Maryland State Forest Conservation Program Annual Report  
July 1, 2022 - June 30, 2023

## Introduction

The Forest Conservation Act (NRA 5-1613) requires that on or before September 30 of each year, the Maryland Department of Natural Resources (DNR or Department) submit a report that shall include:

- (1) the number, location, and type of projects subject to the provisions of the Forest Conservation Act;*
- (2) the amount and location of areas cleared, conserved and planted in connection with a development project;*
- (3) the amount of reforestation and afforestation fees and noncompliance penalties collected and expended; and,*
- (4) the costs of implementing the forest conservation program;*
- (5) the size, location, and protection of any local forest mitigation banks which are created under a local or State program;*
- (6) the number, location, and type of violations and type of enforcement activity conducted in accordance with this subtitle; and*
- (7) To the extent practicable, the size and location of all conserved and planted forest areas, submitted in an electronic geographic information system or computer aided design format. (Nat. Res. Art. 5-1613, Annotated Code of Maryland)*

Due to amendments adopted in 1994, the Department is tasked with collecting individual reports from local jurisdictions and submitting a collective report for statewide Forest Conservation activities. This report provides summary statistics of reviews conducted by the local jurisdictions and the Department of Natural Resource Forest Service's State Forest Conservation Program during the reporting period, and details additional activities in the Department's implementation of the Forest Conservation Act.

These activities can include the biennial review of locally adopted forest conservation programs, training, and information on qualified professionals. Since a 1998 amendment, the reports submitted by the local jurisdictions contain information on the *previous fiscal year's activities*.

The Maryland Department of Natural Resource Forest Service reviews all applicable projects by: (1) state agencies; (2) state-funded projects conducted by local jurisdictions; (3) any projects conducted by a local jurisdiction that does not have a local program in effect; and (4) any projects making application to a local jurisdiction which does not have a local program in effect (COMAR 08.19.04.01). This review is conducted by the Forest Service's four regional offices with assistance and coordination from its headquarters office in Annapolis. The information reported contains information on the *current fiscal year's activities*.

For both local jurisdictions and the Department of Natural Resource Forest Service, only those projects that have received final forest conservation plan approval are reported. This underrepresents the total number of reviews conducted each year, as every project requires the review of both a Forest Stand Delineation and a Forest Conservation Plan prior to receiving final approval. Both may not be submitted or receive final approval during the same year.

## Biennial Reviews of Local Forest Conservation Programs

The Forest Conservation Act requires that the Department conduct reviews of local forest conservation programs every 2 years. In the process of conducting the program reviews, staff assesses the compliance of the local programs with the intent and standards of the Forest Conservation Act and identifies necessary refinements. Since the biennial reviews were conducted in FY20, the next review will occur in FY22.

To the extent practicable, the size and location of all conserved and planted forest areas are submitted in an electronic geographic information system or computer-aided design format.

Since 2009, the Maryland Forest Service has collected electronic easement information in a design format. The following jurisdictions submitted this information during the reporting period, which can be made available upon request.

## Assisting Developers, Planners, Consultants and Others in Preparing Forest Stand Delineations and Forest Conservation Plans

The Forest Service continues to provide guidance through training workshops and other means to individuals qualified to prepare Forest Stand Delineations and Forest Conservation Plans. Since 1994, the Forest Service has offered a 40-hour Forest Conservation for Qualified Professionals Course through community colleges around the state. The forest conservation course has been offered at least twice a year by Carroll Community College and Anne Arundel Community College when the required class student registration number is met.

To date, approximately 426 persons who have applied to the Department have met the Department's criteria for other qualified professionals (COMAR 08.19.06.01) and have been approved to prepare Forest Stand Delineations and Forest Conservation Plans. These are in addition to the Maryland Licensed Landscape Architects and Maryland Licensed Foresters who may prepare Forest Stand Delineations and Forest Conservation Plans according to Natural Resources Article 5-1604 and 5-1605, Annotated Code of Maryland.

Department staff assisted with numerous continuing education seminars, classroom presentations in higher education natural resources departments, at professional and local government meetings, etc.
