The Maryland Caregivers Support Coordinating Council

2015 Annual Report

2015 Status Report

In 2015, The Maryland Caregivers Support Coordinating Council focused on tasks mandated by state statute, including:

- Solicited and gathered concerns of caregivers and identified unmet needs through a survey that included participation from each of the 24 local jurisdictions. (See Addendums)
- Promoted awareness of caregiver support services through collective outreach efforts that focused on caregivers across the lifespan.
- Researched available funding sources to expand statewide respite care capacity, including a coordinated effort across State agencies and partners.
- Reviewed caregiver support systems for effectiveness and accessibility, toward creating barrier free systems, including participation in the State Task Force examining supports for caregivers,
- Reported to the Maryland General Assembly, including a briefing in the Senate Education, Health and Environmental Affairs Committee, presenting what caregivers across the state identified as their unmet needs.

Policy

The Council utilized the combined efforts of two researchers, Amy Fuhrmann, M.S. Counseling Psychology, University of Maryland and Naomi Duffort, MSW Intern University of Maryland School of Social Work, who reviewed existing survey data, and developed a Maryland-specific family caregiver survey, the results of which informed Council policy recommendations. Analysis of the survey data, statistical comparisons of various demographic groups (e.g., gender, age, income, and ethnicity {See Addendums}), and comparison to data from national caregiver surveys formed the Council's legislative advisement to the Maryland General Assembly:

- Briefing in the Senate Education, Health and Environmental Affairs Committee on results of the Maryland Family Caregiver Survey -- Secretary Malhotra (DHR), Elizabeth Weglein, Council Chair, and Naomi Duffort, Survey Coordinator, presented preliminary survey findings demonstrating the economic value of caregiving to the State and discussed the need to support Maryland family caregivers via programs such as respite care.
- SB 297 (Caregiver Task Force, Senate Finance)—Council member Cynthia Peterman shared her personal experiences as a family caregiver in her testimony in support of the establishment of a Task Force at the bill hearing in the Senate. The Maryland Caregivers Support Coordinating Council was designated in the bill as a formal member of the Task Force.
- SB 572 & HB 1006 (the Care Act) Part of a national agenda, the Council supported this Bill requiring the designation of the patients' caregivers in hospital records and a coordinated discharge protocol. Elizabeth Weglein, Council Chair, testified in support at the Hearing.

 SB 400 & HB 572 (Formal Recognition of the Longest Day of June 21 for Alzheimer's Awareness) - In collaboration with Council partners, Alzheimer's Association of Maryland and the Virginia I. Jones Council on Alzheimer's and Related Disorders, MCSCC supported the proposed legislation.

Council Accomplishments in 2015

- Built a partner list of more than 160 organizations and businesses seeking to address the needs of family caregivers.
- Convened a statewide respite partner, forum including the Maryland Departments of Health and Mental Hygiene, Human Resources, Aging, Disabilities, as well as the Harry and Jeanette Weinberg Foundation, AARP Maryland, Johns Hopkins Hospital, TimeBanks USA, and ARCH National Respite Network. The purpose of the forum was to identify unmet needs of caregivers, explore potential avenues for respite capacity expansion such as Village/TimeBanks communities, a Federal Lifespan Respite Care Grant application, and coordination of support for legislation that will impact family caregivers.

2016 Goals

- Continue collection, analysis, and dissemination of up-to-date data on the characteristics and unmet needs of Maryland's family caregivers;
- Coordination and enhancement of media and social media presence, including a new Council website that will be developed though a public/private partnership and Facebook page.
- Establishing a Council Speakers Bureau to inform family caregivers of available supports and services.
- Through a coordinated effort between State agencies and organizational partners, applying for a Federal Lifespan Respite Care Grant to expand respite capacity.
- Raising awareness of caregiver needs through continued membership on the Task Force on Family Caregiving and Long-Term Supports.

Council Outreach Conducted During 2015

Date	Event	Location	Audience	# in Attendance
February	Alzheimer's Council	House of Delegates	Council Members & Guests	20
