Maryland Health and Higher Educational Facilities Authority

The mission of the Maryland Health and Higher Educational Facilities Authority (Authority) is to assist non-profit educational institutions and hospitals and related healthcare organizations in financing the construction and acquisition of capital projects. In the pursuit of this goal, the Authority strives to keep abreast of opportunities to reduce the cost of capital in order to meet the changing needs of our borrowing institutions and assure their strength as vital assets of the state.

The Authority is empowered to perform a variety of functions on behalf of its constituents, including the following:

- *Issuing fixed and variable rate bonds and notes, including commercial paper.*
- *Financing and refinancing construction, renovation and equipping of facilities for nonprofit hospitals, colleges, universities, non-collegiate schools, life plan communities, nursing homes, assisted living facilities and other long-term care facilities.*
- *Entering into leases and subleases of projects and contracts for the operation and management of projects for these institutions.*
- *Making loans to participating institutions to finance projects, including hospital facilities, ambulatory care centers and other outpatient facilities, parking garages, research facilities, academic buildings, dormitories, dining halls, libraries and athletic facilities.*
- *Establishing and administering pooled loan programs to reduce financing costs and provide enhanced access to the capital markets.*

As an instrumentality of the State of Maryland providing financing for key institutional projects, the Authority is proud of its role in improving the health and wellbeing of the residents of our State.

AUTHORITY MEMBERS

ARNOLD WILLIAMS, *Chairman*

Term expires July 1, 2024*; resident of Baltimore County; Managing Director - Abrams, Foster, Nole & Williams, P.A.; Immediate Past Chairman of the Board - Baltimore Development Corporation; Chairman - Neighborhood Impact Investment Fund; Vice Chair - Baltimore City Board of Finance; Qlarant, Inc.; and The Greater Baltimore Committee; Member - Maryland Association of Certified Public Accountants; American Institute of Certified Public Accountants; and National Association of Black Accountants; former Board Chairman - Bon Secours Health Systems, Inc. and Liberty Medical Center; former Member - Baltimore City Chamber of Commerce; Past Chair and former Member - Maryland State Board of Public Accountancy; and Emeritus Member - The Presidents' Roundtable.

Independent Auditor's Report

To the Authority Members
Maryland Health and Higher Educational Facilities Authority

Opinion

We have audited the financial statements of the business-type activities of Maryland Health and Higher Educational Facilities Authority (the "Authority"), as of and for the years ended June 30, 2024 and 2023, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the business-type activities of the Authority, as of June 30, 2024 and 2023, and the changes in its financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Authority and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and Schedules of Required Pension Related Supplementary Information as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory section and additional information but does not include the basic financial statements and our auditor's report thereon. Our opinion on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

CohnReznick LLP

Charlotte, North Carolina

Introduction

This discussion and analysis of the financial performance of the Maryland Health and Higher Educational Facilities Authority (the "Authority") is supplementary information required by the Governmental Accounting Standards Board. It introduces the basic financial statements and provides a brief overview of the Authority's financial activities. It should be read in conjunction with the financial statements that follow this discussion.

The Authority is an instrumentality of the State of Maryland which assists non-profit educational institutions and hospitals and related healthcare organizations in financing the acquisition and construction of capital projects.

The Authority does not receive any appropriations from the State of Maryland and is funded entirely from fees charged to participating borrowers and interest earnings on investments. Neither the State of Maryland, nor any subdivision thereof, nor the Authority shall be obligated to pay principal or interest on bonds or notes issued by the Authority except from payments from participating institutions and revenues of the related projects.

Overview of the Financial Statements

The three basic statements presented within the financial statements are as follows:

- **Balance Sheet** - This statement presents information reflecting the Authority's assets, deferred outflows of resources, liabilities, deferred inflows of resources and net position. Net position is equal to total assets and deferred outflows of resources less total liabilities and deferred inflows of resources.
- **Statement of Revenues, Expenses and Changes in Net Position** - This statement reflects the operating revenues and expenses, as well as non-operating revenues and expenses for the fiscal year. Operating revenue is generated from annual administrative fees charged to borrowers. Operating expenses include staff salaries, professional fees and other expenses. The change in net position is similar to net profit or loss for a business enterprise.
- **Statement of Cash Flows** - The statement of cash flows is presented using the direct method of reporting which reflects cash flows from operating, capital and related financing and investing activities. Cash collections and payments are reflected in this statement to arrive at the net increase or decrease in cash for the fiscal year.

Summary of Activities

- During fiscal years 2024 and 2023, the Authority issued 11 and 10 bond issues totaling approximately \$156 million and \$432 million, respectively. The approximately \$276 million decrease in fiscal year 2024 from the total issued in fiscal year 2023 was primarily due to a decrease in refundings and new project funding in 2024 compared to 2023. There were also 3 large private placements in 2023 that refunded Taxable Notes used for advance refundings. During fiscal years 2023 and 2022, the Authority issued 10 and 22 bond issues totaling approximately \$432 million and \$1,120 million, respectively. The reduction in bonds issued in fiscal year 2023 was due to a decline in refinancings and new project funding due to less favorable market conditions.
- In fiscal year 2024 and 2023, operating revenues increased by \$6,000 and \$14,000, respectively, due to a slight increase in administrative fee billings each year. The Authority funds its operations using administrative fees and non-operating investment income. Administrative fees may be set at a maximum of one tenth of one percent of the par amount of debt issued. In fiscal years 2024, 2023 and 2022, the Authority continued to waive 75% of the administrative fees chargeable to borrowing institutions for financings that were in place prior to fiscal year 2008 and 70% for financings completed in fiscal year 2008 and after.
- In fiscal year 2024 operating expenses increased \$106,000 primarily due to a \$43,000 increase in salaries expense, a \$33,000 increase in pension expense and a \$23,000 increase in contracted services. During fiscal year 2024, there was a \$101,000 increase in the Authority's portion of the net pension liability. Combined with the amortization of the various pension related deferred inflows and outflows this resulted in a net pension expense of \$105,000 compared to \$72,000 in fiscal year 2023. Contract services expenses increased in fiscal year 2024 primarily due to expenses associated with software upgrades and migration and an IT security assessment performed during the year. In fiscal year 2023 operating expenses increased \$216,000 primarily due to a \$169,000 increase in pension expense and a \$50,000 increase in salaries expense. During fiscal year 2023, there was a \$245,000 increase in the Authority's portion of the net pension liability which resulted in the increase in pension expense for the year.
- The Authority had approximately \$8.4 billion and \$8.5 billion of conduit debt outstanding at June 30, 2024 and June 30, 2023, respectively. A schedule of debt outstanding is included in the additional information that accompanies these financial statements. All bonds and notes issued by the Authority are limited obligations payable solely from amounts payable by participating institutions under the respective loan or lease agreements. The Authority has no outstanding debt constituting a general obligation of the Authority or a pledge of its faith and credit.
- In fiscal year 2022, the Authority implemented Governmental Accounting Standards Board (GASB) Statement No. 87- *Leases*. GASB Statement No. 87 enhances the relevance and consistency of information of the government's leasing activities. It establishes requirements for lease accounting based on the principle that leases are

Maryland Health and Higher Educational Facilities Authority Management's Discussion and Analysis

financings of the right to use an underlying asset. A lessee is required to recognize a lease liability and an intangible right to use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources.

- During fiscal year 2020, the Authority approved a Community Outreach Program ("Program"). The purpose of the Program is to assist nonprofit health and educational institutions in obtaining financing for facilities in underserved Maryland areas. The Program's guidelines stipulate that the support would be limited to \$500,000 per eligible institution. The Program's assistance is not intended to be a grant but rather could be structured as a loan, guaranty or debt service reserve fund to facilitate financing with at least one other financial partner. While the Authority has not made a financial commitment to an eligible institution, it continues to look for opportunities by engaging in community outreach.

Management's Discussion and Analysis

Summary of Financings

During fiscal years 2024, 2023, and 2022, the Authority issued:

	<u>2024</u>	<u>2023</u>	<u>2022</u>
Public Issues	\$ 17,140,000	\$ 69,975,000	\$ 360,710,000
Private Placements & Limited Offerings	139,010,000	361,830,170	759,287,319
	<u>\$156,150,000</u>	<u>\$431,805,170</u>	<u>\$1,119,997,319</u>

The following is a list of bonds issued during fiscal year 2024:

HEALTHCARE FINANCINGS:

\$31,169,000 Calvert Health System Issue (2023)

A private placement to refund a Taxable Note that was used to advance refund the Authority's Revenue Bonds, Calvert Health System Issue, Series 2013.

\$29,000,000 Greater Baltimore Medical Center Issue (2023)

A private placement to finance a portion of the construction of a four-story parking garage and a two-story medical office building/cancer center atop the new garage.

CONTINUING CARE RETIREMENT COMMUNITY FINANCINGS:

\$17,000,000 Edenwald Issue (2024)

A private placement to finance renovations, capital expenditures and the predevelopment costs on a planned expansion project.

NON-COLLEGIATE SCHOOL FINANCINGS:

\$17,140,000 Monocacy Montessori Communities Inc. Issue, Series 2023

A limited public offering to finance the acquisition, renovation and furnishing of a new K-12 campus.

\$11,680,000 Patterson Park Public Charter School Issue (2023A)

\$2,190,000 Patterson Park Public Charter School Issue (2023B)

A private placement to finance the acquisition of and improvements for Clay Hill Public Charter School and to refinance its Authority's Revenue Bonds, Patterson Park Public Charter School Issue (2019) and its outstanding taxable term loan.

\$9,500,000 The Diener School Issue (2023A)

\$3,122,000 The Diener School Issue (2023B)

A private placement to finance the acquisition and renovation of a new School campus.

\$8,649,000 City Neighbors Schools Issue (2023)

A private placement to refinance the Authority's Revenue Bonds, City Neighbors Schools Issue, Series 2013A.

\$16,700,000 Friends School of Baltimore Issue (2024)

A private placement to refund the Authority's Revenue Bonds, Friends School of Baltimore Issue (2004) and to finance construction costs associated with the expansion and internal renovation of the School's Lower School Building.

COLLEGIATE SCHOOL FINANCING:

\$10,000,000 Stevenson University Issue (2024)

A private placement to finance a portion of the construction costs of a new Performing Arts Center.

Total Principal of Bonds Outstanding (in thousands of dollars)

	<u>2024</u>	<u>2023</u>
Public Offerings	\$5,422,860	\$5,534,360
Private Placements & Limited Offerings	<u>3,000,451</u>	<u>2,977,715</u>
Total	<u>\$8,423,311</u>	<u>\$8,512,075</u>

Refer to pages 46-48 for a detailed list of the Public Offerings and Private Placements & Limited Offerings outstanding.

Refer to pages 49-53 for a detailed list of the bonds outstanding for each borrower or obligated group.

Subsequent Bond Activity

The following bonds had been authorized but not issued as of June 30, 2024:

- Maryland Institute College of Art Issue, Series 2024
- TidalHealth Issue (2024)
- Luminis Health Issue (2024)
- Charlestown Community Issue (2024)

NOTE 1: ORGANIZATION AND ACCOUNTING POLICIES

Organization

The Maryland Health and Higher Educational Facilities Authority (the "Authority") was established to assist non-profit educational institutions, hospitals and related healthcare institutions in the financing and refinancing of projects authorized by the Authority's enabling legislation. Income of the Authority is derived from fees from institutions and projects that have financing provided by the Authority. Neither the State of Maryland, nor any subdivision thereof, nor the Authority shall be obligated to pay principal or interest on bonds or notes issued by the Authority except from payments from participating institutions and revenues of the related projects. Neither the faith and credit nor the taxing power of the State of Maryland, of any political subdivision thereof or of the Authority is pledged to the payment of the principal or interest on bonds or notes outstanding. The Authority is exempt from federal and state income taxes. The Authority has no taxing power.

Accounting Policies

Reporting Entity – The Authority's reporting entity has been defined in accordance with Governmental Accounting Standards Board ("GASB") Statement 34. The financial statements include all operations for which the Authority is financially accountable.

Basis of Presentation, Revenue and Expense Recognition – The Authority follows GASB guidance for proprietary fund accounting and financial reporting. As such, the accompanying financial statements are prepared on the accrual basis of accounting where revenues are recognized when earned and expenses are recorded when incurred. The Authority reports its financial activities by applying Standards of Governmental Accounting and Financial Reporting as promulgated by the GASB. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with the proprietary fund's principal ongoing operations. The Authority's operating revenues are annual administrative fees. Operating expenses for the Authority include staff salaries, professional fees and other expenses. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Cash and Cash Equivalents – Cash and cash equivalents consist of short term, highly liquid investments that are readily convertible to known amounts of cash and have original maturities of three months or less. Cash and cash equivalents are carried at cost which approximates fair value. Custodial credit risk for deposits is the risk that in the event of a bank failure, the Authority's deposits may not be returned to it. As of June 30, 2024, all of the Authority's deposits were either covered by federal depository insurance or were covered by collateral held by the Authority's agent in the Authority's name. The amount of the Authority's deposits collateralized at June 30, 2024 was \$0.

Investments – The Authority's investment objective is to invest in a manner which will provide the highest return with the maximum security while meeting cash flow needs. Allowable

Maryland Health and Higher Educational Facilities Authority
Notes to Financial Statements
June 30, 2024 and June 30, 2023

investments are governed by the Authority's investment policy which is reviewed annually with the Authority Members at one of its scheduled monthly meetings. Permissible investments under the investment policy include U.S. Treasury obligations; obligations of federal agencies and instrumentalities; repurchase agreements for U.S. Treasury obligations and obligations of federal agencies and instrumentalities; and money market funds operated in accordance with Rule 2a-7 of the Investment Company Act of 1940. Investments are reported at fair value with net unrealized gains and losses reported as non-operating revenue in the statement of revenues, expenses and changes in net position. Fair values of investment securities are determined according to prices as furnished by an independent pricing service, except that fixed income securities with remaining maturities of less than 60 days at the time of purchase (e.g., money market funds) are valued at amortized cost provided such amount approximates fair value. Interest income is accrued on coupon securities from the last coupon date or purchase date and for discount securities (e.g., U.S. Treasury Bills) on the effective yield method. Realized gains and losses are recorded on the specific identification method and are computed as the difference between the proceeds of the sale and the original cost of the investments sold. Investments are purchased to mature based on cash flow needs; however, investments may be liquidated in the event there are unanticipated cash flow requirements.

Net Position – Net position represents the residual interest in the Authority's assets and deferred outflows of resources after liabilities and deferred inflows of resources are deducted. For external reporting purposes, net position is classified in the following categories:

Net investment in capital assets – capital assets, net of accumulated depreciation and amortization less the outstanding lease liability used to finance those assets plus capital-asset related deferred outflows of resources less capital-asset related deferred inflows of resources.

Unrestricted net position – net position that is not subjected to externally imposed stipulations. Unrestricted net position may be designated for specific purposes by action of management or the Authority or may otherwise be limited by contractual agreements with outside parties. The Authority's unrestricted net position includes an internal designation for operations, maintained at two times the annual operating expenses of the Authority. On June 30, 2024 and June 30, 2023, the designation for operations was \$3,712,000 and \$3,499,000, respectively. Beginning in fiscal year 2020, the Authority internally designated an amount for its Community Outreach Program. The Community Outreach Program's guidelines stipulate an amount that may not exceed 20% of the total net position available for contingencies. After the designation for operations, the total net position available for contingencies was \$31,111,000 and \$28,803,000 as of June 30, 2024 and June 30, 2023, respectively. Of the total net position available for contingencies, \$6,222,000 and \$5,761,000 was designated for the Community Outreach Program as of June 30, 2024 and June 30, 2023, respectively. The remaining unrestricted net position designated for contingencies as of June 30, 2024 and June 30, 2023, was \$24,889,000 and \$23,042,000, respectively. This designation is subject to a limitation equal to 1% of total bonds outstanding. These amounts do not exceed the limitations for June 30, 2024 and June 30, 2023, which were \$84,233,000 and \$85,121,000, respectively.

Maryland Health and Higher Educational Facilities Authority
Notes to Financial Statements
June 30, 2024 and June 30, 2023

Capital Assets – Capital assets are recorded at cost and defined as assets with an individual cost of \$1,000 or more and an estimated useful life of more than one year. Depreciation is calculated on a straight-line basis over the asset's estimated useful life.

Estimated useful lives are as follows:

- | | |
|-------------------------------------|---------------|
| • Furniture, fixtures and equipment | 5 to 10 years |
| • Computer equipment and software | 3 to 5 years |
| • Office equipment | 5 to 10 years |
| • Leasehold improvements | 4 to 7 years |

Amortization of the lease asset is calculated on a straight-line basis over the lease term of 88 months.

Compensated Absences – Vacation benefits are earned by employees of the Authority based on time in service. The right to such vacation benefit is vested and recorded as a liability for amounts due to employees for future absences. Sick leave is also earned and accumulated by employees. However, sick leave does not vest and is not paid unless sickness causes the employee to be absent.

Interest Expense – Interest expense is calculated by multiplying the previous month's remaining lease liability amount by 1/12 of the discount rate of 4% that was used to initially calculate the leased asset and lease liability.

Use of Estimates – The preparation of these financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management, where necessary, to make estimates and assumptions that affect the amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Accounting and Financial Reporting for Pensions – For purposes of measuring the Authority's net pension liability, pension expense and deferred outflows of resources and deferred inflows of resources related to pensions, the Authority relies on information provided by the Maryland State Retirement and Pension System as to the Authority's proportionate share. Refer to Note 7.

NOTE 2: FAIR VALUE MEASUREMENTS

Fair Value - The Authority has adopted GASB Statement No. 72 – Fair Value Measurement and Application. This statement establishes a hierarchy of inputs to valuation techniques used to measure fair value:

- Level 1 – quoted market prices in active markets
- Level 2 – inputs other than quoted market prices that are observable either directly or indirectly
- Level 3 – unobservable inputs

The Authority has investments in securities that are measured at fair value on a recurring basis in the financial statements. The Authority uses a three level hierarchy for determining fair value and a financial asset or liability classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement. The fair value of these financial assets was determined using Level 2 inputs (inputs other than quoted market prices that are observable either directly or indirectly) as of June 30, 2024 and June 30, 2023. The following tables present the financial assets that the Authority measured at fair value (in thousands of dollars).

June 30, 2024	Level 1	Level 2	Level 3	Total
Obligations of U. S. Treasury	\$ -	\$ 3,339	\$ -	\$ 3,339
Obligations of U.S. government agencies and instrumentalities	-	31,203	-	31,203
Money market fund	715	-	-	715
Total	\$715	\$34,542	\$ -	\$35,257

June 30, 2023	Level 1	Level 2	Level 3	Total
Obligation of U.S. Treasury	\$ -	\$ 975	\$ -	\$ 975
Obligations of U.S. government agencies and instrumentalities	-	30,941	-	30,941
Money market fund	742	-	-	742
Total	\$742	\$31,916	\$ -	\$32,658

NOTE 3: INVESTMENTS

Interest Rate Risk – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. As a means of limiting its exposure to fair value losses from rising interest rates, the Authority’s Investment Policy requires that the maturities of the investment portfolio be scheduled to meet the cash requirements for ongoing operations.

Maryland Health and Higher Educational Facilities Authority
Notes to Financial Statements
June 30, 2024 and June 30, 2023

As of June 30, 2024 and June 30, 2023, the amortized cost and fair value of investments were as follows (in thousands of dollars):

<i>June 30, 2024</i>	<i>AMORTIZED COST</i>	<i>GROSS UNREALIZED GAINS</i>	<i>GROSS UNREALIZED LOSSES</i>	<i>FAIR VALUE</i>
Obligations of U.S. Treasury	\$ 3,332	\$17	\$ (10)	\$ 3,339
Obligations of U.S. government agencies and instrumentalities	32,037	18	(852)	31,203
Money market fund	715	-	-	715
Total	\$36,084	\$35	\$ (862)	\$35,257

<i>June 30, 2023</i>	<i>AMORTIZED COST</i>	<i>GROSS UNREALIZED GAINS</i>	<i>GROSS UNREALIZED LOSSES</i>	<i>FAIR VALUE</i>
Obligations of U.S. Treasury	\$ 975	\$ -	\$ -	\$ 975

	\$34,399	\$32,658

Maryland Health and Higher Educational Facilities Authority
 Notes to Financial Statements
 June 30, 2024 and June 30, 2023

Custodial Credit Risk – Custodial credit risk is the risk that in the event of a bank or other counterparty failure, the Authority will not be able to recover its deposits or the value of its collateral securities that are in the possession of an outside party. As of June 30, 2024 and June 30, 2023, the Authority’s investments were not subject to custodial credit risk under GASB Statement No. 40. The Authority’s investments are held under a safekeeping agreement, kept separate from the assets of the bank and from other trust accounts and are held in the Authority’s name.

Credit Risk and Concentration of Credit Risk – Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Authority’s investment policy is to invest in a manner which will provide the highest return with the maximum security while meeting cash flow needs. Permissible investments currently utilized include U.S. Treasury obligations; obligations of federal agencies and instrumentalities; repurchase agreements for U.S. Treasury obligations and obligations of federal agencies and instrumentalities; and money market funds operated in accordance with Rule 2a-7 of the Investment Company Act of 1940 and rated in the highest rating category of a nationally recognized statistical rating organization.

As of June 30, 2024 and June 30, 2023, the Authority’s investment holdings by issuer were as follows (in thousands of dollars):

June 30, 2024	Fair Value	Percentage of Total
Obligations of U. S. Treasury	\$ 3,339	9.47%
Obligations of U.S. Government Agencies:		
Federal Farm Credit Banks	6,152	17.45
Federal Home Loan Mortgage Corporation	994	2.82
Federal Home Loan Banks	17,560	49.80
Federal National Mortgage Association	6,497	18.43
Money Market Fund:		
JPMorgan U.S. Government Money Market Fund	715	2.03
Total	\$35,257	100.00%

NOTE 4: COMMITMENTS AND CONTINGENCIES

The Authority has a lease commitment for office space through June 30, 2027. The minimum rental commitment for office space for each of the next 3 years is as follows:

2025	\$105,801
2026	107,900
2027	<u>110,040</u>
	\$323,741

Maryland Health and Higher Educational Facilities Authority
Notes to Financial Statements
June 30, 2024 and June 30, 2023

For the years ended June 30, 2024 and 2023, rental payments required under the terms of the lease totaled \$103,742 and \$101,725, respectively.

The building was leased for the Authority, beginning March 1, 2020 through June 30, 2027 at an average rental rate over the term of the lease of \$22.61 per square foot.

Annual requirements to amortize long-term obligations and related interest are as follows:

Year Ending June 30	Principal	Interest
2025	\$ 95,378	\$10,423
2026	101,402	6,498
2027	<u>106,940</u>	<u>3,100</u>
	<u>\$303,720</u>	<u>\$20,021</u>

NOTE 5: CAPITAL ASSETS

A summary of capital asset activity for the year ended June 30, 2024 is as follows:

	Beginning Balance June 30, 2023	Additions	Reductions	Ending Balance June 30, 2024

NOTE 7: PENSION PLAN

Summary

The Authority has adopted GASB No. 68 – Accounting and Financial Reporting for Pensions (“GASB 68”). The Authority participates in the Maryland State Retirement and Pension System, (the “System”) and qualifies as a Participating Governmental Unit (“PGU”). The State Retirement Agency (the “Agency”) is the Plan administrator and fiduciary. GASB No. 68 requires that a PGU recognize its proportionate share of the System’s net pension liability (i.e., unfunded pension liability) and pension expense. The Authority’s proportionate share is based on total System contributions and approximated 0.0035% and 0.0035% as of the measurement dates of June 30, 2023 and 2022, respectively. The Authority’s proportionate share from the measurement date June 30, 2022 to June 30, 2023 remained the same and there was an 12.9% increase from the measurement date June 30, 2021 to June 30, 2022.

The Authority has adopted GASB No. 71 – Pension Transition for Contributions Made Subsequent to the Measurement Date-An Amendment of GASB No. 68. GASB No. 71, which is only applicable during the year GASB No. 68 was adopted, requires that contributions to the pension plan subsequent to the beginning measurement date be recognized as the beginning deferred outflow of resources.

The Authority’s employees contributed seven percent of their compensation during fiscal years 2024 and 2023 as stipulated by the System. The Authority contributed \$94,699 and \$85,248 to the System for fiscal years 2024 and 2023, respectively, which was actuarially determined based on statutory provisions. The Authority has also recognized in Pension Expense its proportionate share of the System’s deferred inflows of resources (an increase in Pension Expense) attributable to the changes in assumptions, the difference between actual and expected experience, the net difference between projected and actual investment earnings, and change in proportion and its proportionate share of the System’s deferred outflows of resources (a decrease in Pension Expense) attributable to the changes in assumptions, the difference between actual and expected experience, the net difference between projected and actual investment earnings, and change in proportion.

Basis of presentation and basis of accounting

1. Employers participating in the System’s cost-sharing multiple-employer defined benefit plans are required to report pension information in their financial statements for fiscal periods beginning on or after June 15, 2014, in accordance with GASB Statement No. 68, Accounting and Financial Reporting for Pensions. The Schedule of Employer Allocations and Schedule of Pension Amounts by Employer (pension allocation schedules) provide employers with the required information for financial reporting. The System’s financial statements are prepared on the accrual basis of accounting and are prepared in accordance with accounting principles generally accepted in the United States of America that apply to governmental accounting for fiduciary funds.

Maryland Health and Higher Educational Facilities Authority
 Notes to Financial Statements
 June 30, 2024 and June 30, 2023

2. Actual employer contributions billed to participating government units for the years ended June 30, 2023 and 2022 were used as the basis for determining each employer’s proportionate share of the collective pension amounts reported in the related Schedule of Employer Allocations. Because the State of Maryland contributed 100% of the actuarial determined contributions, there were no adjustments for the years ended June 30, 2023 and June 30, 2022.

3. The components of the calculation of the net pension liability for the System as of the measurement dates of June 30, 2023 and 2022, calculated in accordance with GASB Statement No. 67, are shown in the following table:

(Expressed in millions)

	Measurement Date <u>June 30, 2023</u>	Measurement Date <u>June 30, 2022</u>
Total Pension Liability	\$87,923.3	\$84,319.5
Less: Plan Fiduciary Net Position	<u>64,893.0</u>	<u>64,310.9</u>
Net Pension Liability	<u>\$23,030.3</u>	<u>\$20,008.6</u>
 Plan Fiduciary Net Position as a Percentage of the Total Pension Liability	 <u>73.8%</u>	 <u>76.3%</u>

Investments

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return were adopted by the System’s Board after considering input from the System’s investment consultant(s) and actuary(s). For each major asset class that is included in the System’s target asset allocation, these best estimates are summarized in the following table:

Maryland Health and Higher Educational Facilities Authority
 Notes to Financial Statements
 June 30, 2024 and June 30, 2023

Asset Class	June 30, 2023		June 30, 2022	
	Target Allocations	Long-Term Expected Real Rate of Return	Target Allocations	Long-Term Expected Real Rate of Return
Public Equity	34%	6.9%	36%	6.0%
Private Equity	16%	8.6%	15%	8.4%
Rate Sensitive/Fixed Income	20%	2.6%	20%	1.2%
Credit Opportunity	9%	5.6%	8%	4.9%
Real Assets	15%	5.4%	15%	5.2%
Absolute Return	6%	4.4%	6%	3.5%
Total	100%		100%	

The above was the Board of Trustees’ adopted asset allocation policy and best estimate of geometric real rates of return for each major asset class as of June 30, 2023 and 2022, respectively.

For the years ended June 30, 2023 and 2022, the annual money-weighted rate of return on pension plan investments, net of the pension plan investment expense was 3.11% and (2.97%), respectively. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Discount Rate

A single discount rate of 6.80% was used to measure the total pension liability as of June 30, 2023 and 2022, respectively. This single discount rate was based on the expected rates of return on pension plan investments of 6.80% as of June 30, 2023 and 2022, respectively. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability

The following presents the sensitivity of the System’s net pension liability to changes in the discount rates and the Authority’s proportionate share of the System’s net pension liability (expressed in thousands), calculated using a discount rate of 6.80%, a discount rate that is 1-percentage point lower (i.e., 5.80%) and a discount rate that is 1-percentage point higher (i.e., 7.80%):

Pension Plan Description

Organization

The State Retirement Agency (the “Agency”) is the administrator of the System. The System was established by the State Personnel and Pensions Article of the Annotated Code of Maryland to provide retirement allowances and other benefits to State employees, teachers, police, judges, legislators, and employees of participating governmental units. Responsibility for the System’s administration and operation is vested in a 15-member Board of Trustees. The System is made up of two cost-sharing employer pools: the “State Pool” and the “Municipal Pool”. The “State Pool” consists of the State agencies, boards of education, community colleges, and libraries. The “Municipal Pool” consists of the participating governmental units that elected to join the System. Neither pool shares in each other’s actuarial liabilities, thus participating governmental units that elect to join the System (the “Municipal Pool”) share in the liabilities of the Municipal Pool only. The State of Maryland is the statutory guarantor for the payment of all pensions, annuities, retirement allowances, refunds, reserves, and other benefits of the System. The Agency is legally authorized to use all assets accumulated for the payment of benefits to pay such obligations to any plan member or beneficiary as defined by the terms of the plan. Consequently, the System is accounted for as a single plan as defined in Governmental Accounting Standards Board (GASB) Statement No. 67, “Financial Reporting for Pension Plans - An Amendment of GASB Statement No.25.” Additionally, the System is fiscally dependent on the State by virtue of the legislative and executive controls exercised with respect to its operations, policies, and administrative budget. Accordingly, the System is included in the State’s reporting entity and disclosed in its financial statements as a pension trust fund. The System is comprised of the Teachers’ Retirement and Pension Systems, Employees’ Retirement and Pension Systems, State Police Retirement System, Judges’ Retirement System, and the Law Enforcement Officers’ Pension System. The Authority’s employees participate in the Employees’ Retirement and Pension System.

Covered Members

On October 1, 1941, the Employees' Retirement System was established to provide retirement allowances and other benefits to State employees, elected and appointed officials and the employees of participating governmental units. Effective January 1, 1980, the Employees' Retirement System was essentially closed to new members and the Employees' Pension System was established. As a result, State employees (other than correctional officers) and employees of participating governmental units hired after December 31, 1979, became members of the Employees' Pension System as a condition of employment, while all State correctional officers and members of the Maryland General Assembly continue to be enrolled as members of the Employees' Retirement System. On or after January 1, 2005, an individual who is a member of the Employees' Retirement System may not transfer membership to the Employees' Pension System. Currently, more than 150 governmental units participate in the Employees' Retirement System.

Summary of Significant Plan Provisions

All plan benefits are specified by the State Personnel and Pensions Article of the Annotated Code of Maryland. For all individuals who were members of the System on or before June 30, 2011, pension allowances are computed using both the highest three consecutive years' Average Final Compensation (AFC) and the actual number of years of accumulated creditable service. For any individual who became or becomes a member of one of the pension systems on or after July 1, 2011, pension allowances are computed using both the highest five consecutive years' AFC and the actual number of years of accumulated creditable service. Various retirement options are available under each system which ultimately determine how a retiree's benefit allowance will be computed. Some of these options require actuarial reductions based on the retiree's and designated beneficiary's attained age and similar actuarial factors. The member contribution rate was increased for members of the Employees' Pension System from 5% to 7% on July 1, 2011. In addition, the benefit attributable to service on or after July 1, 2011 in many of the pension systems now will be subject to different cost-of-living adjustments (COLA) that are based on the increase in the Consumer Price Index (CPI) and capped at 2.5% or 1.0% based on whether the market value investment return for the preceding calendar year was higher or lower than the investment return assumption used in the valuation. A brief summary of the retirement eligibility requirements of and the benefits available under the various systems in effect during fiscal years 2023 and 2022, is as follows:

Service Retirement Allowances

A member of the Employees' Retirement System is generally eligible for full retirement benefits upon the earlier of attaining age 60 or accumulating 30 years of creditable service regardless of age. The annual retirement allowance equals $1/55$ (1.81%) of the member's AFC multiplied by the number of years of accumulated creditable service. An individual who was a member of the Employees' Pension System on or before June 30, 2011, is eligible for full retirement benefits upon the earlier of attaining age 62, with specified years of eligibility service, or accumulating 30 years of eligibility service

regardless of age. An individual who became or becomes a member of the Employees' Pension System on or after July 1, 2011, is eligible for full retirement benefits if the member's combined age and eligibility service equals at least 90 years or if the member is at least age 65 and has accrued at least 10 years of eligibility service. For most individuals who retired from the Employees' Pension System on or before June 30, 2006, the annual pension allowance equals 1.2% of the member's AFC, multiplied by the number of years of creditable service accumulated prior to July 1, 1998, plus 1.4% of the member's AFC, multiplied by the number of years of creditable service accumulated subsequent to June 30, 1998. With certain exceptions, for individuals who are members of the Employees' Pension System on or after July 1, 2006, the annual pension allowance equals 1.2% of the member's AFC, multiplied by the number of years of creditable service accumulated prior to July 1, 1998, plus 1.8% of the member's AFC, multiplied by the number of years of creditable service accumulated subsequent to June 30, 1998. Beginning July 1, 2011, any new member of the Employees' Pension System shall earn an annual pension allowance equal to 1.5% of the member's AFC multiplied by the number of years of creditable service accumulated as a member of the Employees' Pension System. Exceptions to these benefit formulas apply to members of the Employees' Pension System, who are employed by a participating governmental unit that does not provide the 1998 or 2006 enhanced pension benefits or the 2011 reformed pension benefits. The pension allowance for these members equals 0.8% of the member's AFC up to the social security integration level (SSIL), plus 1.5% of the member's AFC in excess of the SSIL, multiplied by the number of years of accumulated creditable service. For the purpose of computing pension allowances, the SSIL is the average of the social security wage bases for the past 35 calendar years ending with the year the retiree separated from service.

Vested Allowances

Any individual who was a member of the State Retirement and Pension System on or before June 30, 2011 (other than a judge or a legislator), and who terminates employment before attaining retirement age but after accumulating 5 years of eligibility service is eligible for a vested retirement allowance. Any individual who joined the State Retirement and Pension System on or after July 1, 2011 (other than a judge or a legislator), and who terminates employment before attaining retirement age but after accumulating 10 years of eligibility service is eligible for a vested retirement allowance. A member who joined after June 30, 2011 and terminates employment prior to attaining retirement age and before vesting receives a refund of all member contributions and interest.

Early Service Retirement

A member of the Employees' Retirement System may retire with reduced benefits after completing 25 years of eligibility service. Benefits are reduced by 0.5% per month for each month remaining until the retiree either attains age 60 or would have accumulated 30 years of creditable service, whichever is less. The maximum reduction for an

Employees' Retirement System member is 30%. An individual who was a member of the Employees' Pension System on or before June 30, 2011, may retire with reduced benefits upon attaining age 55 with at least 15 years of eligibility service. Benefits are reduced by 0.5% per month for each month remaining until the retiree attains age 62. The maximum reduction for these members of the Employees' Pension System is 42%. An individual who became or becomes a member of the Employees' Pension System on or after July 1, 2011, may retire with reduced benefits upon attaining age 60 with at least 15 years of eligibility service. Benefits are reduced by 0.5% per month for each month remaining until the retiree attains age 65. The maximum reduction for these members of the Employees' Pension System is 30%.

Disability and Death Benefits

Generally, a member covered under retirement plan provisions who is permanently disabled after 5 years of service receives a service allowance based on a minimum percentage (usually 25%) of the member's AFC. A member covered under pension plan provisions who is permanently disabled after accumulating 5 years of eligibility service receives a service allowance computed as if service had continued with no change in salary until the retiree attained age 62. A member (other than a member of the Maryland General Assembly or a judge, both of whom are ineligible for accidental disability benefits) who is permanently and totally disabled as the result of an accident occurring in the line of duty receives 2/3 (66.7%) of the member's AFC plus an annuity based on all member contributions and interest. Death benefits are equal to a member's annual salary as of the date of death plus all member contributions and interest.

Adjusted Retirement Allowances (as applicable)

The annual increases to pension allowances for Employees' Pension System retirees who were employed by a participating governmental unit that does not provide enhanced pension benefits are limited to 3% of the initial allowance. However, beginning July 1, 2011, for benefits attributable to service earned on or after July 1, 2011, in all of the systems except the judges' and legislators' systems, the adjustment is capped at the lesser of 2.5% or the increase in CPI if the most recent calendar year market value rate of return was greater than or equal to the assumed rate. The adjustment is capped at the lesser of 1% or the increase in CPI if the market value return was less than the assumed rate of return. In years in which COLAs would be less than zero due to a decline in the CPI, retirement allowances will not be adjusted. COLAs in succeeding years are adjusted until the difference between the negative COLA that would have applied and the zero COLA is fully recovered.

Maryland Health and Higher Educational Facilities Authority
Notes to Financial Statements
June 30, 2024 and June 30, 2023

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2024 and 2023, the Authority reported a liability of \$804,989 and \$703,500, respectively, for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2023 and 2022, respectively, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Authority's proportion of the net pension liability was based on a projection of the Authority's long-term share of contributions to the pension plan relative to the projected contributions of all participating governmental units, actuarially determined. At June 30, 2023 and 2022, the Authority's proportion was approximately 0.0034953% and 0.0035160%, respectively.

For the years ended June 30, 2024 and 2023, the Authority recognized pension expense of \$104,317 and \$70,881, respectively. At the measurement dates of June 30, 2023 and 2022, the Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Measurement Date of June 30, 2023	Deferred Outflows	Deferred Inflows
Changes in assumptions	\$ 48,433	\$ 1,787
Difference between actual and expected experience	28,293	32,560
Net difference between projected and actual earnings on pension plan investments	90,688	-
Change in proportion	40,233	9,050
Contributions subsequent to the measurement date	94,699	-
Total	\$ 302,346	\$ 43,397

Measurement Date of June 30, 2022	Deferred Outflows	Deferred Inflows
Changes in assumptions	\$ 68,135	\$ 4,406
Difference between actual and expected experience	-	46,050
Net difference between projected and actual earnings on pension plan investments	24,331	-
Change in proportion	54,142	14,322
Contributions subsequent to the measurement date	85,248	-
Total	\$ 231,856	\$ 64,778

The deferred outflows of resources of \$94,699 and \$85,248 relating to contributions subsequent to the measurement dates of June 30, 2023 and 2022, respectively, will be recognized as a reduction of the Authority's net pension liability during the fiscal years ending June 30, 2025 and 2024, respectively. The deferred outflows and inflows of resources due to changes in assumptions, differences between actual and expected experience, change in proportion, and net differences between projected and actual investment earnings represent the Authority's proportionate share of the unamortized portions of the System's original

Maryland Health and Higher Educational Facilities Authority
Notes to Financial Statements
June 30, 2024 and June 30, 2023

amounts. The deferred inflows and outflows related to non-investment activity for 2023, 2022, 2021, 2020 and 2019 are being amortized over the remaining service lives ranging from 5.50 to 5.87 years. The deferred outflows and inflows related to net differences in investment earnings for 2023, 2022, 2021, 2020 and 2019 are being amortized over a closed 5-year period. These unamortized amounts will be ratably recognized in pension expense over these service lives and the closed 5-year period.

The following table shows the aggregate amortization of these deferred outflows and inflows balances by year:

Total Amortizations by Year			
Fiscal Year Ended June 30	Deferred Outflows	Deferred Inflows	Net
2025	\$ 51,271	\$ 19,469	\$ 31,802
2026	36,407	11,075	25,332
2027	89,312	8,878	80,434
2028	27,843	3,656	24,187
2029	2,814	319	2,495
Total	\$ 207,647	\$ 43,397	\$ 164,250

Net Pension Liability

The components of the Authority's proportionate share of the System's net pension liability as of the measurement dates of June 30, 2023 and 2022 were as follows (expressed in thousands):

	<u>June 30, 2023</u>	<u>June 30, 2022</u>
Total pension liability	\$3,073	\$2,965
Less: Plan fiduciary net position	<u>2,268</u>	<u>2,261</u>
Net pension liability	<u>\$ 805</u>	<u>\$ 704</u>
Plan fiduciary net position as a percentage of total pension liability	73.8%	76.3%

Maryland Health and Higher Educational Facilities Authority
 Notes to Financial Statements
 June 30, 2024 and June 30, 2023

NOTE 8: CONDUIT DEBT

The Authority issues indebtedness on behalf of participating institutions. This indebtedness is generally in the form of bonds, notes or financing leases. Funds related to these financings are held in trust by various financial institutions. In general, bonds mature serially in varying annual installments. Certain issues include term bonds payable from annual sinking fund requirements. Notes generally consist of commercial paper that is expected to be paid with proceeds of refunding obligations. The lease and loan payments receivable by the Authority from the institutions correspond to the amortization of the respective bond and note issues. Under the Authority's capital lease financings, institutions may borrow funds to finance equipment and other purchases. Funds disbursed to participating institutions are repayable by the individual institutions and may be collateralized by security interests in the assets financed. The Authority may hold legal title to or a mortgage on the buildings and other assets financed by bonds for the benefit of institutions. Title to any buildings and other assets reverts to the institutions upon final payment of the respective bond issues or leases. Information pertaining to outstanding indebtedness is included in the additional information attached to these financial statements. The Authority is not obligated to pay principal or interest on bonds and notes issued by the Authority except from payments from participating institutions or revenues of the related projects.

The following is a summary of conduit debt activity for the years ended June 30, 2024 and June 30, 2023 (in thousands of dollars):

	<u>2024</u>	<u>2023</u>
Bonds outstanding at beginning of the fiscal year	\$8,512,075	\$8,600,232
Plus: Bonds issued during fiscal year	156,150	431,805
Less: Redemptions and refundings during fiscal year	(244,914)	(519,962)
Bonds outstanding as of June 30, 2024 and June 30, 2023	\$8,423,311	\$8,512,075

NOTE 9: SUBSEQUENT EVENTS

Events that occur after the balance sheet date but before the financial statements were available to be issued must be evaluated for recognition or disclosure. The effects of subsequent events that provide evidence about conditions that existed at the balance sheet date are recognized in the accompanying financial statements. Subsequent events which provide evidence about conditions that existed after the balance sheet date require disclosure in the accompanying notes. Management evaluated the activity of the Authority through September 5, 2024 (the date these financial statements were available to be issued) and concluded that no subsequent events have occurred that would require recognition in the financial statements or disclosure in the notes to the financial statements.

Additional Information – Funds Held by Third Party Trustees and Escrow Agents

The Authority is including the following additional information relating to funds held by third party trustees and escrow agents.

Trustees are appointed under the terms of the financing documents. Trustee responsibilities may include, but are not limited to: creation of funds to be held for bonds, notes or leases, disbursements of proceeds, deposit of payments received from institutions, and payment of principal and interest on bonds, notes and leases. The Authority self-directs the investment of bond proceeds pursuant to the governing documents.

The Authority maintains books of accounts for the Debt Principal Funds and the required Trusteed Funds of each of the issues of bonds, notes and leases outstanding. Trusteed Funds are maintained by third party trustees or other fiscal agents in accordance with the requirements of the respective bond, note and lease documents. The financial statements included in this additional information combine the Trusteed accounts of all bond, note and lease issues outstanding during the year. Interfund activity is eliminated in the combination.

The following is a description of the sources and uses of amounts held in the various Trusteed Funds:

Construction Funds – Account for the receipt of bond proceeds and other amounts, if any, and disbursement of monies held to pay for project costs, including construction and equipment purchases of participating institutions. All Construction, Cost of Issuance and Capitalized Interest Funds are included as Construction Funds.

Program Funds – Account for the receipt of bond proceeds and disbursement of monies specified as Program Funds in the Pooled Loan Program Series 1985A & B documents.

Debt Service Funds – Account for the receipt and disbursement of monies for the payment of interest and principal on bonds, notes and leases.

Debt Service Reserve Funds – Account for the receipt of bond proceeds and disbursement of monies held in reserve in compliance with certain bond resolutions and indentures. The fund balances are generally required to be maintained at amounts established under the respective resolutions or indentures.

Project Reserve Funds – Account for the receipt and disbursement of monies held in reserve for improvements, major repairs, operations and arbitrage/rebate. The fund balances are established by the bond indentures and resolutions of certain issues. All Renewal and Replacement and Arbitrage Rebate Funds are included as Project Reserve Funds.

Redemption Funds – Account for the accumulation of monies not required by other funds for the eventual redemption or repurchase of bonds.

Maryland Health and Higher Educational Facilities Authority Additional Information

DEFEASED CONDUIT DEBT

Bonds have been issued for the purpose of refunding bonds that were issued by the Authority. In some cases, the proceeds of the refunding bonds were deposited into escrow to be applied in future years to retire the refunded bonds. The escrows are held by independent trustees and are invested in obligations of the United States Government which mature and bear interest in such amounts and payable at such times as will be sufficient to pay the principal and interest of the defeased bonds when due upon maturity or redemption.

Defeased bonds outstanding at June 30, 2024 are as follows (in thousands of dollars):

Anne Arundel Health System Issue, Series 2014	\$ 100,355
Helix Health Issue, Series 1997	37,195
The Johns Hopkins Health System Issue, Series 2015D	7,595
LifeBridge Health Issue, Series 2015	57,790
Peninsula Regional Medical Center Issue, Series 2015	104,955
Western Maryland Health System Issue, Series 2014	<u>133,000</u>
Total	<u>\$ 440,890</u>
