## INTRODUCTION

---

The Statewide Nutrition Assistance Equipment Program (SNAEP) is established by Maryland law under Human Services Article §§ 6-401 through 6-406. The stated legislative purpose of the program is to provide funding to distribution organizations to enable the distribution organizations and emergency food organizations to obtain necessary equipment. “Distribution organizations” are nonprofit entities that distribute food or equipment to emergency food organizations; “emergency food organizations” are nonprofit entities that provide emergency food services and include soup kitchens and food pantries. Grant funding is provided for capital food preparation, storage or distribution equipment that is critical to the operation of running a food pantry, soup kitchen, food bank, shelter or other facility that provides food or meals to those in need.

---

## FY 2022 FINANCIAL REPORT

---

In Fiscal Year 2022, the Maryland legislature appropriated \$282,530 in State general funds for SNAEP. Grant funds were awarded to 51 soup kitchens, food pantries, food banks and shelters in 18 jurisdictions throughout the state.

#### COMMUNITY PARTICIPATION

---

The Department of Human Services (DHS) provided SNAEP funding to organizations that host feeding programs. All funded entities offered services to individuals and families in need regardless of race, gender, religion, sexual orientation, or age, accommodating those with a disability or limited English proficiency. DHS leverages its partners including other state agencies such as the Department of Aging; the Department of Labor, the Maryland Department of Health; and Supplemental Nutrition Assistance Program (SNAP) Outreach vendors to disseminate information about the availability of SNAEP funds. DHS also posts SNAEP applications and related instructions on its website every year between March and May.

The variance in number of organizations applying for and/or receiving SNAEP funding is reflective of the program regulations requiring that applicants raise funds to match state funding, which has historically limited the ability of smaller and less resourced providers to access SNAEP. It is also reflective of the allowable purchases under this Program, which typically constitute the purchase of freezers, refrigerators, ovens, large scale appliances and cookware, and improvements to increase handicap accessibility, such as ramps.

---

**OVERALL EFFECTIVENESS OF THE PROGRAM  
IN FULFILLING ITS STATED PURPOSE**

---

SNAEP funds enabled receiving organizations to purchase new equipment such as freezers, refrigerators, appliances, cookware, food carts, tableware, grocery bags and boxes to increase their capacity to serve those in need. In some cases, applicants requested funding to replace defective equipment. This funding also enabled participating organizations to improve accessibility to underserved populations by building much-needed safety equipment such as ramps and handrails.

In Fiscal Year 2022, SNAEP funds supplemented other food distribution grants and expanded ongoing efforts to provide food and supportive services for people in need. All organizations receiving these funds provide additional resources, including information on Earned Income Tax Credit (EITC) and regular SNAP benefits. DHS leveraged contacts from its other state agencies including the Department on Aging and the Department of Health to ensure that the SNAEP application announcement was disseminated widely among the emergency food provider community. The partner application and related instructions were also posted on the DHS website.

DHS conducts monitoring visits as part of its program oversight process. During these visits, the Program Coordinator reviews recipients' organizational structure, mission, and receipts verifying equipment purchases and capacity to effectively achieve its stated mission. These visits also enable DHS to provide technical assistance to SNAEP recipients as needed.
