PROGRAM DUPLICATION/ PROLIFERATION REPORT:

2019 COLLEGIATE PROGRAM ACTIONS BY THE MARYLAND HIGHER EDUCATION COMMISSION

MSAR #2387

August 2022

PROGRAM DUPLICATION/PROLIFERATION REPORT:

**2019 COLLEGIATE PROGRAM ACTIONS BY THE
MARYLAND HIGHER EDUCATION COMMISSION**

August 2022

EXECUTIVE SUMMARY

In accordance with § 11-206.1 of the Education Article, this report addresses the issue of program duplication and proliferation among collegiate program approvals granted by the Maryland Higher Education Commission (MHEC) in 2019. Specifically, MHEC is required to:

(1) Monitor the program development and review process established under this section;

(2) Report annually to the Governor and, in accordance with § 2-1257 of the State Government Article, the General Assembly on the nature and extent of any duplication or proliferation of programs; and

(3) Make available a copy of the report under item (2) of this subsection to the public institutions of higher education and the private nonprofit institutions of higher education.

This report is divided into six sections and includes the approval of new degree programs, certificate programs, and areas of concentration at both in-state and out-of-state institutions. It also includes the acknowledgment of new institutional partnership agreements and the approval of existing programs approved for off-site delivery. Finally, it includes the number of suspended and discontinued programs, program proposals withdrawn, partnerships, off-campus programs, and program proposals not approved or recommended.

Section I includes a summary of all MHEC program proposal actions taken between January 1, 2019 and December 31, 2019[1]. **Section II** provides an analysis of new degree programs approved for offering by Maryland in-state colleges and universities at the associate, bachelor's, master's, and doctoral levels. It includes an indication of whether at least one program of a similar nature is already offered at a Maryland in-state institution. A summary of the MHEC staff analysis process for duplication and proliferation is included, citing the applicable COMAR regulations. **Section III** contains a similar analysis for certificate programs, **Section IV** for areas of concentration, and **Section V** for academic programs from out-of-state institutions authorized to be offered in Maryland. **Section VI** provides a summary analysis of those programs that were not approved or recommended for implementation by MHEC in 2019. The Appendices list substantial and non-substantial modifications to academic programs, institutional partnerships, off-campus programs, suspended and discontinued programs as well as proposals that were withdrawn.

---

[1] 2019 in this report refers to the calendar year, not the fiscal year.

In 2019, **145 of 233 (62%)** approved in-state and out-of-state academic programs were determined by MHEC to be completely unique and not previously offered in Maryland. The remaining **88** academic programs were already offered by at least one in-state college or university and were determined to have met the standards for reasonable duplication[2]. Academic programs include degrees and certificates, but not areas of concentration within degree programs. Areas of concentration may only be offered within approved degree programs.

---

[2] A description of duplication can be found on p. 11.

SECTION I
2019 MHEC COLLEGIATE PROGRAM ACTIONS SUMMARY

Actions for In-State Institutions (ISI)	Number of Actions	Segment
New Degree Programs	35	at independent colleges and universities
	36	at public four-year colleges and universities
	19	at public community colleges
New Certificate Programs	16	at independent colleges and universities
	9	at public four-year colleges and universities
	22	at public community colleges
New Areas of Concentration	3	at independent colleges and universities
	1	at public four-year colleges and universities
	13	at public community colleges
Substantial Modifications to Existing	6	at independent colleges and universities
	12	at public four-year colleges and universities
	24	at public community colleges
Non-substantial Modifications to Existing	54	at independent colleges and universities
	62	at public four-year colleges and universities
	114	at public community colleges
Withdrawn Proposals	0	at independent colleges and universities
	1	at public four-year colleges and universities
	1	at public community colleges
Institutional Program Partnerships	1	at independent colleges and universities
	7	at public four-year colleges and universities
	0	at public community colleges
Proposals Not Approved/Recommended	1	at independent colleges and universities
	0	at public four-year colleges and universities
	0	at public community colleges
2019 Total ISI Program Proposal Actions	437	

Actions for Out-of-State Institutions (OOS)	Total	Segment
New Programs	56	at out-of-state institutions
Renewal Programs	40	
New Areas of Concentration	32	
Renewed Areas of Concentration	4	
Conditional Approval	0	
Discontinued	0	
Proposals Withdrawn	4	
Not Approved/Recommended	3	
2019 Total OOS Program Proposal Actions	139	

2019 Total ISI and OOS Program Proposal Actions	576

SECTION II

**ANALYSIS OF NEW DEGREE PROGRAMS OFFERED BY
MARYLAND COLLEGES AND UNIVERSITIES**

In 2019 a total of **90** new degree programs at in-state institutions were either approved (applies to public institutions) or recommended for implementation (applies to independent institutions) by MHEC. By segment, **35** of these programs were recommended for independent colleges and universities, **36** approved for public four-year colleges and universities, and **19** approved for public community colleges. They are listed by degree type and institution below, with the approval or recommendation date.

Associate Degrees

Institution	Degree Level	Program Title	Action Date	Offered Elsewhere in Maryland
Carroll Community College	AAS	Digital Design and Fabrication	01/03/19	Y

MHEC Staff Analysis for Proliferation or Duplication

Of the **90** degree programs at in-state institutions that were approved or recommended for implementation by MHEC in 2019, **48** were already being offered by at least one other in-state college or university. In the tables above, those programs are marked with a "Y" in the column titled "Offered Elsewhere in Maryland." In **42** programs, marked with an "N" in the column titled "Offered Elsewhere in Maryland," were determined to be unique programs that were not currently being offered at any other in-state college or university.

The Collegiate Unit in MHEC's Division of Academic Affairs conducts reviews of program proposals submitted by both in-state and out-of-state institutions. The Collegiate Unit distributes each proposal to all in-state institutions for review and comment, and considers any comments or objections submitted during the review of the program proposals. In-state program proposal reviews are governed by COMAR 13B.02.03.06 and use the following criteria:

- Centrality to institutional mission statement and planning priorities
- Critical and compelling regional or Statewide need as identified in the State Plan
- Quantifiable and reliable evidence and documentation of market supply and demand in the region and service area
- Reasonableness of program duplication, if any
- Relevance to the implementation or maintenance of high-demand programs at HBIs
- Relevance to the support of the uniqueness and institutional identities and missions of HBIs
- Adequacy of curriculum design and delivery to related learning outcomes
- Adequacy of faculty resources
- Adequacy of library resources
- Adequacy of physical facilities, infrastructure, and instructional equipment
- Adequacy of financial resources
- Adequacy of provisions for evaluation of program
- Consistency with the Commission's minority student achievement goals
- Relationship to low productivity programs identified by the Commission[3]

When determining if proposed programs are duplicative of similar programs in the State and/or same geographic area, MHEC staff members conduct a Classification of Instructional Program Standard Occupational Code (CIP-SOC) analysis in order to establish a crosswalk between academic programs and relevant occupations. Every program approved by MHEC receives a CIP code to facilitate both state and federal reporting. CIP and SOC are databases managed by the U.S. Department of Education and Bureau of Labor Statistics, respectively. Further, data from the Maryland Department of Labor (DOL) are used to determine regional and statewide occupational demand projections, and MHEC's Enrollment Trends (E-Trends) and Degree Trends (D-Trends) databases are reviewed to analyze the student and graduate supply pipelines for a given academic program.

---

[3] This consideration applies only to enrollment trends at in-state institutions.

In-state program proposals reviews are further governed by COMAR 13B.02.03.08 and COMAR 13B.02.03.09, which are regulations that address the need for proposed programs and duplication of proposed programs, respectively. These are included in the two tables below:

COMAR 13B.02.03.08: Need for the Proposed Program

A. A proposed program shall meet a critical and compelling regional or Statewide need as identified in the State Plan.
 	
 B. A program proposal shall clearly demonstrate demand and need for the program in terms of meeting present and future needs of the region and the State in general. Four kinds of needs may be identified:
    (1) The need for the advancement and evolution of knowledge;
    (2) Societal needs, including expanding educational opportunities and choices for minority and educationally disadvantaged students at institutions of higher education;
    (3) Occupational and professional needs relative to upgrading vocational/ technical skills or meeting job market requirements; and
    (4) The need to strengthen and expand the capacity of historically black institutions to provide high quality and unique educational programs.
 	
 C. The Commission recognizes and supports the tradition of liberal arts education and the need for programs that offer individual and societal benefits independent of manpower or market demand considerations. These programs provide immeasurable returns to the State in part by instilling in citizens a capacity for advanced learning and an understanding of the fundamentals of civilization.
 	
 D. Market Demand Data.
    (1) This section does not apply to programs in the liberal arts and sciences.
    (2) An institution proposing a new program shall present data projecting market demand and the availability of openings in the job market to be served by the new program. The types of information submitted vary, depending on the program, but may include manpower and employment projections prepared by the Maryland Department of Labor, Licensing, and Regulation, Bureau of Labor Statistics, Census Data, and the Maryland Department of Business and Economic Development as well as professional and trade associations.
    (3) An institution shall conduct market surveys that clearly provide quantifiable and reliable data from prospective employers on the educational and training needs and the anticipated number of vacancies expected over the next 5 years.
    (4) In assessing demand for a new program, an institution shall also present data showing the current and projected supply of prospective graduates.
 	
 E. Identification of Programs Having Market Demand.
    (1) The Commission shall identify, on a regular basis, programs that are in market demand in Maryland.
    (2) For each program identified, the Commission shall also provide an indication of minority participation rates, identifying those programs where minorities are underrepresented.
    (3) Institutions maintaining a role and mission appropriate and consistent with those fields declared as shortage areas are encouraged to develop specific programs.

(4) Proposals submitted in response to a declared shortage area do not need to include additional documentation on market demand and supply data.

F. As an additional indicator of need, an institution shall clearly detail how program success will be defined and measured, particularly if the definition includes measures in addition to the conferral of a degree or certificate.

COMAR 13B.02.03.09 Duplication of the Proposed Program

A. The elimination of unreasonable program duplication is a high priority. Ordinarily, proposed programs in undergraduate core programs consisting of basic liberal arts and sciences disciplines are not considered unnecessarily duplicative. Unreasonable duplication is a more specific concern in vocational/technical, occupational, graduate, and professional programs which meet special manpower needs. The issue of how a proposed program meets an institution's local and State area needs shall be addressed.

B. Evidence demonstrating that a proposed program is not duplicative of similar offerings in the State shall be submitted by the institution. At a minimum, this evidence shall be substantiated on the basis that the proposed program to be offered is not unreasonably duplicative of existing programs in a specific geographically proximate location in the State.

C. Determination of Duplication.
    (1) In determining whether a program is unreasonably duplicative, the Secretary shall consider:
    (a) The degree to be awarded;
    (b) The area of specialization;
    (c) The purpose or objectives of the program to be offered;
    (d) The specific academic content of the program;
    (e) Evidence of equivalent competencies of the proposed program in comparison to existing programs;
    (f) An analysis of the market demand for the program.
    (2) The analysis shall include an examination of factors, including:
    (a) Role and mission;
    (b) Accessibility;
    (c) Alternative means of educational delivery including distance education;
    (d) Analysis of enrollment characteristics;
    (e) Residency requirements;
    (f) Admission requirements; and
    (g) Educational justification for the dual operation of programs broadly similar to unique or high-demand programs at HBIs.

SECTION III

ANALYSIS OF NEW CERTIFICATE PROGRAMS OFFERED BY MARYLAND COLLEGES AND UNIVERSITIES

In 2019, a total of **47** certificate programs at in-state institutions were approved or recommended for implementation by MHEC. By segment, **16** of these programs were recommended for independent colleges and universities, **9** approved for public four-year colleges and universities, and **22** approved for public community colleges. They are listed by certificate level and institution below, with the approval or recommendation date.

Lower-Division Certificates

Institution	Degree Level	Program Title	Action Date	Offered Elsewhere in Maryland
Wor-Wic Community College	DTC	Corrections Technology Certificate	2/25/2019	Y

Johns Hopkins University	PMC	Health Systems Management	10/23/2019	N
University of Maryland, Baltimore County	PMC	College Teaching and Learning Science	10/25/2019	N

MHEC Staff Analysis for Proliferation or Duplication

Of the **47** certificate programs at in-state institutions that were approved or recommended for implementation by MHEC in 2019, **28** were already being offered by at least one other in-state college or university. In the tables above, those programs are marked with a "Y" in the column

titled "Offered Elsewhere in Maryland." In these cases, MHEC staff determined that such duplication was reasonable. The remaining **19** programs, marked with an "N" in the column titled "Offered Elsewhere in Maryland," were determined to be unique programs that were not currently being offered at any other in-state college or university.

As mentioned in Section I of this report, the Collegiate Unit in MHEC's Division of Academic Affairs conducts reviews of program proposals submitted by both in-state and out-of-state colleges and universities. This includes new certificate programs. The proposal review for certificate programs is governed by COMAR 13B.02.03.06 and follows the same methodology outlined in the previous section of this report. The occasional exception to this process is a proposed certificate program in which the proposed curriculum already exists within an approved degree program. COMAR 13B.02.03.25D allows institutions to submit a truncated proposal for such programs, although MHEC staff still review the proposal to ensure that it (1) explains the centrality of the proposed certificate program to the mission of the institution; (2) provides evidence of the market demand for the proposed certificate program; (3) sets out the curriculum design; and (4) shows that adequate faculty resources exist for the proposed certificate program.

SECTION IV

**ANALYSIS OF NEW AREAS OF CONCENTRATION OFFERED BY
MARYLAND COLLEGES AND UNIVERSITIES**

In 2019, a total of **17** Areas of Concentration at in-state institutions were approved or recommended for implementation by MHEC. **Three** of these programs were recommended for independent colleges and universities, **1** were approved for public four-year colleges and universities, and **13** was approved for public community colleges. They are listed by award level and institution below, with the approval or recommendation date

COMAR considers the addition of an Area of Concentration as a "substantial modification" to an existing degree program rather than a new academic program. Areas of Concentration may also be proposed at the time a degree program is originally being approved. Consequently, they are reviewed in accordance with COMAR 13B.02.03.06. Areas of Concentration are recognized for degrees at the associate's, bachelor's, master's, or doctoral levels.

Associate Degree Areas of Concentration

Institution	Degree Level	Program Title	Area of Concentration	Action Date
Anne Arundel Community College	AA	Arts and Sciences	English	9/27/2019
Baltimore City Community College	AS	Arts and Sciences	Actuarial Science	2/8/2019
Chesapeake College	AA	Arts and Sciences	Agriculture	3/6/2019
Frederick Community College	AA	Arts and Humanities	Mass Communication	4/24/2019
Frederick Community College	AAS	STEM Technology	CAD Engineering Technology	5/20/2019
Harford Community College	AAS	Engineering Technology	Additive Manufacturing	7/1/2019
Howard Community College	AA	Arts and Sciences	Humanities	6/6/2019
Howard Community College	AA	Arts and Sciences	World Languages and Cultures	6/6/2019
Prince George's Community College	AA	General Studies	Theatre Design and Production	5/20/2019
Prince George's Community College	AA	General Studies	Theatre Performance	5/20/2019
Prince George's Community College	AA	General Studies	Dance Performance and Choreography	8/8/2019
Wor-Wic Community College	AA	General Studies	Communication Studies	3/1/2019
Wor-Wic Community College	AAS	Business Management	Social Media	3/1/2019

Bachelor's Degree Areas of Concentration

Institution	Degree Level	Program Title	Concentration	Action Date
Washington College	BA	Communication and Media Studies	Film Studies	3/6/2019

Master's Degree Area of Concentration

Institution	Degree Level	Program Title	Concentration	Action Date
Frostburg State University	MS	Nursing	Nursing Leadership and Management	3/25/2019
Johns Hopkins University	MA	Film and Media	Immersive Storytelling and Emerging Technologies	9/4/2019
Johns Hopkins University	MS	Marketing	Marketing Analytics	2/7/2019

SECTION V

**ANALYSIS OF ALL NEW PROGRAMS OFFERED BY
OUT-OF-STATE (OOS) COLLEGES AND UNIVERSITIES**

In 2019, a total of **96** academic programs from out-of-state institutions were granted authorization to operate in Maryland. These programs were required to gain authorization based on instructional components offered on the ground in Maryland (either classroom-based or experiential components, such as practica and internships). They are listed by award level below, with the authorization date listed. (Note: The aforementioned approvals include **56** new programs and **40** renewal programs.)

The programs in the tables below do not include fully online programs from out-of-state institutions that were issued registration under the requirements of Education Article § 11-202.2 of the Annotated Code of Maryland and COMAR 13B.05.01. Program duplication is not a criterion that can be used to determine whether to issue registration to fully online out-of-state programs.

Associate Degrees – OOS (13)

Institution	Degree Level	Program Title	New (N) or Renew (R)	Action Date	Offered Elsewhere in MD

MHEC Staff Analysis for Proliferation or Duplication

Of the **96** programs at out-of-state institutions that were authorized by MHEC to be offered in Maryland, including renewal programs, **12** were already being offered by at least one other in-state college or university. In the tables above, those programs are marked with a "Y" in the column titled "Offered Elsewhere in Maryland." In these cases, MHEC staff determined that such duplication was reasonable. The remaining **84** programs, marked with an "N" in the column titled "Offered Elsewhere in Maryland," were determined to be unique programs that were not currently being offered at any other in-state college or university.

As mentioned in Section I of this report, the Collegiate Unit in MHEC's Division of Academic Affairs conducts reviews of program proposals submitted by both in-state and out-of-state colleges and universities. The process includes distribution of the proposal to all in-state institutions for review and comment. Both in-state and out-of-state program proposal reviews are governed by COMAR 13B.02.03.06 and use the following criteria in determining approval or denial:

- Centrality to institutional mission statement and planning priorities
- Critical and compelling regional or Statewide need as identified in the State Plan
- Quantifiable and reliable evidence and documentation of market supply and demand in the region and service area
- Reasonableness of program duplication, if any
- Relevance to the implementation or maintenance of high-demand programs at HBIs
- Relevance to the support of the uniqueness and institutional identities and missions of HBIs
- Adequacy of curriculum design and delivery to related learning outcomes
- Adequacy of faculty resources
- Adequacy of library resources
- Adequacy of physical facilities, infrastructure, and instructional equipment
- Adequacy of financial resources
- Adequacy of provisions for evaluation of program
- Consistency with the Commission's minority student achievement goals
- Relationship to low productivity programs identified by the Commission[4]

Further, out-of-state program proposal reviews are governed by COMAR 13B.02.01, drawing upon the aforementioned criteria as well as the criteria below to determine if a program could be considered unreasonably duplicative:

- Degree to be awarded
- Area of specialization
- Purpose or objective of the program or course of study to be offered
- Specific academic content of the program or course of study
- Quality of the proposed program in comparison to existing programs
- An analysis of the market for the program
- State's equal educational opportunity obligations under State and federal law
- Critical and compelling regional or Statewide need

---

[4] This consideration applies only to enrollment trends at in-state institutions.

- Consistency with the Maryland State Plan for Postsecondary Education
- Demand and need for a program, in terms of meeting present and future needs of the region and the State in general. Two kinds of need may be identified:
  - Societal needs, including the tradition of liberal arts education, which provides immeasurable returns to the State in part by instilling in citizens a capacity for advanced learning and individual and societal benefits regardless of workforce or market demand considerations; and
  - Occupational needs relative to meeting workforce requirements or upgrading vocational or technical skills.
- Market demand data and job market openings to be served by the new program
- Recently collected, existing, or new market surveys that clearly provide quantifiable and reliable data from prospective employers on educational and training needs, and the anticipated number of vacancies expected over the next five years (with the exception of programs in the liberal arts)
- Data showing the current supply of graduates in that program area in the State and region

Out-of-state institutions must address all areas of COMAR 13B.02.01 in their application for a new academic program. When determining if proposed programs from out-of-state institutions are duplicative of similar programs offered by in-state institutions, MHEC staff members conduct a Classification of Instructional Program Standard Occupational Code (CIP-SOC) analysis in order to establish a crosswalk between academic programs and relevant occupations. Every program approved by MHEC receives a CIP code to facilitate both state and federal reporting. CIP and SOC are databases managed by the U.S. Department of Education and Bureau of Labor Statistics, respectively. Further, data from the Maryland Department of Labor (DOL) are used to determine regional and statewide occupational demand projections, and MHEC's Enrollment Trends (E-Trends) and Degree Trends (D-Trends) databases are reviewed to analyze the student and graduate supply pipelines for a given academic program. In some cases, supplemental data from trade journals or other publications may be used as well. MHEC staff may recommend that the Secretary of Higher Education authorize an out-of-state program even if it is duplicative of existing programs in the State, if data from the sources referenced above indicate that the State's supply of college and university graduates in that field does not meet the projected occupational demand.

SECTION VI
PROGRAM PROPOSALS NOT APPROVED OR RECOMMENDED FOR IMPLEMENTATION BY MHEC

In 2019, a total of **4** in-state and out-of-state academic program proposal were not approved by MHEC – **1** Maryland Independent College and University Association institution and **3** from out-of-state institutions. In these cases, unnecessary duplication and a lack of market need were primary factors in the decisions. Market need involves an analysis of the current supply of graduates from in-state postsecondary institutions and projected occupational demand for associated job classifications. Sufficient evidence was not presented to allow for the dual operation of these programs, and they were deemed duplicative.

In-state Proposal not Recommended

Institution	Degree Level	Program Title	Reason	Action Date
Loyola University Maryland	M.B.A.	Business Administration	Unreasonable program duplication	7/19/2019

Out-of-State Proposals not Approved

Institution	Degree Level	Program Title	Reason	Action Date
Washington University of Virginia	M.R.E.	Religious Education	No market need	6/17/2019
Washington University of Virginia	M.C.C.	Christian Counseling	No market need	6/17/2019
Columbia College	A.A.S.	Cosmetology	No market need	9/23/2019
