RE: Program Open Space Contingency Fund
Annual Summary of Activities

Dear Chairmen Kasemeyer and Conway:

In accordance with Section 5-903 of the Natural Resources Article, the Department of Natural Resources hereby submits (attached) the annual summary of activities of the Program Open Space Contingency Fund (Fund). The Fund, which was established in 1998, may be used with the approval of the Committees and the Board of Public Works to supplement an existing appropriation for a capital project or undertake Critical Maintenance projects. Use of the fund and maintaining a sufficient balance within the fund is an important tool that has allowed us to move forward on a number of important improvement projects on State lands in the past such as the renovations of the Assateague State Park Nature Center completed last year. Without the benefit of the contingency fund the project would have been canceled or other projects would have been deferred.

No actions were taken during 2013, the balance remains 495,663.62. If you have any questions or need additional information please contact Jordan Loran, Director, Engineering & Construction Unit at 410.260.8907.

Sincerely,

Joseph P. Gill
Secretary
