## **Introduction**

Pursuant to Correctional Services Article § 3-207(d), the Department of Public Safety and Correctional Services' Division of Correction is required to submit an annual report for each correctional facility. The statute specifically states:

- (a) on or before October 31 of each year, the Commissioner of Correction is required to submit an annual report to the Secretary and Governor that states for each correctional facility in the Division:
- (1) its expenses, receipts, disbursements, condition, and progress;
  - (2) the number of inmates and each inmate's age, sex, race, place of birth and conviction, crime, and term of confinement;
  - (3) the number of inmates who escape, are pardoned, or discharged;
  - (4) the job classifications for inmate labor in each Department and facility under the authority of the Division;
  - (5) the daily wage scale at each prison for each job classification under the authority of the Division;
  - (6) the total number of inmates currently employed at facilities under the authority of the Division, disaggregated by facility;
  - (7) the annual cost of living for inmates, including the average cost of:
    - (i) telephone calls, including calls to medical providers;
    - (ii) video calls; and
    - (iii) items available for purchase at a commissary, including: 1. feminine hygiene products; 2. toiletries; and 3. medications; and
  - (8) any remarks and suggestions the Commissioner considers necessary to advance the interests of the correctional facility.
- (b) The Commissioner shall submit with the report required by subsection (a) of this section a statement similar to the statement that is required to be submitted under § 3-206 of this subtitle (c) The Commissioner shall verify the report and statement required by this section.
- (d) Subject to § 2-1257 of the State Government Article, the Governor shall submit to the General Assembly the report and statement required under this section and any recommendations that the Governor considers expedient.

## **Operations Overview**

The Department of Public Safety and Correctional Services (Department) oversees the Division of Correction (DOC), which operates Maryland's state prisons. Dedicated professionals oversee 13<sup>1</sup> correctional institutions, upholding the mission to protect the public by providing care and programming to the incarcerated population.

The DOC is committed to providing returning individuals with re-entry programming and services beginning at intake. This commitment is evident through the vast array of job skills opportunities, educational programming, substance use disorder treatment, and psychological

<sup>1</sup> The listing of institutions notes 12 institutions as the budgets for both the Eastern Correctional Institution (ECI) and the Eastern Correctional Institution - Annex (ECI-A) are consolidated into one budget; however, these are two different institutions.

and health services that are available during incarceration. In addition to the 13 correctional institutions, Maryland Correctional Enterprises (MCE) and the Home Detention Unit (HDU) operate within the DOC.

MCE, the prison industry arm of corrections and one of the largest prison industries in the nation by sales, provides structured programming for participants at locations around the State. In partnership with other state agencies as well as private and community partners, MCE assists incarcerated persons transitioning back into society with home planning and workforce preparation. MCE's program is voluntary and helps to improve interpersonal skills and employability upon release. Incarcerated persons participating in MCE programming learn current marketable skills in fields such as data entry, graphics, Computer Assisted Design (CAD), and butchering that allow them to re-enter society with an understanding of workplace expectations as well as current skills and certifications. The Public Safety Works program provides the incarcerated population the chance to give back to society, while simultaneously learning valuable employment skills and intangible but important traits such as patience, compassion, and community appreciation.

In FY22, HDU was realigned under the authority of the Office of the Commissioner. HDU, an electronic monitoring program, provides an alternative to incarceration. The catchment area was expanded from six counties into a statewide program operating in five regions - Metro, Lower Shore, Upper Shore, Western, and Capitol. This expansion assists returning citizens in reuniting with families and aids them in becoming productive members of the community. An IP is determined to be eligible for HDU by the Department's Case Managers.

In April 2022, through a contract with GTL/ViaPath, the Department began the process of rolling out the Tablet Computer Program. The tablets, which are being distributed and will be made available to the entire incarcerated population at no charge, contain free content to include the Edge commissary application, books, CareerOne, Religious information, Khan Academy, the Law Library, GTL/ViaPath Help application, Merriam Webster Dictionary, calculator, and the Calm application. The incarcerated population can also purchase certain games and media content as well as have access to the phone dialer system that enables them to speak directly to their friends and family. This content is downloadable through a secured WiFi. The tentative completion date for the tablet rollout is December 2022.

During the 2021 legislative session, House Bill 222, Election Law - Correctional Facilities Voter Registration and Voting, passed. This bill sought to ensure that detained and incarcerated individuals were made aware of their voting rights and had access to voter registration materials. The DOC built upon HB 222, and installed ballot boxes in all correctional facilities to aid in the process of affording incarcerated individuals who are eligible to vote this opportunity. Working with the State Board of Education, signage was displayed in each facility and representatives from the local boards of election were responsible for collecting all voting materials from the ballot boxes.

Throughout FY22, the DOC implemented and maintained partnerships at several of the facilities to allow the IP to participate in work release programming. These partnerships included:

- Goodwill Industries of the Chesapeake SEETTS Program (Supporting Ex-Offenders in

Employment Training and Transitional Support).

- Landscaping and beautification partnerships with cities and municipalities as well as the State Highway Administration to include trash removal, landscaping, and general cleaning and maintenance.

Finally, the DOC continues to respond to the COVID-19 pandemic that resulted in a state of emergency being declared in FY 2020. While the state of emergency has been lifted, the Department, including the DOC, continues to collaborate with MDH and received doses of new booster vaccines to support continued efforts to vaccinate. Information about the ongoing response to COVID-19 is available at <https://news.maryland.gov/dpscs/covid-19>.

## **Annual Cost of Living for Incarcerated Persons**

The state of Maryland provides incarcerated individuals with room and board, meals, and medical care at no cost. In FY 22, in the Division of Correction, the inmate variable rate per incarcerated person per month was \$4,968, including medical.

There is no cost to an incarcerated person to make a video call. Medical calls are made by the medical treatment providers. However, in a case that an incarcerated person would need to contact a medical provider, this would be done at no cost to them.

The cost to an incarcerated person to make a phone call is \$.032 per call, which is one of the lowest rates in the nation. The total for phone calls made by the incarcerated population between January 2022 through August 2022 was \$746,399, with an average cost of \$93,299 monthly.

Incarcerated persons are provided with free outbound messaging through their ViaPath tablets. Inbound messaging is priced at \$.20 per message. Incarcerated persons are offered the opportunity to purchase subscription packages for their tablets, offering access to entertainment services, such as movies and music. The Unlimited Package is available at \$22/30 days; or they may purchase the PrePaid Package (400 Minutes) at \$10/30 days.

Feminine hygiene items are provided free of charge to all incarcerated persons who are assigned female at birth. Basic toiletries are also available at no cost. In addition, incarcerated persons are provided with the option to purchase a variety of self-care items through commissary. The full commissary menu of products available for purchase is provided as Appendix B .

As of March 18, 2020, all copays and medical fees were waived for incarcerated persons. Over the counter medication is available for purchase through the commissary

\*Note: Some sentenced individuals are housed within DPDS facilities at the time of this report capture, but remain under DOC sentenced custody. This does not indicate that their full sentence was served in these facilities. Only those individuals in sentenced status are reflected in DPDS figures above. Individuals in pretrial status are not reflected in these figures.

†Note: Average sentence length is calculated based on total sentence length and does not include life sentences. Average length of stay reflects the average length of time served in the DOC as of the date of the report. This figure is not based on releases and may include time served at more than one institution.
