The Honorable Larry Hogan
Governor – State of Maryland
100 State Circle
Annapolis, Maryland 21401

Dear Governor Hogan:

Maryland State Transportation Article §21-809 (k) requires the Police Training and Standards Commission (PTSC) to collect information on local law enforcement agencies' utilization of speed monitoring systems (SMS) and submit this information in accordance with State Government Article § 2-1246 on an annual basis. Specifically, Sections 21 – 809 (k) (2)(x)-(xii) of the Maryland Transportation Article require each jurisdiction that utilizes a SMS to report to the PTSC:

“(x) locations at which each speed monitoring system was used in the local jurisdiction;

(xi) activation start and stop dates of each speed monitoring system for each location at which it was used; and

(xii) number of citations issued by each speed monitoring system at each location.”

Due to the volume of data collected from the thirty-eight (38) local jurisdictions, the PTSC is submitting both a written summary as well as a compact disc containing datasets for each jurisdiction (see attached). This information will also be made available to the public as it will be posted on the Maryland Police and Correctional Training Commissions' website at: www.mdle.net.

Respectfully submitted,

Albert L. Liebno, Jr.
Acting Executive Director
Police Training and Standards Commission

2018 REPORT TO THE STATE OF MARYLAND – SPEED MONITORING SYSTEMS USE

Fiscal Year 2018 (July 1, 2017 – June 30, 2018)

Introduction

On October 1, 2014, the *Speed Monitoring Systems [SMS] Reform Act of 2014* was enacted and became effective. This law, which can be found in detail in Transportation §21-809, requires local law enforcement agencies or local jurisdictions that operate/administer, as permitted by law, a speed monitoring program [colloquially referred to as “speed cameras”] to report certain specific information regarding their program to the Maryland Police Training and Standards Commission. Information from the previous fiscal year is required to be reported by October 31st of each year. The Maryland Police Training and Standards Commission is required to provide the General Assembly with a report of the information provided by the local law enforcement agencies and local jurisdictions by December 31st of each calendar year.

Methodology of Collection and Submission of Information

The Maryland Police Training and Standards Commission developed a basic reporting document in 2014. The reporting document was updated for FY18. Every local jurisdiction operating a speed monitoring system was provided the updated document to self-report the law eligible information to the Commission. TR §21-809(k)(2) requires each jurisdiction to self-report the following information to the Commission:

- i. total number of citations issued;
- ii. number of citations issued, and the number voided as erroneous violations for each camera;
- iii. gross revenue generated by the program;
- iv. expenditures incurred by the program;
- v. net revenue generated by the program;
- vi. total amount of any payments made to a contractor under the program;
- vii. a description of how the net revenue generated by the program was used;
- viii. number of employees of the local jurisdiction involved in the program;
- ix. type of speed monitoring system used by the local jurisdiction;
- x. locations at which each speed monitoring system for each location at which it was used; and
- xi. number of citations issued by each speed monitoring system at each location.

Reporting Jurisdictions

In FY17, there were a total of 37 jurisdictions reporting the operation of speed monitoring systems. A notification was sent to all Maryland police agencies from the staff of the Police and Correctional Training Commissions in September 2018 reminding them of the requirements of Transportation §21-809. A revised report form was provided at this time. A total of 38 agencies were identified as operating speed monitoring systems in FY18. One agency confirmed operation of speed cameras in FY18; however, a report was not submitted. This agency was without a chief at the end of calendar year 2018. The Calvert County Sheriff's

Office was added to the report in FY18. The Pittsville Police Department will be operating speed monitoring systems and they will report in FY19.
