SUMMARY

SECTION 1: EXECUTIVE SUMMARY

Commitment to Equal Employment Opportunity

Recognizing and honoring *all* State employees, providing a fair opportunity to work in an environment free of discrimination and harassment, treating people with dignity and respect - this is what the State of Maryland is fully committed to providing its employees. The State Personnel and Pensions Article of the Annotated Code of Maryland, Title 5, Subtitle 2 establishes the Equal Employment Opportunity program for State government, which ensures that employment decisions are based only on merit and fitness and without regard to age, ancestry, color, creed, gender identity and expression, genetic information, marital status, mental or physical disability, national origin, race, religious affiliation, belief or opinion, sex, or sexual orientation and any other non-merit factor. Governor O'Malley has reemphasized the State's responsibility to fair employment practices in Executive Order 01.01.2007.16 Code of Fair Employment Practices which is provided on pages 74-80.

We, as a State government, are in the business of promoting equality, enforcing laws that protect us all from being treated differently, and ensuring that our workforce reflects the communities we serve. Because we work hard to make our commitment to equal employment opportunity a reality, we pride ourselves in setting a good example for other State governments to follow. Having a vision and a solid plan to move our State forward will lead to the results we expect to achieve, a stronger more efficient and effective State government workforce.

This report on EEO reflects the achievements and ongoing progress of our State government. The Office of the Statewide EEO Coordinator (OSEEOC) has prepared this report covering the period July 1, 2012 through June 30, 2013. This report contains selected measures outlining the progress toward equal opportunity in Maryland government and assesses the State's Equal Employment Opportunity (EEO) Program.

2013 EEO Highlights

During calendar 2013, the Office of the Statewide EEO Coordinator engaged State agencies and the State's EEO professionals in a number of EEO program activities designed to move the State toward the vision set forth in Governor O'Malley's executive order and assist agencies in becoming model employers. The office continues to focus on compliance, training, outreach, and diversity awareness.

In order to ensure compliance with State and federal EEO laws, policies and practices, the OSEEOC has continued to conduct ongoing compliance audits to review and monitor the EEO programs in each State agency. The office conducted 3 agency compliance audits in 2013 and provided each agency with an exit report detailing positive changes, as well as potential improvements to their EEO programs.

Through enhanced training and outreach activities, the office strove to enhance the skills and knowledge of the State's EEO professionals. Specific activities included:

- Refresher training on EEO laws, diversity, and investigative techniques for State EEO and Fair Practices Officers.

- Ongoing guidance and training to Americans with Disabilities Act coordinators in partnership with the Department of Disabilities.
- Improvement of the DBM/EEO website to include EEO best practices, laws, forms, and resources.
- Continuation of the EEO Connection – a quarterly EEO newsletter that includes EEO law updates, noteworthy court rulings, a diversity corner and community awareness information.
- EEO Symposium – The event was attended by 72 EEO professionals from various State agencies. The symposium served to reinforce the knowledge of the EEO professionals through Cultural Competence Leadership. This symposium also provided the opportunity to renew awareness of cultural competence and the impact it has in communication, leadership, problem solving, and behavior in our workplaces.
- Collaborating with Department of Disabilities and State employee recruitment staff to identify strategies for making job opportunities more accessible to the State’s disabled population.
- Training and instruction on the latest assistive technology and website accessibility technology available to individuals with disabilities.

During 2014, the office intends to continue training for EEO professionals across the State, conducting compliance audits of agency EEO efforts to ensure consistency with State and federal reporting requirements, producing and distributing educational material to ensure that all employees fully understand their rights and protections, and investigating agency appeal and whistleblower complaints.

Data Analysis

Detailed EEO statistical and demographic workforce data for fiscal 2013 and trends since fiscal 2008 are presented in Sections 3-10. Notable findings and trends are discussed briefly below.

Workforce Diversity

Maryland State government employs individuals from a wide range of racial and ethnic groups. Minorities make up half of the State’s workforce (Exhibit 1) and represent a larger share of the State government’s workforce compared to Maryland’s Civilian Labor Force (CLF), (Exhibit 2). Minorities represent a slightly larger share of State government’s workforce than in 2008 while the percentage of females decreased from 57% in fiscal 2008, to 55% in fiscal 2013 (Exhibit 3).

During fiscal 2013, new hires continued to add to the diversity of the workforce with women accounting for 56% of new hires, minorities accounting for more than half and African-Americans accounting for 47% (Exhibits 4 and 5). In each of the last five years, women and minorities each have represented more than half of all new hires.

Favorable trends in minority hiring are reflected in the demographics of the State workforce by age. Approximately 46% of State workers under the age of 50 are African-American. That

percentage declines among older workers, with African-Americans making up 41% of workers between 50-59, and 34% of workers age 60-69 (Exhibit 6).

Advancement Opportunities

In fiscal 2013, women and minorities generally received promotions or upward reclassifications at rates consistent with their share of the workforce. Women – who represent 55% of the workforce - accounted for 53% of all promotions and 59% of reclassifications. African-Americans – who represent 43% of the workforce – accounted for 48% of the promotions and 36% of the reclassifications (Exhibit 7).

Disciplinary Personnel Transactions

African-Americans were over-represented with respect to suspensions (64%), terminations (52%), and disciplinary demotions (61%) in fiscal 2013 (Exhibit 8).

Disparities Remain

Although women and minorities are well represented in State government, significant disparities remain between the genders and races with respect to employment responsibilities and pay. Whites, for example, hold 71% of positions classified as Officials and Administrators and 53% of positions classified as Professionals. African-Americans in contrast hold 72% of the Service/Maintenance positions. With respect to special appointments, 64% are White and 27% are African-American.

Women are also under-represented in certain job categories. They are less likely than men to serve as Protective Service Workers (10% of sworn officers and 39% of non-sworn officers), but are far more likely than men to serve in Administrative Support positions (89%).

The disparities in job categories contribute to differences in the salaries paid to men and women and whites and minorities. Male employees were paid an average of \$5,502 more than female employees in fiscal 2013, while Whites were paid an average of \$7,989 more than African-Americans and \$1,345 less than other minorities (Exhibit 9). The salary gap between men and women of the same race, however dropped from 2008 to 2013 for Whites and African-Americans. Salaries of white men exceeded those of white women by \$4,563 in 2013, an improvement over the \$6,460 gap in 2008. Similarly, the gap between African-American males and females fell from \$2,858 in 2008 to \$1,389 in 2013.

The greatest impediment to closing the salary gap for African-Americans is their disproportionate share of low paying jobs. African-Americans hold more than half of positions classified as Grade 8 or below. The grade with the largest number of African-American workers is Grade 13 which pays a maximum of \$55,023.

To address the disparity issues, the State has expanded its current relationships with Historically Black Colleges and Universities and professional organizations and its participation in job fairs that may be sources for African-American and other diversity recruitment. Launching of the new recruitment module of the Automated State Personnel System has enhanced the ability of applicants to search for employment opportunities in the State. The State continues to use the internet, facebook and twitter to share job announcements. In addition, partnerships and alliances

have been expanded with minority and disability professional organizations to engage their membership, increase networking opportunities and inform them about employment opportunities in State government. The State has also added a diversity statement to the State job application to affirm its commitment to equal employment opportunity and encourage diverse group members to apply for State positions.

To build on its continuing commitment to becoming a Model Employer of People with Disabilities, State government has taken a leading role in facilitating and advancing opportunities for Marylanders with disabilities to be employed by appointing a Statewide Coordinator for Employment of People with Disabilities, expanding the Quest Internship Program for individuals with disabilities to include placing the names of individuals who complete the program on DBM's Special Options Eligible List to be considered for permanent positions within State government, and collaboration and partnership with other States to identify best practices for employment of people with disabilities.

As part of our proactive efforts, DBM has added two on-line training modules to its EEO webpage, **Harassment in the Workplace** and **EEO for Managers and Supervisors**. These training modules are available for State agencies use. In addition, the State continues to publish policies covering sexual harassment prevention, reasonable accommodations, and non-discrimination in various formats, including print and web-based. The State continues to train managers and supervisors to recognize and avoid unequal treatment of protected group members and to enhance their skills in maintaining equal employment consideration in decisions regarding hiring, promotions, work assignments, employee development, training, evaluations, counseling, and discipline. The State's desire is to maintain a work environment that attracts, engages, and retains a proficient and diverse workforce that can excel and meet the dynamic challenges of State government service.

Other Data

Other data included in the report focus on the State's success in meeting requests for reasonable accommodations for disabled workers, trends in discrimination complaints, and employment at public higher education institutions. Notable findings include:

- 343 reasonable accommodation requests were received from State employees and applicants for State employment in fiscal 2013. 86% of the requests were granted.
- Complaints of discrimination increased from 451 in fiscal 2012, to 470 in fiscal 2013.
- The vast majority of employees at the University System of Maryland (59%) and St. Mary's College of Maryland (77%) were white. Approximately 54% of faculty and research positions in the System were filled by whites. Females comprised 53% of the workforce; while males comprised 47% of the workforce.
- African-Americans composed the majority of workers at Morgan State University (65%) and Baltimore City Community College (69%). Women held 51% of the positions at Morgan State University and 60% of the positions at Baltimore City Community College.

- The salary gap between men and women of the same race dropped from 2008 to 2013 for Whites and African-Americans. Salaries of white men exceeded those of white women by \$4,563 in 2013, an improvement over the \$6,460 gap in 2008. Similarly, the gap between African American males and females fell from \$2,858 in 2008 to \$1,389 in 2013.
