Re: Report Required by the Housing and Community Development Article § 6-308.4(a) (MSAR # 10149)

Dear Senators and Delegates:

This report is intended to satisfy the requirements of the Department of Housing and Community Development to detail certain food desert activity under the Neighborhood BusinessWorks program (NBW) for the 2025 reporting year, pursuant to Chapter 228 of the 2014 Laws of Maryland. The food desert designation was created in 2014 to allow NBW to finance food projects in Priority Funding Areas, to help ensure easy access to healthy foods, including fresh fruits and vegetables. To receive a food desert designation under this program, a local government must submit an application for inclusion. To date, there have been no such applications from any political subdivision of the state of Maryland. As there are no designated food deserts, there are no designated food desert projects to report upon. The Department will continue to make financing available through NBW to businesses located within Priority Funding Areas that provide fresh food retail in underserved communities. If you have any questions, please do not hesitate to contact me or Assistant Secretary of Business Development, Brad Fallon.

Sincerely,

A handwritten signature in blue ink, appearing to read "J. Day".

Jake Day
Secretary
