FY 2020 MBE PRIME & SUBCONTRACTORS

Historically, The Department of Human Services' (DHS or the Department) MBE participation remained consistently around 10.25% in State Fiscal Years (SFY) 2016 and SFY2017. Once the MD THINK project began in earnest, the Department's MBE program saw a significant increase in the utilization of MBE firms, particularly in the area of IT Services. Moreover, through the Department's vigilance and increased focus on MBE reporting, DHS discovered that MBE coding errors has previously left many legal services contracts unaccounted for. As such, the Department's MBE participation for SFY18 rose to 15.98%, and 20.4% in FY19.

In SFY2020, MBE procurement activity leveled at 14.1%. There were 1,584 prime contracts in the amount of \$27,112,070 awarded to state-certified MBEs and 240 subcontracts in the amount of \$25,579,696 were awarded to state-certified MBEs as subcontractors. This accounts for a total of 1,824 MBE contracts awarded, totaling \$56,691,766. Out of all DHS procurement activity, 21% of DHS procurement dollars went to MBE firms. No waivers were granted during fiscal year 2020.

Please see attached charts for a complete list of each minority business, including procurement contracts awarded by a unit with a description of the contract.

MINORITY BUSINESS ENTERPRISE GOAL SETTING

To ensure all purchasing decision makers include MBE businesses in their outreach, purchasing and contracting activity, DHS instructs all buyers and card holders to use mechanisms other than the Procurement Review Group (PRG) process. The Small Business Reserve (SBR), the Veterans Online Business Registry (VetBiz), and the Maryland Department of Transportation (MDOT) directories are checked prior to making a purchase. Buyers are encouraged to purchase from MBEs if the purchase does not need to be made under state contract. DHS has historically used secondary services to target subcontracting and bolster MBE participation.

Please see the attached charts for a complete breakdown of the total number and the names of certified minority business enterprises that participated as prime contractors or as subcontractors awarded by a unit. The attached charts will also reflect a description of the contract.

The PRG process, the scope of work, budget, and other relevant data are some of the methods used to establish subcontracting opportunities. This review process is necessary in order to prescribe a fair and reasonable subcontracting goal for that project.

The MBE liaison has a key role in the PRG process and is a signatory on the PRG. Ordinarily, the procurement officer or project manager sends the scope of work and budget to the liaison along with the justification for the proposed MBE goal for review. Once the liaison has reviewed, approved or made recommendations to these forms they are sent on to the Procurement Director for further review.

OUTREACH/COLLABORATION FUNCTION

DHS procurement participates in Governor's Office of Small, Minority, and Women Business Affairs (GOSBA) sponsored workshops and coordinates with GOSBA to educate vendors about the advantages of MBE certification and how to respond to a bid. In addition, this facilitates connections with new vendors who provide services that DHS regularly procures.
