## **PROGRAM ACTIVITY**

The More Jobs for Marylanders statute requires Commerce report on the Qualified Business Entities that received Final Certification in the preceding fiscal year. During Fiscal Year 2021, Commerce issued 18 Final Certificates for 16 projects, representing 299 new jobs with an annual aggregate wage of \$23,321,764. Commerce anticipates that additional businesses that have received an Initial Income Tax Credit Certification will submit their Final Application at the end of the calendar year when all positions will be in place for 12 months in order to claim the credits on their 2021 tax return.

During FY 2021, Commerce received 56 NOIs from businesses that are either locating or expanding in Maryland. Commerce enrolled 17 projects during FY 2021. Sixteen projects

represent manufacturers and one project represents a non-manufacturer expanding in an Opportunity Zone. Of the 17 approved projects, 5 are located in Tier 1 Counties and 12 in Tier 2 Counties. All but 2 are existing businesses. Enrolled projects are distributed across the State of Maryland in 11 counties.

Once a project is enrolled in the program, the business is certified as a Qualified Business Entity and may apply for the credits. The next step in the process is to apply for an Initial Income Tax Credit for the business’s first benefit year. Commerce issued Initial Income Tax Credit certificates to 18 businesses during FY 2021. Commerce reserved \$7,178,324 of credits in FY 2021, including \$748,976 for businesses in their first benefit year, \$6,364,728 for the second benefit year, and \$64,620 for the third benefit year.
