March 25, 2013

The Honorable Mike V. Miller, Jr., President Senate of Maryland State House, H-107 Annapolis MD 21401-1991

The Honorable Joan Carter Conway, Chair Senate Education, Health and Environmental Affairs Committee Miller Senate Office Building 2 West Wing 11 Bladen Street Annapolis MD 21401-1991 The Honorable Michael E. Busch, Speaker House of Delegates State House, H-101 Annapolis MD 21401-1991

The Honorable Maggie McIntosh, Chair Environmental Matters Committee House of Delegates House Office Building, Room 251 6 Bladen Street Annapolis, MD 21401-1991

Dear President Miller, Speaker Busch, Chairwomen Conway and McIntosh:

As required in Section 5-1001(g) of the Environment Article, <u>Annotated Code of Maryland</u>, I am enclosing copies of the 2012 status report on the Maryland Used Motor Oil Recycling Program.

If we can provide you with any additional information, please contact me at 410-537-3084 or Horacio Tablada, Director of the Land Management Administration, at 410-537-3304 or via email at <a href="https://html.ncbi.nlm

Sincerely,

Robert M. Summers, Ph.D.

Secretary

Thomas V. Mike Miller, Jr., Senate President Maryland General Assembly

> Michael E. Busch, House Speaker Maryland General Assembly

> > JANUARY 2013

EXECUTIVE SUMMARY

The Maryland Environmental Service (MES) administers the Maryland Used Oil Recycling Act through an Intergovernmental Agency Agreement (IGA) with the Maryland Department of the Environment (MDE). The Used Oil Recycling Act is found in Maryland Environment Article 5-1001. MES is responsible for implementing a statewide program for the construction, operation, and the routine maintenance of used oil collection facilities; providing public education and outreach programs related to the disposal of used motor oil; and maintaining an information center to educate citizens regarding the proper disposal of used motor oil. Additionally, MES utilizes these used motor oil collection sites for the collection of related recyclables including used antifreeze and used oil filters.

MES also administers funding from the MDE for the purpose of implementing supplemental environmental projects. Specifically, this grant funding is used to assist in the construction of "rain shelters" to minimize storm water contact with the used motor oil collection tanks and used to fund the purchase of new, upgraded above-ground storage tanks for new sites, as well as replacements for older sites.

Since 1988, the MES and MDE partnership has resulted in the collection and recycling of over 15,400,000 gallons of used motor oil in the State of Maryland. Similarly, the program has accomplished the collection and recycling of almost 807,000 gallons of used antifreeze from Maryland Do-It-Yourself automobile enthusiasts. The antifreeze is currently collected and shipped to a recycling facility where it is filtered, distilled, and reformulated into automotive antifreeze and industrial ethylene glycol.

During the current calendar year, MES collected 566,375 gallons of used motor oil and 29,811 gallons of used antifreeze from program-sponsored locations. Additionally, during this period, MES added used oil filter collection service at select program-sponsored locations, resulting in the collection and recycling of 176 drums of used oil filters.

MARYLAND USED OIL RECYCLING PROGRAM

2012 ANNUAL REPORT

INTRODUCTION

The 2012 Used Oil Recycling Program Annual Report is provided to the Maryland General Assembly as a requirement of Section 5-1001(g) of the Environment Article.

The Maryland Environmental Service (MES), an independent agency of the State of Maryland, is responsible for the administration and implementation of the Maryland Used Oil Recycling Program through an Intergovernmental Agency Agreement (IGA) with the Maryland Department of the Environment (MDE). Program management includes the designation of used oil collection facilities, technical and financial assistance to establish collection facilities, routine inspection and cleaning of program-sponsored facilities, public education, operation of an information center, and implementation of other non-regulatory provisions of the Maryland Used Oil Recycling Act. MES is pleased to provide the following report detailing the accomplishments, initiatives and progress of the Program during the past year as well as proposed plans for calendar years 2013 - 2014.

BACKGROUND

The Maryland Used Oil Recycling Law was enacted in July 1978. Initial program start-up funding was allocated from energy funds. This funding enabled the Service to create a program to assist the home mechanic or Do-It-Yourselfer, with proper used motor oil disposal. MES purchased oil collection tanks, collection boxes, hardware and signs. County and local governments were solicited to assist in establishing convenient and accessible used oil collection sites for citizens. A variety of collection sites were established. Most are located at government owned solid waste, public works and road maintenance facilities.

The Program has been successful at recruiting and maintaining donor locations for several reasons: 1) free collection service of used motor oil; 2) Program-provided financial assistance for tanks and shelters; and 3) the Program assumes the responsibility for disposing of any contaminated used oil.

The Used Oil Recycling Program was established primarily to respond to market forces that changed the economic dynamics of automobile service stations. In the past, service stations took used motor oil from individuals that changed the oil in their own cars and trucks. Now, many of the local service stations sell milk and bread – not automobile related maintenance or repair services.

Maryland's Do-It-Yourself automobile mechanics and enthusiasts needed a reliable and responsible alternative to recycle used motor oil.

USED MOTOR OIL COLLECTION PROGRAM

Collection of used motor oil from all statewide, program-participating locations yielded 566,375 gallons of used motor oil in calendar year 2012. Since its inception in 1988, the program has expanded from 44 collection sites to the current 142 operational sites and has recovered more than 15.4 million gallons of used motor oil. Used motor oil and antifreeze collection results are summarized at the end of the report. Copies of the detailed used motor oil and antifreeze collection records for the participating program sites are attached as well.

Key calendar year 2012 program accomplishments include the following:

- ☑ Collection of 566,375 gallons of used motor oil from program-sponsored locations;
- ☑ Collection of 29,811 gallons of used antifreeze from program-sponsored locations;
- ☑ Added used oil filter collection service to a number of program-sponsored locations
 - Collected and recycled 176 drums of used oil filters
 - Working to expand program State-wide
- ☑ Continued participation of 142 program-sponsored collection locations throughout the State;
- ☑ Added 2 new collection sites to the program;
 - Added new site in Garrett County
 - Added new site in Worcester County
- ☑ Repaired / upgraded rain shelters at 2 sites;
 - Constructed new rain shelters at two existing sites in Somerset County
- - Repair / upgrade of rain shelter in The City of Baltimore currently pending
 - Repair / upgrade of rain shelter in Dorchester County currently pending
 - Repair / upgrade of rain shelter in Garrett County currently pending

☑ Upgraded and replaced older above-ground storage tanks at 6 sites;

- Replaced two older solidified 275 gallon single-wall tanks with new 275 gallon single-wall tanks at 1 site in St. Mary's County
- Replaced 1 older 275 gallon single-wall tank with a new 280 gallon double-wall tank at 1 site in Harford County
- Replaced 4 older 275 gallon single-wall tanks with new 385 gallon double-wall polyethylene tanks at 2 site in Caroline County
- Replaced 1 older 275 gallon single-wall tank with a new 280 gallon double-wall tank at 1 site in Worcester County
- ☑ Working to expand used motor oil collection program within State;
- ☑ Designed and printed public outreach pamphlets regarding used oil disposal and recycling;
- ☑ Designed and printed new stickers, labels, and signs for program-sponsored locations;
- ☑ Program specific tangible promotional items were handed out at local public outreach events to encourage additional used oil recycling;
- Maintained and updated used motor oil and antifreeze website that provides information regarding all program-sponsored locations;
- ☑ Continued to maintain and answer the Public Information Number 800-4RECYCLE (800-473-2935) in response to citizen inquiries concerning proper used motor oil and antifreeze disposal and the nearest collection site;
- Performed annual inspections at all program-sponsored locations during the year;
- Performed supplementary cleaning and maintenance at 86 program-sponsored locations during the year

With the Chesapeake Bay, Maryland boasts a large boating community. To serve the needs of Maryland's boating community, MES continues to provide collection sites at designated State-operated marinas. Additionally, several private marinas throughout the State also participate in the program.

Good housekeeping practices are important aspects of spill control and contamination prevention. As part of the administration of the program, MES has conducted on-site audits of all program-sponsored collection facilities to assure that sponsors, recycling coordinators, site supervisors, and site operational staff are aware of their pollution prevention responsibilities. Additionally, MES staff conducted routine cleaning and maintenance, as necessary, to assist the site hosts in maintaining environmental compliance. During the 2012 calendar year, MES performed supplementary cleaning and maintenance at 86 program-sponsored locations.

Although there was no noted incident of non-compliance with the sites over the last year, during an on-site audit at one of the host sites, MES discovered poor housekeeping practices and a potential release of oil to the environment. With assistance from MES, the host site reported the incident to MDE, and has completed all necessary remediation work associated with the incident. The Program continually reminds all site hosts that they are responsible for providing day-to-day monitoring and housekeeping of their tanks. MES staff provides assistance with housekeeping and compliance, as needed, based on the results of the routine site inspections. MES maintains a full-time staff to conduct routine site audits and assist with site maintenance and cleaning. Sites are upgraded, as needed, to increase compliance and minimize the potential for impacts to the environment.

Currently, there are a total of 142 participating program collection sites. There has been a decrease in the amounts collected over the past several years, which primarily be attributed to local governments withdrawing from the program for prospects of financial gain. Other factors may be the increase in use of longer lasting synthetic oils and establishments commercial offering Given the constant concern over services. contaminated oil and public's abuse of the sites, including unauthorized dumping of trash hazardous materials; MES continues to urge site hosts to remain in the Program. Due to the fact that the

used oil can be easily contaminated with PCBs, brake cleaning fluids, and other readily accessible chemicals, MES and MDE feel that citizens are better served by local governments staying within the established program.

PUBLIC OUTREACH

MES continues to maintain the Public Information Number **800-4RECYCLE** (800-473-2935) in response to citizen inquiries concerning proper disposal of used oil and anti-freeze and the location of the nearest collection site, as part of our Recycling Information Center. The program received over 779 calls in 2012 with the majority of callers requesting information on used oil collection locations. This resource provides the public information regarding the recycling of various household wastes.

⁵ Prepared January 2013 by the Maryland Environmental Service, 259 Najoles Road, Millersville, Maryland 21108, telephone (410) 729-8370, fax (410) 729-8383.

MES monitors NORA, formerly the National Oil Recyclers Association, now known as the Association of Responsible Recyclers (http://www.noranews.org/), a trade group representing over 200 companies in the liquid recycling industry. Managers at the MES review new technologies, issues, and trends within the industry, which allows MES to provide current information to used oil program participants and the general public as necessary.

Collection reports, a current list of participating collection sites, newsletter publications, and supporting documentation are posted and maintained on the MES web site – www.menv.com. During the 2012 calendar year, MES design and printed new stickers and signs for the collection sites. Additionally, MES designed and printed brochures providing information to the public about the importance of proper handling, disposal, and recycling of used motor oil and antifreeze. These brochures are given to County and local recycling coordinators for distribution and are circulated at local recycling trade shows and conferences. Additionally, this information is available on the MES web pages dedicated to used motor oil and antifreeze recycling.

PLANNED ACTIVITIES FOR 2013 AND 2014

Planned activities for calendar years 2013 and 2014 include, but are not limited to the following:

Public Outreach

www.menv.com

□ Continue the MES membership in NORA while updating program participants and citizens with current information, issues, and trends within the industry
 □ Present program updates to statewide solid waste managers and recycling coordinators
 □ Continue public outreach and education at local county events
 Operation and Maintenance
 □ Continue the annual auditing and inspection of all program-participating sites in order to ensure continued protection of the environment (copies of all audits are maintained at the MES headquarters)
 □ Continue the routine maintenance and cleaning program to ensure the continued safe operation of the program-participating sites
 □ Continue the tank upgrade program by replacing single-wall 275 gallon tanks with newer, more environmentally sound double-wall tanks
 □ Explore adding additional used oil DIY locations in highly populated counties

□ Continue updating and linking the used motor oil recycling pages on the MES web site –

⁶ Prepared January 2013 by the Maryland Environmental Service, 259 Najoles Road, Millersville, Maryland 21108, telephone (410) 729-8370, fax (410) 729-8383.

Administration

- ☐ Continue the grant program to assist in funding the construction of new sites and the upgrading of existing sites
- ☐ Continue to expand the used oil filter collection program to other sites throughout the State to address this associated waste stream
