Donna Adcock, RN, Health Facilities Surveyor

Leslie Schulman, Assistant Attorney General, Commission Counsel

**MARYLAND COMMISSION ON KIDNEY DISEASE
REPORT TO THE GOVERNOR**

January 1, 2016 - December 2016

“The Commission shall adopt physical and medical standards for the operation of dialysis and renal transplant centers...”

“The Commission shall adopt reasonable medical standards for acceptance of patients into the treatment phase of the Program...”

“The Commission shall annually evaluate the entire Kidney Disease Program. An annual report of such evaluation shall be made to the Governor...”

“The Commission shall survey periodically dialysis and transplant facilities...”

“The Commission shall evaluate patient complaints, including cases of verbally and Physically abusive patients...”

“The Commission shall collect an annual certification fee from the facilities in order to meet its mandated responsibilities...”

James Stankovic (end of service 7/2016)

STAFF

During the calendar year 2016, Eva H. Schwartz, M.S., M.T. (ASCP) SBB held the position of Executive Director of the Commission. Leslie Schulman served as the Assistant Attorney General assigned as Counsel to the Commission, and Donna Adcock, R.N. served as the Commission Surveyor of the dialysis and transplant centers. The website manager was Oladunni Akinpelu.

COMMISSION MEETINGS

The Commission met in April, July and October, 2016. The January 2016 meeting was cancelled due to a snowstorm.

PHYSICAL AND MEDICAL STANDARDS COMMITTEE

The Physical and Medical Standards Committee reviews on-site inspections, and approves facilities requesting certification by the Commission on Kidney Disease for reimbursement purposes by the Kidney Disease Program of Maryland (KDP). The Committee is responsible for research, recommendation and presentation of physical and medical issues affecting the renal community and investigation of patient complaints in an expeditious manner. The recommendations for complaint resolution cases are then voted on by the full Commission and appropriate corrective action is implemented and enforced. **If necessary, a facility will be resurveyed because of non-compliance with its own submitted Plan of Correction (POC).**

During the 2016 calendar year, the following new facilities were approved for certification by the Commission for KDP reimbursement purposes:

<u>Facility</u>	<u>Address</u>	<u>Medical Director</u>
NxStage Baltimore West	809 Pinnacle Dr., Ste. A Linthicum, MD 21090	Dr. Kulwant Modi
NxStage Baltimore North	1940 Greenspring Dr., Ste H Timonium, MD 21093	Dr. Monica Dhillon
Davita Brandywine	7651 Matapeake Business Drive Brandywine, MD 20613	Dr. Atul Katyal
Davita Glenarden	9701 Philadelphia Ct., Ste. A Lanham, MD 20706	Dr. Parvez Khatri
FMC Cross Keys	2 Hamil Road, Ste. 200 Quadrangle Bldg, East Baltimore, MD 21210	Dr. Tarek Salkini
FMC Towson	7801 York Road, Ste. 150 Towson, MD 21204	Dr. Aiman Shammass
FMC Nashua Court	3 Nashua Court, Ste. H-K Baltimore, MD 21221	Dr. Paul Segal

FMC Fleet Street	3700 Fleet Street Baltimore, MD 21224	Dr. Duvuru Geetha
MC Caroline Street	407 N. Caroline Street Baltimore, MD 21231	Dr. Derek Fine
FMC Broadway Street	1900 N. Broadway Street Baltimore, MD 21213	Dr. Mohamed Atta
FMC Merritt Boulevard	1736 Merritt Boulevard Baltimore, MD 21222	Dr. S. Thavarajah
FMC Greenspring Drive	1940 Greenspring Drive Timonium, MD 21093	Dr. Luis Gimenez
FMC Brightseat	835 Brightseat Road Hyattsville, MD 20785	Dr. Jeremy Marcus
FMC Franklin Square Home	5233 King Ave., Ste. 116 Rosedale, MD 21237	Dr. Khalid Al-Talib

Additional responsibilities of the Commission are to conduct on-site surveys of the dialysis and transplant facilities throughout the State of Maryland. The Commission surveys the dialysis and transplant facilities to meet the regulatory standards as promulgated by the Commission. An annual certification fee collected by the Commission is an additional requirement of the facilities for certification with the Commission and eligibility for reimbursement from the KDP. Enclosed is the roster of all certified dialysis and transplant centers in Maryland. This informational roster is available upon request from the Commission, and is posted on the **Commission's website:** dhmh.maryland.gov/mdckd.

COMMISSION ACCOMPLISHMENTS

- The Commission reviewed fourteen (14) complaints between patients and facilities. Additionally, the Commission surveyed ninety (90) facilities for compliance with standards of care, and addressed all corrective action plans that emerged from such surveys. Surveys are scheduled based on need related to compliance of the facilities and transplant centers with submitted corrective plans and in response to patient complaints.
- The Commission reserves the right to schedule surveys to administer and manage the program as statutorily mandated and according to budgetary allowances and available funds.

• **The Commission maintains an active and up to date website (dhmh.maryland.gov/mdckd) for the latest information in the renal field as well as references the Commission's activities and community education accomplishments.**

- In calendar year 2016 the Commission surveyed ninety (90) dialysis facilities and transplant centers. Through the Corrective Action Plan process, all Federal and State regulations were enforced by the Commission, thus the Commission has met its mandate. By enforcing compliance with State, Federal and Commission regulations, the quality of care rendered to the ESRD population in the state of Maryland was enhanced and its citizenry protected.

- The Commission continues to work with the Office of Healthcare Quality (OHCQ) to foster communication between the two offices. Presently, a wonderful cooperation between the Commission and OHCQ enables both entities timely responses to complaints, and therefore patients' welfare and safety is addressed through immediate intervention.
- Commission representatives participated in the Mid-Atlantic Renal Coalition quarterly teleconferences. The teleconferences provide a forum for Network staff to foster communication with the Commission and OHCQ and to discuss any facility issues.
- The Commission provides invaluable resources to the Renal Community and the State. The Commissioners offer a wealth of information and experience regarding the care of End Stage Renal Disease patients.
- The Commission completed and mailed a newsletter to the renal community. The newsletter is a tool to inform the community about the Commission's activities, and to provide educational information. Each published Newsletter is available on the Commission's website.
- The Commission meetings are forums to inform and educate the renal community. Facilities are encouraged to participate in the meetings and present best practice scenarios. All Open Session minutes are posted on the Commission's website and available for review by the renal community, all dialysis facilities and their staff.
- The Commission addressed ongoing issues surrounding dialysis facilities' discharge practices and continuity of care issues. The Commission is working collaboratively with the Mid-Atlantic Renal Coalition to review facility discharge requests.
- The Commission in collaboration with the Maryland Board of Nursing (MBON) continues to enforce the licensure requirement that only Certified Nursing Assistants with a DT (dialysis technician) specification are permitted to provide care for dialysis patients.
- The Commission collaborated with the Maryland Board of Nursing (MBON) staff to ensure that the MBON's proposed amendments to the CNA-DT certification regulations are aligned with current ESRD facility practice.
- The Commission continues to provide the Kidney Disease Program (KDP) with expert medical advice including ongoing review of the new ICD-10 codes.
- The Commission reviews out of state transplant center requests for KDP reimbursement as well as evaluates requests for inclusion of new medications in the KDP pharmaceutical formulary.
- The Commission continues to work with local hospitals to locate difficult to place patients in community dialysis facilities.
- The Commission meets with the medical and management leadership of facilities that are cited with concerning deficiencies. The meetings serve as an educational tool and encourages enforcement of compliance with the Commission's COMAR.

PATIENT GRIEVANCES

During the year 2016, the Commission resolved to the satisfaction of the patients and the dialysis facilities fourteen (14) complaints. The Commission and staff have availed themselves to the renal community to expeditiously resolve problems arising between patients and facilities. Additionally, the Commission has mandated improvement in the quality of care provided at the facilities cited for deficiencies and violations during the End Stage Renal Disease (ESRD) Survey. These goals were accomplished to the satisfaction of the Commission, thus protecting the safety and welfare of this vulnerable patient population.

COMMUNITY EDUCATION

The Commission has fulfilled its community education responsibilities by surveying and educating facilities according to the promulgated regulations by the Commission on Kidney Disease, COMAR 10.30.01. The Commission, public member volunteers, and patient advocates have addressed numerous groups in the renal community regarding sources for reimbursement for renal care, prevention of renal disease, transplantation criteria, and methods for reimbursement for life saving medications.

STATUS OF THE KIDNEY DISEASE PROGRAM

The purpose of the Kidney Disease Program (KDP) is to provide financial assistance to certified beneficiaries or the treatment of ESRD (end stage renal disease). This stage of renal impairment is almost always irreversible and requires dialysis or kidney transplantation to maintain life. As a payer of last resort, the Program may provide financial assistance only after all other medical and federal insurance coverage has been pursued. Covered services include chronic maintenance, in-center and home dialysis, renal transplantation, approved inpatient and/or outpatient hospital care, physician and laboratory fees, and medications specified on the KDP Reimbursable Drug List and certain ancillary services which are directly attributable to the beneficiaries' ESRD.

PROGRAM STATISTICS

In Fiscal Year, 2016, the Kidney Disease Program provided coverage to 1762 beneficiaries. KDP net expenditures for FY 2016 totaled \$ 9,452,378. The KDP recovered \$282,085 in premiums and \$915,723 in provider refunds. Drug Rebate Recoveries totaled \$2,677,800 in FY 2016. These recoveries are projected annually and are incorporated into the Program's reimbursement budget.

FISCAL YEAR 2016 ACCOMPLISHMENTS

The Kidney Disease Program (KDP) enhanced the Program's website with information and updates relative to the Program. The address of this website is <http://mmcp.dhmdh.maryland.gov/familyplanning/Pages/kidneydisease.aspx>. This website includes helpful information, such as: KDP Notices of updates/changes, Information Resources, Web Links, Phone Numbers, e-Mail Address for Questions about KDP, Billing Instructions, KDP COMAR Regulations and the KDP Drug Formulary. This website will undergo continuing development in an effort to provide the renal community with the most up to date information available with regard to the Kidney Disease Program. Enhancements and system developments to the KDP electronic claims management system (eCMS) and the Xerox pharmacy point-of-sale system (POS) continue in an effort to provide more efficient and timelier processing of claims. These systems continue to allow KDP to accept and return HIPAA compliant transactions from Medicare trading partners and all participating providers.

ESRD providers of service continue to be granted access to the KDP Portal. Approval of the required User Agreements, necessary to grant access, has improved to a 48 hour or less processing window. The website, to gain access to the KDP portal is www.dhmdhclaims.org. This portal allows providers to verify claims' status and view detailed payment information, which includes, check numbers, check dates and voucher numbers. This information assists providers in maintaining an accurate and up to date accounts receivable system and minimizes duplicate billing. In addition, providers of service may access up to date eligibility information for all ESRD patients certified with the Kidney Disease Program of MD.

The BPO approved the first option period for TPL on June 8, 2016 to include KDP in Medicaid's HMS (Health Management Services) contract to gather third party information in an effort to maximize collection efforts and ensure that KDP is truly a payer of last resort. The current period expires on June 30, 2018. Work has initiated to modify the KDP eligibility file to effectively transmit records in the proper format to HMS.

Santeon upgraded the entire eCMS platform to be compatible with newer Windows version and .Net frameworks. This upgrade has improved the security of the system. Upgrading the entire eCMS platform improved the security, reliability and performance of eCMS thus enhancing the efficiency and productivity of the system.

KDP, along with BCCDT and MADAP, has obtained a sole source contract with Santeon, the current KDP claims processing vendor, to continue the KDP claims functioning processes, financial payments and recoveries, in addition to reporting requirements. This 5 year contract covers the period of FY 2016 to FY 2021.

Customer service in the areas of patient certification, accounts payable and accounts receivable continues to improve. KDP personnel strive to assist KDP recipients, in processing applications as quickly and efficiently as possible, adjudicate claims in a timely manner, provide assistance with program participation fees, and provide education to members of the renal community to assist them in receiving the most accurate information possible.

PROJECTIONS FOR THE KIDNEY DISEASE PROGRAM

The Kidney Disease Program continues to work with our contractor, Santeon, and data processing analysts and programmers to ensure compliance with federally mandated requirements. KDP will continue to work with its colleagues in defining the best possible route to obtaining a new Maryland Medicaid Information System (MMIS III). Future plans are for the KDP electronic claims processing system to be incorporated into the new MMIS III. In addition, the Kidney Disease Program will continue to work with the Commission on Kidney Disease to provide quality service to the end stage renal disease (ESRD) patients in the State of Maryland and the ESRD community.
