State of Maryland 2024 Hate Bias Report

1 October 2025

MP-202509-00239-MCAC

I. Scope

Public Safety Article Title 2-307 tasks all law enforcement agencies within the State of Maryland and the Office of the State Fire Marshal to provide the Maryland Department of State Police (MDSP) with information relating to incidents seemingly directed against an individual or group because of race, color, religious beliefs, sexual orientation, gender, disability, national origin, or homelessness. In compliance with that requirement, the MDSP, in partnership with the Maryland Coordination and Analysis Center (MCAC), has produced this report. It contains an overview of trends in hate bias-related incidents within the State of Maryland including a statistical representation of incidents and their associated victims, offenders, injuries, weapons, and property damage. This report also includes a historical analysis of total incident data compared with total verified data from the previous 10 years. The information is limited to hate bias incidents reported to Maryland law enforcement.

II. Methodology

The State of Maryland meets National Uniform Crime Reporting (UCR) requirements via the Maryland Statewide Uniform Crime Reporting Program. This program provides procedures and the collection mechanism for hate bias incidents based on the following: Race/Ethnicity/Ancestry (R/E/A), Religion, Sexual Orientation, Disability, Gender, Gender Identity, and Homeless Status. Law enforcement agencies submit incident data to MDSP Central Records Division for data compilation using the Maryland State UCR Portal which has replaced the Maryland Supplementary Hate Bias Incident Report Form. This data is analyzed and findings are released to the public in this publication annually.

While the Federal Bureau of Investigation (FBI) UCR Program compiles hate crime data regarding criminal offenses motivated by the offender's bias, Maryland Public Safety Article Title 2-307 requires the collection of data on hate crimes as well as non-criminal hate bias incidents. For this reason, the FBI's statistics on hate crimes may differ from Maryland's hate bias statistics.

Incident-based data includes events that are perceived by the victim(s) or the investigating law enforcement officer(s) as motivated by hate or bias.

Such incidents may or may not be considered criminal activity. Crime-based data pertains to hate bias-related crimes, which are recorded as hate or bias incidents but, more specifically, involve offenses that can result in arrests. Hate crime definitions often encompass not only violence against individuals or groups, but also crimes against property, such as arson or vandalism, particularly those directed against community centers or houses of worship. In order to provide a more comprehensive overview of hate bias-related activity in Maryland, crime-based and incident-based data have been combined in this report.

When an incident is reported, the following criteria, among others, can be used to determine if the incident is bias-related:

- A review of the totality of the circumstances.
- A review of the motives.
- A display or expression of any bias-related symbols, words, or acts.
- The victim's perception and/or statements of any offender(s) or witness(es).
- A prior history of similar incidents in the same geographic area or against the same victim(s).
- The demographics of the area of occurrence.

Identifying the offender's subjective motivation can make it difficult to distinguish a hate bias-related incident. The determination whether to charge a hate crime is at the discretion of law enforcement and prosecutors. The presence of any of the following criteria may be indicators that an incident is hate bias motivated and additional investigation is necessary:

- Similar incidents in or around the same location or neighborhood indicating a possible pattern.

- *Perceptions of the victim(s) and witness(es) about the incident* – This is one of the single most important factors to consider. However, victims may not readily recognize that the incident was motivated by bias.
- *Perpetrator's comments, gestures, or written statements reflect bias* including graffiti, drawings, and symbols used.
- *Differences between perpetrator and victim, whether actual or perceived by the perpetrator* – Victims and perpetrators may appear to be from the same race, ethnicity, or religion, but it is the perpetrator's perception of difference that motivates the behavior constituting an incident.
- Victim was engaged in activities promoting their community or group.
- Incident coincided with a holiday or date of particular significance to a group.
- Localized activities of organized hate group(s) or the absence of any other motive(s) such as economic gain.

Some incidents are not clearly identified as hate bias. However, investigative efforts may reveal the incident is hate bias motivated. Depending on the outcome of the follow-up investigation, hate bias incidents are classified as verified, inconclusive, or unfounded.

- *Verified Incident* – An incident committed against a person or property where the investigation leads a reasonable and prudent person to conclude that the offender's actions were motivated, in whole or in part, by their bias against a person's race/ethnicity/ancestry (R/E/A), religion, sexual orientation, disability, gender, gender identity, or homeless status.
- *Inconclusive Incident* – An incident where the evidence is conflicting, incomplete, or otherwise insufficient to classify as verified.
- *Unfounded Incident* – An incident in which the evidence or investigation definitively indicates that it was not motivated by bias against a person's R/E/A, religion, sexual orientation, disability, gender, gender identity, or homeless status, or that the incident did not occur.

Data Declaration

The data contained in this report comes from the Maryland State UCR Portal. Information includes date,

time, incident type, bias motivation, clearance, victim and offender demographics, location, weapons used, injuries, value of property damage, and a written summary of the incident, amongst other things.

In 2012, Maryland added Homeless Status as a protected category under the hate bias statute. In 2015, Gender and Gender Identity were also added. These additions have not made a significant impact on overall reporting as R/E/A, Religion, and Sexual Orientation largely account for bias motivations from the previous 10 years.

Other revisions to categories have included:

- Victim and offender race category was revised to White, Black or African American, American Indian or Alaska Native, Asian, and Native Hawaiian or Other Pacific Islander, multiple races, or unknown.
- The revised ethnicity categories are Hispanic or Latino, Not Hispanic or Latino, multiple ethnicities, or unknown.
- The following religious bias types were added: Anti-Buddhist, Anti-Eastern Orthodox (Greek, Russian, etc.), Anti-Hindu, Anti-Jehovah's Witness, Anti-Mormon, Anti-Other Christian, and Anti-Sikh.
- Bias Motivation Code categories were revised to include: R/E/A, Religion, Sexual Orientation, Disability, Gender, and Gender Identity. The previous Bias Motivation Code, Ethnicity (alone), was eliminated. Other codes, including those for Location and Property Damage Type, were updated as well.

The reports are collected by the MDSP's Central Records Division as mandated by law and are then provided to the MCAC. If a hate bias incident occurs and is not reported to law enforcement, an incident report is not filled out and is not submitted. All information included in this report is analyzed based on the information entered into the Maryland State UCR Portal and submitted to the MDSP. This analysis is current as of 1 July 2025. Incident reports from 2024 received after 1 July 2025 will be reflected in the 2025 Hate Bias Report.

No specific addresses or locations are collected except the incident ZIP Code. No names or personal identifiable information are reported to maintain confidentiality. All percentages are rounded to the nearest tenth of a percent.

III. Executive Summary

There were a total of 921 hate bias incidents reported by Maryland law enforcement during 2024; of those, 316 were verified.

Key Findings

The following statistics account for all incident types, verified, inconclusive, and unfounded:

- The total number of hate bias incidents reported decreased by 3.3% in 2024 compared to the previous year.
- Only Anti-Black or African American had a higher number of total hate bias motivations in 2024 (365) than 2023 (363).
- Anti-Black or African American accounted for 365 of 969 (37.7%) hate bias motivations in 2024. Anti-Jewish accounted for 276 of 969 (28.5%) hate bias motivations in 2024. Anti-Gay (Male) accounted for 56 of 969 (5.8%).
- In 2023, 316 of 952 incidents (33.1%) had a religion-based hate bias motivation. In 2024, 316 of 921 incidents (34.3%) had a religion-based hate bias motivation.
- The total number of incidents with an assault incident code increased to 156 in 2024 compared to 133 in 2023.
- The under 18 age group had the highest number of total victims (202) and the highest number of offenders (233).
- The total number of offenders under the age of 18 (233) is about 2.5 times the total number of offenders in the next highest age range of 31-50 (95).
- For the second year in a row, October experienced the second highest number of incidents reported.
- The K-12 school location type reported the highest number of hate bias incidents for the second year in a row. This location type accounts for 35.4% of total incidents statewide. 82.2% of K-12 school hate bias incidents were reported in Montgomery County.
- In 2024, 46 incidents had multiple hate bias motivations.

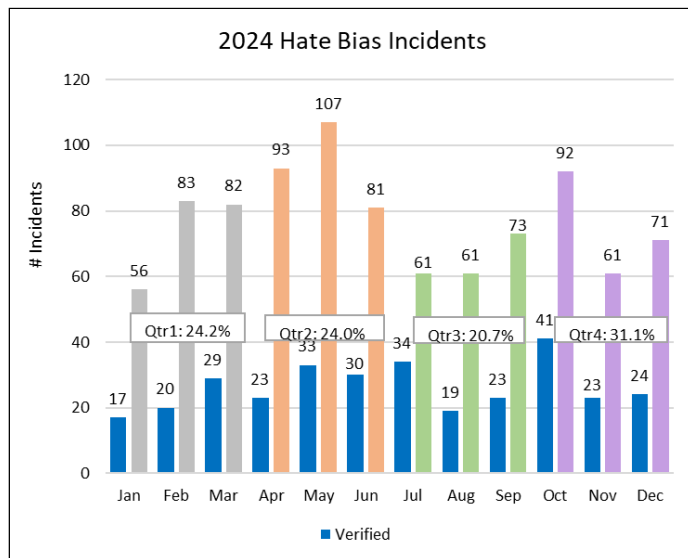

Figure 2: Verified and all incident reporting by month for 2024 are depicted above.

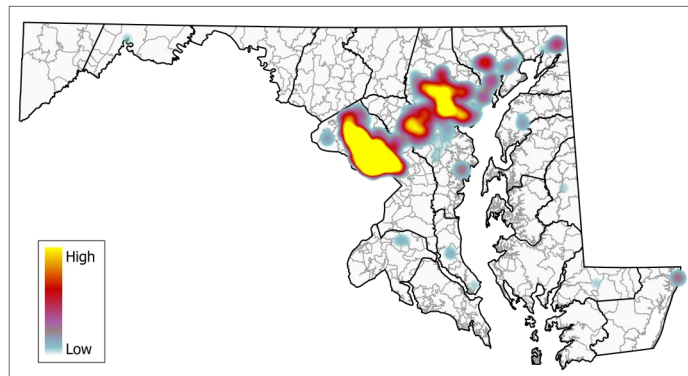

Figure 3: This heat map represents all hate bias incidents reported in 2024.

IV. Analysis by Category

Crime/Incident Classification

Crime/Incident Classification is denoted based on UCR criminal codes and non-criminal codes that correspond with data gathered from the Maryland State UCR Portal.

Crime/Incident Classification	Verified	Total Incident Classifications	Overall Total (%)
Verbal Intimidation	33	288	28.5%
Vandalism, Malicious Destruction of Property	91	277	27.4%
Assault-Hands, Fist, Feet-Simple	57	125	12.4%
Written Intimidation	17	120	11.9%
Other Hate Bias Incident	77	99	9.8%
Larceny Theft	17	30	3.0%
All Other Offenses	14	21	2.1%
Assault-Other Dangerous Weapon - Aggravated Injury	14	17	1.7%
Assault-Firearm-Aggravated Injury	4	5	0.5%
Assault-Hands, Fist, Feet-Aggravated Injury	4	5	0.5%
Assault-Knife - Aggravated Injury	3	4	0.4%
Breaking or Entering Forcible Entry	1	4	0.4%
Breaking or Entering No Force	1	3	0.3%
Robbery - Strong-Arm	3	3	0.3%
Arson	2	2	0.2%
Disorderly Conduct	1	2	0.2%
Illegal Weapons	0	1	0.1%
Robbery-Knife	1	1	0.1%
Sex Offenses (Exclude Rape, Prostitution and Commercialized Vice)	1	1	0.1%
Unknown	1	2	0.2%
Total	342	1,010	

Figure 4: The Crime/Incident Classification for all reported incidents in 2024 is compared to verified incidents in the figure above. Some incidents reported more than one crime or incident classification. A total of 1,010 separate criminal and non-criminal codes were reported for 921 incidents. A total of 342 criminal and non-criminal codes were reported for 316 verified incidents.

Hate Bias Motivation

In 2024, R/E/A continues to be the highest category represented for hate bias motivations at 52.1%.

Anti-Black or African American accounted for 365 of 969 (37.7%) hate bias motivations in 2024. Anti-Jewish accounted for 276 of 969 (28.5%) hate bias motivations in 2024. Anti-Gay (Male) accounted for 56 of 969 (5.8%).

Category	Verified 2022	Total 2022	Verified 2023	Total 2023	Verified 2024	Total 2024
R/E/A	80	312	150	528	182	505

Individual Victim and Offender Analysis

Victim

Hate bias incidents decreased from 2023 to 2024, however, the total number of victims increased from 697 in 2023 to 737 in 2024. When gender and race were known, black males were the most reported.

Offender

When offender gender and race were known, white males were the most reported.

Fifteen incidents involved the use of social media.

Six incidents in Maryland align with nationwide reporting where texts containing derogatory language were received by African Americans in multiple states.

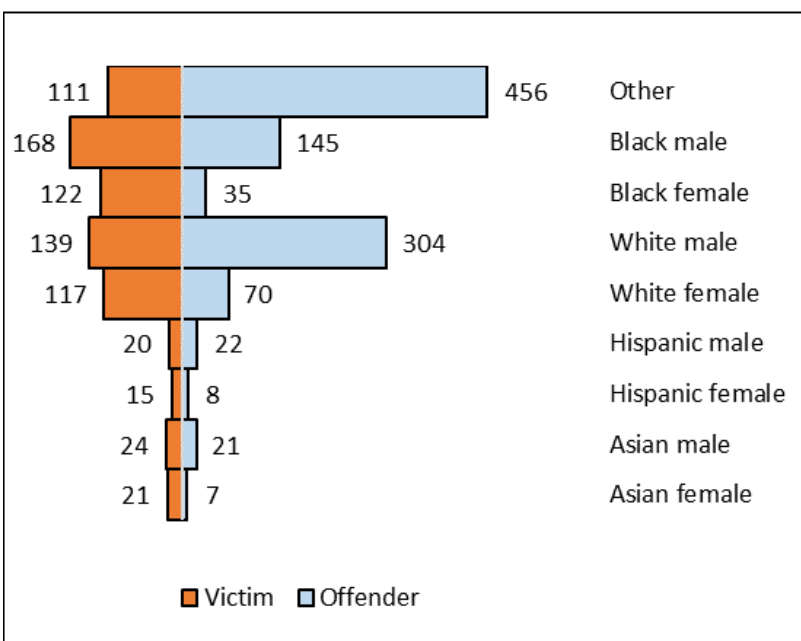

Figure 10: Comparison of known race and gender for 2024 victims and offenders. Incidents where R/E/A and/or gender are unknown are counted in Other.

Victim (Individual) Profile		Verified	All Reports
Race/Ethnicity/ Ancestry	Black	132	309

Figure 9: Victim (Individual) and offender demographics for 2024 are shown above. A hate bias incident can be caused by a single individual, or a group of individuals.

Location of Incidents

There were 29 location types reported for 2024 which include places such as parking garages, restaurants, government buildings, department stores, etc. Of all incidents reported, 35.4% occurred at school-elementary/secondary, 20.4% occurred at a residence/home, 12.8% occurred on a highway/road/alley/street/sidewalk.

Weapons

In 2024, 116 reports indicated the use of a weapon. Of these, 55 indicated “personal weapons” as the weapon used.

The number of incidents that involved weapons increased from 93 in 2023 to 116 in 2024.

In 2024, 97 incidents were verified.

Arrests

Law enforcement reported 50 incidents closed by arrest in 2024.

Damages

Known damage costs incurred for 131 incidents totaled \$701,080.

** Percent of inconclusive over total incidents reported by county.

*** Percent of unfounded over total incidents reported by county.

County Trends

- Montgomery County accounted for over half (52.6%) of all hate bias incidents reported in Maryland during 2024. 12 of the 484 incidents were verified. 20.6% of all hate bias incidents reported in Maryland occurred in one of five ZIP Codes in Montgomery County. They are 20852 (57), 20817 (37), 20901 (33), 20902 (32), 20850 (31).
- 130 of the 145 incidents reported by Baltimore County in 2024 were verified. This represents the highest number of verified incidents in the state.
- No hate bias incidents were reported by Garrett, Queen Anne's, Talbot, Washington or Somerset counties. Garrett and Somerset counties have reported zero incidents since 2020. This does not suggest that zero hate bias incidents reported means no incidents have occurred.

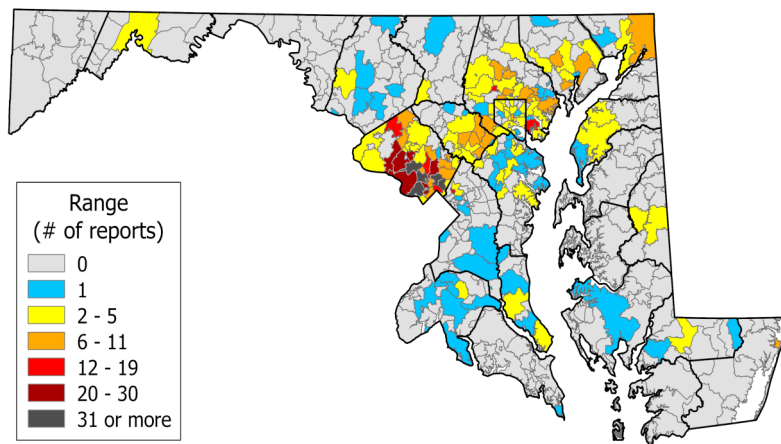

Figure 15: Hate bias reports in 2024 by ZIP Code.

V. Ten Year Summary

In the last 10 years, 2023 had the highest number of incidents reported with 952. 2024 had the second highest number of total incidents with 921.

The largest increase in hate bias reporting took place between 2022 and 2023 (103.6%).

In the last 10 years, Anti-Black or African American was the most reported hate bias motivation each year. Anti-Jewish was the second most reported hate bias motivation each year.

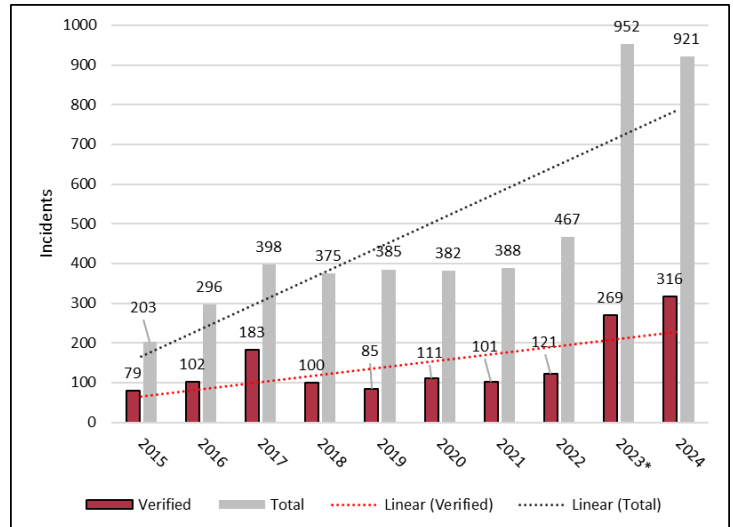

Figure 16: Comparison of verified incidents and all reports from 2015 - 2024. *2023 verified and total numbers adjusted to accurately reflect updated data.

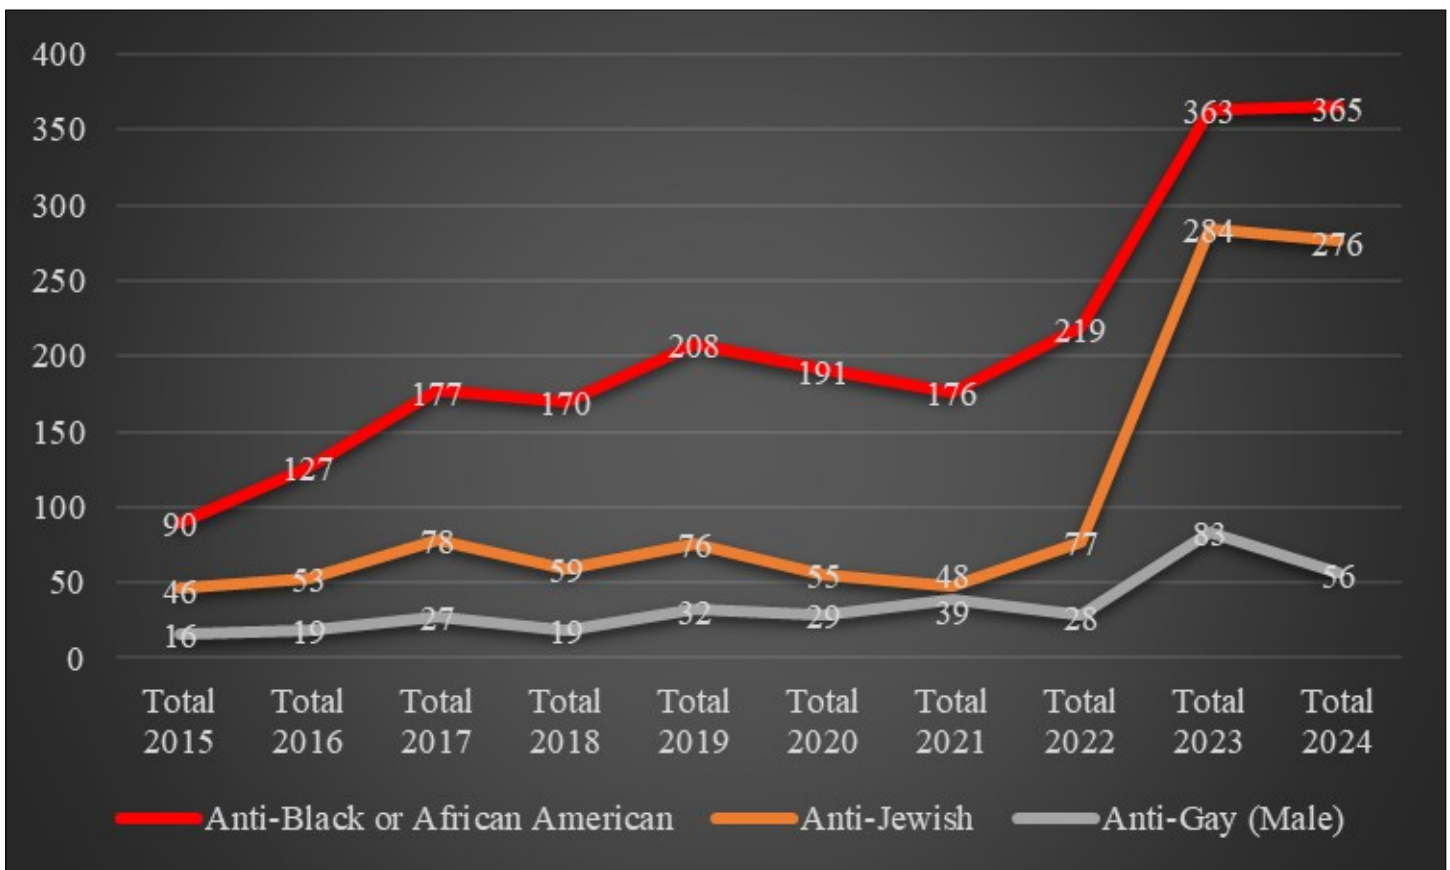

Figure 17: Shown above is a 10 year summary of the three most reported hate bias motivations.

County	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024

VI. Considerations and Hate Crime Laws

In summary, law enforcement and other human relations agencies across the state should continue to monitor hate bias-related problems in their communities. Maryland citizens and law enforcement agencies must continually be diligent in reporting hate bias incidents. Law enforcement personnel are often the first to arrive on the scene of hate bias incidents. In order to meet the needs of the community, training on the recognition, investigation, and reporting of potential hate bias crimes and incidents remains important. It is equally important to encourage the cooperation of law enforcement and the community in addressing hate bias. The concept of community policing throughout Maryland should continue to incorporate hate bias-related issues.

If additional information is required concerning this

report, please contact the Maryland Coordination and Analysis Center at 1-800-492-8477.

Hate Crime Laws

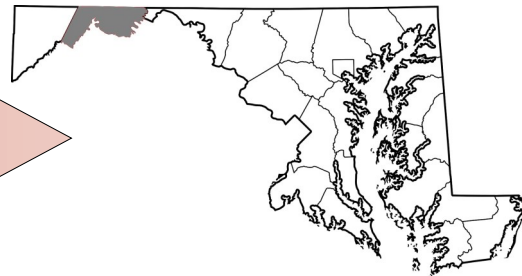

For additional information about Maryland hate crime laws and resources please visit the Maryland Office of The Attorney General's website at: <https://nohomeforhate.md.gov>.

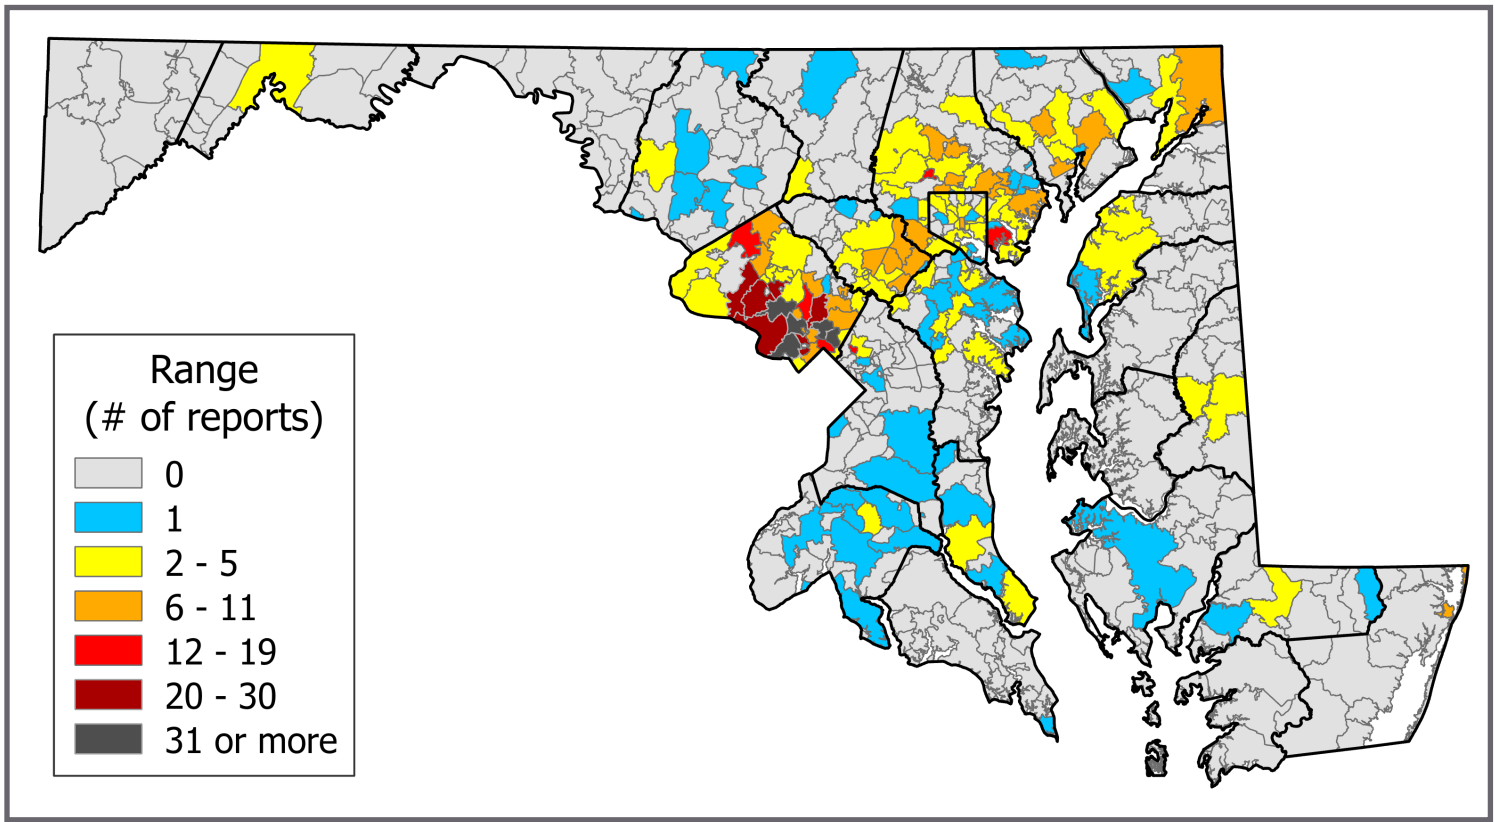

Figure 15 (Enlarged from page 11): Highlighted here are all hate bias reports in 2024 by ZIP Code.

This product was developed by the Maryland Department of State Police in partnership with the Maryland Coordination and Analysis Center.

The data behind this report comes from the Maryland Supplementary Hate Bias Incident Reporting, which is mandated for all Maryland law enforcement agencies to complete when a hate bias incident is encountered. The requirement collects information on date, time, incident type, bias motivation, clearance, victim and offender demographics, location, weapons used, injuries, value of property damage, and a written summary of the incident, amongst other things.

The information reported is based on individual agency policy and procedures, as well as the individual officer's level of training and expertise. The reports are collected by the Maryland Department of State Police Central Records Division as mandated by law and are then provided to the MCAC. If a hate bias incident occurs and is not reported to law enforcement, an incident report is not filled out and is not submitted. All incidents included in this analysis are counted as to what they are marked upon their most current receipt. This analysis is current as of 1 July 2025. Incident reports received after 1 July 2025 will be reflected in the 2025 report.

Assistance from the Maryland State Police and the Maryland Coordination and Analysis Center is available to any law enforcement agency that collects the information for investigative and reporting purposes.
