 46–86 of this report.

Other information. The combining statements referred to earlier in connection with nonmajor proprietary funds are presented immediately following the notes to the financial statements. Combining and individual fund statements and schedules can be found on pages 98-110 of this report.

Government-wide Financial Analysis

Net position may serve as a useful indicator of a government’s financial position. The Board’s net position, the amount by which assets and deferred outflows exceed liabilities and deferred inflows, increased \$101.2 million to \$262.1 million. The major portion of the increase came from governmental activities, which increased by \$105.1 million to \$246.3 million. The largest portion of net position reflects the Board’s investment in capital assets (e.g., land, school buildings, buses, and equipment), less any related outstanding debt used by the Board to acquire those assets. Net investment in capital assets for governmental activities increased \$205.7 million to \$3,253.1million. These assets are used by the Board in its instructional programs; consequently, these assets are not available for future spending.

Montgomery County and the State of Maryland fund the Board school construction projects through the issuance of general obligation bonds. These bonds are not reflected in the Board’s investment in capital assets, as the resources needed to repay these bonds must be provided by Montgomery County and the State of Maryland.

The unrestricted net deficit increased \$103.8 million to a \$2,997.2 million deficit at June 30, 2020. The increase in unrestricted net deficit is primarily attributed to the effect of the increase in the net OPEB and pension liabilities. These increases were \$257.6 million, which was offset by the net associated deferrals of \$166.5 million, accounting for the largest portion of the total \$144.3 million increase.

The deficit in unrestricted net position arises from the district’s funding policies for its noncurrent liabilities, especially for compensated absences and other postemployment benefits. The fiscal condition of the Board remains strong, and intergovernmental revenues grew sufficiently from FY 2019 to FY 2020 to meet its fiscal obligations and to fund its current operations. However, it is yet to be determined what effects the COVID-19 pandemic will have on the future of intergovernmental revenue growth.

Governmental activities. Governmental activities unrestricted net deficit increased \$141.2 million to a deficit of \$3.0 billion at June 30, 2020. The increase in unrestricted net deficit arose primarily from the increases in both OPEB and net pension liabilities, as previously mentioned.

Total revenues for the Board's governmental activities increased \$89.0 million (2.9 percent). Intergovernmental revenues increased \$61.2 million (2.1 percent), and operating grants revenues increased \$20.7 million (23.9 percent). Intergovernmental revenues from Montgomery County increased \$7.2 million. The increase is primarily due to an increase of \$49.5 million in capital projects revenue in 2020. Intergovernmental revenue from the State of Maryland increased \$49.8 million (5.4 percent). Federal intergovernmental revenue increased \$3.6 million (16.5 percent), largely due to increases in Medicare Part D subsidies. Other revenue increased by \$2.6 million due to increases in land contributions and interest income.

Net position - Ending	\$ 246.3	\$ 141.2	\$ 15.8	\$ 19.7	262.1	\$ 160.9

Total expenses for the Board governmental activities increased \$64.8 million (2.1 percent) to \$3,019.8 million. In 2020, instructional programs expenses accounted for 84 percent, (84 percent in 2019), and support services accounted for 16 percent (16 percent in 2019) of total governmental activities expenses. The proportion of instructional expenses to total expenses continues to rise as internal savings and cost reduction programs remain the primary source for funding instructional program initiatives.

OPEB contributions increased \$52.5 million due to the county (which funds the OPEB Trust on behalf of the Board) funding the full annual required contribution. The Council also agreed with the county executive to provide \$27.2 million from the county’s Consolidated OPEB Trust Fund to cover current retiree health benefits expenditures in FY 2020. Board contributions to the pension plan decreased by 1.9 million (2.1 percent) which was due to the fact that the Board contributed extra funding in FY 2019.

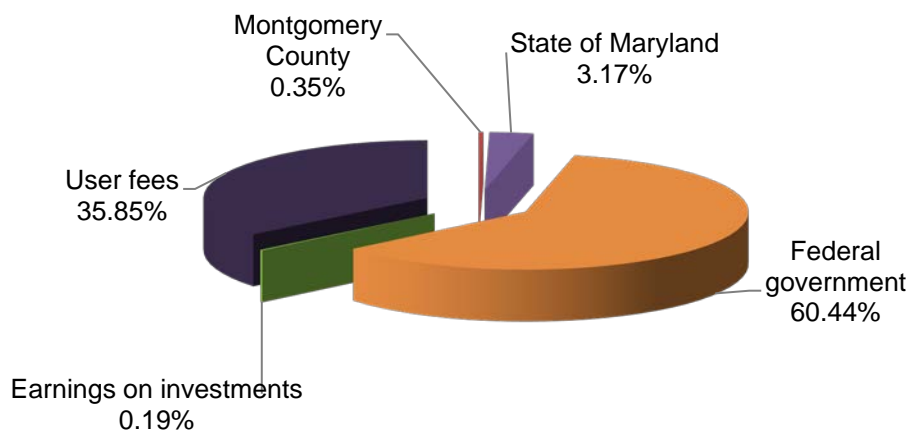

General fund salaries increased \$40.3 million (4.0 percent) primarily due to steps and longevity increases in FY 2020. In addition, part of the general fund salary increase was due to the addition of a net 394 positions in the approved FY 2020 budget to accommodate growth and strategic priorities.

Expenses by Function - Governmental Activities

Business-type activities. Business-type activities decreased the Board's net position by \$3.9 million. Total revenues decreased \$10.7 million (12.5 percent) to \$70.1 million. Charges for services decreased \$11.1 million (30.5 percent) largely due to the effects of schools and cafeterias closing in March due to COVID-19. Nonoperating revenues in the Food Services fund experienced a slight increase due to increased participation in some of the Federal and Maryland State Department of Education (MSDE) programs.

Revenues by Source - Business-type Activities

Total expenses decreased \$5.8 million (7.2 percent). Food Services operating expenses remained relatively constant. Entrepreneurial activities expenses decreased \$5.1 million (43.0 percent), and Real Estate Management and Field Trips had a combined decrease of 0.7 million. Much of these decreases in expenses were due to the effects of COVID-19.

As for the entrepreneurial fund, the decrease was related to the contracting cost decreasing since the installing of bus cameras was all but completed in FY 2019. The entrepreneurial, real estate, and field trip enterprise funds all experienced operating losses in FY 2020. The loss in the entrepreneurial fund has

resulted in a net negative position as of June 30, 2020. It is expected that all three of these nonmajor enterprise funds will return to profitability after the setbacks from COVID-19.

Financial Analysis of the Board's Funds

The Board uses fund accounting to ensure accountability and to demonstrate compliance with finance-related legal and contractual provisions.

Governmental funds. The focus of the Board's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Board's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Board's governmental funds reported a combined ending fund balance of \$65.7 million, an increase of \$10.0 million from the prior year. Fund balance restricted for the instructional TV program is \$0.5 million, a slight increase from the prior year.

The general fund is the principal operating fund of the Board. At June 30, 2020, fund balance was \$65.2 million. Nonspendable fund balance was \$5.8 million. Nonspendable fund balance is classified as nonspendable as the resources, inventories and prepaids, are not expected to be converted to cash. Fund balance assigned for instructional programs increased by \$7.3 million to \$56.4 million. The reason for the increase was largely due to the increase in encumbrances. Unassigned fund balance increased by \$2.8 million to \$3.0 million at June 30, 2020. The capital projects' fund balance is zero. This is because project budgets are fixed depending upon capital project funding adopted by the county, state and federal governments. A more detailed discussion of capital projects spending found in the Capital Assets section on page 26 of this report.

Proprietary funds. The Board's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Factors concerning the finances of those funds have already been addressed within the discussion of business-type activities.

General Fund Budgetary Highlights

The final amended budget for FY 2020 was \$2,687.5 million. The increase of \$83.7 million from the original budget was a result of \$31.3 million in supplemental grant funding, \$25.5 million in unspent grant expenditures carried forward from FY 2019 and \$26.9 million in prior year encumbrances.

Actual budgetary fund balance decreased from the prior year, mainly due to presentation. From FY 2020 going forward, the ending budgetary fund balance will match the governmental "unassigned" fund balance; after an annual adjustment for the change in the nonspendable component.

Actual revenues were \$54.3 million under budget for the year. This was the result of the \$54.5 million under budget on federal, Maryland and local grants and a corresponding increase of \$0.2 million in interest revenue over budget. The restricted revenue shortfall was comprised of \$1.8 million estimated restricted grant activity that did not materialize, and \$52.7 million in unrealized revenue for grants that carried forward into FY 2021.

Actual expenditures were \$84.6 million under budget. Restricted expenditures were \$57.8 million less than the budget, consisted of \$59.1 million in unspent funds for grants that carry forward into FY 2021, and \$1.3 million in estimated restricted grant activity that did not materialize.

Unrestricted expenditures were \$26.8 million under budget. Most of the reduction resulted from a savings plan implemented, higher than budgeted instructional salaries lapse, and personnel turnover.

Capital Asset and Debt Administration

Capital Assets. Capital assets include land and site improvements, schools and administrative buildings, school buses, and other vehicles and equipment. At June 30, 2020, the Board's investment in capital assets for its governmental and business-type activities amounted to \$3,299.3 million, net of accumulated depreciation. This amount represented a net increase of \$206.5 million or 6.7 percent from last year. Buildings accounted for most of the increase.

Board of Education of Montgomery County Capital Assets

(Net of depreciation)

(amounts expressed in millions)

	Governmental Activities		Business-Type Activities		Total	
	2020	2019	2020	2019	2020	2019

Construction	113.6	246.8			113.6	246.8
Total	\$3,293.5	\$3,086.3	\$ 5.8	\$ 6.6	\$ 3,299.3	\$ 3,092.8

To relieve overcrowding and reduce the number of relocatable classrooms in FY 2020, the Board added 51 classrooms associated with the construction of capital projects at Ashburton Elementary School (4) and Christa McAuliffe Elementary School (10), as well as the opening of Snowden Farm Elementary School (37). The Board added 14 classrooms through revitalization/expansion projects at Luxmanor Elementary School (10), Maryvale Elementary School/Carl Sandburg Learning Center (3), and Potomac Elementary School (1).

In FY 2021, the Board will add 27 classrooms associated with the construction of capital projects at Montgomery Knolls Elementary School (4), Pine Crest Elementary School (9), and Thomas W. Pyle Middle School (14). The Board will add 67 classrooms through the revitalization/expansion projects at Seneca Valley High School (56) and Tilden Middle School/Rock Terrace School (11).

Additional information about capital assets can be found in note VI to the financial statements.

Long-term debt. At June 30, 2020, the Board had \$74.6 million in capital leases outstanding. The Board acquires school buses, instructional computers and furniture, other vehicles, and heavy equipment through a master lease agreement with a financial institution. New capital leases for school buses, instructional computers, and other equipment amounted to \$45.3 million during FY 2020. Principal payments on existing capital leases were \$34.8 million during the current year.

Additional information on the Board's long-term debt can be found in notes VIII and IX to the financial statements.

Factors Bearing on the Board's Future

The transmittal letter presents certain information on the local economy and long-term financial planning, enrollment, and negotiated agreement issues affecting the Board. There are several additional initiatives that significantly impact the Board.

Other Postemployment Benefits (OPEB)

Montgomery County contributed \$55.2 million and \$27.2 million respectively, to the CRHBT in FY 2018 and FY 2019 on behalf of the Board. In FY 2019, the Board had \$55.3 million in total retiree pay-as-you-go funding, with \$28.1 million in tax supported funding, and \$27.2 million in assets from the county's Consolidated OPEB Trust. In FY 2020, the county budget authorized \$78.5 million in total MCPS retiree pay-as-you-go funding through \$51.3 million in tax supported funding and \$27.2 million from the Board's portion of the CRHBT. The Board's OPEB pre-funding is appropriated directly to the CRHBT and is not part of the Board's budget request. Until FY 2017, the county had been funding the Board's OPEB actuarially determined contribution. However, in FY 2018 and FY 2019 the contribution was decreased due to a self-imposed savings plan. The FY 2020 county budget of \$78.5 million for MCPS reverted back to fully funding the actuarially determined contribution.

Every Student Succeeds Act of 2015 (ESSA). On December 10, 2015, the ESSA was signed into law by President Barack Obama. This reauthorization of the ESEA, formerly known as the *NCLB Act*, provides a long-term, stable federal policy that gives states additional flexibility and encourages states, local school systems, and schools to innovate while at the same time holding all accountable for results. Specifically, ESSA requires states to do the following:

- Establish State standards, set academic goals, and assess progress toward those goals for all students and schools;
- Measure and report performance of all students, schools, and local school systems;
- Identify and support schools in need of improvement;
- Support professional development and growth for educators;
- Support students to ensure a well-rounded education.

Bridge to Excellence in Public Schools Act of 2002 (BTE). The 2002 Maryland General Assembly adopted ground-breaking legislation to reform the system of educational funding in the state. The *BTE Act* (Senate Bill 856) provides additional statewide funding to assure the adequacy of educational resources while redirecting resources more equitably to meet the needs of students with disabilities, limited English proficient students, and students impacted by poverty. In FY 2020, the Montgomery County Board of Education received an increase of \$51.9 million (7.3 percent) in state aid compared to FY 2019. All *BTE Act* categories received increases. This increase of funding includes \$27.5 million from the Bridge to Excellence legislation and other forms of state aid in FY 2020. The size of the increase is due in large part to the fact that the MCPS enrollment increase totaling 954.0 students represented more than 42 percent of the statewide enrollment increase.

The Foundation Grant saw an increase of \$16.4 million while Limited English Proficiency saw an increase of \$3.3 million. Students with disabilities (formula) received an increase of \$2.1 million. The Geographic Cost of Education Index amount increased by \$1.1 million. Compensatory Education increased by \$1.5 million. Another state aid category for student transportation increased by \$3.2 million. The amount of state reimbursement for students with disabilities increased by \$2.1 million over FY 2019. Finally, MCPS received \$24.4 million for the first time in FY 2020 from the *Blueprint for Maryland's Future* legislation.

Comprehensive Master Plan. The *BTE Act*, in accordance with the Annotated Code of Maryland §5-401, requires Local Education Agencies (LEAs) to develop and submit an annual update to the Comprehensive Master Plan to MSDE for review. The annual update includes reporting requirements in accordance with Annotated Code of Maryland §7-203.3, and Chapter 702, Commission on Innovation and Excellence in Education. In alignment with the Annotated Code of Maryland § 5-401, Annotated Code of Maryland §7-203.3, Chapter 702, and the MSDE's vision to create a world class system to prepare all students for college and career, the Comprehensive Master Plan Annual Update should include goals, objectives, and strategies to promote academic excellence among all students.

Maintenance of Local Effort (MOE). In 2012, the Maryland General Assembly adopted Senate Bill (SB) 848 that clarified and strengthened requirements for counties to maintain the local financial commitment to

public schools. SB 848 provides significant protection of local funding for public schools, especially during periods of economic challenges. The law requires all counties and the City of Baltimore to provide at least as much local tax revenue per student as the previous fiscal year. Instead of penalizing a school district with the loss of increased state aid, SB 848 provides for the diversion of sufficient local income tax collections to assure that a school district receives at least the required amount of local contribution. If a county cannot meet its commitment because of a severe financial downturn, the law provides broader criteria for a waiver application to the MSDE, but also limits the amount of the possible waiver. Montgomery County has met MOE requirements each year.

Following several years of being funded at the minimum level required by the MOE law, in FY 2017, the Board was funded at \$89,965,802 above MOE. This increased the cost per pupil from \$9,749 to \$10,637. Along with this increase, the County Council's appropriation provided \$37.9 million of accelerators that allows the Board to reduce class sizes in many classrooms across the district and accelerate efforts to close the achievement gap. In FY 2018, the County Council funded MCPS at \$21.2 million above MOE. This increased the cost per pupil to \$10,765. In FY 2019, MCPS received \$18.6 million over MOE. This increased the cost per pupil to \$10,878. Finally, in FY 2020, MCPS received \$8.7 million over MOE. This increased the cost per pupil to \$10,923.

Potential Reduction to State Aid in FY 2021

MSDE has advised that because of revenue concerns at the state level, Local Education Agencies (LEAs) such as MCPS should prepare for a reduction of state aid later this fiscal year. MSDE guidance was that LEAs should prepare for a reduction of state aid in FY 2021 equal to the growth in state aid compared to FY 2020. MCPS received a \$38,421,473 increase in state aid in FY 2021; therefore, based on the MSDE guidance, we should be prepared for a potential reduction of that amount for FY 2021 in winter or spring of 2021. It should be noted that any change to state aid would require the state legislature to pass a bill that changes how the formulas are set for the calculation of state aid, as they are set in legislation. This is concerning because the state legislature is not expected to meet in session until January 2021, and it may be several months before a vote is taken on such legislation. This may mean we would not know the outcome of this state aid reduction for FY 2021 until either the third or fourth quarter of the fiscal year. This action, if approved by the state legislature, would have substantial impact on our operating budget and would be extraordinarily difficult to institute so near the end of the fiscal year. The revenue concerns at the state level in FY 2021 can be expected to continue beginning with the FY 2022 budget.

Another concern is the potential loss of \$27,404,996 we have budgeted in FY 2021 for programs from the *Blueprint for Maryland's Future*. This *Blueprint* funding received from the state for FY 2020 and FY 2021 has been in addition to the funding provided by the formulas that comprise the majority of the state aid that MCPS receives annually. As this funding expires at the end of FY 2021, if the state legislature does not fund Kirwan Commission recommendations beyond FY 2021, another important revenue source for MCPS' operating budget will be lost. This funding has supported special education, prekindergarten expansion, struggling learners, mental health coordinators, and teacher salaries in MCPS for the past few years.

Potential Impact to State Aid and the Local Contribution in FY 2022 from Lower FY 2021 Enrollment

Both state aid and the local contribution for a fiscal year such as for FY 2022 is calculated by using the official enrollment from the previous school year, which, in this case would be the official enrollment on September 30, 2020, or a date in FY 2021. The official Kindergarten–12 enrollment reported to the state for the 2019–2020 school year was 160,379. Early estimates at the start of the 2020–2021 school year indicate that enrollment is approximately 2,400 students less than in the previous year. MCPS received approximately \$5,000 per student in state aid for FY 2021. The decrease of 2,400 students in the 2020–2021 school year based on \$5,000 per student could result in approximately \$12.0 million less in state aid received for FY 2022. The state aid formulas are complex; one factor is Montgomery County's wealth relative to that of the state's other counties; therefore, it is important to note that this figure only is an estimate.

For the local contribution from Montgomery County, MCPS received \$10,923 per student for FY 2021 based on the MOE law. A decrease of 2,400 students in the 2020–2021 school year multiplied by \$10,923 per student could result in approximately \$26.2 million less in the local contribution for FY 2022 compared to the current fiscal year. In summary, the potential loss of state aid (\$12.0 million) and the local contribution (\$26.2 million) could result in a combined loss of \$38.2 million in revenue for FY 2022 from the state and County.

Requests for Information

This financial report is designed to provide a general overview of the Board's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Associate Superintendent of Finance, Board of Education of Montgomery County, 850 Hungerford Drive, Room 167, Rockville, Maryland 20850.

BOARD OF EDUCATION OF MONTGOMERY COUNTY
RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
WITH THE GOVERNMENT-WIDE STATEMENT OF NET POSITION
JUNE 30, 2020

Amounts reported for governmental activities in the statement of net position are different because:

Total fund balances - governmental funds	\$	65,690,779
Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds.		
The cost of capital assets is	\$	4,941,937,586
Accumulated depreciation is		<u>(1,648,396,948)</u>
		3,293,540,638
Pension related deferred outflows of resources		257,231,897
OPEB related deferred outflows of resources		451,132,372
An internal service fund is used to account for the employee health benefit plan costs. The assets and liabilities of the internal service fund are included with governmental activities.		
		31,554,731
Treatment of compensated absences on the governmental statement has changed. Long-term liabilities are not due and payable in the current period and therefore are not reported as liabilities in the funds. Long-term liabilities at year end consist of:		
Capital leases payable	\$	(74,045,798)
Compensated absences		(153,322,745)
Net pension liability		(554,333,453)
Net OPEB liability		<u>(2,616,173,765)</u>
		(3,397,875,761)
Pension related deferred inflows of resources		(37,720,165)
OPEB related deferred inflows of resources		<u>(417,295,098)</u>
Total net position - governmental activities	<u>\$</u>	<u>246,259,393</u>

The Notes to the Financial Statements are an integral part of this statement.

The Notes to the Financial Statements are an integral part of this statement.

BOARD OF EDUCATION OF MONTGOMERY COUNTY
RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES WITH THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2020

Total net change in fund balances - governmental funds \$ 9,964,824

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are shown in the statement of net position and allocated over their estimated useful lives as annual depreciation expense in the statement of activities. This is the amount by which capital outlays for capital project assets (\$380,697,056 less non-capitalized items of \$57,750,408) plus capital outlays for general fund assets (\$18,991,547) exceed depreciation expense (\$120,129,845) in the current period. 221,808,350

The net effect of various miscellaneous transactions involving capital assets, such as the loss on disposal of capital assets (\$641,561) and the donation of land from developers (\$8,142,400) is to increase net position. 7,500,839

Contributions to the OPEB plan in the current fiscal year are not included on the statement of activities 115,201,749

Contributions to the pension plan in the current fiscal year are not included on the statement of activities 86,941,255

Some of the capital assets and assets below the capitalization threshold acquired this year were financed with capital leases. The amount financed by capital leases is reported in the governmental funds as a source of financing. On the other hand, the capital leases are not revenues in the statement of activities, but rather constitute long-term liabilities in the statement of net position. Also, expenditures for principal repayment of capital leases are measured by the amount of financial resources used by governmental funds and have no effect on net position. This is the amount by which new capital leases (\$45,018,976) exceeded principal payments (\$34,587,878) (10,431,098)

In the statement of activities, certain operating expenses are measured by the amounts accrued during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources expended, as follows:

Compensated absences	\$ (10,086,660)	
Pension expense	(24,089,058)	
OPEB expense	<u>(291,221,479)</u>	(325,397,197)

An internal service fund is used to charge the costs of the employee benefit plan to the individual funds. The net expense of the internal service fund is reported with governmental activities in the statement of activities. (501,183)

Change in net position of governmental activities \$ 105,087,539

The Notes to the Financial Statements are an integral part of this statement.

BOARD OF EDUCATION OF MONTGOMERY COUNTY
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Board of Education of Montgomery County (the Board) have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as applied to local government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the Board are described below.

A. REPORTING ENTITY

The Board of Education of Montgomery County is the elected body, corporate and politic, established under Maryland law to provide public education in kindergarten through twelfth grade to children residing within the borders of Montgomery County, Maryland. The Board determines educational policy and employs a superintendent of schools to administer the public school system known as the Board of Education of Montgomery County. Primary funding is provided by Montgomery County from its general revenues. Funds are also received from state and federal sources for general school aid and specific purpose grants. The budget is approved by the Montgomery County Council. The Board has no power to levy and collect taxes or to increase the budget. Because of the relationship with Montgomery County, the Board is considered a component unit of the county government, as defined by GAAP for governmental entities.

The accompanying financial statements present the primary government, the Board, and its discretely presented component unit, the Montgomery County Public Schools Educational Foundation, Inc. (the Foundation). The Foundation is included in the reporting entity because of the financial benefits provided through it to the Board and because the Board is considered to be financially accountable. The Foundation is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the Board. Since the Foundation adheres to the reporting conventions of the Financial Accounting Standards Board (FASB), and the Board's Statements conform to GASB, adjustments were made for the timing of certain contributions and expenses.

The Foundation accepts grants and contributions from private organizations and individuals. All such funds received are used to enhance the Board educational programs and to provide student scholarships. Complete financial statements can be obtained from the Associate Superintendent of Finance, Board of Education of Montgomery County, 850 Hungerford Drive, Room 167, Rockville, Maryland 20850.

B. BASIS OF PRESENTATION

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the Board and its component unit except for fiduciary activities. For the most part, the effect of interfund activity has been removed from these statements. An exception to this general rule is that interfund services provided or used between functions have not been eliminated in the statement of activities because to do so would distort the net cost data for functional activities reported in the total column of that statement. Governmental activities, which normally are supported by intergovernmental revenues, are reported separately from business-type activities, which rely primarily on fees and charges for support. Likewise, the primary government is

BOARD OF EDUCATION OF MONTGOMERY COUNTY
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

reported separately from its legally separate component unit for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and, 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Intergovernmental revenue and other items not properly included among program revenues are reported as general revenues.

Separate fund financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. Nonmajor enterprise funds are aggregated and reported as nonmajor funds.

The Board reports the following major governmental funds:

- The general fund is the primary operating fund of the Board. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.
- The capital projects fund accounts for financial resources to be used in the acquisition or construction of school sites and buildings and other major capital facilities.

The Board reports the following major proprietary funds:

- The Food Services Fund accounts for the operations of 208 cafeterias and the central production facility, providing for the preparation and sale of meals to students, other agencies, and customers.

Additionally, the Board reports the following fund types:

- The special revenue fund accounts for the use of Cable TV franchise fees that are legally restricted to expenditure for specific purposes.
- The internal service fund accounts for the financing of active employee health benefits provided to other funds of the government on a cost reimbursement basis.
- The pension and other employee benefits trust funds account for the activities of the Employees' Retirement and Pension System that accumulates resources for pension benefit payments to qualified employees, and the Board's interest in the Consolidated Retiree Health Benefit Trust (CRHBT) that accumulates resources for other postemployment benefits (OPEB).
- The agency fund accounts for assets held by elementary and secondary schools for student groups. Agency funds are custodial in nature (i.e., assets equal liabilities) and do not involve measurement of results of operations.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of

BOARD OF EDUCATION OF MONTGOMERY COUNTY
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

the Food Services, and nonmajor enterprise funds, as well as the internal service fund are charges to customers for sales and services. Operating expenses for enterprise funds and the internal service fund include cost of sales and services, administrative expenses, and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING

The government-wide, proprietary, and certain fiduciary (pension and other employee benefit trust) fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Revenue from U.S. Department of Agriculture (USDA) commodities is considered earned when the commodities are used. The value of unused USDA commodities is reported as unearned revenue. Employee, employer, and other contributing entities' contributions to the pension and other employee benefit trust funds are recognized as revenue in the period that the contributions are due. Pension and other postemployment benefits expenses and refunds are recognized when due and payable. Agency funds, which have no measurement focus, also use the accrual basis of accounting to recognize assets and liabilities.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. All governmental fund revenues are considered available if the revenues are collected within ninety days after year-end. The Board's primary sources of funding are intergovernmental revenues which are either unrestricted as to purpose of expenditure or are restricted to a specific purpose. Unrestricted funds are recorded as revenues at the time of receipt or earlier if they meet the availability criterion. Restricted funds are recognized as revenue when all eligibility requirements imposed by the provider have been met and the resources are available. Restricted funds received in excess of recorded expenditures are recorded as unearned revenue. Expenditures generally are recorded when a liability is incurred, as under accrual accounting, except for principal and interest on capital leases, and expenditures related to compensated absences and claims and judgments, which are recorded only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds from capital leases are reported as other financing sources.

All funds of the Board follow Governmental Accounting Standards Board (GASB) Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*. The sources of authoritative GAAP are categorized first by officially established accounting principles under GASB Statements and then by GASB Technical Bulletins, GASB Implementation Guides, and literature of the American Institute of Certified Public Accountants (AICPA) cleared by the GASB. If the accounting treatment for a transaction or other event is not specified within a source of authoritative GAAP, the Board then may consider nonauthoritative accounting literature from other sources. Sources of nonauthoritative accounting literature include GASB Concepts Statements; pronouncements and other literature of the Financial Accounting Standards Board, Federal Accounting Standards Advisory Board, International Public Sector Accounting Standards Board, and International Accounting Standards Board, and AICPA literature not cleared by the GASB; practices that are widely recognized and prevalent in state and local government; literature of other professional associations or regulatory agencies; and accounting textbooks, handbooks, and articles.

BOARD OF EDUCATION OF MONTGOMERY COUNTY
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

When both restricted and unrestricted resources are available for use, it is the Board's policy to use restricted resources first, then unrestricted resources as they are needed.

D. USE OF ESTIMATES IN PREPARING FINANCIAL STATEMENTS

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenditures during the reporting period. Actual results could differ from these estimates.

E. CASH AND INVESTMENTS

The Board maintains an active pooled cash and investment program which is managed in accordance with the Annotated Code of Maryland. Overnight investments in repurchase agreements and money market investments are stated at amortized cost. Investment income is allocated to the various funds based on their average equity in the pool. The assignment of allocated investment income to the general fund is reported as a transfer.

Pension Trust Fund investments consist of separate and comingled funds carried at fair value. Equity and bond securities are valued using the net asset value (NAV) per share (or its equivalent). The fair value of mortgages, real estate investments, private equity and hedge fund investments are also valued using the NAV, based on information provided by fund managers.

OPEB Plan Trust investments are now part of the CRHBT. In accordance with the trust agreement, the Board is allocated a portion of the investment pool. The allocated portion is treated in the statements as short-term investments, measured at net asset value.

Internal Service Fund investments are stated at fair value. For purposes of the statement of cash flows, the Internal Service Fund and the Food Services Fund consider all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents, measured at net asset value.

The cash in the Agency Fund represents the independent activity fund cash balances in the separate bank accounts of individual schools and other groups. The bank accounts are maintained by each of the locations. The administrator at each location is required, under Board policy, to deposit any funds in excess of current needs with a federally or state insured financial institution or in the Board Centralized Investment Fund (CIF). All such funds earn market rate interest and are available to schools on a demand basis.

The Foundation invests in an external investment pool and public traded mutual funds. The Montgomery County Investment Pool invests funds for itself and participating agencies pursuant to the Annotated Code of Maryland, County Code and the county's short-term investment policy as approved by the County Council. The fair value of the Board's position in the aforementioned pools is the same as the value of pool shares. The Foundation investment in Northern Trust publicly traded mutual funds is stated at fair value.

BOARD OF EDUCATION OF MONTGOMERY COUNTY
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

F. INVENTORIES AND PREPAID ITEMS

Depending on the character and composition of the inventory, the method of cost or market, whichever is lower, may be applied either directly to each item or to the total of the inventory. For supplies, inventories are reported at cost. For instructional materials, and transportation parts, cost is determined by the lower of cost or market basis method. For transportation fuels, food and food-related inventories, cost is determined by the first-in, first-out method. Commodities received from the USDA are stated at fair value. Unused USDA commodities in inventory at year-end are reported as deferred revenue as title does not pass to the Board until the commodities are used. The cost of all inventories is recorded as an expense/expenditure at the time the individual inventory items are consumed (consumption method).

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items (consumption method) in both government-wide and fund financial statements.

G. CAPITAL ASSETS

Capital assets, which include property, plant and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the Board as assets with an initial individual cost of more than \$5,000 (\$1,000 for the Food Services Fund) for equipment and \$200,000 for buildings and structural additions, and an estimated useful life in excess of one year. Purchased or constructed capital assets are valued at cost where historic records exist and at estimated historic cost where no historic records exist. Donated capital assets are valued at acquisition value at the date of acquisition. Acquisition value is the price that would be paid to acquire an asset with equivalent service potential in an orderly market transactions at the acquisition date, or the amount at which a liability could be liquidated with the counterparty at the acquisition date.

Outlays for capital assets and improvements are capitalized as projects are constructed. Outlays for normal maintenance and repairs that do not add to the value of an asset or materially extend asset lives are not capitalized. Capital outlays for technology modernization are capitalized to the extent individual costs exceed capitalization thresholds.

Property, plant, and equipment is depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	40
Land and building improvements	20
Portable classrooms	15
Furniture, heavy equipment and vehicles	12
Technology, light equipment and vehicles	5

H. DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

In addition to assets, the Statement of Net Position reports a separate section for deferred outflows of resources. This separate financial statement element, Deferred Outflows of Resources, represents a consumption of net position that applies to a future period and will not be recognized as an expense or expenditure until then. In addition to liabilities, the Statement of Net Position reports a separate section

BOARD OF EDUCATION OF MONTGOMERY COUNTY
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

for deferred inflows of resources. This separate financial statement element, Deferred Inflows of Resources, represents an acquisition of net position that applies to a future period and will not be recognized as revenue until then. The Board has two items that meet the criterion described above. These are the deferrals of pension and OPEB expenses that result from the implementation of GASB Statements 68 and 75.

I. COMPENSATED ABSENCES

Board employees are permitted to accumulate earned but unused annual and sick leave benefits. It is Board policy to pay employees who separate from service the accumulated amount of earned but unused annual leave and, for employees of all unions with at least five years credited service, one quarter of earned, accumulated sick leave. The amount of accumulated annual leave that may be paid is limited by each of the union agreements. Employees with thirty or more years credited service receive 30% of earned, accumulated sick leave. Members of the Montgomery County Education Association (MCEA) receive 35% only if they submit retirement or termination notice by April 1, for an effective date of July 1. Otherwise, MCEA member will only receive 20% of their accumulated sick leave. All annual and sick leave is accrued when earned in the government-wide and proprietary fund financial statements.

J. LONG-TERM OBLIGATIONS

All long-term obligations are reported as liabilities in the government-wide and the proprietary fund financial statements. Only the portion of long-term obligations expected to be paid from expendable available financial resources is reported as a liability in the governmental fund financial statements. The face amount of capital lease issuances is reported as other financing sources.

K. FUND BALANCES

Governmental funds, in the fund financial statements, report fund balances according to classifications that provide an understanding of the nature of resources available for specific purposes and the extent of constraints that determine how funds can be spent. Governmental fund balances are classified as follows:

Nonspendable – Amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact, such as a permanent fund. Not in spendable form includes items that are not expected to be converted to cash, such as inventories and prepaid items.

Restricted – Amounts for which constraints have been placed on the use of the resource either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. Special Revenue Fund resources are restricted as to use to the Instructional TV program only. The restriction exists by law under a Cable Franchise Agreement established by Montgomery County Code, Chapter 8A, Cable Commission Law.

Committed – Amounts that can be used only for specific purposes determined by formal action of the Board (the highest level of decision-making authority). Formal action of the Board would be those actions which are voted on at public Board meetings that are in compliance with Maryland law. Similar action of

BOARD OF EDUCATION OF MONTGOMERY COUNTY
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

the Board is required to modify or rescind such commitments. Capital Projects Fund resources may only be used for construction projects specifically approved by the Montgomery County Council capital improvements program. These amounts cannot be used for any other purpose unless approved by the Montgomery County Council.

Assigned – Amounts that are constrained by the government’s intent to be used for specific purposes, but are neither restricted nor committed. The intent should be expressed by (a) the governing body itself or (b) a body (for example, a budget or finance committee) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes. This category includes resources the Board have expressly assigned to specific purposes. An assignment may be determined, and amended, by the superintendent of schools, or his designee.

Unassigned – This classification is the residual amount of the general fund balance and represents all spendable amounts that have not been restricted, committed, or assigned to specific purposes. In other funds, the unassigned classification can only be used to report a deficit balance resulting from overspending for a specific purpose for which amounts had been restricted, committed, or assigned.

When an expenditure has been spent for which both restricted and unrestricted fund balance is available, the Board considers restricted amounts to have been spent before unrestricted amounts. Within unrestricted amounts, when committed, assigned, or unassigned fund balances exist, the Board considers committed amounts to be spent first, followed by assigned amounts, and then unassigned amounts, when expenditures are incurred for which amounts in any of those unrestricted fund balance classifications could be used. Net position of the Internal Service Fund represents equity reserved for future claim losses and benefits under the employee benefit plan.

Details about the FY 2020 amounts for each of the classifications described above can be found on page 65 of the footnotes.

As for the Governmental-Wide Fund Balance, the Nonspendable portion of the Governmental Fund Balance is reclassified as “Net investment in capital assets.” The restricted classification remains as is, and the only other component of the Government-Wide Fund Balance is “Unrestricted.”

For purposes of measuring the net pension and OPEB liability, deferred outflows of resources and deferred inflows of resources related to pension and OPEB expense, information about the fiduciary net position of the Pension and OPEB Plans (Plans) and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by Plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

BOARD OF EDUCATION OF MONTGOMERY COUNTY
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

L. PENDING PRONOUNCEMENTS

GASB routinely issues standards that will become effective in future years. The following is a list of standards that have been issued that the Board has determined will have a significant impact on future financial statements.

Statement No. 84, *Fiduciary Activities*

The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. The requirements of this Statement are effective for financial statements starting with the fiscal year that ends December 31, 2020 (FY 2021). The Board was planning on implementation in FY 2020, but will now adopt the revised effective date (due to COVID-19) and will implement in FY 2021.

Statement No. 87, *Leases*

The objective of this Statement is to better meet the informational needs of financial statement users by improving accounting and financial reporting for leases by governments. The requirements of this Statement are effective for financial statements starting with the fiscal year that ends June 30, 2022 (FY 2022). The Board is currently evaluating the effect of implementation of this Statement.

BOARD OF EDUCATION OF MONTGOMERY COUNTY
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

II. BUDGETARY INFORMATION

A. OVERVIEW

The majority of current funding for the Board is provided by Montgomery County, the State of Maryland, and the federal government. Under Maryland school statutes, the Board's annual Operating Budget, incorporating general, special revenue and enterprise funds is presented to the Montgomery County Council no later than March 1 and is to be adopted by the Council by May 31. In general, the county is then responsible to fund the budget as adopted, to the extent that funds are not raised from other sources (state and federal government, etc.). The Board has no power to levy taxes or to spend funds not appropriated by the Montgomery County Council.

Formal budgetary integration, including encumbrance accounting, is employed as a management control device during the year for the governmental and proprietary fund types. Management is authorized to transfer funds within major categories of expenditure (i.e., administration, instructional salaries, etc.) up to \$100,000. Transfers in excess of \$100,000 require the approval of the superintendent and the Board; transfers between major categories require the approval of the Montgomery County Council. By state law, major categories of expenditure may not exceed budgeted amounts for the year ending June 30.

The final budgeted amounts reflected in the accompanying financial statements recognize budget revisions made during the year, all of which were properly reported and/or approved, as applicable.

In the governmental funds for GAAP purposes, outstanding encumbrances are reported as a restricted, committed, or assigned category of fund balance because they do not constitute expenditures or liabilities. Encumbrances outstanding for the proprietary funds are eliminated for financial statement presentation. Annual appropriations that are not restricted, committed, or assigned at year-end lapse. Outstanding encumbrances at year-end are reappropriated in the subsequent year.

Capital projects are funded primarily by Montgomery County and by the State. Funds are budgeted in the Council approved Capital Budget and appropriated on a project basis and on an annual basis. Capital projects funds do not lapse at the end of each year, but may be expended until project completion.

B. BUDGETARY PRESENTATION

The general fund statement of Revenues, Expenditures, and Changes in Fund Balance-Budget and Actual has been prepared on the legally prescribed budgetary basis of accounting to demonstrate compliance with the legally adopted budget. Generally, the budgetary basis of accounting employs the modified accrual basis plus the effect of encumbrances. The basis used to prepare the legally adopted budget differs from GAAP as follows:

- Encumbrances outstanding are charged to budgetary appropriations in the current period.
- State of Maryland retirement contributions made on behalf of the Board employees are a legal obligation of the State, and so are not included in the Board budget.
- Montgomery County OPEB contributions made to the CRHBT on behalf of the Board employees and retirees, are not included in the Board budget.
- Federal government Medicare Part D payments made to the CRHBT on behalf of the Board retired employees for postemployment prescription benefits are not included in the Board budget.
- Capital lease financing is accounted for as other financing sources for GAAP purposes.

BOARD OF EDUCATION OF MONTGOMERY COUNTY
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

Adjustments to reconcile the budgetary statement to the GAAP fund statement are as follows:

	<u>Revenues</u>	<u>Expenditures & Encumbrances</u>	<u>Other Financing Sources</u>	<u>Effect on Fund Balance</u>
As reported - budgetary basis	\$ 2,581,348,816	\$ 2,602,858,502	-	\$ (21,509,686)
Reconciling items:				
2020 Encumbrances outstanding		(31,400,537)		31,400,537
State of Maryland retirement contributions	162,548,643	162,548,643		
Montgomery County OPEB contributions	(27,200,000)	(27,200,000)		
Federal Medicare Part D contributions	26,546,554	26,546,554		
Capital lease financing		18,759,327	18,759,327	
As reported – GAAP basis	<u>\$ 2,743,244,013</u>	<u>\$ 2,752,112,489</u>	<u>\$ 18,759,327</u>	<u>\$ 9,890,851</u>

Governmental funds encumbrances outstanding at June 30, 2020 include \$31,400,537 for the General Fund. Encumbrances are considered expenses for budgetary purposes, however are not considered liabilities or expenditures for GAAP purposes.

Beginning June 15 of each fiscal year (FY), the Board issues purchase orders and begins shipment of inventory to various schools for items such as instructional materials, textbooks, and construction contracts that will be charged to the budget of the next fiscal year. These obligations and warehouse shipments are not reflected in the accompanying financial statements. At June 30, 2020, \$2,637,495 of such purchase orders had been issued.

III. DEPOSITS AND INVESTMENTS

Cash and investments at June 30, 2020 are summarized as follows:

	<u>Primary Government (including fiduciary)</u>	<u>Component Unit</u>
Equity in pooled cash and investments	\$ 94,463,041	\$ -
Cash and cash equivalents	9,981,413	1,207,651
Cash-fiduciary funds	15,356,654	
Investments – cash equivalents	98,839,395	6,460,749
Investments-fiduciary funds	2,370,161,399	
Total	<u>\$ 2,588,801,902</u>	<u>\$ 7,668,400</u>
Deposits and Investments Summary:		
Deposits	\$ 119,798,375	1,207,651
Investments	2,469,000,794	6,460,749
Cash on hand	2,733	
Total	<u>\$ 2,588,801,902</u>	<u>\$ 7,668,400</u>

A. DEPOSITS

Custodial credit risk. In the case of deposits, this is the risk that in the event of a bank failure, the Board may not be able to recover all or a portion of the deposit. The Annotated Code of Maryland requires that public funds on deposit with a financial institution be fully secured by deposit insurance, surety bonds, obligations of

BOARD OF EDUCATION OF MONTGOMERY COUNTY
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

the United States or its agencies, obligations of the State of Maryland or any of its agencies, or obligations of a county, other governmental authority, or municipal corporation in the State of Maryland.

At June 30, 2020, the reported balance of the Board's deposits was \$119,798,375 and the bank balance was \$122,661,825. The bank balance was covered either by federal depository insurance or by collateral held by the Board's agent in the Board's name.

B. INVESTMENTS

Investments as of June 30, 2020 are as follows:

<u>Investment Type</u>	<u>Fair Value</u>
Pension Trust Investments:	
Global equities index funds	\$ 1,015,767,688
Fixed income securities	500,887,678
Real estate	90,088,584
Alternative investments	179,510,987
Subtotal Pension Trust Investments	<u>1,786,254,937</u>
OPEB Related Investments:	
Investment in CRHBT	538,042,355
Subtotal OPEB Related Investments	<u>\$ 538,042,355</u>
Other Investments:	
Cash equivalents (Pension and Internal Service Fund)	144,703,502
Total Investments	<u>\$ 2,469,000,794</u>

Interest rate risk. The Board manages its exposure to fair value losses arising from increasing interest rates by limiting the duration of its fixed income investment portfolios. Internal pooled investments duration is limited to less than six months. The investment policy of the Centralized Investment Fund limits maturities to three years or less. The Pension Trust investment policy specifies that fixed income portfolio duration should track the Bloomberg Barclays Intermediate Aggregate Bond Index. During FY 2020, the investment portfolios were managed within the duration guidelines specified in each of the respective investment policies.

Duration estimates the sensitivity of a bond's price to interest rate changes. The higher the duration of a bond, the greater its price volatility should be in response to changes in interest rates.

As of June 30, 2020, fixed income investments had the following sensitivity to interest rates:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Modified Duration in Years</u>
Pension Trust Investments:		
Core fixed income	\$ 389,339,025	5.8
Other fixed income	121,762,760	3.1
Total	<u>\$ 511,101,785</u>	

Credit risk. The Annotated Code of Maryland authorizes the Board to invest in obligations for which the United States has pledged its faith and credit for the payment of principal and interest, in obligations issued by a federal agency in accordance with an act of Congress, in repurchase agreements collateralized at not less than 102% of the principal amount by obligations of the United States and its agencies, in money market mutual

BOARD OF EDUCATION OF MONTGOMERY COUNTY
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

funds operated in accordance with the U.S. Securities and Exchange Commission (SEC) Rule 2A-7, or in any investment portfolio created under the Maryland Local Government Investment Pool.

The Pension Trust Fund is authorized to invest in a broad range of securities including domestic and foreign equities, obligations of the United States and its agencies, securities issued or guaranteed by a foreign government, corporate bonds, asset backed securities, private equity, money market funds, and private real estate investments.

Pension Trust fixed income investments at June 30, 2020, had the following credit risk characteristics:

S&P/Moody's Quality Rating	Percent of Fixed- Income Investments	Fair Value
AAA	3.6%	\$ 18,558,253
AA	49.1%	250,745,192
A	9.8%	50,029,423
BBB	16.9%	86,436,687
BB and below	8.8%	45,098,546
Not rated	11.8%	60,233,684
Total	<u>100.0%</u>	<u>\$ 511,101,785</u>

During FY 2020, individual holdings in the investment portfolios did not exceed policy guidelines. About \$14.5 million of the fixed income portfolio cannot be readily redeemed.

Foreign currency risk. The Pension Trust's exposure to foreign currency risk is derived from its investments in vehicles that have positions in securities denominated in foreign currencies. The Board's direct foreign currency risk at June 30, 2020, is as follows:

Currency	Fixed Income	Alternative Investments	Total Fair Value
Argentina Peso	\$ 38,969	\$ -	\$ 38,969
Australian Dollar	335,728		335,728
Brazil Real	1,075,770		1,075,770
Canadian Dollar	3,276,817		3,276,817
Euro Currency Unit	(3,929,453)	8,354,926	4,425,473
Indian Rupee	160,140		160,140
Indonesian Rupiah	991,090		991,090
Japanese Yen	(208)		(208)
Mexican Peso	3,091,840		3,091,840
Pound Sterling	456,017		456,017
Russian Ruble (new)	2,189,194		2,189,194
Total	<u>\$ 7,685,904</u>	<u>\$ 8,354,926</u>	<u>\$ 16,040,830</u>

Commitments. At June 30, 2020, unfunded commitments were \$149,269,011 to private equity funds and private real estate funds.

Fair value measurement. The Board categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles, as follows:

- Level 1 – Valuations based on unadjusted quoted prices for identical assets or liabilities in active markets;
- Level 2 – Valuations based on quoted prices for similar assets or liabilities in active markets or identical assets or liabilities in less active markets, such as dealer or broker markets; and

BOARD OF EDUCATION OF MONTGOMERY COUNTY
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

- Level 3 – Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable, such as pricing models, discounted cash flow models and similar techniques not based on market, exchange, dealer or broker-traded transactions.

The Board has the following recurring fair value measurements as of June 30, 2020:

Investments by Fair Value Level	June 30, 2020	Fair Value Measurement Using		
		Level 1	Level 2	Level 3
Debt Securities:				
Treasury Inflation Protected Securities	\$ 4,666,327	\$ 4,666,327	\$ -	\$ -
US Treasuries Securities	13,510,507	13,510,507		
US Agencies	173,918		173,918	
Asset Backed	3,386,186		3,386,186	
Corporate Bonds	45,548,265		45,548,265	
Municipal Bonds	584,717		584,717	
Mortgage Backed Securities	30,212,237		30,208,840	3,397
International Government Bonds	9,227,068		9,227,068	
Futures Contracts	204,581	204,581		
Cash & Cash Equivalents*	144,703,502	138,817,906	1,051,561	4,834,035
Total Investment by Fair Value Level	\$ 252,217,308	\$ 157,199,321	\$ 90,180,555	\$ 4,837,432

Investments Measured at the NAV		Unfunded Commitments	Redemption Frequency	Redemption Received Period
Commingled global equity funds	1,015,767,688	-	Daily	T+2, T+2 settlement
Fixed Income Securities				
Commingled bond funds	393,373,872	-	Daily	T+2, T+2 settlement
Real Estate				
Private real estate funds	90,088,584	33,863,704	Illiquid or Quarterly	60 days for quarterly redemption
Alternative Investments				
Private equity	78,106,413	115,405,307	Illiquid	
Hedge funds	101,404,574	-	Monthly, quarterly, or annual	30-90 days
Other Investments				
Investment in CRHBT	538,042,355	-		
Total Investments Measured at the NAV	\$ 2,216,783,486	\$ 149,269,011		
Total Investments	\$ 2,469,000,794			

* The cash or cash equivalents are invested in money market-type securities (U.S. Treasury Securities, Futures, cash, etc.) reported at cost plus accrued interest, which approximates market or fair value.

Commingled equity funds and bonds funds – the fair values of investment in these types have been determined using the NAV per share of the investments.

- The objective of the commingled global equity funds is to provide exposure to economic growth and capture the equity risk premium. The investments consist of global stocks and shall be invested primarily in passively managed investment strategies designed to track the return of the following indexes: S&P 500 Index, Russell 2000 Index, MSCI EAFE Index, MSCI EAFE Small Cap Index, MSCI Emerging Markets Equity Index. Characteristics of the portfolio include:

BOARD OF EDUCATION OF MONTGOMERY COUNTY
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

- Higher Expected Returns - Over the long-term, investments in equities (stocks) have delivered returns superior to those generated by fixed income.
 - Dividends - Dividends paid by the companies in the portfolio generate an additional source of income.
 - Volatility - Over the long-term, equity returns exhibit a wider range of outcomes, both positive and negative.
 - Liquidity – The size and activity of Global Equity markets allows the Pension Trust to raise cash with relative ease.
- The objectives of the commingled bond funds is to provide low risk exposure, diversification, and increase yield to the portfolio. The investments shall be invested in a combination of passively and actively managed strategies. The passive strategies are designed to track the return of the Bloomberg Barclays Intermediate Aggregate Bond Index. The active strategies are designed to track the return of primary benchmarks with a low tracking error (the standard deviation of the difference between the returns of an investment portfolio and the underlying benchmark). Characteristics of the portfolio include:
- Principal Protection - The amount invested by the pension is typically at a lower degree of risk relative to amounts invested in other types of assets.
 - Income - Bonds typically pay interest which could provide cash income to the pension.
 - Lower Expected Returns - While bonds provide multiple benefits, the expected returns are generally not as high as those offered by other asset categories.
 - Liquidity - The market for investment grade bonds is generally large and active which allows the pension’s investment managers to sell assets with relative ease if an unexpected need for cash arises.

Private Real Estate. The fair value of the investments of these types has been determined using the NAV per share. This type includes investments in limited partnerships and commingled funds with the quarterly redemption term and 60 days advance notice required. Private real estate is expected to provide the pension portfolio with a degree of inflation protection and to exhibit a low correlation to other investment strategies. Private real estate can also offer a steady source of income, which could provide cash to the pension. The investment return of this portfolio is expected to be somewhere between the returns of the core fixed income and global equity portfolios. It is expected to meet or exceed the NCREIF Fund Index - ODCE (Open-End Diversified Core Equity).

Private Equity and Hedge funds. The fair value of the investments of these types has been determined using the NAV per share of the investments.

- Private equity fund managers generally invest money in companies whose shares are not publicly traded on a stock exchange, or in companies with publicly traded securities that the private equity firm intends to take private by acquiring all of the public securities. Private equity managers are active investors who typically play a significant role in the operations of their portfolio companies. Private equity funds are illiquid and long-term in nature, thus investors expect to receive a return greater than those available in the public equity market. Private equity investments may have a broader range of outcomes than public equities. The return on the total private equity allocation is expected to meet or exceed the Russell 3000 Index plus a 200 basis point premium net of fees. Comparing

BOARD OF EDUCATION OF MONTGOMERY COUNTY
 NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2020

private equity returns to a public equity index will naturally result in large performance differences in the short and medium term. As the private equity benchmark, the Russell 3000 + 200 basis points is used as a long-term performance tool.

- Hedge funds invest across multiple assets and markets taking long and short positions. A long position is one in which the investor benefits if the price of the asset increases. A short position is one in which the investor generates a return from asset price declines. A hedge fund can specialize in particular niches including different geographies, security types (debt, equity, currencies, and derivatives), market directions, and macroeconomic catalysts. Most hedge fund managers focus on performing comprehensive research to identify securities they believe are mispriced. As a whole, the objective of the Trust's hedge fund portfolio is to provide superior risk-adjusted returns. The return on the total hedge fund allocation is expected to meet or exceed the HFRI Fund of Funds Composite Index.

C. CASH ON HAND

At June 30, 2020, the primary government had \$2,733 on hand in petty cash accounts.

IV. INTERFUND RECEIVABLES AND PAYABLES

Interfund transactions that are due *from* other funds are reported below as "Funds Reflecting a Receivable" and the amounts due *to* other funds are reported below as "Funds Reflecting a Payable." These amounts are owed between the Board's governmental and proprietary funds within the Board reporting entity. An example of interfund transactions is when the Board's General Fund processes payments for other Board funds. The amounts of interfund receivables and payables for each of the funds below can be found on the balance sheets on pages 36, 41, and 104 of this CAFR. The composition of interfund receivables and payables as of June 30, 2020, is as follows:

Funds Reflecting a Receivable	Funds Reflecting a Payable								Total
	General	Capital Projects	Instruc. TV	Food Services	Real Estate	Field Trip	Entrepreneurial	Internal Service	
General	\$ -	\$ 25,552,486	\$ -	\$ -	\$ 66,669	\$ -	\$ 1,389,118	\$ 2,246,726	\$ 29,254,999
Capital Projects			7,636	1,053,103					1,060,739
Instructional TV	527,249								527,249
Food Services	1,496,259								1,496,259
Real Estate		41,274		2,225					43,499

V. DUE FROM EMPLOYEES

The \$70,144 reported as due from employees on the Governmental Funds Balance Sheet arose from past transition to a unified pay cycle calendar for twelve-month employees. Repayment is made from final paychecks when employees separate from active employment with the Board.

Commitments for ongoing construction in progress at June 30, 2020 are \$114,233,494.

BOARD OF EDUCATION OF MONTGOMERY COUNTY
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

VII. PAYABLES

Accounts payable and other current liabilities of the governmental and business-type activities at June 30, 2020 are as follows:

	Governmental Activities	Business-Type Activities	Total
Accounts Payable	\$ 81,795,307	\$ 1,091,680	\$ 82,886,987
Retainage Payable	16,307,466		16,307,466
Accrued Salaries and Withholdings	84,223,151		84,223,151
Claims Payable	22,260,986		22,260,986
Due to Employees-advance Premium Withholding	8,853,391		8,853,391
Total Accounts Payable and Other Current Liabilities	<u>\$ 213,440,301</u>	<u>\$ 1,091,680</u>	<u>\$ 214,531,981</u>

VIII. LEASES

A. OPERATING LEASES

Expenditures under lease agreements for office space and equipment were approximately \$9,019,853 in FY 2020. Commitments for FY 2021 under lease agreements are approximately \$8,433,712. Lease agreements typically provide for automatic yearly termination on July 1 of any year in which funds to meet rental payments are not appropriated.

B. CAPITAL LEASES

Under a master lease arrangement, the Board acquires school buses, vehicles, technology and other equipment under noncancelable capital leases that expire at various times through FY 2025. Lease payments, including interest, in FY 2020 were \$36,177,399 for Governmental funds (\$18,890,047 for the General Fund, \$17,287,352 for the Capital Projects Fund), and \$254,458 for the Business-Type Activities.

Assets acquired through capital leases are as follows:

	Governmental Activities	Business-Type Activities
Vehicles and equipment	\$ 78,820,810	\$ 138,455
Less: accumulated depreciation	(16,371,386)	(24,541)
Total	<u>\$ 62,449,424</u>	<u>\$ 113,914</u>

Future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2020, were as follows:

Fiscal year ending June 30	Governmental Activities	Business-Type Activities
2021	\$ 29,593,472	\$ 200,380
2022	22,938,269	145,837
2023	15,839,549	145,837
2024	5,878,953	57,322
2025	2,781,607	-
Total minimum lease payments	<u>77,031,850</u>	<u>549,376</u>
Less: Amount representing interest	(2,986,052)	(19,121)
Present value of future minimum lease payments	<u>\$ 74,045,798</u>	<u>\$ 530,255</u>

BOARD OF EDUCATION OF MONTGOMERY COUNTY
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

\$40,444,662 of outstanding capital lease obligations for governmental activities at June 30, 2020, were used to acquire capital assets. \$83,047 of outstanding capital lease obligations for business-type activities at June 30, 2020 were used to acquire capital assets.

IX. LONG-TERM LIABILITIES

Long-term liability activities during FY 2020 were as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Governmental Activities:					
Capital leases	\$ 63,614,700	\$ 45,018,976	\$ 34,587,878	\$ 74,045,798	\$ 28,118,236
Compensated absences	143,236,084	19,328,465	9,241,804	153,322,745	9,218,698
Net pension liability(*)	530,505,230	23,828,223		554,333,453	
Net OPEB liability(*)	<u>2,382,431,654</u>	<u>451,132,372</u>	<u>217,390,261</u>	<u>2,616,173,765</u>	
Total	\$ 3,119,787,668	\$ 539,308,036	\$ 261,219,943	\$ 3,397,875,761	\$ 37,336,934
Business-Type Activities:					
Capital leases	\$ 494,518	\$ 279,790	\$ 244,053	\$ 530,255	\$ 217,508
Compensated absences	<u>2,827,472</u>	<u>300,706</u>	<u>6,082</u>	<u>3,122,096</u>	<u>5,626</u>
Total	\$ 3,321,990	\$ 580,496	\$ 250,135	\$ 3,652,351	\$ 223,134

* Net Pension and OPEB liabilities are generally liquidated by the General Fund.

X. FUND BALANCE

A. GOVERNMENTAL FUNDS

Fund Balance as of June 30, 2020 consists of the following:

BOARD OF EDUCATION OF MONTGOMERY COUNTY
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

B. PROPRIETARY FUNDS

The Food Services, Field Trip and Real Estate Management Funds ended the year with a positive net position. However, the Entrepreneurial Fund net position as of June 30, 2020, was negative. The reasons for the decrease in FY 2020 were largely related to a severe decrease in revenues related to COVID-19 without an offsetting decrease in expenses. The deficits will be eliminated in future years by reducing expenditures to align with new revenue figures.

XI. RISK MANAGEMENT

The Board is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees or students; natural disasters; and employee health benefits. The Board participates in the Montgomery County Liability and Property Coverage Self-Insurance Program. Under this program, the Board receives coverage for general liability, workers' compensation, public official liability, property, and motor vehicle risks, generally up to a maximum of \$400,000 per claim. The Board's premium payments to the fund are an actuarially determined reflection of the covered risks. The Board purchases commercial insurance for claims in excess of coverage by the self-insurance program and for other risks not covered by the program. Settled claims have not exceeded commercial coverage in any of the past three fiscal years.

The active employees' health benefits plan is financed through an internal service fund, the Employee Benefit Plan Trust Fund. The postemployment health benefits plan is financed through a fiduciary fund, the OPEB Plan Trust. The funds provide plan coverage for active and retired employees under contracts with several insurance companies and health maintenance organizations (HMO's). The Board funds participate in the plans by making payments to the trust funds in amounts sufficient to cover normal plan costs, which are comprised of premiums paid to insured plans, and actuarial estimates of amounts needed to pay prior- and current-year claims and to establish a reserve for incurred but not reported claims (IBNR). An additional payment is made to the OPEB Plan Trust to cover amortization of the actuarial accrued liability (see note XIV). Claims payable of \$22,260,986 and \$9,221,811 reported in the Internal Service Fund and the Fiduciary Funds, respectively at June 30, 2020, are based on the requirements of GASB Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. Changes in claims payable for fiscal years 2020 and 2019 are reflected below.

	Beginning Payable	Incurred Claims (Including IBNR)	Claim Payments	Ending Payable
2020				
Internal Service Fund	\$ 20,750,708	\$ 287,842,238	\$ (286,331,960)	\$ 22,260,986
Fiduciary Funds	7,416,439	109,553,037	(107,747,665)	9,221,811
Total	<u>\$ 28,167,147</u>	<u>\$ 397,395,275</u>	<u>\$ (394,079,625)</u>	<u>\$ 31,482,797</u>
2019				
Internal Service Fund	\$ 23,776,210	\$ 272,452,080	\$ (275,477,582)	\$ 20,750,708
Fiduciary Funds	6,322,107	104,305,170	(103,210,838)	7,416,439
Total	<u>\$ 30,098,317</u>	<u>\$ 376,757,250</u>	<u>\$ (378,688,420)</u>	<u>\$ 28,167,147</u>

BOARD OF EDUCATION OF MONTGOMERY COUNTY
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

XII. DEFINED BENEFIT PENSION PLANS (GASB 68)

Substantially all of the Board's employees working at least four hours a day in an approved job classification are covered under one of three mandatory defined benefit retirement plans. Two of these are cost-sharing multi-employer type plans administered by the Maryland State Retirement and Pension System (MSRPS); and one is a single-employer plan, the Board Employees' Retirement and Pension System, administered by the Board.

A. STATE PLANS

GENERAL INFORMATION ABOUT THE PLAN

Plan Description. The eligible Board employees are covered by the Maryland State Retirement and Pension System (the System), which is a cost sharing employer public employee retirement system. While there are five retirement and pension systems under the System, the Board employees are a member of either the Teachers' Retirement and Pension Systems or the Employees' Retirement and Pension Systems. The System was established by the State Personnel and Pensions Article of the Annotated Code of Maryland to provide retirement allowances and other benefits to State employees, teachers, police, judges, legislators, and employees of participating governmental units. The Plans are administered by the State Retirement Agency. Responsibility for the System's administration and operation is vested in a 15-member Board of Trustees. The System issues a publically available financial report that can be obtained at <http://www.sra.state.md.us>.

Benefit Provided. The System provides retirement allowances and other benefits to teachers and employees of participating governmental units, among others. For individuals who become members of the Teachers' Retirement and Pension Systems and the Employees' Retirement and Pension Systems on or before June 30, 2011, retirement/pension allowances are computed using both the highest three years' Average Final Compensation (AFC) and the actual number of years of accumulated creditable service. For individuals who become members of the Teachers' Pension System and Employees' Pension System on or after July 1, 2011, pension allowances are computed using both the highest five years' AFC and the actual number of years of accumulated creditable service. Various retirement options are available under each system, which ultimately determines how a retiree's benefit allowance will be computed. Some of these options require actuarial reductions based on the retiree's and/or designated beneficiary's attained age and similar actuarial factors.

A member of either the Teachers' or Employees' Retirement System is generally eligible for full retirement benefits upon the earlier of attaining age 60 or accumulating 30 years of creditable service regardless of age. The annual retirement allowance equals 1/55 (1.81%) of the member's average final compensation (AFC) multiplied by the number of years of accumulated creditable service.

A member of either the Teachers' or Employees' Pension System on or before June 30, 2011 is eligible for full retirement benefits upon the earlier of attaining age 62, with specified years of eligibility service, or accumulating 30 years of eligibility service regardless of age. An individual who becomes a member of either the Teachers' or Employees' Pension System on or after July 1, 2011, is eligible for full retirement benefits if the member's combined age and eligibility service equals at least 90 years or if the member is at least age 65 and has accrued at least 10 years of eligibility service.

BOARD OF EDUCATION OF MONTGOMERY COUNTY
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

For most individuals who retired from either the Teachers' or Employees' Pension System on or before June 30, 2006, the annual pension allowance equals 1.2% of the members AFC, multiplied by the number of years of credible service accumulated prior to July 1, 1998, plus 1.4% of the members AFC, multiplied by the number of years of credible service accumulated subsequent to June 30, 1998. With certain exceptions for individuals who are members of the Teachers' or Employees' Pension System on or after July 1, 2006, the annual pension allowance equals 1.2% of the member's AFC, multiplied by the number of years of credible service accumulated prior to July 1, 1998 plus 1.8% of the members AFC, multiplied by the number of years of credible service accumulated subsequent to June 30, 1998. Beginning on July 1, 2011, any new member of the Teachers' or Employees' Pension System earns an annual pension allowance equal to 1.5% of the member's AFC multiplied by the number of years of creditable service accumulated as a member of the Teachers' or Employees' Pension System.

Effective January 1, 1980, new teacher and administrative personnel became members of the Maryland State Teachers' Pension System. Members in the existing Maryland State Teachers' Retirement System had the option to transfer from the old to the new plan.

Contribution. The Board and covered members are required by State statute to contribute to the System. Members of the Teachers' Pension System are required to contribute 7% of salary annually. Members of the Teachers' Retirement System are required to contribute 5-7% of salary annually, depending on the retirement option selected. The contribution requirements of the System members, as well as the State and participating governmental employers are established and may be amended by the Board of Trustees for the System.

The State makes a substantial portion of the Board annual required contribution to the Teachers' Retirement and Pension Systems on behalf of the Board. The State's contributions on behalf of the Board for the year ended June 30, 2020 was \$162,548,643. The FY 2020 contributions made by the State on behalf of the Board have been included as both revenues and expenditures in the General Fund in the accompanying Statement of Revenues, Expenditures, and Changes in Fund Balances and also included as revenues and expenses in the Statement of Activities.

Beginning in FY 2013, the State of Maryland General Assembly passed a bill that required the Boards of Education in Maryland to begin paying the normal cost for their teachers into the Teachers' Retirement and Pension Systems. The legislation structured this as a four year phase in to the full normal cost so that 50% was paid in FY 2013. Full normal cost was paid in FY 2017 and each year thereafter. The Board required contribution to the Teachers' Retirement and Pension Systems for the year ended June 30, 2020 was \$61,086,328.

The Board's contractually required contribution rate for the Employees' Retirement and Pension Systems for the year ended June 30, 2020, was 4.38% of annual payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The Board made its share of the required contributions during the year ended June 30, 2020 of \$716,916.

BOARD OF EDUCATION OF MONTGOMERY COUNTY
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

PENSION LIABILITIES, PENSION EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS

EMPLOYEES' RETIREMENT AND PENSION SYSTEMS

At June 30, 2020, the Board reported a liability of \$6,857,901 for its proportionate share of the net pension liability of the System, increased by \$15,845 from \$6,842,056 in FY 2019. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Board's proportion of the net pension liability was based on actual employer contributions billed to participating government units for the year ending June 30, 2019. The contributions were increased to adjust for differences between actuarial determined contributions and actual contributions by the State of Maryland. As of June 30, 2019, the Board's proportionate share was 0.0332494%, which is an increase of 0.0006393% from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, the Board recognized pension expense of \$872,840. In addition, the Board reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Changes in assumptions	\$ 684,475	\$ -
Net difference between projected and actual earnings on pension plan investments	1,417,328	
Difference between projected and actual experience		720,550
Board contributions subsequent to the measurement date	716,916	
Total	\$ 2,818,719	\$ 720,550

The \$716,916 reported as deferred outflows of resources related to pensions resulting from the Board contributions subsequent to the measurement date will be recognized as a reduction in net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2021	\$ (2,433,613)
2022	(373,266)
2023	2,616,315
2024	1,288,376
2025	283,441
Total	\$ 1,381,253

TEACHERS' RETIREMENT AND PENSION SYSTEMS

At June 30, 2020, the Board did not report a liability related to the Teachers' Retirement and Pension Systems due to a special funding situation. The State of Maryland pays the unfunded liability for the Board, therefore, the Board is not required to record its share of the unfunded pension liability but instead, that liability is recorded by the State of Maryland. The amount recognized by the Board as its

BOARD OF EDUCATION OF MONTGOMERY COUNTY
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the Board were as follows:

State's proportionate share of the net pension liability associated with the Board	\$	1,661,983,738
The Board's proportionate share of the net pension liability		-
Total		\$ 1,661,983,738

The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

For the year ended June 30, 2020, the Board recognized pension expense of \$162,548,643 and revenue of \$162,548,643 for support provided by the State. Due to the special funding situation noted above related to the Teachers' Retirement and Pension Systems, the Board did not report deferred outflows of resources and deferred inflows of resources related to the Teachers' Retirement and Pension Systems.

Actuarial assumptions. The total pension liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Cost Method	Entry Age Normal
Amortization method	Level Percentage of Payroll Closed
Inflation	2.60% general, 3.5% wage
Salary increases	3.10% to 8.35%, including inflation
Investment rate of return	7.40%
Discount Rate	7.40%
Mortality rates	Mortality fully generational-Pub-2010/MP-2018

The economic and demographic actuarial assumptions used in the June 30, 2019 valuation were adopted by the System's Board of Trustees based upon review of the System's experience study for the period 2014-2018, which was completed during FY 2019. Certain assumptions from the experience study including investment return, inflation, Cost-of-Living Adjustment (COLA) increases, mortality rates, retirement rates, withdrawal rates, disability rates, and rates of salary increase were adopted by the Board for the first use in the actuarial valuation as of June 30, 2019.

The long-term expected rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-range expected rate of return by weighting the expected future real rates by the target asset allocation percentage, and by adding expected inflation. Best estimates of geometric real rates of return were adopted by the Board after considering input from the System's investment consultants and actuaries. For each major asset class that is included in the System's target asset allocation, these best estimates are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Public Equity	37%	6.3%
Private Equity	13	7.5
Rate Sensitive	19	1.3
Credit Opportunity	9	3.9
Real Assets	14	4.5
Absolute Return	8	3.0
Total	100%	

BOARD OF EDUCATION OF MONTGOMERY COUNTY
 NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2020

The above was the System’s Board of Trustees adopted asset allocation policy and best estimate of geometric real rates for each major asset class as of June 30, 2019.

For the year ended June 30, 2019, the annual money-weighted rate of return on pension plan investments, net of the pension plan expense was 6.44%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Discount rate. The Single Discount Rate (SDR) used to measure the total pension liability was 7.40%. This SDR was based on the expected rate of return on pension plan investments of 7.40%. The projection of cash flows used to determine this SDR assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability. Regarding the sensitivity of the net pension liability to changes in the single discount rate, the following presents the Board’s net pension liability, calculated using an SDR of 7.40%, as well as what the Board’s net pension liability would be if it were calculated using an SDR that is one percent lower or one percent higher:

	1% Decrease (6.40%)	Current Discount Rate (7.40%)	1% Increase (8.40%)
Board’s proportionate share of the net pension liability	\$ 9,387,806	\$ 6,857,901	\$ 4,739,197

Due to the special funding situation noted above related to the Teachers’ Retirement and Pension Systems, the Board did not record a net pension liability related to the Teachers’ Retirement and Pension Systems.

Pension plan fiduciary net position. Detailed information about the pension plan’s fiduciary net position is available in the separately issued System’s financial report.

B. THE BOARD PLAN

GENERAL INFORMATION ABOUT THE PENSION PLAN

Plan Description. The Employees' Retirement and Pension System is funded and administered as a single-employer defined benefit plan with three separate benefit structures: the retirement system, the pension system, and the reformed pension system. The Retirement system covers employees hired prior to January 1, 1980. The retirement system provides retirement benefits, as well as death and disability benefits, to employees who are not members of the Maryland State Teachers’ Retirement System and supplements the state benefits to members of the Maryland State Teachers’ Retirement System. The Pension system covers employees hired after January 1, 1980. Members in the retirement system may elect to participate in the pension system, in which case their excess contributions are refunded. Effective July 1, 2011, the Board adopted plan amendments to the core Pension System that generally mirror State of Maryland plan changes. This is called the reformed pension plan.

BOARD OF EDUCATION OF MONTGOMERY COUNTY
 NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2020

Benefits provided. The system provides retirement benefits, as well as death and disability benefits, to employees who are not members of the Maryland State Teachers' Retirement System and supplements the state benefits to members of the Maryland State Teachers' Retirement System. Benefits at retirement are based on years of service and the average earned compensation of an eligible employee during any three years (highest three consecutive years for pension system or highest five consecutive years for employees hired after June 30, 2011) that provide the highest average earned compensation, and are adjusted for changes in the consumer price index after retirement. Benefits at early retirement are reduced by an early retirement factor. Benefits vest after five years (ten years for employees hired after June 30, 2011) of creditable service. For employees hired after June 30, 2011, plan benefit changes were made, as follows:

- The core benefit multiplier was reduced from 1.8% to 1.5%.
- Normal service retirement eligibility was changed to either the Rule of 90 or 65 years with ten years of service. Early retirement eligibility was changed to age 60 with fifteen years of service.

At July 1, 2018 the date of the latest actuarial report for employer reporting, the Board's plan membership consisted of:

Retirees and beneficiaries currently receiving benefits	13,768
Terminated plan members entitled to benefits but not yet receiving them	6,303
Active plan members	<u>23,286</u>
Total	<u><u>43,357</u></u>

Contributions. Plan members are required by resolution to contribute to the plan. Effective July 1, 2011, plan members contribute for the supplemental benefit, and the combined core and supplemental benefit 0.5% and 7.5%, respectively, of their salary to the plan. The Board is required by resolution to contribute the remaining actuarially determined amounts necessary to finance the combined coverage of plan members. Benefits and contribution provisions are established and may be amended only by the Board. Administrative costs are financed through investment earnings. The Board's actuarially determined contribution rate as a percentage of covered payroll for FY 2019 was 4.11%.

NET PENSION LIABILITY

The Board's net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. It was as follows:

Total pension liability	\$ 2,356,205,761
Plan fiduciary net position	<u>(1,808,730,209)</u>
Net pension liability	<u><u>\$ 547,475,552</u></u>

Plan fiduciary net position as a percentage of the total pension liability: 76.76%

BOARD OF EDUCATION OF MONTGOMERY COUNTY
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

Method and assumptions used to determine Net Pension Liability were as follows:

Valuation Date	July 1, 2018
Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Fair Market Value
Inflation	2.75%
Investment Rate of Return	7.0% net of investment expense, including inflation
Salary Increases	1.95% to 3.0%, including inflation
General Inflation	2.75%
Retirement Age	Experience-based table of rates
Mortality	Health lives: RP-2014 white-collar mortality table, sex distinct, with generational mortality improvements using scale MP-2014 projection scales. The provision for future mortality improvement for healthy lives is based on the generational application of the MP-2014 improvement scales. Disabled lives: RP-2000 disabled mortality table, sex distinct, projections to 2022 using projection scale AA (static table)
Cost of Living Adjustment	3.0% compound for ERS retirees and 3.0% simple for original pension plan retirees. 2.75% compound for service before July 1, 2011 and 1.95% compound for service after July 1, 2011.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rate of return for each major asset class included in the pension plan’s target asset allocation of June 30, 2019 are as follows:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Rate of Return*</u>
Fixed income	23%	1.94%
Global Equities	50	6.90
Alternatives	25	6.83
Cash & Cash Equivalents	2	0.60
Total	<u>100%</u>	

* Expected inflation: 1.70%

Discount Rate. The discount rate used to measure the total pension liability was 7.0%. The projection of cash flow to determine the discount rate assumed the contributions from plan members will be made at the current contribution rate and that contributions from the Board will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payment of current plan members. Therefore, the long-term expected rate of return on pension plan investment was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate. The following presents the net pension liability of the Board calculated using the discount rate of 7.0%, as well as what the Board's net pension liability would be if it were calculated using a discount rate that is one percent lower (6.0%) or one percent higher (8.0%) than the current rate:

Net Pension Liability	\$ <u>1% Decrease (6.0%)</u>	\$ <u>Current Rate (7.0%)</u>	\$ <u>1% Increase (8.0%)</u>
	\$865,065,683	547,475,552	284,539,221

Rate of Return on Investments. The annual money-weighted rate of return on pension plan investments, net of pension plan investment expenses, for FY 2019 was 4.9%. The money-weighted rate of return expresses investment performance, net of expense, adjusted for the changing amounts actually invested.

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the Statement of Fiduciary Net Position Fiduciary Funds.

PENSION LIABILITIES, PENSION EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS

For the year ended June 30, 2020, the Board recognized pension expense of \$92,693,687. At June 30, 2020, the Board reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between actual and expected experience measurement date	\$ 30,066,255	\$ 36,999,615
Net difference between projected and actual earnings on pension plan investments measurement date	19,898,431	
Changes in assumptions	117,507,237	
Board contributions subsequent to the measurement date	86,941,255	
Total	<u>\$ 254,413,178</u>	<u>\$ 36,999,615</u>

BOARD OF EDUCATION OF MONTGOMERY COUNTY
 NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2020

Board contributions of \$86,941,245 reported as deferred outflows of resources subsequent to the measurement date will be recognized as a reduction in net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:		
2021	\$	42,669,084
2022		16,956,220
2023		24,845,772
2024		29,035,210
2025		20,326,353
Thereafter		(3,360,331)
Total	\$	<u>130,472,308</u>

XIII. DEFINED BENEFIT PENSION PLANS (GASB 67)

The below are additional disclosures presented according to the accounting standard GASB Statement No. 67 *Financial Reporting for Pension Plans*—an amendment of GASB Statement No. 25 for pension plan since the Board does not issue separate pension plan financial statements.

GENERAL INFORMATION ABOUT THE PENSION PLAN

Plan Description. For a description of the plan and the benefits provided, see Note XI, Section B.

At July 1, 2019, the date of the latest actuarial report, the Board’s plan membership consisted of:

Retirees and beneficiaries currently receiving benefits	14,019
Terminated plan members entitled to benefits but not yet receiving them	7,080
Active plan members	<u>23,464</u>
Total	<u><u>44,563</u></u>

Contributions. Plan members are required by resolution to contribute to the plan. Effective July 1, 2011, plan members contribute for the supplemental benefit, and the combined core and supplemental benefit 0.5% and 7.5%, respectively, of their salary to the plan. The Board is required by resolution to contribute the remaining actuarially determined amounts necessary to finance the combined coverage of plan members. Benefits and contribution provisions are established and may be amended only by the Board. Administrative costs are financed through investment earnings. The Board actuarially determined contribution rate as a percentage of covered payroll for FY 2020 was 4.68%.

NET PENSION LIABILITY

Beginning of year total pension liability is based on the Board’s actuarial valuation date of July 1, 2019, and a measurement date of June 30, 2019. The end of year total pension liability based on the Board’s actuarial valuation date of July 1, 2019, with the results rolled forward to a measurement date of June 30, 2020 is as follows:

Total pension liability	\$ 2,288,699,029
Plan fiduciary net position	<u>(1,831,569,488)</u>
Net pension liability	<u><u>\$ 457,129,541</u></u>

Plan fiduciary net position as a percentage of the total pension liability: 80.03%

BOARD OF EDUCATION OF MONTGOMERY COUNTY
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

Method and assumptions used to determine Net Pension Liability were as follows:

Valuation Date	July 1, 2019
Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Fair Market Value
Inflation	2.50%
Salary Increases	2.50% to 13.50%, including inflation
Investment Rate of Return	7.00%, net of investment expense, including inflation
Retirement Age	Experience-based table of rates
Mortality	Pre-retirement: Pub-2010 Employee mortality table (for General Employees), sex distinct, with generational mortality improvements from 2010 using scale MP-2018. Post-retirement Healthy Lives: Pub-2010 Healthy Retiree mortality table (for General Employees), sex distinct, with generational mortality improvements from 2010 using scale MP-2018. Disabled Lives: Pub-2010 Disabled Retiree mortality table (for General Employees), sex distinct, with generational mortality improvements from 2010 using scale MP-2018.
Cost of Living Adjustment	2.50% compound for ERS retirees and 2.50% simple for original pension plan retirees. 2.35% compound for service before July 1, 2011 and 1.85% compound for service after July 1, 2011 for enhanced pension plan retirees.

Actuarial assumptions. The total pension liability was determined by an actuarial valuation as of July 1, 2019, then rolled forward to June 30, 2020 including any changes made to the roll forward. The actuarial assumption used in this valuation was based on the results of prior actuarial experience study completed as of June 30, 2019. It was first applicable for funding and accounting numbers using the 2019 valuation date.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rate of return for each major asset class included in the pension plan’s target asset allocation of June 30, 2020 are as follows:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Rate of Return*</u>
Fixed income	23%	1.94%
Global Equities	50	6.90
Alternatives	25	6.83
Cash & Cash Equivalents	2	0.60
Total	100%	

* Expected inflation: 1.70%

Discount Rate. The discount rate used to measure the total pension liability was 7.0%. The projection of cash flow to determine the discount rate assumed the contributions from plan members will be made at the current contribution rate and that contributions from the Board will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payment of current plan members. Therefore, the long-term expected rate of return on pension plan investment was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate. The following presents the net pension liability of the Board calculated using the discount rate of 7.0%, as well as what the Board’s net pension liability would be if it were calculated using a discount rate that is one percent lower (6.0%) or one percent higher (8.0%) than the current rate:

Net Pension Liability	\$	<u>1% Decrease (6.0%)</u>	\$	<u>Current Rate (7.0%)</u>	\$	<u>1% Increase (8.0%)</u>
		750,346,226		475,129,541		212,478,989

Rate of Return on Investments. The annual money-weighted rate of return on pension plan investments, net of pension plan investment expenses, for FY 2020 was 1.2%. The money-weighted rate of return expresses investment performance, net of expense, adjusted for the changing amounts actually invested.

Pension plan fiduciary net position. Detailed information about the pension plan’s fiduciary net position is available in the Statement of Fiduciary Net Position Fiduciary Funds.

XIV. POSTEMPLOYMENT HEALTHCARE BENEFITS (GASB 75)

GENERAL INFORMATION ABOUT THE OPEB PLAN

Plan Description. The OPEB Plan is a single-employer defined benefit healthcare plan funded and administered by the Board. Employees receiving a Board approved retirement are eligible, in accordance with bargaining agreements between the Board and employee associations, for continued healthcare coverage if they have been covered under the Board Employee Benefit Plan for at least five years, (ten years for employees hired after July 1, 2011). Terminated employees are not eligible to participate in the plan. The OPEB Plan provides medical, dental, vision, prescription drug, and life insurance benefits for retirees and their dependents. Authority to establish and amend benefit provisions resides with the Board. Separate financial statements for the OPEB Plan are not available.

Benefit Provided. The Board offers single employer plans including CareFirst BlueChoice HMO/Point of Service (POS)/Preferred Provider Organization (PPO), Kaiser HMO, Caremark Prescription Drugs (Option

BOARD OF EDUCATION OF MONTGOMERY COUNTY
 NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2020

A or B), Kaiser Prescription Drugs, CareFirst Dental, Aetna Dental Maintenance Organization (DMO) or PPO and Vision. The Board’s employees are eligible to continue group insurance coverage after retirement provided that retiring employees qualify for pension benefits under either the Employees’ Pension System (EPS) or Employees’ Retirement System (ERS). The surviving spouses and dependent children who are covered under any of the Board’s sponsored health plans (medical, vision, prescription or dental) have the right to continue coverage upon the death of the Board’s employee/retiree. Retirees/spouses who are eligible for Medicare Parts A & B must enroll for Medicare coverage in order to retain coverage under the Board’ plans. Group life insurance may be continued for retirees with 10 years of service prior to retirement. Eligible employees will have their life insurance coverage modified as follows: An employee’s life insurance coverage on the day before the employee’s retirement is equal to final pay. When an employee elects to continue the basic employee term life insurance coverage, the coverage amount reduces to 42.5% of the active employee basic term life insurance amount. For each of the next four years, on the anniversary of the retirement, the life insurance amount will reduce by 7.5% of the active life amount. On the fourth anniversary of the retirement, the life insurance amount becomes 12.5% of the active life amount and will remain at that level for the lifetime as long as the premiums are paid.

Plan membership consisted of the following at July 1, 2018, the date of the latest actuarial valuation:

Inactive Plan Members with Medical Coverage	9,744
Active Plan Members	23,286
Total	33,030

Funding Policy. The Board has the authority to establish and amend contribution requirements of the plan members and the Board. Retired plan members and beneficiaries currently receiving benefits are required to contribute 36% and the Board contributes 64% toward the current cost of healthcare benefits. Effective for employees hired July 1, 2011 and for certain employees hired as of July 1, 2006, a tiered contribution structure is in effect, with the Board contribution levels of 40, 50, or 64% respectively based on years of service. During FY 2019, plan members and beneficiaries receiving benefits contributed \$38,743,969 (approximately 31.3% of current contributions). The Board and other contributing entities’ contributed \$85,228,085 (approximately 68.7% of current contributions) for current premiums, claims and administrative expenses. Administrative costs are financed through investment earnings.

Effective July 1, 2011, the Montgomery County Council enacted legislation (Bill No. 17-11) to create a CRHBT that expanded the county OPEB Trust to include the Board employees. Beginning in FY 2012, and for each fiscal year thereafter, the Board’s annual contribution toward funding amortization of the actuarial accrued liability (AAL) has been made by the Montgomery County Council directly to the CRHBT rather than to the Board’s OPEB Plan Trust. In FY 2019, the Montgomery County Council contributed \$27,200,000 and recorded as on behalf of the Board employees. In FY 2020 the Montgomery County Council contributed \$78,533,000 and recorded as on behalf of the Board employees.

The CRHBT is an agent multiple-employer defined benefit healthcare plan sponsored by the county. Other agencies and political subdivisions have the right to elect participation. The Board of Trustees has the exclusive authority to manage the assets of the CRHBT. The Board of Trustees consists of nineteen trustees and functions as part of the county. Separate financial statements are issued for the CRHBT.

Funded Status and Funding Progress. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Amounts

BOARD OF EDUCATION OF MONTGOMERY COUNTY
 NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2020

determined regarding the funded status of the plan and the annual required contributions of the Board are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

NET OPEB LIABILITY

The net OPEB liability is to be measured as the total OPEB liability, less the amount of the OPEB plan’s fiduciary net position. The net OPEB liability should be measured as of the OPEB plan’s most recent fiscal year end. The components of the Plan’s net OPEB liability as of June 30, 2019, were as follows:

Total OPEB liability	\$ 3,107,830,553
Plan fiduciary net position	<u>(491,656,788)</u>
Net OPEB liability	<u>\$ 2,616,173,765</u>
Plan fiduciary net position as a percentage of the total OPEB liability:	15.82%

Actuarial assumptions. The total OPEB liability was determined by an actuarial valuation as of July 1, 2018, then rolled forward using the SDR which is based on the assumed 7.50% long-term rate of return for projected benefits paid before the crossover year and the municipal bond index rate for projected benefits paid after the crossover year with using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Actuarial assumptions used in the latest actuarial valuation were:

Valuation date	July 1, 2018
Measurement date	June 30, 2019
Actuarial cost method	Entry Age Normal
Asset valuation method	Fair Market Value
Inflation rate	3.0%
Salary increases	1.95% to 3.75%, including inflation
Investment rate of return	7.50%, net of OPEB plan investment expense, including inflation
Retirement age	Experience-based table of rates
Health care cost trend rates	Trend rates of 11.8% for Rx, 6.77% for pre-65 medical and 5.41% for 65+ medical, decreasing to an ultimate trend rate of 4.50%
Mortality	Healthy lives: RP-2014 White Collar mortality table, sex distinct, with generational mortality improvements using scale MP-2014. The provision for future mortality improvement for healthy lives is based on the generational application of the MP-2014 improvement scales. Disabled lives: 100% of published rates for RP 2000 disabled mortality table, projected to 2022 using projections scale AA (sex distinct).

The total OPEB liability shown is based on an actuarial valuation performed as of July 1, 2018, and a measurement date of June 30, 2019. Update procedures were used to roll forward the total OPEB liability to the OPEB plan’s fiscal year end.

The assets of CRHBT are managed by the county. The following target allocation was adopted asset allocation policy as of June 30, 2019 by the CRHBT’s Board. The long-term expected rate of return on CRHBT plan investments was determined by the county using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of

BOARD OF EDUCATION OF MONTGOMERY COUNTY
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

return for each major asset class included in the OPEB plan's target asset allocation as of June 30, 2019 (see the discussion of the OPEB plan's investment policy) are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Equities	16.80%	5.30%
International Equities	13.50	5.80
Emerging Market Equities	3.40	5.80
Global Equities	3.80	5.75
Private Equity	8.00	7.63
Credit Opportunities	2.00	6.05
High Yield Bonds	8.50	4.20
Directional Hedge Funds	2.50	5.02
Long Duration Fixed Income	13.50	2.55
Cash	1.00	0.95
Diversifying Hedge Funds	2.50	3.90
Global ILs	12.00	2.85
Private Real Assets	5.00	7.06
Public Real Assets	7.50	5.02
	100.00%	

Discount Rate. An SDR of 4.85% was used to measure the total OPEB liability as of June 30, 2019. The SDR was based on an expected rate of return on OPEB plan investments of 7.5% and a 20 year municipal bond rate of 3.13%. The projection of cash flows used to determine this SDR assumes that for contributions until FY 2034, the county will contribute the amount of the net benefit payments plus 50% of the difference between the Annual Required Contribution calculation in the actuarial valuation and the projected net benefit payments. For contributions during FY 2034 and after, the county will contribute the Annual Required Contribution amount calculated in the actuarial valuation. Based on these assumptions, the OPEB plan's fiduciary net position and future contributions were sufficient to finance the benefit payments through the year 2034.

By comparison, the SDR as of June 30, 2018, was 5.40%, based on an expected rate of return on OPEB plan investments of 7.50% and a municipal bond rate of 3.62%.

CHANGES IN THE NET OPEB LIABILITY

BOARD OF EDUCATION OF MONTGOMERY COUNTY
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate. The following presents the net OPEB liability calculated using the discount rate of 4.85%, as well as what the net OPEB liability would be if it were calculated using a discount rate that is one percent lower (3.85%) or one-percent higher (5.85%) than the current rate:

	<u>1% Decrease (3.85%)</u>	<u>Discount Rate (4.85%)</u>	<u>1% Increase (5.85%)</u>
Net OPEB liability	\$ 3,186,007,930	\$ 2,616,173,765	\$ 2,165,438,938

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rate. The following presents the net OPEB liability of the Plan, as well as what the Plan's net OPEB liability would be if it were calculated using healthcare cost trend rates that are one percent lower or one percent higher than the current healthcare cost trend rates:

	<u>1% Decrease</u>	<u>Current Rate</u>	<u>1% Increase</u>
Net OPEB liability	\$2,105,873,671	\$ 2,616,173,765	\$ 3,284,388,074

Rate of Return on Investments. The annual money-weighted rate of return on OPEB plan investments, net of OPEB plan investment expenses, for FY 2019 was 8.26%. The money-weighted rate of return expresses investment performance, net of expense, adjusted for the changing amounts actually invested.

OPEB plan fiduciary net position. Detailed information about the OPEB plan's fiduciary net position is available in the Statement of Fiduciary Net Position Fiduciary Funds.

OPEB LIABILITIES, OPEB EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO OPEB

For the year ended June 30, 2020, the Board recognized OPEB expense of \$175,157,885. At June 30, 2020, the Board reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Changes in assumptions	\$ 309,384,069	\$ 177,222,245
Net difference between projected and actual earnings on OPEB plan investments at measurement date		5,869,049
Difference between expected and actual experience		234,203,804
Board contributions subsequent to the measurement date	141,748,303	
Total	\$ 451,132,372	\$ 417,295,098

Board contributions of \$141,748,303 reported as deferred outflows of resources subsequent to the measurement date will be recognized as a reduction in net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in OPEB expense as follows:

Year ended June 30:	
2021	\$ 24,710,904
2022	24,710,096
2023	22,367,763
2024	22,140,696
2025	22,014,900
Thereafter	8,032,520
Total	\$ (107,911,290)

BOARD OF EDUCATION OF MONTGOMERY COUNTY
 NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2020

XV. POSTEMPLOYMENT HEALTHCARE BENEFITS (GASB 74)

In FY 2017, a new accounting standard for OPEB plan (GASB 74) required the new measurement of the OPEB liability as Net OPEB liability, which is total OPEB liability less the amount of the OPEB plan’s fiduciary net position. Since the Board does not issue separate OPEB plan financial statements, the Board needs to disclose the required OPEB plan information, such as Net OPEB Liability, long-term expected rate of return on OPEB plan investments, and discount rate, etc.

GENERAL INFORMATION ABOUT THE OPEB PLAN

Plan Description. For a description of the plan and the benefits provided, see Note XIV.

Plan membership consisted of the following at July 1, 2019, the date of the latest actuarial valuation:

Inactive Plan Members with Medical Coverage	10,016
Active Plan Members	23,464
Total	33,480

Contributions. The Board has the authority to establish and amend contribution requirements of the plan members and the Board. Retired plan members and beneficiaries currently receiving benefits are required to contribute 36% and the Board contributes 64% toward the current cost of healthcare benefits. Effective for employees hired July 1, 2011 and for certain employees hired as of July 1, 2006, a tiered contribution structure is in effect, with the Board contribution levels of 40, 50, or 64% respectively based on years of service. During FY 2020, plan members and beneficiaries receiving benefits contributed \$42,290,716 (approximately 23.0% of current contributions). The Board and other contributing entities’ contributed \$141,748,303 (approximately 77.0% of current contributions) for current premiums, claims and administrative expenses. Administrative costs are financed through investment earnings.

NET OPEB LIABILITY

The net OPEB liability is to be measured as the total OPEB liability, less the amount of the OPEB plan’s fiduciary net position. The net OPEB liability should be measured as of the OPEB plan’s most recent fiscal year end. The components of the Plan’s net OPEB liability as of June 30, 2020, were as follows:

Total OPEB liability	\$ 3,068,256,022
Plan fiduciary net position	(568,957,591)
Net OPEB liability	\$ 2,449,298,431
Plan fiduciary net position as a percentage of the total OPEB liability:	18.54%

Actuarial assumptions. The total OPEB liability was determined by an actuarial valuation as of July 1, 2019, then rolled forwarded using the SDR which is based on the assumed 7.50% long-term rate of return for projected benefits paid before the crossover year and the municipal bond index rate for projected benefits paid after the crossover year with using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

BOARD OF EDUCATION OF MONTGOMERY COUNTY
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

Actuarial assumptions used in the latest actuarial valuation were:

Valuation date	July 1, 2019
Measurement date	June 30, 2020
Actuarial cost method	Entry Age Normal
Asset valuation method	Fair Market Value
Inflation rate	2.50%
Salary increases	2.50% to 13.50%, including inflation
Investment rate of return	7.50%, net of OPEB plan investment expense, including inflation
Retirement age	Experience-based table of rates
Health care cost trend rates	Initial trend rates of 10.0% for Rx, 8.00 for medical, decreasing to an ultimate trend rate of 4.50%, 4.50% dental trend rate, 3.50% vision trend rate
Mortality	Pre-retirement: Pub-2010 Employee mortality table (for General Employees), sex distinct, with generational mortality improvements from 2010 using scale MP-2018. Post-retirement healthy lives: Pub-2010 Healthy Retiree mortality table (for General Employees), sex distinct, with generational mortality improvements from 2010 using scale MP-2018.

The total OPEB liability shown is based on an actuarial valuation performed as of July 1, 2019, and a measurement date of June 30, 2020. Update procedures were used to roll forward the total OPEB liability to the OPEB plan's fiscal year end.

Discount Rate. An SDR of 4.45% was used to measure the total OPEB liability as of June 30, 2020. The SDR was based on an expected rate of return on OPEB plan investments of 7.5% and a 20 year municipal bond rate of 2.45%. The projection of cash flows used to determine this SDR assumes that for contributions until FY 2032, the county will contribute the amount of the net benefit payments plus 70% of the difference between the Annual Required Contribution calculation in the actuarial valuation and the projected net benefit payments. For contributions during FY 2032 and after, the county will contribute the Annual Required Contribution amount calculated in the actuarial valuation.

By comparison, the SDR as of June 30, 2019, was 4.85%, based on an expected rate of return on OPEB plan investments of 7.50% and a municipal bond rate of 3.13%.

CHANGES IN THE NET OPEB LIABILITY

BOARD OF EDUCATION OF MONTGOMERY COUNTY
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

XVII. CONTINGENCIES

Litigation. The Board, in the normal course of its operations, is subject to lawsuits and claims. While the outcome of these matters is uncertain, the Board believes that any losses not otherwise covered by insurance, which may ultimately be incurred as a result of lawsuits and claims, will not have a material adverse effect on the Board financial condition. Additionally, it is the opinion of counsel that under current law, the Board would have governmental immunity in non-contractual matters for any individual judgments in excess of \$100,000, increasing to \$400,000 effective October 1, 2016, except for civil rights cases.

Supported Projects. Certain programs, referred to as supported projects, which serve specific needs and purposes of the school system and the welfare of the students, are funded by special federal and state grants, and are included in the General Fund and the Enterprise Funds. Grant activities are subject to audit by the granting agencies.

Federal Financial Assistance. The Board receives financial assistance from the U.S. Government. Entitlement to the resources is generally conditioned on compliance with terms and conditions of the grant agreements and applicable Federal regulations, including expenditures of resources for eligible purposes. All grants are subject to financial and compliance audits. Any disallowances as a result of these audits become a liability of the fund that received the grants.

In the opinion of management, the ultimate resolution of any of these matters or audits will not be material to the basic financial statements of the Board.

2020	73,016,807	86,941,255	(13,924,448)	1,630,158,866	5.33

Notes to Schedule:

Valuation Date: Actuarially determined contribution rates are calculated as of July 1, one year prior to the end of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Measurement date	30-Jun
Actuarial cost method	Entry Age Normal
Amortization method	Level percent of payroll open amortization method over 15 years with plan changes closed over 30 years
Asset valuation method	5 year smoothing
Investment rate of return	7.00%
Projected Salary increases	Service and age split between teachers and staff
Cost of living adjustments	1.95% - 3%
Inflation	2.75%
Retirement age	Experience-based table of rates that specific to the type of eligibility condition and years of services
Mortality rates	Healthy lives: RP-2014 white collar mortality table with scale MP-2014 projection scales Disabled lives: RP2000 disabled mortality tables, sex distinct, projected to 2022 using projection scale AA (static table)

Schedule is intended to show information for 10 years. Additional years will be displayed as they become available.

FIDUCIARY FUNDS

June 30, 2020

Pension and Other Employee Benefits Trust Funds:

- Retirement and Pension System – Accounts for the activities of the Retirement and Pension System, which accumulates resources for pension benefit payments to qualified Board employees.
- OPEB Plan Trust – Accounts for activities that accumulate resources for postemployment healthcare benefits for qualified Board retirees.

Agency Funds – Accounts for assets held by elementary and secondary schools for student groups. Agency funds are custodial in nature (i.e., assets equal liabilities) and do not involve measurement of results of operations.

STATISTICAL SECTION

Board of Education of Montgomery County
June 30, 2020

STATISTICAL SECTION

Table of Contents

This section of the Board's Comprehensive Annual Financial Report presents detailed information for understanding what the information in the financial statements, note disclosures, and required supplementary information says about Board's overall financial health.

	Page
Financial Trends	113-121
These schedules provide trend information to help the reader understand how the Board's financial performance and well-being have changed over time.	
Revenue Capacity	122-128
Since Board revenues are primarily provided by Montgomery County, these schedules on the county's revenue sources are relevant to an understanding of Montgomery County's most significant local revenue source, the property tax. Montgomery County levies property taxes and the Board has no authority to collect taxes.	
Debt Capacity	129-132
Since Board construction funding is primarily provided by Montgomery County, these schedules of the county's debt capacity assist the reader in assessing the affordability of Montgomery County's current levels of outstanding debt and Montgomery County's ability to issue additional debt in the future. The Board has no authority to issue bonds. The debt is issued by the Montgomery County.	
Demographic and Economic Information	133-134
Details found in these schedules offer demographic and economic indicators to aid the reader in understanding the environment within which the Board's financial activities take place.	
Operating Information	136-139
These schedules contain select operating indicators to help the reader understand how the information in the Board's financial report relates to the services the Board provides and the activities it performs.

NOTES:

- * Exempt and nontaxable property are not included in this table.
 - * The following classes of property are not taxed: 1) personal property not used in a trade, business, or profession, and 2) business inventories.
 - * Intangible personal property is exempt from taxation except in two instances: shares of stock in certain domestic utilities and oil pipeline corporations (shown above), and intangible personal property of corporations under a contract with the State, granted charter exemptions from property taxation.
 - * Property owned by the Federal government, the State, or a subdivision or agency of either, is exempt. Also exempt are real and personal property used for religious, educational, or charitable purposes. Specific exemptions involve historical property, societies and museums, conservation property, cemeteries, certain fraternal and service organizations, continuing care facilities for the aged, nonprofit housing, property, and dwelling houses of disabled veterans and blind persons.
 - * Ratio for total assessed to total estimated actual value were revised by the State Department of Assessments and Taxation for FY 2019.
 - * Ratio for total assessed value to total estimated actual value for FY2020 is the five year average of FY 2015-FY 2019.
 - (1) Residential real property includes single-family homes, townhouses, and condominiums but excludes apartment dwellings which are included under the Commercial/Other category.
 - (2) For personal property, the assessed value and estimated actual value are the same.
 - (3) See Montgomery County FY 2020 Table 9-a for real and personal property direct tax rates.

NOTES:

- * The tax rates are per \$100 of assessed value.
 - * The charter requires that revenues from real property taxes cannot exceed last year's revenues adjusted by the rate of inflation excluding revenues from new construction. The Council can adopt tax rates that exceed this limit by a supermajority of seven out of nine councilmembers.
 - * No discounts are allowed.
 - * Taxes are levied as of July 1, are due by September 30, and become delinquent the following October 1 for non-owner occupied property.
 - * Unless homeowners elect to pay their real property taxes annually, taxes are paid on a semi-annual basis with payment due by September 30 and December 31 for owner occupied property.
 - * Interest and penalty at 20 percent are assessed on delinquent tax bills.
 - * Revised tax bills based upon certifications from the State received after September 1 may be paid within thirty days without interest.
 - * Delinquent taxes on real property are collected by sale. Taxes on personal property are enforced by legal action. Corporations may lose charter for failure to pay taxes.
 - * Costs of tax sale, which vary, are added to tax bills. The last sale cost \$50 per parcel.
 - * Due to Covid-19, the County's Tax Sale, originally scheduled for June 8, 2020, has been postponed to a later date to be determined.
 - * Personal property tax rates are applied to 100 percent of the property assessment.
- (1) Rates classified as substantially county-wide represent those tax rates that are levied against all of the County's assessable base, except those incorporated cities and municipalities that provide their own such service.
 - (2) M-NCPPC County property tax rates are included in the County's direct rate since the County Council has the power to set, modify, or approve these tax rates for this joint venture organization.
 - (3) County direct rate includes: County tax rates that are levied County-wide, and County tax rates levied by M-NCPPC. For County special taxing district tax rates that are levied substantially County-wide, the direct rate includes a prorata portion of the tax rate that corresponds to the portion of the County's assessable base against which the rate is levied. Therefore, the total County direct rate presented above is not a mathematical sum of all the individual rates presented.

NOTES:

- * Tax rates are per \$100 of assessed value.
- * Personal property tax rates are applied to 100 percent of the property assessment.
- * The County special taxing district rates above represent taxes that are levied against mutually exclusive specific geographic portions of the County's assessable base. Such rates are not included in the County direct rate on Table 9-a, as they are not reflective of what all County taxpayers would pay.

- (1) Parking Lot Districts also carry a tax rate of one-half the amount shown which applies to property zoned commercial but not used as such.
- (2) White Flint Special Taxing District was established in November 2010 and levy year 2011, (FY 2012), was the first year that the property tax on commercial properties went into effect.
- (3) Montgomery Hills Parking Lot District was merged with the Silver Spring Parking Lot District effective July 1, 2017.

NOTES:

- (1) General Bonded Debt includes all general obligation debt, variable rate demand obligation, regardless of purpose or repayment source, and other bonded debt financed with general government resources. Governmental lease revenue bonds and business-type revenue bonds are excluded because they are repayable from specific resources other than general governmental resources. Other debt is excluded because it is not in the form of bonds.
- (2) See Montgomery County FY 2020 table 8 for estimated actual value of taxable property data.
- (3) See Montgomery County FY 2020 table 23 for population data used in calculating the Per Capita.

NOTES:

- (1) See (1) on Montgomery County FY 2020 CAFR Table 8.
- (2) See (2) on Montgomery County FY 2020 CAFR Table 8.
- (3) As a Charter County, the legal debt limit is provided by Article 25A, Section 5(P(i)), of the Annotated Code of Maryland. The legal debt margin is a total of 6 percent of the assessable base (presented at 100 percent) of real property of the County and 15 percent of the County's assessable base of personal property and operating real property.

Montgomery County direct debt (5)			4,252,302,542
Total Direct and Overlapping Debt			<u>\$ 4,521,417,384</u>

NOTES:

- (1) Direct debt relating to the governmental activities of the County includes general obligation bonds, variable rate demand obligations, bond anticipation notes, notes payable, lease revenue bonds, and capital leases. Overlapping debt is the debt of other governmental entities in the County that is payable in whole or in part by taxpayers of the County. It includes general obligation bonds, revenue bonds, mortgages payable, notes payable, commercial paper, bond anticipation notes, certificates of participation, capital leases, and bank loans.
- (2) Entities are wholly within Montgomery County.
- (3) Unaudited information provided by entities.
- (4) Overlapping debt percentage is based on the debt relating to the County.
- (5) Source: total of governmental activities debt on Montgomery County Table 17.
- (6) The Board has no authority to issue bonds.

NOTES:

- (1) Source: Data for 2010-2018 is from the Bureau of Economic Analysis (BEA), U.S. Department of Commerce. Data for 2019 and 2020 are estimated by the Montgomery County Department of Finance. Data for 2010-2018 was published by BEA.
- (2) Source: Bureau of Economic Analysis (BEA), U.S. Department of Commerce. Personal income includes money income from wages and salaries; transfer payments such as social security and public assistance; income from rent, interest and dividends. Data for 2011-2018 was published by BEA. Data for 2019 through 2020 are estimates derived by the Montgomery County Department of Finance.
- (3) Per capita income is derived by dividing personal income by population.
- (4) Source: Bureau of Labor Statistics (BLS), U.S. Department of Labor. Civilian labor force data include all persons in the civilian noninstitutional population classified as either employed or unemployed and counted by place of residence and are published by BLS for 2011 - 2019. Data for 2020 is estimated by Montgomery County Department of Finance based on the percent change from the average of the first six months of CY 2019 to the average of the first six months of CY 2020.
- (5) Source: Bureau of Labor Statistics (BLS), U.S. Department of Labor. Resident employment includes all persons who during the survey week (a) did any work as paid employees, worked in their own business or profession or on their own farm, or worked 15 hours or more as unpaid workers in an enterprise operated by a member of their family, or (b) were not working but who had jobs from which they were temporarily absent because of vacation, illness, bad weather etc. Each employed person is counted only once, even if he or she holds more than one job and is counted by place of residence and not by place of employment. Data for 2011-2019 was published by BLS. Data for 2020 is estimated by Montgomery County Department of Finance based on the percent change from the average of the first six months of CY 2019 to the first six months of CY 2020.
- (6) The unemployment rates for 2011 through 2019 were published by the Bureau of Labor Statistics (BLS), U.S. Department of Labor. Unemployment rate for 2020 is estimated by Montgomery County Department of Finance based on the estimate of the civilian labor force and the estimate of resident employment.
- (7) Source: County Executive Recommended FY21 Operating Budget, Office of Management and Budget, Montgomery County. Since the school year begins in September, data is represented as enrollment as of September of the calendar year.

Science kits sold	5,676	4,748	3,546	1,854	2,293

NOTES:

NA - Data not readily available.

* SAT score is the average score for the previous year's graduating class.

Beginning with the Class of 2006, the SAT changed from a two-part exam totalling 1,600 to a three-part exam totalling 2,400.

Beginning with the Class of 2017, the SAT changed back to a two-part exam totalling 1,600 rather than a three-part exam totalling 2,400.

ACT is reported as a Mean Composite Score & tracking was added in 2010; students can take both the ACT and the SAT.

Capacity calculation for elementary schools for students/classroom is currently 23.

+ Average age of school buildings from time of opening to last renovation/modernization.

Overall field trips and field trip miles reduced due to no trips taking place after 3/13/29 due to COVID-19

MCPS NONDISCRIMINATION STATEMENT

Montgomery County Public Schools (MCPS) prohibits illegal discrimination based on race, ethnicity, color, ancestry, national origin, religion, immigration status, sex, gender, gender identity, gender expression, sexual orientation, family/parental status, marital status, age, physical or mental disability, poverty and socioeconomic status, language, or other legally or constitutionally protected attributes or affiliations. Discrimination undermines our community's long-standing efforts to create, foster, and promote equity, inclusion, and acceptance for all. Some examples of discrimination include acts of hate, violence, insensitivity, harassment, bullying, disrespect, or retaliation. For more information, please review Montgomery County Board of Education Policy ACA, *Nondiscrimination, Equity, and Cultural Proficiency*. This Policy affirms the Board's belief that each and every student matters, and in particular, that educational outcomes should never be predictable by any individual's actual or perceived personal characteristics. The Policy also recognizes that equity requires proactive steps to identify and redress implicit biases, practices that have an unjustified disparate impact, and structural and institutional barriers that impede equality of educational or employment opportunities.

For inquiries or complaints about discrimination against MCPS staff *	For inquiries or complaints about discrimination against MCPS students *
