September 30, 2021

To the Board of Education and Citizens of Wicomico County:

The Board of Education of Wicomico County's (Board) Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2021 is submitted herewith pursuant to the Annotated Code of the State of Maryland, section 5-109. The CAFR is a thorough and detailed presentation of the Board's financial position, activities and balances for the fiscal year then ended.

This letter of transmittal, prepared by management, should be read in conjunction with Management Discussion and Analysis and is intended to introduce the Board's CAFR. The responsibility for both the accuracy of the data and the completeness of the CAFR rests with the management of the Board. The Board's comprehensive framework of internal controls provides assurance of the accuracy of the information included in the CAFR. Because the cost of internal controls should not exceed anticipated benefits, the objective is to provide reasonable rather than absolute assurance that the financial statements are free of any material misstatements. This report was prepared by the Department of Business Support Services and to the best of our knowledge and belief the enclosed data is complete and accurate in all material respects and is reported in a manner which presents fairly the financial position and results of operations of the Board.

The financial statements of the Board have been audited by TGM Group LLC, certified public accountants and they have issued an unmodified opinion on the Board's financial statements for the fiscal year ended June 30, 2021. The auditor's opinion is presented as the first component of the financial section of the CAFR.

The Board, in compliance with Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), has issued a separate Compliance Report. The report includes the Schedule of Expenditures of Federal Awards as well as the auditor's report on internal control over financial reporting and the report on the Board's compliance with requirements applicable to major Federal Awards.

Reporting Entity Profile

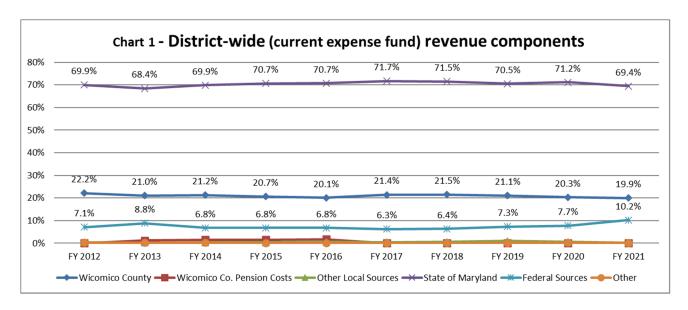

The Board of Education of Wicomico County is one of twenty-four (24) school systems established by law in the state of Maryland. The school systems consist of the twenty-three (23) counties and the City of Baltimore. Each county board of education is a body politic and corporate. The Board of Education of Wicomico County (Board) was established in 1967 and is ranked 14th in the state of Maryland according to student enrollment which as of September 30, 2020 was 14,354. Countywide population for Wicomico was 103,609 in 2020, which represents the most current data available.

The Board's mission is to provide all students an educational foundation and a set of skills which will enable them to become responsible and productive citizens in our society. The governing body of the school system is the Board of Education which is composed of seven (7) members. As a result of a county referendum, effective December 2018 the seven (7) member board became an elected board for the first time. Five (5) of the members are elected by voters within the voters' council district and two (2) are elected at-large members. The Board of Education determines educational policy and employs a superintendent of schools for a four-year term to administer the school system.

During the 2020-2021 school year, the school system served 14,354 in seventeen (17) elementary schools, seven (7) secondary schools, one career-technology high school program, one evening high school, an alternative learning program, and an early learning program. Enrollment for next school year is projected to increase significantly. The ratio of professional staff (including administrators, teacher, counselors and therapists) to students for the 2020-2021 school year was approximately one staff member to 12 students. Student demographics for the 2020-2021 school year included: 59.9% students that qualified for free/reduced meals; 11.4% students with disabilities; and 8.2% students that were English Language Learners. In June 2021, the school system graduated 880 students. For school year 2020-2021 there were no charter schools operating in the county.

In accordance with state law the Board of Education developed in 2002 a Comprehensive Master Plan. The 2020-2021 school year marked the seventeenth year of implementation of the strategic plan. The plan is organized around the school system's three (3) strategic priorities of High Student Achievement, Safe Learning Environment, and Effective and Efficient Operations. Progress is reported through annual updates of the Comprehensive Master Plan with the Maryland State Department of Education (MSDE). Such updates are available on the MSDE website.

The Board is a component unit of Wicomico County, Maryland, and is fiscally dependent on Wicomico County and the State of Maryland to appropriate funding for its operations. The Board has no authority to levy taxes or issue bonded debt. Accordingly, the financial condition of the Board is impacted by the financial condition of these funding authorities. During FY 2021 the Board received 19.9% of its district-wide revenues for operations (current expense) from Wicomico County compared to 69.4% from the State of Maryland. Chart 1 reveals a history of district-wide revenues, comparing the sources of funds. Since FY 2012, local county aid for education has increased from \$36.2 million to \$47.7 million, an increase of \$11.5 million, or 31.7%. Federal aid has increased since FY 2012 by \$12.8 million. State aid during that same period increased by \$51.7 million. Overall, revenues for our school system have increased by \$75.7 million since FY 2012, or 46.3%.

Approximately 2.4 million square feet of building space is maintained by the Board. Of the 27 school buildings in our inventory, over half of them have aged more than 25 years since either their original or last major renovation. The average age of our inventory is now 38 years. The oldest building in use is Wicomico Middle School which has a major structure built in 1931. The newest facility in use, West Salisbury Elementary, was completed and opened for students in September 2020. It provides approximately 61,000 square feet. Our school buildings are multi-purpose facilities, serving many community groups and organizations for meetings and recreational use when school is not in session.

Assessment of the School System's Economic Condition

Wicomico County Public Schools has no taxing authority and is totally dependent on contributions from the county and state along with grant funding awarded from the state and federal governments for its operating revenue. Capital projects are reflected in the planned spending of county and state funds detailed in our 5-year Capital Improvement Plan (CIP) and must be submitted annually to the county and state for their approval before any funding commitments. The Capital Projects Fund budget and projections recognize the reality of the economic situation facing our state and county. While our 5-year CIP presents our school system's major school construction needs, the 3-year budget projections in this document reflect the reality of what we can expect.

Long range planning used in our budgeting process is based on historical trends and also assumptions about the future. Assumptions include consumer price index, enrollment, negotiations, student participation, and upcoming required Federal and State mandates.

Long-term Financial Planning

For FY 2022, we are projecting general fund revenues to increase by approximately \$838,000, while on-going costs of doing business (fixed costs), additional instructional and departmental needs are projected to increase \$2.2 million. Consequently, the school system worked to realign and reorganize \$1.37 million budgeted funds where possible as a method of cost avoidance and reduce the need to

request new funding. This process was used to enable us to balance the FY2022 budget since adequate revenues were not available to meet ongoing needs.

Major School System Initiatives

Funding for the major program initiatives included for FY 2022:

- Plan for and review the implementation of the Universal Prekindergarten initiative in an effort to increase the percentage of students who enter kindergarten ready to learn as measured by the Kindergarten Readiness Assessment
- Continue our focus of recruiting and retaining a high-performing workforce to build and maintain a well-functioning school system
- Increase positive school climate and safety by reducing the percentage of students with repeat incidents of physical aggression.

Discussion of ideas and continued planning to increase the percentage of students graduating from Wicomico County Public Schools college and/or career ready will continue during outlying years to:

- Develop and implement alternative career-connected pathways and signature programs for middle and high school students
- Expand alternative academic pathways that lead to graduation including online learning, dual enrollment and early college opportunities
- Create flexible learning environments for students which will promote student strengths, interests and needs connecting student interests to real-world learning opportunities
- o Continue to enhance our instruction for our growing English Language Learner (ELL) student population.

One of Wicomico County Public Schools' greatest challenges is the growing segment of our student population the state identifies as "At-Risk". We are working to address the social and emotional needs exhibited in this student population. Specifically, this segment of our student population as a percent of our full-time equivalent (FTE) student enrollment for state aid purposes has grown exponentially over the past 10 years from 67.3% to 79.6% of our student population. The student make-up of this population includes our English Language Learners (ELL), Special Education, and students qualifying for Free and Reduced Meals (FARMS). Servicing our At-Risk students requires additional staff, instructional time, and supplies so that WCPS can effectively work towards closing achievement gaps and provide these students with every opportunity to attain proficiency in their academic achievements. With this increase comes a higher cost per pupil.

Budgetary Controls

The Board maintains a system of budgeting and accounting controls designed to assist management in meeting its responsibilities for reporting financial information. These controls provide reasonable assurance that assets are safe-guarded and transactions are executed and recorded with management's authorization. Account managers are held responsible via this system for assuring that expenditures are planned and made in accordance with approved budgets.

The Board prepares an annual Consolidated Current Expense Budget in accordance with Maryland law. The budget document provides budgets for the Governmental Funds and Proprietary Funds of the Board. The Governmental Funds consist of the General Fund (unrestricted current expense), the

Special Revenue Fund (restricted current expense), and the Capital Projects Fund. The Proprietary Fund consists of the Board's Food Service operation.

The proposed budget is required to be submitted to the Wicomico County Executive by March 15th of each year. The Wicomico County Council provides final approval and notifies the Board of its appropriation by late May or early June. The Board finalizes and approves its budget in late June. The General Fund (unrestricted current expense) is adopted by categories (e.g., administration, instructional salaries, special education) as prescribed in Maryland State law. Transfers between categories during the year require Wicomico County Council approval.

Annual operating budgets for Special Revenue Funds (restricted current expense) from state and federal grants must receive grantor approval. For over 95% of our grants, the state of Maryland serves as the grantor agency. The grants are also reviewed with the Board of Education upon award. Budget amendments to grants require grantor approval.

The Capital Projects Fund budget is developed after the County approves their annual Capital Improvement Plan (CIP), usually in early March, and after the state adopts their annual capital budget in early April. This budget accounts for appropriations specifically earmarked for new construction, renovations, and major systemic maintenance projects in accordance with state law.

The lone proprietary budget, the Food Service Fund, is prepared and approved through a separate review process involving the Department of Food Services, the Department of Business Support Services, and the Board of Education. This collaborative effort ensures compliance with all applicable federal and state laws involving accounting for USDA commodities, USDA funding for free and reduced eligible meals, and local student payments.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Board of Education of Wicomico County for its comprehensive annual financial report (CAFR) for the fiscal year ended June 30, 2020. This is the eleventh consecutive year that the Board achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and are submitting it to the GFOA to determine its eligibility for another certificate.

The Association of School Business Officials International (ASBO) has awarded a Certificate of Excellence in Financial Reporting to the Board of Education of Wicomico County for its comprehensive annual financial report for the fiscal year ended June 30, 2020. This award is the highest form of recognition in school system financial reporting issued by ASBO International and is valid for one year. This is the eleventh consecutive year that the Board was awarded the ASBO Certificate of Excellence in Financial Reporting. We believe that our current CAFR continues to meet the Certificate of Excellence Program's requirements and are submitting it to ASBO for consideration.

The Board of Education of Wicomico County also received from ASBO the Meritorious Budget Award (MBA) for its annual budget document for the year beginning July 1, 2021. This is the tenth consecutive year that the Board has received the MBA from ASBO International.

Acknowledgements

The preparation of this report could not have been accomplished without the dedicated and efficient services of the entire staff of Business Support Services and the firm of TGM Group, LLC, certified public accountants. The high standards to which this report conforms reflects the professional competence of all individuals responsible for its preparation. We wish to express our appreciation for their exemplary service.

Further appreciation is extended to each member of the School Board and the Superintendent for their interest in planning and conducting the financial operations of the School Board in a responsible manner.

Respectfully submitted,

Micah C. Stauffer, Ed.D.

INDEPENDENT AUDITORS' REPORT

The Board of Education of Wicomico County Salisbury, Maryland

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of The Board of Education of Wicomico County, a component unit of Wicomico County, Maryland, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Board's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of The Board of Education of Wicomico County as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As described in Note 15 to the financial statements, in 2021, the Board adopted new accounting guidance, GASBS No. 84, Fiduciary Activities. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 15 through 24, schedule of funding progress and employer contributions on page 70, schedule of OPEB liability on page 71, schedule of proportionate share of net pension liability on page 72, schedule of board contributions on page 73, schedule of changes in employer's net pension liability and related ratios on page 74, schedule of revenues and expenditures – budget and actual – general fund on pages 75-76, schedule of revenues and expenditures – budget and actual – special revenue on page 77, and notes to required supplementary information on pages 78 through 82 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information

because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise The Board of Education of Wicomico County's basic financial statements. The introductory section, additional supplementary information, and statistical sections, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The additional supplementary information, as listed in the table of contents, is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the additional supplementary information is fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a separate report dated September 30, 2021 on our consideration of The Board of Education of Wicomico County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of The Board of Education of Wicomico County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering The Board of Education of Wicomico County's internal control over financial reporting and compliance.

Salisbury, Maryland September 30, 2021

JAM Group LLC

Management's Discussion and Analysis Year Ended June 30, 2021

This section of the Board of Education of Wicomico County's (Board) comprehensive annual financial report (CAFR) provides management's narrative, overview and analysis of the financial performance of the Board for the fiscal year that ended on June 30, 2021. Please read this analysis in conjunction with the Letter of Transmittal located in the introduction of this report and the Board's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The Board's financial status increased during FY 2021 when compared to net position from FY 2020. It increased by \$15.7 million, or 7%,
 - Overall revenues were \$281.6 million and expenses \$266.7 million
 - Net investment in capital assets of the Board increased by \$13.5 million as the Board continues to invest in updating older school facilities
- The Board's total net position is \$238 million.
- At the end of the current fiscal year, the Board's governmental funds reported combined fund balances of \$30.3 million, an increase of 8.5 million from FY 2020, as restated.
- The unassigned fund balance in the General Fund for FY 2021 was \$8.9 million, an increase of 3.9 million from the previous fiscal year.

OVERVIEW OF THE FINANCIAL STATEMENTS

In addition to Management's Discussion and Analysis, this section of the CAFR contains the financial statements which consist of the parts as noted in Table 1.

The basic financial statements consist of two types of statements: district-wide financial statements and fund financial statements.

District-wide financial statements

These statements report information about the Board as a whole using accounting methods similar to those used by private-sector companies. There are two district-wide statements:

 Statement of net position - includes all of the Board's assets and liabilities and reflects the difference (net position) between the assets and liabilities. It also includes the deferred inflows and outflows of resources.

Table 1. Required Components of Board's **Annual Financial Report** Management's Basic Financial Supplementary and Statements Information Analysis Notes To the District-Wide Fund Financial Financial Financial Statements Statements Statements

Management's Discussion and Analysis Year Ended June 30, 2021

- 2) Statement of activities which reflects the current year's revenues and expenses regardless of when cash is received or paid.
 - Over time, increases or decreases in the Board's net position is an indicator of whether its financial position is improving or deteriorating, respectively.
 - To assess the overall health of the Board additional non-financial factors such as changes in the condition of school buildings and other facilities must be considered.

In the district-wide financial statements the Board's activities are divided into two categories:

- Governmental activities Most of the Board's basic services are included here, such as regular and special education, transportation, administration, operations, maintenance, and community services. County and state aid finance the majority of these activities.
- ➤ Business-type activities The Board accounts for all of the Food Service activities here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds - focusing on its most significant or "major" funds - not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs. Some funds are required by State law, while the Board establishes other funds to control and manage money for particular purposes or to show that it is properly using certain revenues (e.g., federal grants).

The District has three kinds of funds:

- ➤ Governmental funds Most of the district's basic services are included in governmental funds, which generally focus on (1) cash and other financial assets that can readily be converted to cash flow in and out, and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance the Board's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we have provided additional information to explain the relationship (or differences) between them.
- Proprietary funds The Food Service operation is the only fund accounted for as a proprietary fund. Proprietary funds are reported the same way as business-type activities in the government-wide statements.

Management's Discussion and Analysis Year Ended June 30, 2021

➤ Fiduciary funds - The District is the trustee, or agent, for assets that belong to others, such as the Employees Retirement Plan, the 401(a) Employer Matching Plan, and the Retiree Health Insurance Plan. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. These activities are excluded from the government-wide financial statements because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE BOARD AS A WHOLE

Net position – the Board's combined net position was \$238 million on June 30, 2021. This is an increase of 15.7 million, or 7%, when compared to FY 2020 net position. The Board's unrestricted net position is negative due to the implementation of GASB 75, which now requires state and local governments to report the liability of Other Post-Employment Benefits (OPEB). The Board's net OPEB liability for the fiscal year ending June 30, 2021 was \$139.7 million.

Changes in net position - the District's total revenues were \$281.6 million for the year ended June 30, 2021 (See Table 3). The county appropriation and state formula aid accounted for approximately 68.8% of total revenue for the year. Another 31.1% came from program revenues which consist of federal and state grants and capital contributions.

Management's Discussion and Analysis Year Ended June 30, 2021

The total cost of all programs and services was \$266.7 million. The District's expenses are predominantly related to providing direct educational services to students, 78.7%, while support services for students composes another 18.4%. The purely administrative activities of the District accounted for approximately 2.9%. Total revenue exceeded total expenses by \$14.9 million.

Governmental Activities

- Net position increased \$15.7 million in FY 2021 primarily attributable to:
 - o Investments increased \$4.3 million
 - o Accounts Receivable from government agencies increased \$9.4 million
 - Construction in progress increased 13.9 million
 - Net pension and OPEB liability decreased \$4.8 million
 - o Pension and OPEB inflows of resources increased \$19.4 million

Management's Discussion and Analysis Year Ended June 30, 2021

- Revenues increased \$24,724,286 attributable to a net of:
 - Capital contributions increased \$13.2 million as a result of the increase in state and county school construction revenue
 - State formula aid for operations increased \$3.7 million as a result of the increase in enrollment
 - Federal and state grants increased \$6.4 million, largely attributable to our federal ESSER grant of almost 5 million.

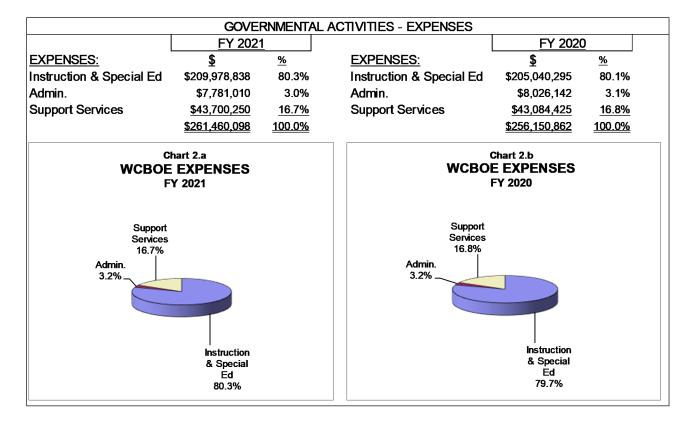

See Chart 1.a and 1.b below for a breakdown of the District's revenues as a percentage of total revenue for FY 2021 and 2020.

Governmental-type Activities

Charts 2.a and 2.b disclose the breakdown of expenses for FY 2021 and 2020 for Governmental Activities. The Charts and line items disclose what percentage each major component of expenditures is to the total for each year. Instruction and Special Education costs make up approximately 80.3% of total expenses, while support services, which includes expenses associated with student personnel services, student health services, facility operations and maintenance and student transportation compose another 16.7% of all costs. Administration remains low at 3.0% of total expenses.

Management's Discussion and Analysis Year Ended June 30, 2021

Business-type Activities {Refer to Table 2 and 3 for details}

The District's only business-type activity, the Food Service operation, had a decrease in net position of \$718,283 in FY 2021. Since FY 2008, the Board's General Fund Budget had provided support to the Food Service operation in the form of an inter-fund transfer. In FY 2021 the transfer was reduced from \$150,000 in FY 2020 down to \$0 in FY 2021.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The financial performance of the District as a whole is reflected in its governmental funds as well. As the District completed the year, its governmental funds reported a combined fund balance of \$30.3 million, an increase of \$8.5 million over last year's ending fund balance. Revenues for the District's governmental funds were \$277.6 million, an increase of \$24.7 million over the prior year. There was an increase in expenditures of \$5.3 million which totaled \$261.5 million.

General Fund

The General Fund includes the primary operations of the District in providing educational services to students from pre-kindergarten through grade 12, including pupil transportation and the maintenance and operation of all school facilities. See Table 4 for a summary of General Fund revenues and expenditures.

Management's Discussion and Analysis Year Ended June 30, 2021

Table 4												
GENERAL FUND REVENUES AND EXPENDITURES												
						\$	%					
		FY 2021		FY 2020		Incr (Decr)	Incr. (Decr.)					
REVENUES	\$	219,599,353	\$	215,144,468	\$	4,454,885	2.1%					
<u>EXPENDITURES</u>	\$	214,121,097	\$	214,600,955	\$	(479,858)	-0.2%					
	\$	5,478,256	\$	543,513	\$	4,934,743	907.9%					
OTHER FINANCING SOURCES (USES)												
Surplus/(Deficit) from insurance settlement	\$	2,353,654	\$	(197,663)	\$	2,551,317	1290.7%					
Capital Lease Proceeds				1,809,324		(1,809,324)	-100.0%					
Interfund Transfers - Special Revenue		1,118,648		1,159,479		(40,831)	-3.5%					
Interfund Transfers - Other				(150,000)		150,000	-100.0%					
	\$	3,472,302	\$	2,621,140	\$	851,162	32.5%					
EXCESS (DEFICIENCY) of Revenues & Other												
Financing Sources (Uses) over Expenditures	\$	8,950,558	\$	3,164,653	\$	5,785,905	<u>182.8</u> %					

Revenues increased by \$4.45 million largely as a result of an increase in state aid of \$3.7 million. Wicomico's 9/30/2019 full time equivalent (FTE) enrollment, which determined our FY 2021 state aid, increased by 114.5 students over 9/30/2018.

Special Revenue Fund (Restricted Grant Funds)

This fund is used to account for grants from Federal, State, and Local sources. Grants provide a major source of revenue for specific educational programs not funded by the General Fund. Programs include initiatives for Special Education students and disadvantaged students. Table 5 below reflects an increase in grant funds over the prior year, largely due to expenditures under the new Elementary and Secondary School Emergency Relief fund.

Table 5											
SPECIAL REVENUE FUND											
	Fiscal Year FY 2021	Fiscal Year FY 2020	Increase (Decrease)	% Incr. (Decr.)

Management's Discussion and Analysis Year Ended June 30, 2021

Capital Projects Fund

The Board has no legal authority to issue bonded indebtedness or borrow funds. All funds for school construction come from either the transfer of bond proceeds from our County selling Capital Bonds or from State Aid through the Maryland Public School Construction Program (PSCP). During FY 2021, the Board recorded PSCP aid of \$13.1 million. These funds were used predominantly for the construction costs associated with the multiple systemic renovation projects at Delmar Elementary School and new construction at Beaver Run Elementary.

School Activities Fund

This fund is used to account for revenues and expenditures from student activities including field trips, student clubs, class funds, athletics, fund-raising and other student activities at the school level. Upon implementation of GASBS No. 84 in FY2021, the school activities fund is reported as a governmental fund.

Proprietary Fund

Our school system has one proprietary fund and that is our Food Service Fund. This fund is accounted for as an enterprise fund in which fees are charged to external users for goods and services, much in the same way as business-type activities. Our Food Service Fund is faced with the reality of decreasing revenues and increasing expenditures in order to provide the required food and nutritional services to our students. In FY 2021, net position decreased \$718,283 in large part due to the unreimbursed cost of community feeding required as a result of Covid-19.

Fiduciary Fund

The following funds are accounted for as Fiduciary Funds:

- (1) Pension Trust Funds:
 - Retirement Plan for Employees of the Board of Education of Wicomico County covers all Board employees not eligible for the State Teachers Retirement or Pension Systems. Total assets as of June 30, 2021 were approximately \$30.4 million (see footnotes 9 and 10 for more detail information).
 - 401(a) Retirement Plan is a self-directed defined contribution plan. All employees, 19 years and older, are eligible and Board contributions are based upon employees' contributions to the Board's 403(b) Tax Sheltered Annuity Program. Total assets as of June 30, 2021 were \$5.5 million (see footnote 9 and 10 for more detail information).
 - Retiree Health Insurance Plan Trust (OPEB Trust) was established by the Board in June 2006 in order to fund the health care costs of retirees. Total assets as of June 30, 2021 were approximately \$31.7 million (see footnote 7 and 10 for more detail information).
- (2) Private Purpose Trust Funds: Assets are held and managed by the Board as a result of funds received from various sources for specific purposes such as student scholarships and awards. Total assets equaled \$239,234 as of June 30, 2021.

Management's Discussion and Analysis Year Ended June 30, 2021

General Fund Budgetary Highlights

Original budget compared to final budget

The Board did not require any budget transfers needing County Council approval to revise the General Fund budget during the year.

Due to the school being virtual longer than expected (because of COVID-19), there were several budget transfers that required Board approval. All were within category.

Final budget compared to actual results

Revenue estimates for budgetary purposes were very close to actual. The total variance was only \$1.4 million or 0.68% of budget.

Expenditure budget estimates exceeded actuals by \$10.3 million, or about 4.8%. This excess was due in large part to cost savings as a result of Covid-19 (primarily salaries and utilities).

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

By the end of FY 2021, the District had invested in a broad range of capital assets, including construction in progress, land, buildings and improvements, furniture, fixtures, equipment, and vehicles, which net of depreciation equaled \$338.9 million. (More detailed information about capital assets can be found in Note 5 to the financial statements.) Total depreciation expense for the year was \$13.7 million.

Construction - Next Five Years

Annually, the Board of Education prepares and submits to the State Inter-Agency Commission for School Construction and to the Wicomico County Executive a 5-Year Capital Improvement Program (CIP). The Board's FY 2022 CIP, submitted in September 2020, requested \$45.7 million from the county and \$13.9 million from the state for FY 2022 capital needs. The FY 2022 requests that were approved by the state and county are as follows:

- Beaver Run Elementary \$4.7 million from the county and \$10.9 million from the State to fund complete school replacement construction
- Westside Intermediate \$1.8 million from the county to fund systemic renovation of roofs
- Mardela High/Middle \$10.0 million from the county to fund school renovation and addition

Management's Discussion and Analysis Year Ended June 30, 2021

Long-Term liabilities

The Board of Education did not enter into any new capital leases in FY 2021, however the District is still making payments on multi-year capital leases entered into in prior years. Please refer to note 12 for specific details concerning long-term liabilities.

FACTORS BEARING ON THE DISTRICT'S FUTURE

Wicomico County has felt and will continue to feel the traumatic effects that COVID 19 has had on the local and state economy. Our student enrollment (which drives our funding) reduced substantially in FY 2021, and has been slow to recover. Fortunately, the governor held us harmless in FY 2022 and did not reduce our funding. We expect another down year for student enrollment, but we do still expect an increase in state aid in FY 2023 due to the Kirwan formulas taking effect.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Finance Office, Wicomico County Board of Education, 2424 Northgate Drive, Suite 100, Salisbury, MD 21802-1538

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES GOVERNMENTAL FUNDS Year Ended June 30, 2021

\$ 8,469,320

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

Capital asset additions	29,459,379
Current year depreciation	(13,669,669)

15,789,710

Current year loss on disposal of capital assets (26,400)

Some expenses reported in the statement of activities, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

Increase in long-term accrued compensated absences	(654,881)
Decrease in net OPEB liability	5,141,414
Decrease in net pension liability	3,913,046
Decrease in deferred outflows	1,204,351
Increase in deferred inflows	(19,442,371)

Capital lease proceeds provide current financial resources to governmental funds but increase long-term liabilities in the statement of net position. Repayment of capital lease obligations is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. In the current year, the net effect of capital lease borrowings and repayments was:

1,269,164

Change in net position of Governmental Activities \$ 15,663,353

 ${\it The \ Notes \ to \ the \ Basic \ Financial \ Statements \ are \ an \ integral \ part \ of \ this \ statement.}$

Note 1. Summary of Significant Accounting Policies

A. Financial Reporting Entity

The Board of Education of Wicomico County (the "Board") is empowered by Title 13A of the Code of Maryland Regulations to fulfill the elementary and secondary educational needs of students in Wicomico County, Maryland (the "County").

The financial statements of the Board have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to local government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial principles.

The most significant of the Board's accounting policies are described below.

B. Basis of Presentation

The Board is the basic level of government which has financial accountability and control over all activities related to public school education in Wicomico County, Maryland. The Board receives funding from local, State and Federal government sources and must comply with the requirements of these funding source entities.

The Board is a component unit of Wicomico County, Maryland and is included in the County's reporting entity. This conclusion has been reached based on the following criteria: 1) the County is responsible for approving the Board's budget and establishing spending limitations and 2) the Board cannot issue bonded debt, but the County can and does issue bonds to finance school system operations. In addition, there are no component units which are included in the Board's reporting entity.

The Board's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The statement of net position and the statement of activities display information about the Board as a whole. These statements include the financial activities of the Board. The statements distinguish between those activities of the Board that are governmental and those that are considered business-type activities. Activities between funds that are representative of lending or borrowing arrangements outstanding at the end of the fiscal year are referred to as due to/from other funds and are netted for presentation purposes (see Note 3).

The statement of net position presents the financial condition of the governmental and business-type activities of the Board at year-end, excluding fiduciary funds. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the Board's governmental activities and for business-type activities of the Board. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the Board, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each program or governmental function is self-financing or draws from general revenues of the Board.

Note 1. Summary of Significant Accounting Policies (Continued)

B. Basis of Presentation (continued)

FUND FINANCIAL STATEMENTS

During the year, the Board segregates transactions related to certain Board functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the Board at a more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column.

C. Fund Accounting

The Board uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

GOVERNMENTAL FUND TYPES

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the Board's major governmental funds:

<u>General Fund</u> - The General Fund is the general operating fund of the Board. All general revenues and other receipts that are not allocated by law or contractual agreement to another fund and general operating expenditures are accounted for in this fund.

<u>Special Revenue Fund</u> – The Special Revenue fund is used to account for revenue resources that are restricted or committed to specified purposes other than debt service and capital projects, such as federal, state, and local grants. The print shop, instructional resource center, planetarium, solar facilities, and transportation revenue resources are also included in the special revenue fund.

<u>Capital Projects Fund</u> – The Capital Projects (School Construction) Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities. The Board administers the construction and repair of public schools and uses the School Construction Fund to record the revenues from the County and other governmental units and the expenditures in connection therewith.

<u>School Activities Fund</u> – The School Activities Fund is used to account for revenues and expenditures from student activities including field trips, student clubs, class funds, athletics, fundraising, and other student activities.

PROPRIETARY FUNDS

Proprietary funds focus on the determination of changes in net position, financial position and cash flows and are classified as enterprise.

<u>Enterprise funds</u> – Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The Board's major enterprise funds are:

<u>Food service fund</u> – This fund accounts for the financial transactions related to the food service operations of the Board.

FIDUCIARY FUNDS

<u>Private Purpose Trust Fund</u> – These funds are held by the Board for scholarships and other student awards.

Note 1. Summary of Significant Accounting Policies (Continued)

C. Fund Accounting (continued)

<u>Pension Trust Fund</u> – The Board is the fiduciary for the assets held in a retirement plan for certain employees of the Board of Education and the assets held in the 401(a) Retirement Plan.

<u>Retiree Health Plan (OPEB) Trust Fund</u> – The Board is the fiduciary for the assets held in an other-post-employment benefit plan for health insurance for certain employees of the Board of Education.

D. Measurement Focus

Government-wide financial statements – The government-wide financial statements are prepared using the economic resources measurement focus. All assets and liabilities associated with the operation of the Board are included on the statement of net position.

Fund financial statements – All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for government funds.

Like the government-wide statements, all proprietary funds and fiduciary funds, except agency funds which have no measurement focus, are accounted for on a flow of economic resources measurement focus. All assets and liabilities associated with the operation of these funds are included on the statement of net position. The statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total position. The statement of cash flows provides information about how the Board finances and meets the cash flow needs of its proprietary activities.

E. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of unearned revenue, and in the presentation of expenses versus expenditures.

Revenues-Exchange and Non-exchange Transactions – Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For this purpose, the Board considers revenues to be available if they are collected within sixty days of the end of the current fiscal year.

Nonexchange transactions, in which the Board receives value without directly giving equal value in return, include primarily grants. Revenue from grants is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the Board must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the Board on a reimbursable basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Note 1. Summary of Significant Accounting Policies (Continued)

E. Basis of Accounting (continued)

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year end: interest, tuition, grants, fees and rentals.

<u>Unearned revenue</u> – Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Grants received before the eligibility requirements are met are also recorded as unearned revenue.

On governmental fund financial statements, receivables that will not be collected within the available period have also been reported as unearned revenue.

<u>Expenses/Expenditures</u> – On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported in the operating statement as an expense with a like amount reported as donated commodities revenue. Unused donated commodities are reported as due to other governmental agencies.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

F. Budgetary Data

The budget is prepared on the budgetary basis of accounting. The budget establishes a limit on the amounts that the Board may appropriate and sets annual limits as to the amount of expenditures at a level of control selected by the Board. The legal level of control has been established by the Board at the category level within each fund.

The budget may be amended during the year if projected increases or decreases in revenue are identified. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts when the original budget was adopted. The amounts reported in the final budgeted amounts reflect amendments approved by the County government during the year between categories and those approved by the Board within categories.

G. Inventory and Prepaid Items

The governmental activities of the government-wide financial statements and the fund financial statements of governmental funds record inventories of supplies at cost. The business-type activities of the government-wide financial statements and the fund financial statements of proprietary funds record food inventories at the lower of cost or market on a first-in, first-out basis and are expensed when used or sold. Food received from the USDA is included at values stated by the USDA but is offset by an unearned credit until consumed.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements under the consumption method.

H. Capital Assets

General capital assets are those assets not specifically related to activities reported in proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net position and in the proprietary fund statement of net position.

Note 1. Summary of Significant Accounting Policies (Continued)

H. Capital Assets (continued)

All capital assets are capitalized at cost (or estimated historical costs) and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition value as of the date received. The Board maintains a capitalization threshold of five thousand dollars. The Board does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add value to the asset or materially extend an asset's life are not.

All reported capital assets except land, land improvements and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Description Estimated Lives

Buildings and Improvements Furniture and Equipment Vehicles 20 – 50 years 5 – 15 years

8 years

I. Compensated Absences

Compensated absences are reported as accrued in the government wide financial statements. Governmental funds report only matured compensated absences payable to currently terminating employees. Annual leave for eligible employees is accrued on a monthly basis and range from 10 to 25 days depending on the employee's years of service. Additionally, as an incentive for employees not to abuse sick leave, upon retirement, employees of the Board receive payment for unused sick leave at varying rates for the number of unused days exceeding 150 or 200 days based on the employees position and tenure.

J. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government—wide statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year.

K. Net Position

In the government-wide financial statements, net position represents the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Board or through external restrictions imposed by grantors, creditors or laws or regulations of other governments.

The Board applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net positions are available.

Note 1. Summary of Significant Accounting Policies (Continued)

L. Fund Balance

Fund balances are reported separately within classifications based on a hierarchy of the constraints placed on the use of those resources. The classifications are based on the relative strength of the constraints that control how the specific amounts can be spent. The classifications are nonspendable (i.e. inventory or long term receivables), restricted (by external parties or legislation), committed (by resolution of the Board of Education), assigned (by management approval for specific purposes) and unassigned. Nonspendable fund balance cannot be spent because of its form. Restricted fund balance has limitations imposed by creditors, grantors, or contributors or by enabling legislation or constitutional provisions. Committed fund balance is a limitation imposed by the Board (the highest level of authority). Such limitations could only be imposed with formal action of the Board of Education in the form of a vote at a regular or special Board meeting that either establishes, modifies or rescinds the limitation imposed. Assigned fund balance is a limitation imposed by a designee of the Board in accordance with Board of Education policy. Constraints imposed on the use of assigned amounts do not rise to the level required to be classified as restricted or committed. Unassigned fund balance in the General Fund is the net resources in excess of what can be properly classified in one of the above four categories. A deficit unassigned fund balance may be reported in other governmental funds, if expenditures incurred for specific purposes exceeded the amounts restricted, committed, or assigned to those purposes. Proprietary fund equity is classified the same as in the government-wide statements. The Board's procedure for fund balance spending is for committed fund balances to be reduced first, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

The Board's policy for assigned and unassigned fund balance is driven by legislation at the state and local government level. Fund balance assigned to subsequent year's expenditures is governed by current state law that dictates that the unassigned fund balance from the previous year must be added to other estimated receipts to create the source of current expense revenues for the following budget year. For example, fiscal year 2021 unassigned fund balance becomes assigned fund balance for fiscal year 2023.

M. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the Board, these revenues are sales for food service. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the fund. All revenues and expenses not meeting this criteria are reported as nonoperating.

N. Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

O. Cash and Cash Equivalents

The Board's cash and cash equivalents consist of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Cash in the General Fund and Food Service Fund is pooled into one account in order to maximize investment opportunities. Investments are stated at fair value.

P. Interfund Receivables and Payables and Transfers

Activities between funds that are representative of lending or borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds." Transfers represent resources moved between funds (refer to Note 3).

Note 1. Summary of Significant Accounting Policies (Continued)

Q. Encumbrance Accounting

Encumbrances for goods or purchased services are documented by purchase orders or contracts. Encumbrances are reported as assigned fund balance in the governmental fund financial statements. As of June 30, 2021, significant encumbrances were assigned for purchases of textbooks and instructional supplies, classroom technology, and school improvement (capital outlay and maintenance). These encumbrances were provided for in the current year's budget for the budgetary basis of accounting but will be accounted for under generally accepted accounting principles in the subsequent year. As of June 30, 2021, encumbrances outstanding totaled \$7,764,114, compared to \$6,025,420 in the prior year, and included the following functions:

Function	Amount
Administration	\$ 163,525
School management and support	4,297
Textbooks and instructional supplies	361,939
Other instructional costs	68,362
Special education	41,800
Student personnel services	60,184
Health services	23,778
Student transportation	872,716
Operation of plant and equipment	1,999,017
Maintenance of plant	987,392
Fixed charges	-
Community services	75,141
Capital outlay	 3,105,963
Total encumbrances	\$ 7,764,114

Note 2. Cash and Investments

Deposits and Investments Other Than Pension Funds:

The Board is authorized to invest monies for which it has custody or control. The type of investments are in accordance with Section 6-222 of the Maryland State Finance and Procurement Article.

The Board's investment policy for its non-pension funds authorizes its comptroller to invest money in any of the following types of investments:

- a. U.S. Treasury Obligations
- b. Local Government Investment Pool
- c. Repurchase Agreements
- d. Collateralized Certificates of Deposit

The policy requires that the investments be on a short-term (less than one year) basis to reduce interest rate risk and establishes maximum portfolio percentages for investments as follows to reduce concentration risk:

	Maximum Percent
Diversification by Instrument	of Portfolio
U.S. Treasury Obligations	100%
Local Government Investment Pool	100%
Repurchase Agreements	30%
(Master Repurchase Agreements Required)	
Collateralized Certficates of Deposit	10%
(Only Maryland Commercial Banks)	

Note 2. Cash and Investments (Continued)

The policy requires collateralization for certificates of deposit and repurchase agreements. Such collateral must be at least 102% of fair value of principal and accrued interest. The Annotated Code of Maryland (Article 95, Section 22) requires that deposits with financial institutions by local boards of education be fully collateralized. The Board's policy requires collateral to be held by a custodian in accordance with Section 6-209(c) of the State Finance and Procurement Article of the Annotated Code of Maryland and acceptable collateral as specified under Section 6-202 of the same document.

These collateralization requirements are established to reduce custodial risk which is the risk that in the event of a bank failure, the Board's deposits may not be returned to it.

At June 30, 2021, the Board's non-pension funds were invested as follows:

	Carrying	Bank
	 Value	Balance
Cash	\$ 320,310	\$ 1,340,176
Investments - cash equivalents	44,136,459	44,136,459

At June 30, 2021, the Board had bank deposits totaling \$1,340,176 with a carrying value of \$320,310. The Board is party to a security and custodial agreement with its bank wherein deposits exceeding the amounts insured by the Federal Deposit Insurance Corporation (FDIC) are collateralized by pledged securities held in the Board's name at The Bank of New York Mellon. As of June 30, 2021, the bank deposits were fully insured or collateralized. The bank balances were exposed to custodial credit risk as follows:

Insured	\$ 250,000
Uninsured and collateral held by pledging	
bank's trust department in the Board's name	1,090,176
Uninsured and collateral held by pledging bank's	
trust department not in the Board's name	
	\$ 1,340,176

The Board invests in the Maryland Local Government Investment Pool (MLGIP) which was created with the passage of Article 94 22G of the Annotated Code of Maryland. The MLGIP is managed by PNC Safe Deposit and Trust Company which is under administrative control of the State Treasurer. A MLGIP Advisory Committee of current participants has been formed to review the activities of the Fund on a quarterly basis and provide suggestions to enhance the pool. The MLGIP is rated AAAm by Standard and Poor's.

The fair value of the pool is the same as the value of the pool shares. Investments are recorded at cost, which approximates fair value. Investments in MLGIP totaled \$44,136,459 at June 30, 2021 with \$5,872,949 committed for health insurance rate stabilization.

Note 2. Cash and Investments (Continued)

Pension and Other Trust Fund Investments:

The Investment policy of the Board's Pension and Retiree Health Plan Trusts requires that the funds be managed as a balanced account with approximately a 65% equity, 35% fixed income mix. Cash or cash equivalents are to be less than 3% on a long-term basis. The policy also has certain restrictions on types and amounts of investments that may be included in the portfolio, e.g. foreign securities, real estate, industry groups, loans, controlling interests. Cash deposits of pension and other trust funds in excess of amounts insured by the FDIC are subject to custodial credit risk.

The Board's pension plan investments are held by Bank of New York Mellon (BNY Mellon), Aetna Insurance Company and Janus in the Board's name. The Board's Retiree Health Plan Trust investments are held at BNY Mellon in the Board's name. The Trustees review, on an annual basis, the financial status, objectives and guidelines, and current, short term and long term capital market expectations to manage interest rate risk and credit risk.

Pension and other trust funds are invested as follows:

						Re	etiree Health		
		<u>Pensio</u>	n Tr	<u>ust</u>	401(a) Plan Trust				
	E	BNY Mellon		AETNA	Janus	BNY Mellon			Total

Average duration 5.77 years	

Except as previously stated as contained within the investment policy, the Board does not have a formal policy for concentration or interest rate risk.

INVESTMENTS AT FAIR VALUE:

Government Accounting Standards Board Statement (GASB) No. 72, Fair Value Measurements and Application, clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value, and requires additional disclosures about the use of fair value measurements. GASB 72 established a three-level valuation hierarchy for disclosure of fair value measurements. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. The three levels are defined as follows:

- Level 1 observable market inputs that are unadjusted quoted prices for identical assets or liabilities in active markets that a government can access at the measurement date.
- Level 2 inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly (for example, quoted prices in active markets for similar assets or liabilities)
- Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Debt and equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Debt securities classified in Level 2 of the fair value hierarchy are valued using a combination of prevailing market prices and interest payments that are discounted at prevailing interest rates for similar instruments. Commercial and residential mortgage-backed securities classified in Level 3 are valued using discounted cash flow techniques.

Note 2. Cash and Investments (Continued)

As of June 30, 2021, the Board had the following recurring fair value measurements:

	 Level 1	Level 2	Level 3	Total
Debt Securities:				
Government bonds	\$ 493,322	\$ -	\$ -	\$ 493,322
Mortgage loans	-	-	645,123	645,123
Corporate bonds	-	1,300,408	-	1,300,408
	493,322	1,300,408	645,123	2,438,853
Equity Securities:

Depreciation expense was charged to governmental functions as follows:

Administration	\$ 67,774
Instructional services	12,385,657
Special Education	72,603
Student Personnel Services	1,806
Health Services	12,757
Student transportation	437,250
Operation of plant and equipment	597,957
Maintenance of plant	90,227
Community Services	 3,638
Total governmental depreciation expense	 13,669,669
Depreciation expense was charged to business-type functions as follows:	
Food service	 64,189
Total business-type depreciation expense	 64,189

Note 6. Health Insurance Reserves

Total depreciation expense

The Board entered into a public entities health care consortium with the City of Salisbury (COS) and Wicomico County Council through a memorandum of understanding during fiscal year 2002. The purpose of this consortium is to reduce administrative expenses. Each entity has its premium rates adjusted based on its experience and benefits. Beginning in July 2002, each entity agreed to fund a rate stabilization reserve equal to 10% of average annual premiums. The agreement was originally effective through the period ended August 31, 2004 and is currently extended on an annual basis. Effective September 2011, each entity agreed to increase the rate stabilization reserve to 14% of average annual premiums. Effective September 2018, each entity agreed to decrease the rate stabilization reserve to 12% of average annual premiums. In May 2019, the entities agreed to revert back to the original rate stabilization reserve equal to 10% of average annual premiums, effective beginning September 1, 2019. The Board determines how to use the amount of reserve which exceeds 10% of average annual premiums. Each year, the health care provider will produce an annual settlement for all entities. If there is an experience loss, funding will come from the entities based on their individual experience.

\$ 13,733,858

The consortium's contract with its health insurance carrier requires that actual incurred claims and expenses be compared to actual premiums paid to determine whether a deposit premium or deficit has been incurred each year. The health insurance carrier will only require payment against a deficit of up to 5% of the actual monthly premiums paid in the current fiscal year. The health insurance contract is based on a fiscal year of September 1st through August 31st. Settlement among the group will occur within four months after August 31st each year. For the period ended August 31, 2020, the Board's share of the consortium's settlement was a surplus of \$2,353,654. These amounts were included as other financing sources (uses) during the year ended June 30, 2021. As of June 30, 2021, the rate stabilization reserve was calculated to be \$3,728,833 compared to an ending balance in the health care consortium account of \$5,872,949, a surplus of \$2,144,116.

Note 6. Health Insurance Reserves (Continued)

For the year ended June 30, 2021, the health insurance reserve had the following activity:

Balance at July 1, 2020	\$ 3,256,001
Insurance settlement - 2020	2,353,654
Interest earned	4,218
Consulting and wellness program expenditures	(121,343)
Transfer from General Fund	 380,419
Balance at June 30, 2021	\$ 5,872,949

Note 7. Post-Retirement Health Care Benefits

Plan Description

During the year ended June 30, 2007, the Board of Education set up the Retiree Health Plan of the Board of Education of Wicomico County ("the plan"). The Board joined with Wicomico County to form the 'Retiree Health Insurance Plan Trust of the Board of Education of Wicomico County and Wicomico County' ("the trust"). Effective June 29, 2009, the City of Salisbury was approved to join the trust. The trust was established to pool assets of its members for investment purposes only. Each member of the trust is required to designate a member trustee.

The Plan is administered as a single-employer defined benefit plan with combined administrative functions for efficiency. Each employer remains responsible for financing benefits of its own individual plan. Each employer also remains individually responsible for its own separate actuarial valuations, and expenses and obligations are measured like those of sole employers. The assets of the three entities are segregated within the trust. Separate financial statements for the trust are not issued.

Assets of each member are reported in their respective financial statements using the economic resources measurement focus and the accrual basis of accounting, under which expenses are recorded when the liability is incurred. Employer contributions are recorded in the accounting period in which they are earned and become measurable. Investments are reported at fair value and are based on published prices and quotations from major investment brokers at current exchange rates, if available.

The plan provides medical, prescription, dental, and vision benefits to eligible retirees and their spouses. Beginning in 2017, the Board funds 70% of the individual health care insurance costs for retirees who were hired prior to July 1, 2016 based on the rules of their respective pension; and who had accumulated at least 10 years of service with the Board prior to their retirement. For employees hired on or after July 1, 2016, the Board funds 50% of the individual health care insurance costs for Unit 1, 3, and 4 retirees with 15-19 years of service; 60% of the individual health care insurance costs for Unit 1, 3, and 4 retirees with 20-24 years of service; and 70% of the individual health care insurance costs for Unit 1, 3, and 4 retirees with 25 or more years of service. The Board contributes 70% of the individual health care insurance costs for Unit 2 and Executive retirees with at least 10 years of service.

The Board previously funded 70% of the individual health care insurance costs for eligible retirees who were qualified to retire on or after July 17, 2007 and who had accumulated at least 10 years of service, and 55% of the individual health care insurance costs for eligible retirees who had accumulated at least 15 years of service with the Board prior to retirement (before July 17, 2007). As of June 30, 2020, approximately 937 retirees were receiving benefits and 2,057 active employees are participating in the plan. There were no terminated plan participants entitled to but not yet receiving benefits.

Note 7. Post-Retirement Health Care Benefits (Continued)

Funding Policy

The required contribution is based on projected pay-as-you-go financing requirements with an additional amount to pre-fund benefits as determined annually. For the current fiscal year, the Board contributed \$5.38 million to the plan, including approximately \$4.14 million for current claim costs (approximately 70% of total premiums). Plan members receiving benefits contributed approximately 30% of total premiums, through their required contributions of \$236/256 per month for retirees-only coverage (if under 65), \$152 per month for retirees-only coverage (if 65 or older) and \$1,263/\$1,372 for retiree and spouse coverage. These monthly premium costs are for EPO coverage/PPO coverage with Dental and Vision for those retirees who had more than 10 years of service with the Board.

Annual OPEB Cost and Net OPEB Liability

The Board's total OPEB liability is an amount actuarially determined. The following table shows the components of the Board's total OPEB liability, fiduciary net position, and the resulting net OPEB liability as of June 30, 2021:

Total OPEB liability		
Service cost	\$	6,460,689
Interest cost		4,451,390
Changes in benefit terms		-
Differences between expected and actual experience		(16,565,169)

Covered employee payroll	\$	132,038,660
Net OPEB liability as of % of payroll		105.86%

Payments for the net OPEB obligation have typically been liquidated in the General Fund in prior years. For the fiscal year ended June 30, 2021, the Board recognized an OPEB expense of \$13,946,776.

Note 7. Post-Retirement Health Care Benefits (Continued)

Funding Status and Funding Progress

As of the most recent actuarial valuation date, the plan was 18.50% funded. The total OPEB liability for benefits was \$171,508,789 and the actuarial value of assets was \$31,733,764 resulting in a net OPEB liability of \$139,775,025. The covered payroll (annual payroll of active employees covered by the plan) was \$132,038,660 and the ratio of the net OPEB liability to the covered payroll was 105.86%.

The Board's funding progress is summarized as follows:

							Net 0	OPEB Liability
	Total						as a	Percentage
Measurement	OPEB		Fiduciary	Net OPEB	Funded	Covered	c	of Covered
Date	Liability	1	Net Position	Liability	Ratio	Payroll		Payroll
	(a)		(b)	(a-b)	(b/a)	(c)		(a-b)/c
June 30, 2017	\$ 113,392,739	\$	19,398,234	\$ 93,994,505	17.11%	\$ 111,445,147		84.34%

June 30, 2020	168,153,562		23,237,123	144,916,439	13.82%	127,445,923		113.71%
June 30, 2021	171,508,789		31,733,764	139,775,025	18.50%	132,038,660		105.86%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the type of benefits provided at the time of each valuation and the historical pattern of sharing the benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long term perspective of the calculations.

In the most recent actuarial valuation study, the projected unit credit actuarial cost method was used. The actuarial assumptions included a 2.61% investment rate of return (net of administrative expenses), which is a blended rate of the expected long-term investment returns on plan assets of 6.50% and municipal bond rates of 2.61% at the beginning of the year and 6.50% and 2.16% at the end of the year, respectively. The GO Bond Buyer Index was used to approximate the yields on the 20-year municipal bonds rated AA or higher. The healthcare cost trend rate assumes subsequent premiums increasing 4.5% annually. Implicit in the investment return, salary scale and trend rate assumption is an underlying general rate of inflation assumption of 2.5%.

Note 7. Post-Retirement Health Care Benefits (Continued)

Additional information as of the latest actuarial valuation follows:

Measurement Date	June 30, 2021
Actuarial Valuation Date	June 30, 2021
Actuarial	Entry Age Normal
Amortization Method	Level Percentage of Payroll, Open
Remaining Amortization Period	30 years
Asset Valuation Method	Market Value of Assets
Inflation	2.50%
Salary Increases	Age banded values ranging from 2.5% to 5.5%
Investment Rate of Return	2.61% for obligation; based on a blended rate of
	the long-term rate of return of 6.50% and municipal
	bond rates of 2.16% at the end of the year.
Medical Trend	Per capita claims costs are projected to increase
	by 7.50% in 2022 decreasing linearly by 0.25% to
	an ultimate trend rate of 4.5%.
Mortality	Pub-10 General Headcount-Weighted with scale MP
	2020 generational improvement and a 3 year set
	forward.
Premium Equivalence	Current pre-Medicare cost equivalent rates
	are adjusted by age adjusting rates based
	on the Society of Actuaries' 2013 study
	"Health Care Costs from Birth to Death."

	Age at the		Probability of					
Retirement Age	beginning of year	Rate	Electing Coverage					
	55	20%	50%					
	56 - 61	10%	50%					
	62	40%	50%					
	63 - 64	20%	50%					
	65	100%	50%					

Changes in assumptions in the latest actuarial valuation include a reduction of the blended discount rate from 2.68% to 2.61%, updated mortality improvement scale to MP-2020, and the trend rate was reset to 7.0% in 2022 decreasing linearly by decrements of 0.25% to an ultimate rate of 4.50% after 10 years.

Sensitivity of the Total and Net OPEB Liability

The following table presents the Board's total and net OPEB liability using the discount rate of 2.61%, as well as what the net OPEB liability would be if it were calculated using a discount rate that is 1% point lower or 1% point higher than the current rate:

	Discount Rate	Board's Net OPEB Liability				
1% decrease	1.61%	\$	169,316,194			
Current discount rate	2.61%	\$	139,775,025			
1% increase	3.61%	\$	116,133,130			

Note 7. Post-Retirement Health Care Benefits (Continued)

The following table presents the Board's total and net OPEB liability using the healthcare trend rate of 4.50%, as well as what the net OPEB liability would be if it were calculated using a discount rate that is 1% point lower or 1% point higher than the current rate:

	Health Care	Boa	ard's Net OPEB
	Trend Rate		Liability
1% decrease	3.50%	\$	113,861,565
Current trend rate	4.50%	\$	139,775,025
1% increase	5.50%	\$	173,168,468

Deferred Inflows/Outflows of Resources related to OPEB

At June 30, 2021, the Board reported deferred outflows of resources and deferred inflows of resources related to the OPEB plan from the following sources:

	 erred Outflows of Resources	D	eferred Inflows of Resources
Changes in assumptions	\$ 39,464,189	\$	(968,864)
Net difference between projected and actual investment			
earnings on OPEB plan investments	-		(2,968,885)
Difference between actual and expected experience	-		(15,419,742)
Board contributions subsequent to measurement date	 -		
Total	\$ 39,464,189	\$	(19,357,491)

The deferred outflows/inflows of resources related to the net difference between projected and actual investment earnings on OPEB plan investments are being amortized over the service life of 5 years. The deferred outflows/inflows of resources related to the changes in assumptions and the difference between actual and expected experience are being amortized over the service life of 7 years. The following table shows the remaining amortization of these balances:

Year End	
June 30,	
2022	\$ 4,584,849
2023	4,521,198
2024	4,352,765
2025	4,277,725
2026	2,858,096
Thereafter	 (487,935)
	\$ 20,106,698

Note 8. Risk Management

The Board is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Board has joined the Maryland Association of Boards of Education Workers' Compensation Group Insurance Fund (the "Fund"), a public entity risk pool currently providing workers compensation coverage for participating boards of education in the State of Maryland. The Board pays an annual premium to the Fund each year which is calculated based on projected payroll. The agreement for the Fund provides that it will be self-sustaining through member premiums and will reinsure through commercial companies for claims which exceed coverage limits as specified in the agreement. Should the Fund encounter deficits in the workers compensation claims fund, this deficit may be made up from additional assessments of boards participating in the fund. The Board also joined the Maryland Association of Board of Education's Group Insurance Pool (the Pool) on July 1, 2000. The Pool is a public entity risk pool providing property and casualty insurance coverage for its participating members, who are also boards of education in the State of Maryland. The Board pays an annual premium to the Pool, based on student enrollment, vehicle inventory, insurable value of board property and insurance claims experience from previous years. The agreement for the Pool provides that it will be self-sustaining through member premiums and will reinsure through commercial companies for claims that exceed coverage limits for legal liability, property, and crime exposures specified in the agreement. Should the Pool encounter deficits in either the property or casualty fund, this deficit may be made up from additional assessments of boards participating in the Pool. The Board continues to carry commercial insurance for other risks, including pollution liability, retirement plan fiduciary liability, employee health and life insurance. Settled claims have not exceeded insurance coverage for each of the past three fiscal years, and there have been no significant reductions in insurance coverage from the prior year.

In 2015, senior management created a Risk Management Committee, with the initial purpose to review reported employee injuries and varies insurance claims involving Board property, with a goal to identify underlying risks and primary cause of injuries or loss. As all entities face uncertainty and risk, the future mission of the committee will be to institute a formal program of Enterprise Risk Management (ERM). ERM is a continuous process to identify potential events that may affect the school system, determine what level of risk can be assumed and provide reasonable assurance that objectives can be achieved.

Note 9. Pension Plans

Substantially all of the Board's employees are covered by one of three pension plans.

Teachers' Retirement System and the Teachers' Pension System

Plan Description

The State Retirement Agency is the administrator of the Maryland State Retirement and Pension System (the System). The System was established by the State Personnel and Pensions Article of the Annotated Code of Maryland to provide retirement allowances and other benefits. The System is comprised of the Teachers' Retirement and Pension Systems, State Police Retirement System, Judges' Retirement System, and the Law Enforcement Officers' Pension System. Responsibility for the System's administration and operation is vested in a 15 member Board of Trustees. The State Retirement Agency issues a publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to the State Retirement and Pension System of Maryland, 120 E. Baltimore Street, Suite 1660, Baltimore, Maryland 21202-1600 or on-line at www.sra.maryland.gov.

The System's financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. For purposes of measuring net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the System and additions to/deductions from the System's fiduciary net position have been determined on the same basis as they are reported by the System. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

Note 9. Pension Plans (Continued)

The Teachers' Retirement System of the State of Maryland was established on August 1, 1927 and is administered in accordance with Article 73B of the Annotated Code of Maryland for the purpose of providing retirement allowances and other benefits to teachers in the State. In addition, on January 1, 1980, the Teachers' Pension System of the State of Maryland was established. In this regard, teachers hired on or after January 1, 1980 become members of the Teachers' Pension System, unless they elect to join an optional retirement program. Existing members of the Teachers' Retirement System have the option of remaining in the Teachers' Retirement System or transferring to the Teachers' Pension System.

General Plan Policies

Teachers and related occupations are covered by the Teachers' Retirement System or the Teachers' Pension System of the State of Maryland, both of which are cost-sharing, multiple-employer public employee retirement systems. The State of Maryland pays the unfunded liability for the Teachers' Systems. Total contributions paid by the State to the Plan for the year ended June 30, 2021 were \$11,954,737. On-behalf payments are recognized as revenues and expenditures in the Board's general fund. The Board has no contingent liability for funding deficits in the system should such occur.

In addition to the above contribution, during fiscal year 2021, in accordance with Maryland Senate Bill 1301, Budget Reconciliation and Financing Act of 2012, the Board is required to pay the State 100% of the normal cost portion of the total pension cost for teachers. The normal cost is the portion of the total retirement benefit cost that is allocated to the current year of the employee's service. As contractually required, during fiscal year 2021, the Board contributed \$4,691,684 to the Teachers' Retirement and Pension System.

Significant Plan Benefits and Policies

The following is a general description of the significant plan benefits and related contribution requirements for the Teachers' Retirement System and the Teachers' Pension System:

<u>Teachers' Retirement System</u>

Retirement Benefits:

A member may retire with full benefits after attaining the age of 60, or after completing 30 years of creditable service regardless of age. The annual retirement allowance is equal to 1/55 of a member's average final compensation (i.e. average of the member's three highest years of annual earnable compensation) multiplied by the number of years and months of accumulated creditable service. A member may retire with reduced benefits after completing 25 years of creditable service regardless of age. Retirement allowances are adjusted each year based on the Consumer Price Index. Cost-of-living adjustments (COLAs) are applied to all allowances payable for the year, however, the method by which the COLA is computed depends upon elections made by members and is tied to member contributions.

Vested Allowance:

A member terminating employment before attaining retirement age but after completing 10 years of creditable service becomes eligible for a vested retirement allowance, provided the member lives to the age of 60 and does not withdraw his or her accumulated contributions. Members terminating employment before attaining retirement age and before completing 10 years of creditable service are refunded their accumulated contributions plus earned interest.

Employee and Employer Contributions:

Members of the Teachers Retirement System are required to contribute to the systems a fixed percentage of their regular salaries and wages (e.g. 7% or 5%, depending on the allowance option selected). The contributions are deducted from each member's salary and wage payment and are remitted to the systems on a regular, periodic basis.

Note 9. Pension Plans (Continued)

The State of Maryland contributed \$11,954,737 on behalf of the Board while the Board contributed \$4,691,684 during fiscal year 2021 as a direct result of Maryland Senate Bill 1301. On-behalf payments are recognized as revenues and expenditures in the Board's general fund.

Teachers' Pension System

Retirement Benefits:

A member may retire with full benefits after completing 30 years of eligibility service regardless of age, or at age 62 or older with specified years of eligibility service. On retirement from service, a member shall receive an annual service pension allowance. The annual pension allowance is equal to 1.2% of average compensation for the three highest consecutive years as an employee for years of creditable service accrued prior to July 1, 1998 and 1.8% of average compensation for the three highest consecutive years as an employee for years of creditable service accrued on or after July 1, 1998. Members are eligible for early service pension allowances upon attaining age 55 with at least 15 years of eligibility service.

Vested Allowance:

A member terminating employment before attaining retirement age, but after completing 10 years of eligibility service, becomes eligible for a vested pension allowance provided the member lives to age 62. Members terminating employment before attaining retirement age and before completing 10 years of eligibility service are refunded their accumulated contributions plus earned interest.

Employee and Employer Contributions:

Effective July 1, 2011, members of the Teachers' Pension System are required to contribute to the systems 7% of their regular salaries and wages up to the social security wage base in the year ending June 30, 2021. The contributions are deducted from each member's salary and wage payments and are remitted to the systems on a regular, periodic basis.

For members enrolled on and after July 1, 2011, the employee contribution is 7%; vesting requires ten years of eligible service; service retirement is at age 65 with ten years of eligibility service or based on the Rule of 90 (age and service must equal 90); early service retirement is age 60 with 15 years of eligibility service; average final compensation is a five year average; and the benefit multiplier per year is 1.5%.

The State of Maryland contributed \$11,954,737 on behalf of the Board while the Board contributed \$4,691,684 during fiscal year 2021 as a direct result of Maryland Senate Bill 1301. On-behalf payments are recognized as revenues and expenditures in the Board's general fund.

Employer's Payroll Covered Under the Plan

The employer's payroll for the year ended June 30, 2021 and payroll covered under the Teachers' Retirement and Pension Systems is as follows:

Total payroll \$ 132,425,939 Payroll covered under the plan \$ 118,570,617

Pension Liabilities and Pension Expense

Because the State of Maryland pays the unfunded liability for the Teachers' Retirement and Pension Systems and the Board pays the normal cost for the Teachers' Systems, the Board is not required to record its' share of the unfunded pension liability for the Teachers' Systems, the State of Maryland is required to record that liability. Total pension expense related to the Teachers' Systems totaled \$4,691,684 for the year ended June 30, 2021, the Board's required portion of the normal cost.

Note 9. Pension Plans (Continued)

The amount recognized by the Board as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the Board were as follows:

	2021
Board's proportionate share of the net pension liability (Employees' Systems) State's proportionate share of the net pension liability (Teachers' Systems)	\$ 130,526,735
Total	\$ 130,526,735

The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Board's proportion of the net pension liability was calculated as follows by the System(s):

- Net pension liability for the entire System was calculated. For purposes of funding the System, all
 calculations are determined on an actuarial basis and are completed through the development of
 rates based on two separate asset pools, one for employees of the State of Maryland and one for
 primary government employees.
- 2. Determined the total contributions to the System by the State and by the primary governments, inclusive of any underfunding of contributions.
- 3. Based on the number of participants at each Board of Education, calculate the difference between what each Board would have contributed if they funded at the rate of all other participating governments and what the Board actually contributed. The difference between what the Board contributed and what they would have contributed if they funded at the rate of the other participating governments, is then added to the total contribution to the System, to calculate the System's adjusted contribution.
- 4. Calculated for each participating government, their percentage of the adjusted System contribution by dividing the total adjusted System contribution into each primary government contribution. Since the Board has no contingent liability for funding deficits in the Teachers' Retirement and Pension Systems, the Board did not record a proportionate share of the net pension liability as of June 30, 2021 related to the System.

Note 9. Pension Plans (Continued)

Actuarial Assumptions

The total pension liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial	Entry Age Normal
Amortization Method	Level Percentage of Payroll, Closed
Remaining Amortization Period	18 years for State system
Asset Valuation Method	5-year smoothed market; 20% collar
Inflation	2.60% general, 3.10% wage
Salary Increases	3.10% to 11.60% including inflation
Investment Rate of Return	7.40%
Retirement Age	Experience-based table of rates that are
	specific to the type of eligibility condition.
	Last updated for the 2018 valuation pursuant
	to an experience study of the period 2014-
	2018.
Mortality	Public Sector 2010 Mortality Tables with
	generational mortality projections using scale
	MP-2018 mortality improvement scale.

Adjustments to the roll-forward liabilities were made to reflect the following assumption changes in the 2020 valuation:

• Inflation assumption changed from 2.65% to 2.60% for general and 3.15% to 3.10% for wage

Investments

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return were adopted by the Board of Trustees after considering input from the System's investment consultant(s) and actuary(s). For each major asset class that is included in the System's target asset allocation, these best estimates are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return				
Public Equity	37%	5.2%				
Private Equity	13%	6.5%				
Rate Sensitive	19%	-0.3%				
Credit Opportunity	9%	2.8%				
Real Assets	14%	4.3%				
Absolute Return	8%	1.8%				
Total	100%					

Note 9. Pension Plans (Continued)

Discount rate

A single discount rate of 7.40% was used to measure the total pension liability. The single discount rate was based on the expected rate of return on pension plan investments of 7.40%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Additional information, including sensitivity measures and ten year historical trends, can be obtained from the separately issued State Retirement and Pension System of Maryland Annual Financial Report. That report may be obtained by writing to the State Retirement and Pension System of Maryland, 120 E. Baltimore Street, Suite 1660, Baltimore, Maryland 21202-1600 or on-line at www.sra.maryland.gov.

Retirement Plan for Employees of the Board of Education of Wicomico County

General Plan Policies

Employees not covered by the Teachers' Retirement System or the Teachers' Pension System of Maryland are covered by the Retirement Plan for Employees at the Board of Education of Wicomico County, a single-employer, defined benefit plan. Benefits and refunds of the postemployment defined benefit plan are recognized when due and payable in accordance with the terms of the plan. The costs of administering the plan are financed by contributions made and income earned from investments. Separate financial statements are not available.

The Plan's financial statements, as reported in the Schedule of Fiduciary Net Position, are prepared on an accrual basis, modified to include unrealized gains or losses on marketable securities owned by the Plan.

Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and the Board of Educations has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable.

Investments in securities are valued at current market prices. The trust fund is invested, approximately, in 69% equities, 1% cash and cash equivalents, and 30% fixed income securities on a cost basis valued at year end.

The annual contribution to the plan will be determined by the Wicomico County Board of Education as part of its annual budget. The contribution must be deposited monthly and the funding goal will be the greater of the following:

- 1) The level contribution required to fund all current and future benefits promised to current plan participants over the next 20 years, or
- 2) 7.00% of the salaries of eligible Plan participants

A Board of Trustees (Trustees) was established to oversee the implementation of and adherence to the Investment Policy and to oversee the Investment Manager. The Trustees will oversee the general investment philosophy; provide oversight of the Investment Manager; and inform the Employer, or designees of the Employer, of the plan performance on a quarterly basis. Compliance with the Trust Agreement will be required.

Note 9. Pension Plans (Continued)

Significant Plan Benefits and Policies

The specific benefit provisions of the Board of Education's plan were established by the adoption of the plan document. The plan provides for benefits upon retirement, death, disablement and termination of employment, if certain eligibility conditions are met.

The following is a summary of significant plan benefits and policies:

- 1) Eligibility Employees are eligible if they are at least 18 years of age.
- 2) Contributions Each year an employee is required to contribute 2% of his earnings up to \$4,800 plus 4% of his/her earnings in excess of \$4,800. Interest is credited at 5% per year. The Board contributes the remaining actuarially determined amounts necessary.

3) Retirement:

- a. Normal retirement is available for employees who are age 65 and over and have obtained 5 years of service.
- b. Early retirement is available for employees with five years or more experience and who are age 55 or older and are within 10 years of normal retirement date.

4) Benefits at Retirement:

- a. For normal retirement, the member will receive a benefit equal to 1 2/3% of final average earnings times the years and months of service after age 18.
- b. Early retirement benefits are determined in the same manner as the normal retirement benefits but based on service and salary accrued or earned up to date of early retirement and reduced by the appropriate early retirement factors.
- 5) Vesting A participant is 100% vested after five years of continuous service with the employer.

Employee's Payroll Covered Under the Plan

The employee's payroll for the year ended June 30, 2021 and payroll covered, as of the latest actuarial valuation, under the Plan is as follows:

Total payroll \$ 132,425,939 Payroll covered under the plan 12,628,172

Plan membership at June 30, 2020, consisted of 311 active plan members, 183 retirees and beneficiaries receiving benefits, and 13 terminated plan participants entitled to but not yet receiving benefits.

Note 9. Pension Plans (Continued)

Pension Liability and Pension Expense

Payments for the net pension liability have typically been liquidated in the General Fund in prior years. For the fiscal year ended June 30, 2021, the Board recognized pension expense of \$1,918,830 related to the Retirement Plan for Employees at the Board of Education of Wicomico County. The Board's aggregate pension expense for the Teachers' Retirement System and the Teacher's Pension System and the Retirement Plan for Employees of the Board of Education of Wicomico County totaled \$6,610,514 for the fiscal year ended June 30, 2021.

Deferred Inflows/Outflows of Resources

At June 30, 2021, the Board reported deferred outflows of resources and deferred inflows of resources related to the retirement plan for employees from the following sources:

	 rred Outflows f Resources	Deferred Inflows of Resources
Changes in assumptions	\$ 1,384,627	\$ (199,636)
Net difference between projected and actual investment earnings on pension plan investments	-	(2,864,551)
Difference between actual and expected experience	2,114,103	
Total	\$ 3,498,730	\$ (3,064,187)

Note 9. Pension Plans (Continued)

Deferred Inflows/Outflows of Resources (continued)

The deferred inflows and outflows related to non-investment activity are being amortized over the remaining service life of 6 and 7 years. The net difference in investment earnings for is being amortized over a closed five year period. The following table shows the amortization of these balances:

Year End	
June 30,	
2022	\$ 611,670
2023	528,957
2024	(96,828)
2025	(821,998)
2026	 212,742
	\$ 434,543

Funding Status and Funding Progress

As of the most recent actuarial valuation date, the plan was 76.76% funded. The total pension liability for benefits was \$39,661,040 and the plan fiduciary net position was \$30,442,083 resulting in a net pension liability of \$9,218,957. The covered payroll (annual payroll of active employees covered by the plan) was \$12,628,172 and the ratio of the net pension liability to the covered payroll was 73.00%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of the employer's net pension liability, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the total pension liability for benefits.

Additional information as of the latest actuarial valuation follows:

Measurement Date	June 30, 2021
Actuarial Valuation Date	June 30, 2021
Actuarial	Entry Age Normal
Amortization Method	Level Dollar, open basis
Remaining Amortization Period	30 years
Asset Valuation Method	Market Value of Assets
Inflation	2.50%
Salary Increases	Age banded values ranging from 2.5% to
	5.5%
Investment Rate of Return	6.50%
Retirement Age	Graded from ages 55-64; 100% at age 65
Mortality	Pub-2010 General Table as released by the
	Society of Actuaries in 2019 set forward 3
	years with scale MP2020 improvement.

Changes in assumptions used in the latest actuarial valuation include an update to the MP2020 mortality improvement scale.

Note 9. Pension Plans (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

			Building Blocks
		Long-term	Range of Expected
Asset Class	Target Allocations	Historical Returns	Returns
Fixed Income	30.00% - 40.00%	3.00% - 4.00%	0.90% - 1.60%
Equities	50.00% - 60.00%	8.00% - 10.00%	4.00% - 6.00%
Other	0.00% - 10.00%	0.00% - 1.00%	0.00% - 0.10%
			4.90% - 7.70%
		Rate selected:	6.50%

Based on the current Investment Policy and Funding Policy, the Plan is projected not to deplete; therefore, the same rate of 6.50% is used for both the discount rate and the long-term rate of expected investment returns. The projection of cash flow to determine the discount rate assumed the contributions from plan members will be made at the current contribution rate and that contributions from the Board will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The following represents the net pension liability of the Board calculated using the discount rate of 6.50%, as well as what the Board's net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower or one-percentage-point higher than the current rate:

	1% Decrease	Current Rate	1% Increase	
	5.50%	6.50%	7.50%	
Net Pension Liability	13,451,827	9,218,957	5,622,653	

The annual money-weighted rate of return on pension plan investments, net of pension plan investment expenses, was 25.76%. The money-weighted rate of return expresses investment performance, net of expense, adjusted for the change in amounts actually invested.

401(a) Retirement Plan

Effective July 1, 2001, the Board implemented and began administering the Board of Education of Wicomico County 401(a) retirement plan which is a defined contribution plan. The employer's contribution is determined annually by the Board and is based on eligible participant's contributions to the Board's 403(b) retirement plan. The Board has the right to amend the plan at any time according to the Plan document. Eligible employees must be 18 years of age and become fully vested after five years of service. During the year ended June 30, 2021, the Board did not make a matching contribution to the plan.

Note 10. Trust Plans Condensed Financial Statements

The condensed statement of fiduciary net position for the Pension and Retiree Health Plan Trust is as follows:

Note 11. Capital Leases

The Board of Education has entered into several lease agreements as lessee for financing the acquisition of computers, software, and vehicles. These lease agreements qualify as a capital lease for accounting purposes and, therefore, have been recorded at the present value of the future minimum lease payments as of the date of their inception.

The following is an analysis of equipment currently being leased under capital leases as of June 30, 2021:

	Capital					
GOVERNMENTAL ACTIVITIES	 As sets					
Vehicles:						
2019	\$ 119,782					
Computers:						
2019	1,533,842					
2020	1,809,324					
Total	\$ 3,462,948					

Approximate future minimum lease commitments are as follows:

GOVERNMENTAL ACTIVITIES

	 Computers		
Fiscal Year Ending	2020	2019	Total
June 30, 2022	\$ 467,000	\$ 431,250	\$ 898,250
June 30, 2023	467,000	-	467,000
	934,000	431,250	1,365,250
Less: interest	(29,547)	(11,965)	(41,512)
Present value of future			
minimum lease payments	\$ 904,453	\$ 419,285	\$1,323,738

Interest expense related to the above capital leases, with interest rates ranging from 1.61% to 3.17%, was approximately \$60,000 for the year ended June 30, 2021.

Note 12. Long-Term Liabilities

Long-term liability activity for the year ended June 30, 2021 was as follows:

	Beginning			Ending	Due Within	Long Term
	Balance	e Additions Reductions		Balance	One Year	Portion
GOVERNMENTAL ACTIVITIES						
Accrued compensated absences	\$ 3,217,281	\$ 1,070,953	\$ 377,066	\$ 3,911,168	\$ 393,958	\$ 3,517,210
Capital leases	2,592,902	-	1,269,164	1,323,738	866,657	457,081
Net pension liability	13,132,003	-	3,913,046	9,218,957	-	9,218,957
Net OPEB liability	144,916,439	-	5,141,414	139,775,025	-	139,775,025
Total	\$ 163,858,625	\$ 1,070,953	\$ 10,700,690	\$ 154,228,888	\$1,260,615	\$ 152,968,273

The Board does not have the authority to incur bonded debt. Payments for compensated absences and net pension liability have typically been liquidated in the General Fund in prior years. Payments for capital leases are liquidated from the General Fund for governmental activities and the Food Service Fund for business-type activities.

Note 13. Unearned Revenue - Special Revenue

Unearned revenue in the special revenue fund consists of federal and state grants and other revenues that have not been expended by June 30, 2021. Unearned revenue at June 30, 2021 consists of the following:

Medical assistance provider payments	\$ 3,802,304
Various other state and federal programs	654,980
	\$ 4,457,284

Note 14. Commitments and Contingencies

The Board regularly enters into contracts for goods and services during the normal course of operations. The contracts often extend over fiscal years. The Board has signed contracts for the replacement of Beaver Run Elementary in the amount of \$44,448,981. At June 30, 2021, \$28,339,738 had been expended related to these contracts, respectively.

The Board receives a substantial amount of its support from Federal, State and local agencies in the form of grants. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the Board has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable at June 30, 2021 may be impaired. In the opinion of the Board, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying financial statements for such contingencies.

The Board is a defendant in various lawsuits. After considering all relevant facts and the opinion of legal counsel, it is management's opinion that such litigation will not have a material adverse effect on the financial position of the Board.

On March 11, 2020, the World Health Organization declared COVID-19 a pandemic. The COVID-19 pandemic and resulting global disruptions have had significant impacts on the traditional education model of Boards of Education across the Country. In addition, there has been significant economic uncertainty and volatility in financial markets. The impact on future funding and on defined benefit plan (pension and other post-employment benefit) actuarial assumptions used to estimate the net pension and other post-employment liabilities of the Board are not reasonably estimated at this time.

Note 15. GASB Statement No. 84, Fiduciary Activities

During fiscal year 2021, the Board adopted the provisions of GASB Statement No. 84, *Fiduciary Activities*, which establishes criteria for identifying and reporting fiduciary activities. The implementation of this statement resulted in a change to the presentation of the School Activity Fund within the financial statements. Previously reported as an Agency fund, the School Activities Fund under GASB Statement No. 84 is reported as a governmental fund, and therefore also reported in governmental activities on the statement of net position. The cumulative effect of the change as an adjustment to fund balance in the governmental funds on the fund financial statements is as follows:

	Go	overnmental Funds
Fund balance, as previously reported, July 1, 2020	\$	21,163,745
Restatement under GASB No. 84		712,663
Fund balance, as restated, July 1, 2020	\$	21,876,408

The cumulative effect of the change as an adjustment to beginning net position on the government-wide financial statements is as follows:

	Governmental Activities			Business-Type Activities	Total
Net position, as previously reported, July 1, 2020	\$	219,052,213	\$	3,305,826	\$ 222,358,039
Restatement under GASB No. 84		712,663		-	712,663
Net position, as restated, July 1, 2020	\$	219,764,876	\$	3,305,826	\$ 223,070,702

Note 1. Budgetary Comparison Schedule

Summary of Significant Accounting Policies

The original budget, subsequent supplements and major transfers are approved by the Wicomico County Council. Appropriations are for one year and lapse at year end. A legally adopted budget is prepared for the General Fund and Special Revenue Fund. Amendments to the budget can be made with approval from Wicomico County and the Board for inter-category transfers, and by approval of the Board for intra-category transfers. By law, the General Fund actual expenditures for each category and for each account within categories may not exceed budgeted expenditures. The budgeted amounts presented include all budget revisions. A budget is adopted for the Capital Projects Fund and the Food Service Fund for internal purposes only.

The Board of Education prepares its budget and accounts for certain transactions on a basis other than generally accepted accounting principles (GAAP). Thus, there are two statements of revenues and expenditures for the general fund in these statements; the first is prepared in accordance with GAAP and the second is prepared on the budgetary basis in order to compare revenues and expenditures with budget. One of the differences between the two statements is that increases (decreases) in asset account balances for prepaid expenditures and inventories are accounted for as expenditure reductions or sources (increases or uses) on the GAAP basis financial statements, but not on the budgetary financial statements. In addition, the appropriation from prior year fund balance is accounted for as additional sources for budgetary purposes. Encumbrances are recorded as expenditures for budgetary purposes but as assigned fund balance in the GAAP basis financial statements. Finally, the State's share of the pension and retirement fund contribution is recorded as revenue and expenditures on the GAAP basis financial statements, but is not included on the budgetary financial statements.

Adjustments necessary to convert the results of operations and fund balances at the end of the year on the GAAP basis to the budgetary basis are as follows:

			Other
			Financing
	Revenues	Expenditures	Sources (Uses)
	General Fund	General Fund	General Fund
	June 30, 2021	June 30, 2021	June 30, 2021

Note 1. Budgetary Comparison Schedule (Continued)

Budget Calendar

The following calendar reflects the general sequence of events for the preparation and adoption of the operating budget of The Board of Education of Wicomico County:

Approximate Date	Procedure Performed
Early September	Board determines budget priorities and Superintendent and staff meet to review these priorities.
Late September	Budget Manager distributes request packets to all employees having budget responsibility.
October	Board members and staff make presentations of budget projections to various community groups in an effort to maintain their involvement and request their ideas and input for budget development process.
Early November	Employees with budget responsibility must turn in all budget worksheets noting new funding, reductions and/or funding realignments to Budget Manager to commence budget compilation and also to their Director for review.
Mid-November	Superintendent and Budget Team begin meetings to review/modify all budget submissions.
Late December	Comptroller reviews with Superintendent preliminary ongoing "Cost of Doing Business" submissions.
Early January	Board holds a Public Hearing to receive public input for the unrestricted operating budget.
Mid January	Superintendent instructs Budget Manager regarding budget requests to compile for submission to the Board & determines with Assistant Superintendents their priority order.
January - February	Budget work sessions with Board, Superintendent and staff.
Early March	Board adopts the Proposed Budget at their regular scheduled meeting and submits the Proposed Budget to the Wicomico County Council.
April	Wicomico County Council has a public hearing to review their budget.
Late May	Board holds a second Public Hearing to receive additional public input for the unrestricted operating budget.
Late May	Wicomico County Council adopts their Expense Budget & notifies the Board of Education of our appropriation.
Early June	Superintendent and staff begin work to revise the proposed budget (if required) based on the actual appropriation from the Wicomico County Council.
Mid-June	Superintendent and staff submit their budget recommendations to the Board of Education for their review.
Late June	Board of Education adopts the Approved Budget at a special meeting.

Special Revenue Fund

The expenditures under restricted programs may exceed budgeted amounts. The grants included in this category are not part of budget categories subject to the spending limitations of the operating budget. Expenditures under these programs are limited to the amounts of the respective grants.

Note 2. Post-Employment Health Care Benefits

Changes in Benefit Terms:

There were no significant changes to benefit terms during the year.

Changes in Assumptions:

- The blended discount rate changed from 2.68% to 2.61%
- Mortality improvement scale was updated from MP-2019 to MP-2020
- The trend rate was reset to 7.0% in FY2022 decreasing linearly by decrements of 0.25% to an ultimate rate of 4.50% after 10 years.

Method and Assumptions used in Calculations of Actuarially Determined Contributions:

Measurement Date June 30, 2021
Actuarial Valuation Date June 30, 2021
Actuarial Entry Age Normal

Amortization Method Level Percentage of Payroll, Open

Remaining Amortization Period 30 years

Asset Valuation Method Market Value of Assets

Inflation 2.50%

Salary Increases Age banded values ranging from 2.5% to 5.5% Investment Rate of Return 2.61% for obligation; based on a blended rate of the long-term rate of return of 6.50% and municipal

bond rates of 2.16% at the end of the year.

Medical Trend Per capita claims costs are projected to increase

by 7.50% in 2022 decreasing linearly by 0.25% to

an ultimate trend rate of 4.5%.

Mortality Pub-10 General Headcount-Weighted with scale MP

2020 generational improvement and a 3 year set

forward.

Premium Equivalence Current pre-Medicare cost equivalent rates

are adjusted by age adjusting rates based on the Society of Actuaries' 2013 study "Health Care Costs from Birth to Death."

Note 3. Pension Plans

Teachers Retirement System and the Teachers Pension System

Changes in Benefit Terms:

There were no significant benefit changes during the year.

Changes in Assumptions:

Adjustments to the roll-forward liabilities were made to reflect the following assumption changes in the 2020 valuation:

• Inflation assumption changed from 2.65% to 2.60% for general and 3.15% to 3.10% for wage

Method and Assumptions used in Calculations of Actuarially Determined Contributions:

Actuarial Entry Age Normal

Amortization Method Level Percentage of Payroll, Closed

Remaining Amortization Period 18 years for State system

Asset Valuation Method 5-year smoothed market; 20% collar

Inflation 2.60% general, 3.10% wage

Salary Increases 3.10% to 11.60% including inflation

Investment Rate of Return 7.40%

Retirement Age Experience-based table of rates that are

specific to the type of eligibility condition. Last updated for the 2018 valuation pursuant to an experience study of the period 2014-

2018.

Mortality Public Sector 2010 Mortality Tables with

generational mortality projections using scale

MP-2018 mortality improvement scale.

Note 3. Pension Plans (Continued)

Retirement Plan for Employees of the Board of Education of Wicomico County

Changes in Benefit Terms:

There were no significant benefit changes during the year.

Changes in Assumptions:

• Update to the most recent mortality tables

Method and Assumptions used in Calculations of Actuarially Determined Contributions:

Measurement Date June 30, 2021
Actuarial Valuation Date June 30, 2021
Actuarial Entry Age Normal

Amortization Method Level Dollar, open basis

Remaining Amortization Period 30 years

Asset Valuation Method Market Value of Assets

Inflation 2.50%

Salary Increases Age banded values ranging from 2.5% to

5.5%

Investment Rate of Return 6.50%

Retirement Age Graded from ages 55-64; 100% at age 65

Mortality Pub-2010 General Table as released by the Society of Actuaries in 2019 set forward 3

years with scale MP2020 improvement.
