| TO: | House Judiciary Committee, Senate Judicial Proceedings Committee and Legislative |
|-----|--|
|     | Policy Committee   |

FROM: David Engel, Director, Maryland Coordination and Analysis Center

**SUBJECT:** License Plate Reader (LPR) Program required information per Public Safety Article § 3- 509

### Maryland House Judiciary Committee:

The Honorable Luke H. Clippinger - Chair House Office Building, Room 101 6 Bladen Street, Annapolis, MD 21401

### Maryland Senate Judicial Proceedings Committee:

The Honorable Robert A. Zirkin - Chair Miller Senate Office Building, 2 East Wing 11 Bladen Street, Annapolis, MD 21401 - 1991

### Maryland Legislative Policy Committee:

The Honorable Thomas V. Mike Miller Jr. - Co-Chair The Honorable Michael E. Busch - Co-Chair c/o Department of Legislative Services Legislative Services Building, Room 200B, 90 State Circle, Annapolis, MD 21401

Honorable Chairmen,

In accordance with § 2-1246 of the State Government Article, the Maryland Coordination and Analysis Center (MCAC) is reporting the following information regarding captured License Plate Reader (LPR) data for 2018:

- The total number of automatic license plate reader units being operated in the state by law enforcement agencies and the number of units submitting data to the center: In 2018, 420 License Plate Reader Systems reported captured data to the MCAC Statewide Network, 339 of the systems were mobile and 81 of were at fixed sites.
- 2. The number of automatic license plate reader readings made by a law enforcement agency that maintains an automatic license plate reader database and the number of readings submitted to the center: 14 Law Enforcement Agencies are known to operate their own License Plate Reader storage server. Agencies with their own server are submitting individual audit reports.

### The below chart reflects data received by MCAC from allied agencies in 2018.

MD National Capital Park Police Not Reported to MCAC

\* Established their own server in 2018, reported data is agency total from the entire period. \*\*Reconnected to MCAC during the reporting period.

\*\*\*Towson University's Mobile unit is connected directly to MCAC server.

- 3. The number of automatic license plate reader readings being retained on the automatic license plate reader database: 450,367,620
- 4. The number of requests made to the MCAC: 3,476
- 5. The number of requests that resulted in a release of information: 2,179
- 6. The number of out of state requests: 294
- 7. The number of federal requests: 589
- 8. The number of out of state requests that resulted in a release of information: 155
- 9. The number of federal requests that resulted in a release of information: 409
- 10. Any data breaches or unauthorized uses of the automatic license plate reader database: No
- 11. A list of audits that were completed by the center or a law enforcement agency: A random selection of at least 1% of all queries (8,964 \* 0.01 = 101 minimum records to audit) was conducted. At least 9 records from each month were randomly selected (123 records were audited).

12. The Department of State Police and any law enforcement agency using an automatic license plate reader system shall adopt procedures relating to the operation and use of the system. The procedures shall include:

i. Which personnel in the Center or a law enforcement agency are authorized to query captured plate data gathered by an automatic license plate reader system: Thirty-one (31) Maryland Coordination and Analysis Center employees are authorized to query the database.

ii. An audit process to ensure that information obtained through the use of an automatic license plate reader system is used only for legitimate law enforcement purposes, including audits of requests made by individual law enforcement agencies or an individual law enforcement officer: The Maryland Coordination and Analysis Center developed and implemented a Model Audit Policy in August 2015. The policy was disseminated to all Maryland law enforcement agencies on October 1, 2015. The audit process is explained above in question #11. See attached supporting documentation.

Procedures and safeguards to ensure that Center staff with access to the automatic license plate reader database are adequately screened and trained. The MCAC procedures and safeguards consist of the following training and standards:

- a. 28 CFR Part 23 Collection and Exchange of Intelligence Records.
- b. Maryland Coordination and Analysis Center License Plate Reader Standard Operating Procedures.
- c. 8 Hour License Plate Reader Practicum training approved through the Maryland Police Training and Standards Commission.
- d. All Maryland Coordination and Analysis Center personnel have a background clearance completed by the Department of Homeland Security and/or FBI.

David Engel Director Maryland Coordination and Analysis Center

HOWARD COUNTY DEPARTMENT OF POLICE 3410 Court House Drive, Ellicott City, Maryland 21043

DATE:February 1, 2019TO:Maryland Legislative Policy CommitteeFROM:Chief Lisa D. Myers - Howard County Department of PoliceSUBJECT:License Plate Reader Program Report Per Public Safety Article 3-509,<br/>MSAR 10139

### Maryland Legislative Policy Committee:

Co-Chair – The Honorable Thomas V. Mike Miller Jr. Co-Chair – The Honorable Michael E. Busch c/o Sarah Albert - Department of Legislative Services Legislative Services Building, Room 200B, 90 State Circle, Annapolis, MD 21401

### REF: 2-1246, Howard County Police Department License Plate Reader data 2018

Honorable Chairmen,

CALVIN BALL

County Executive

In accordance with 2-1246 of the State Government Article, the Howard County Police Department is reporting the following information based on License Plate Reader (LPR) data from the previous year:

1. The total number of automatic license plate reader units being operated in the state by law enforcement agencies and the number of units submitting data to the center.

In 2018, the Howard County Police maintained seven (7) automatic license plate reader units on marked police vehicles, and three (3) on unmarked police vehicles.

2. The number of automatic license plate reader readings made by a law enforcement agency that maintains an automatic license plate reader database and the number of readings submitted to the center.

In 2018, the Howard County Police Department had 2,113,762 readings. HCPD began electronically sending its reads to MCAC in the Spring of 2016. HCPD staff will continue to maintain this partnership with MCAC.

CALVIN BALL County Executive

LISA D. MYERS Chief of Police

#### HOWARD COUNTY DEPARTMENT OF POLICE 3410 Court House Drive, Ellicott City, Maryland 21043

# 3. The number of automatic license plate reader readings being retained on the automatic license plate server.

In 2018, the Howard County Police Department had 2,113,762 readings. HCPD maintains tag read data for a period of one year. After one year, it is purged unless it is determined to have evidentiary value in a criminal investigation, necessary for the prosecution of a criminal case or a security matter.

# 4. The number of requests made to the center and each law enforcement agency that maintains an automatic license plate reader database for automatic license plate reader data, including specific numbers for:

There were 1,916 queries of the Howard County LPR reads in 2018. This LPR data is accessible to officers and detectives of the Howard County Police Department who are trained in the use of the LPR camera systems and the EOC (Enterprise Operations Center), which is the camera system/LPR data interface program. The LPR data is only to be accessed and searched for a legitimate law enforcement purpose. Officers who wish to operate one of the LPR vehicles or have access to the Howard County Police LPR data for investigative purposes, receive a two-hour block of instruction on the policies governing the access, use and dissemination of LPR data and in the EOC, so that they may use the information quickly to solve crimes.

#### 5. The number of out of state requests.

HCPD had no out of state requests and no requests from other jurisdictions within the state of Maryland.

#### 6. The number of federal requests.

HCPD had no requests from federal agencies.

### 7. The number of out of state requests that resulted in a release of information.

There were no requests from out of state agencies.

### 8. The number of federal requests that resulted in a release of information.

There were no requests from federal agencies.

TELEPHONE: 410-313-3200 FAX: 410-313-3295 WWW.HOWARDCOUNTYMD.GOV HCPD@HOWARDCOUNTYMD.GOV

Nationally Accredited Since 1990

CALVIN BALL County Executive

LISA D. MYERS Chief of Police

#### HOWARD COUNTY DEPARTMENT OF POLICE 3410 Court House Drive, Ellicott City, Maryland 21043

# 9. Any data breaches or unauthorized uses of the automatic license plate reader database.

None

#### 10. A list of audits that were completed by the center or a law enforcement agency.

The Howard County Police Department's LPR Coordinator conducted monthly audits of the LPR queries. Sixty-one of the 1,916 queries were selected at random (greater than the required 1%) and an audit was conducted, resulting in a 100% rate of compliance. HCPD's Audit process consisted of the following:

When queries of LPR data are conducted, officers and detectives are required to provide a police agency case number and nature of call before they can proceed. The LPR Coordinator selects queries at random, and checks the case number and nature of call against the police department's records management database to confirm the case number exists and is for a legitimate law enforcement purpose.

See attached documents for further details.

CALVIN BALL County Executive

LISA D. MYERS Chief of Police

HOWARD COUNTY DEPARTMENT OF POLICE 3410 Court House Drive, Ellicott City, Maryland 21043

The Department of State Police and any law enforcement agency using an automatic license plate reader system shall adopt procedures relating to the operation and use of the system. The procedures shall include:

1. Which personnel in the Center or a law enforcement agency are authorized to query captured plate data gathered by an automatic license plate reader system.

Trained personnel identified in HCPD Special Order 2011-03 License Plate Recognition <u>Program</u>.

2. An audit process to ensure that information obtained through the use of an automatic license plate reader system is used only for legitimate law enforcement purposes, including audits of requests made by individual law enforcement agencies or an individual law enforcement officer.

HCPD follows MCAC's audit process which is explained in their Model Audit Policy which we received in October 2015.

3. Procedures and safeguards to ensure that center staff with access to the automatic license plate reader database are adequately screened and trained.

HCPD has a training curriculum which consists of the following:

- Sworn HCPD law enforcement officers selected
- 2 hour LPR practical training
- Review of Special Order 2011-03 License Plate Recognition Program

Sincerely,

February 20, 2019

TO: House Judiciary Committee, Senate Judiciary Proceedings Committee, & Legislative Policy Committee

FROM: Ross Buzzuro, Chief of Police

SUBJECT: License Plate Reader (LPR) Program information per Public Safety Article 3-509

### **Maryland House Judiciary Committee:**

Chair – Luke H. Clippinger House Office Building, Room 101 6 Bladen Street, Annapolis, MD 21401

### **Maryland Senate Judicial Proceedings Committee:**

Chair – Robert A. Zirkin Miller Senate Office Building, 2 East Wing 11 Bladen Street, Annapolis, MD 21401 - 1991

### Maryland Legislative Policy Committee:

Co-Chair – Thomas V. Mike Miller Jr. Co-Chair – Michael E. Busch c/o Department of Legislative Services Legislative Services Building, Room 200B, 90 State Circle, Annapolis, MD 21401

Honorable Chairmen,

In accordance with 2-1246 of the State Government Article, the Maryland Coordination & Analysis Center is reporting the following information regarding captured License Plate Reader (LPR) data 2018:

1. The total number of automatic license plate reader units being operated by the Ocean City Police Department. Mobile Units: 1 Camera Systems

Fixed Sites: Route 50 – 4 Cameras Route 90 – 2 Cameras 140<sup>th</sup> Street – 6 Cameras MAYOR RICHARD W. MEEHAN

CITY COUNCIL

LLOYD MARTIN President

MARY P. KNIGHT Secretary

DENNIS W. DARE TONY DELUCA MARK PADDACK MATTHEW M. JAMES JOHN F. GEHRIG, JR.

CITY MANAGER DOUGLAS R. MILLER

CITY CLERK DIANA L. CHAVIS House Judiciary Committee, Senate Judiciary Proceedings Committee, & Legislative Policy Committee February 20, 2019 Page 2

2. The number of automatic license plate reader readings made by the Ocean City Police Department.

### Mobile Unit – 8,347 Fixed Sites – 15,156,957

- 3. The number of automatic license plate reader readings being retained on the automatic license plate reader database. Reads are retained for a 60 day period to ensure the data is successfully transmitted to the Maryland Coordination and Analysis Center, then deleted.
- 4. The number of requests made to the Ocean City Police Department. Eight (8)
- 5. The number of requests that resulted in a release of information. Four (4)
- 6. The number of out of state requests. Zero (0)
- 7. The number of federal requests. Zero (0)
- 8. The number of out of state requests resulting in a release of information. Zero (0)
- 9. The number of federal requests that resulted in a release of information. Zero (0)
- 10. Any data breaches or unauthorized uses of the automatic license plate reader database. **None**
- 11. A list of audits completed by the Ocean City Police Department. See attached.
- 12. Any law enforcement agency using an automatic license plate reader system shall adopt procedures relating to the operation and use of the system. The Ocean City Police Department developed and implemented Standard Operating Procedure OPS-012 outlining departmental procedure for operation and use of L.P.R. systems. All authorized users received training in 2018.
  - i. Which personnel in the law enforcement agency are authorized to query captured plate data gathered by an automatic license plate reader system. There are only two (2) Ocean City Police officers authorized to query L.P.R. data.

City Hall - (410) 289-8221 • FAX - (410) 289-8703

www.oceancitymd.gov

House Judiciary Committee, Senate Judiciary Proceedings Committee, & Legislative Policy Committee February 20, 2019 Page 3

- ii. An audit process to ensure that information obtained through the use of an automatic license plate reader system is used only for legitimate law enforcement purposes, including audits of requests made by individual law enforcement agencies or an individual law enforcement officer. See attached request form / audit.
- iii. Procedures and safeguards to ensure that staff with access to the automatic license plate reader database are adequately screened and trained. The two (2) authorized personnel are sworn law enforcement officers. Both are police commanders with the rank of Lieutenant. Both have background clearance.

For additional information, please contact the Ocean City Police Department License Plate Reader Administrator Lt. Scott Harner at 410-520-5318 or at <u>sharner@oceancitymd.gov</u>.

Subject: Automated License Plate Recognition

### **Table of Contents**

- I. Purpose:
- II. Definitions:
  - A. **A.L.P.R.**
  - B. Read
  - C. Alert
  - D. Hit
  - E. Hot List
  - F. A.L.P.R. System
  - G. Active A.L.P.R. Data
  - H. Historical A.L.P.R. Data
- III. Policy:
- IV. Procedures:
  - A. General
  - B. Administration
  - C. A.L.P.R. Deployment and Use
  - D A.L.P.R. Data Sharing and Dissemination
  - E. Maintenance

### I. Purpose:

The purpose of this policy is to provide employees with guidelines on the proper use of automated license plate recognition (A.L.P.R.) systems.

### II. Definitions:

- A. A.L.P.R. Automated License Plate Recognition.
- B. **Read:** Digital images of license plates and vehicles and associated metadata (date, time, and geographic coordinates associated with the vehicle image capture) that are captured by the A.L.P.R. system database.
- C. **Alert:** A visual and/or auditory notice that is triggered when the A.L.P.R. system receives a potential "hit" on a license plate.
- D. **Hit:** A read matched to a plate that has previously been registered on an agency's "hot list" of vehicle plates related to stolen vehicles, wanted vehicles, or other factors supporting investigation, or which has been manually registered by a operator for further investigation. A hit is not conclusive confirmation of a match.
- E. Hot list: A database of license plate numbers of stolen cars, vehicles owned by persons of interest, and vehicles associated with AMBER Alerts that are regularly added to "hot lists" circulated among law enforcement agencies. Hot list information can come from a variety of sources, including stolen vehicle information from the National Insurance Crime Bureau and the National Crime Information Center (NCIC), AMBER Alerts, Department of Homeland Security watch lists, Maryland Motor Vehicle Administration lists, as well as Departmental lists. These lists serve an officer safety function as well as an investigatory purpose. In addition to agency supported hot lists, operators may also manually add information to hot lists in order to be alerted if and when a vehicle license plate of interest is "read" by the A.L.P.R. system.
- F. **A.L.P.R. System:** A.L.P.R. cameras and/or computers and software that are affixed, either permanently or temporarily to a law enforcement vehicle or to a fixed object.
- G. Active A.L.P.R. Data: Information provided to an A.L.P.R. operator in realtime in the form of alerts that a license plate number contained in the hot list is near an A.L.P.R. unit. This includes A.L.P.R. data recorded during a patrol shift that is contained in the ALPR and has not been transferred to the historical database server.
- H. **Historical A.L.P.R. Data:** A database containing the dates, times, and locations of individually identifiable motor vehicles that is stored for future use

### III. Policy:

A.L.P.R. systems are primarily used for the identification of stolen vehicles, stolen license plates, and wanted and missing persons. It is the policy of the Department that A.L.P.R. systems will be utilized only by sworn employees or by authorized administrators who are trained in the use of A.L.P.R. systems.

### IV. Procedures:

- A. General
  - 1. The use of A.L.P.R. systems and access to its database records is restricted and shall be used in accordance with the manufacturer's recommendations and this policy
  - 2. No employee shall use or authorize the use of A.L.P.R. database records for reasons that are not legitimate law enforcement purposes. Misuse of this equipment and associated databases, or data, may result in disciplinary action.
  - 3. A.L.P.R. systems and A.L.P.R. database records and any associated media are the property of the Department and are intended for law enforcement purposes.
- B. Administration
  - 1. The Department shall designate an employee(s) with administrative oversight for A.L.P.R. system deployment and operations who is (are) responsible for the following:
    - a. Establishing protocols for access, collection, storage, and retention of A.L.P.R. databases and associated data.
    - b. Establishing protocols to preserve and document A.L.P.R. reads and "alerts" or "hits" that are acted on in the field or associated with investigations or prosecutions.
    - c. Establishing protocols to ensure the security and integrity of data captured, stored, and/or retained by the A.L.P.R. system.
    - d. Ensuring compliance with the terms of any M.O.U. (memoranda of understanding) associated with A.L.P.R. systems.
  - 2. Designated, trained personnel shall check equipment on a regular basis to ensure functionality and camera alignment. Equipment that falls outside expected functionality shall not be used and shall be removed from service until the A.L.P.R. system is tested and repaired if necessary.
  - 3. A.L.P.R. systems diagnostics and repairs, hardware or software, shall be made by Department authorized sources.

- C. A.L.P.R. Deployment and Use
  - 1. At the start of each shift operators shall ensure that the A.L.P.R. system has been updated with the most current hot lists available.
  - 2. Operators can obtain the current hot list at <u>https://sftp.mdot.state.md.us/</u> Operators shall then enter their user name and password and obtain the file.
  - 3. Upon receiving an alert, prior to initiating a stop, the A.L.P.R. operator shall utilize whatever information is available to determine the accuracy of the hit by;
    - a. Visually verifying that the vehicle plate number matches the plate number captured by the A.L.P.R. system, including both alphanumeric characters of the license plate and the state of issuance.
    - b. Verify the current status of the information provided by the hit through the Communications Section or MCT query. Receipt of a hit is not sufficient probable cause to initiate a stop without verification. Verification of the information is essential before initiating a stop, furthering the investigation or taking any enforcement action.
  - 4. If an operator verifies a hit as being accurate, the operator shall take appropriate action in accordance with Department policy and procedure.
  - 5. In each case in which a hit is received, the operator should record the disposition of the hit into the A.L.P.R. system by selecting either "Accept" or "Misread"
  - 6. Administrators and operators may manually enter information into the A.L.P.R. system database. Whenever information is manually entered into the database;
    - a. It must be for legitimate law enforcement purposes.
    - b. It is the responsibility of the person entering the information to remove the information once it no longer serves a legitimate law enforcement purpose.
  - 7. Searches of historical A.L.P.R. data within the A.L.P.R. system database shall be conducted in accordance with established departmental policies and procedures.
- D A.L.P.R. Data Sharing and Dissemination

Both active A.L.P.R. data and historical A.L.P.R. data should be considered "for official use only" and can be shared for legitimate law enforcement purposes:

- 1. When A.L.P.R. data is disseminated outside the Department, it should be documented in a secondary dissemination log.
- 2. Information sharing among agencies should be dictated in accordance with M.O.U.s or established Departmental policies.
- E. Maintenance
  - 1. A.L.P.R. operators shall not attempt to modify the A.L.P.R. system equipment or software
  - 2. A vehicle equipped with an A.L.P.R. system shall not be driven into any automatic car wash
  - 3. A.L.P.R. camera lenses may be cleaned in accordance with the manufacturers' recommendations
  - 4. A.L.P.R. operators shall notify a supervisor and the A.L.P.R. Administrators via official channels of any A.L.P.R. equipment needing maintenance of repair.
