The Honorable Bill Ferguson
President of the Senate
State House, H-107
100 State Circle
Annapolis, Maryland 21401-1991
The Honorable Adrienne A. Jones
Speaker of the House
State House, H-101
100 State Circle
Annapolis, Maryland 21401-1991

## RE: MSAR \#10542 - Child Welfare Performance Indicators Report <br> Completed pursuant to Family Law Article §5-1312

Dear President Ferguson and Speaker Jones:
The Department of Human Services (DHS) is required to submit a report to the Maryland General Assembly on Child Welfare Performance Indicators in accordance with the Family Law Article §5-1312. In accordance with this reporting requirement, DHS is pleased to provide you with the enclosed report.

If you should require additional information please contact the Office of Government Affairs at 410-767-8543.

Sincerely,

Lourdes R. Padilla
Secretary

Enclosure

# Child Welfare Performance Indicators Report Maryland Department of Human Services Social Services Administration 

December 2020

## Acknowledgements

This report was prepared by staff at the Department of Human Services, Social Services Administration (DHS/SSA) in partnership with faculty and staff at the University of Maryland, School of Social Work's Ruth H. Young Center for Families \& Children (RYC). Terry V. Shaw and Nicholas Kolupanowich developed the performance indicators found in this report in partnership with Hilary Laskey and David Ayer.

## Legislative Charge

Legislative Charge: Senate Bill 567, 2015 Regular Session

Senate Bill 567 (cross-filed with House Bill 643) was signed into law in 2015. This bill requires the Department of Human Services, Social Services Administration (DHS/SSA) to provide a report to the General Assembly by December $1^{\text {st }}$ of each year. The following eleven questions are required as part of the legislation and each question needs to be broken out by jurisdiction, race, gender, and age:
(1) The number of child abuse and neglect reports, alternative responses, investigative responses, and findings for completed investigations;
(2) The number of children receiving in-home services;
(3) The number of new out-of-home placements by placement type;
(4) The number of exits from the child welfare system by exit type;
(5) The number of exits to reunification and reentries within 12 months after exit;
(6) The number of exits to reunification and reentries within 24 months after exit;
(7) The stability of out-of-home placements, including the number of placement changes;
(8) The stability of school placements;
(9) The number who graduate from high school;
(10) The number who qualify for a Maryland high school diploma by examination; and
(11) The number who receive tuition waivers.

The first seven items listed above are questions that can be measured using data and information available from DHS/SSA. Questions 8 through 11 require data sharing between agencies. Questions 8 and 9 require data from the Maryland State Department of Education (MSDE), question 10 requires data from the Maryland Department of Labor, Licensing and Regulation (DLLR), and question 11 requires data from the Maryland Higher Education Commission (MHEC). As explained in the Addendum to this report, DHS was unable to obtain data for questions 8,9 , and 10 for fiscal year 2020. Data for question 11 are provided in the Addendum.

DHS/SSA introduced a new data system during the past year. The transition began in October 2019 with Washington County and completed in late July 2020 with the eleven remaining counties switching over. The new data system is known as the Child Juvenile and Adult Management System (CJAMS). Data for this report were captured primarily from the CJAMS data system.

This report is the sixth annual report.

## Maryland State Summary

Maryland is a diverse state consisting of 24 jurisdictions. The table below provides a comparison across jurisdictions of the overall population. The population of youth between the ages of 0 to 17 and 0 to 20 are used throughout this report and presented here alongside the total population. The population of children and youth between the ages of 0 to 20 broken out by jurisdiction is proportional to the total population. As can be seen in the table, Montgomery County has the largest population and the largest number of youth ages 0 to 20, while Kent County has the smallest population in general and smallest number of youth ages 0 to 20. The data was obtained through the Bridged-Race Population Estimates. This data is provided free of charge by the Centers for Disease Control (CDC). ${ }^{1}$

## Addendum: Questions requiring data sharing between agencies.

Questions that require data sharing between State agencies are the following:
(8) The stability of school placements;
(9) The number who graduate from high school;
(10) The number who qualify for a Maryland high school diploma by examination; and
(11) The number who receive tuition waivers.

Questions 8 and 9 require data from the Maryland State Department of Education (MSDE), question 10 requires data from the Maryland Department of Labor (MDL), and question 11 requires data from the Maryland Higher Education Commission (MHEC).

For this fifth annual report, information pertaining to the stability of school placements and the number of high school graduates (Questions 8 and 9), typically provided by MSDE, and information pertaining to the number of youths who qualify for a Maryland high school diploma by examination (Question 10), typically provided by MDL, were not available. The MOU with MSDE was not able to be renewed when it expired in December 2019 which meant that DHS/SSA was not able to obtain the requested information about high school graduates, which is then used to prepare the list of eligible foster youth provided to MDL, where information about those qualifying for Maryland high school diplomas by examination is then obtained.

The data required for Question 11 (the number of youths who received educational waivers) was provided by MHEC.

Question 11: The number who receive tuition waivers.
According to the Maryland Higher Education Committee (MHEC), there were 493 individuals who received the foster care tuition waiver in the 2018-2019 academic year (the latest information that is available), 218 of which also received the waiver the previous academic year, 2017-2018. These individuals have been broken out by jurisdiction, gender, race/ethnicity and age in the tables below.

## Gender of Recipients

|  | Count of Foster Care <br> Waiver Recipients | Percent |
| :--- | :---: | :---: |
| Male | 159 | $32.3 \%$ |
| Female | 333 | $67.7 \%$ |
| Total | 492 |  |

## Race/Ethnicity of Recipients

| Total |  | $*$ |

Note: MHEC's policy is to suppress figures less than 10 to protect student privacy; complementary suppression may be used to ensure calculations cannot be completed to obtain suppressed figures. Suppressed figures are marked with an * per MHEC's suppression policy.

Note: These data may reflect the place of residence at the time of application. Data on place of residence at the time of application were not available for 84 of the 492 recipients.

## Age of Recipients

Age was calculated by subtracting the recipient's birth year from 2019. The average age of the 408 recipients with known age was 22 years.

Age bands allow for no suppressed data.
Data on age were unavailable for 84 of the 492 recipients.

| Age Band | Count of Foster Care <br> Waiver Recipients | Percent |
| :--- | ---: | ---: |
| $17-19$ | 62 | $15.2 \%$ |
| $20-22$ | 235 | $57.6 \%$ |
| $23-24$ | 66 | $16.2 \%$ |
