EXECUTIVE SUMMARY

Healthcare professional liability insurance (hereinafter “medical malpractice insurance”) covers doctors and other healthcare professionals for liability claims arising from the treatment and care of patients. This annual report is based on data supplied by insurer groups to the Maryland Insurance Administration (“MIA”). The continuous availability and affordability of medical malpractice insurance to practitioners in Maryland is a vital and necessary component of Maryland’s health care system.

In 2002 and 2003, the rapid and substantial increase in medical malpractice insurance premiums threatened to weaken access to high-quality health care in Maryland. The General Assembly acted in 2004 and 2005 to stabilize the medical malpractice insurance market and to require the MIA to collect relevant data and report annually to the General Assembly on the state of Maryland’s medical malpractice market. This data is summarized in Exhibits A through L.

In Maryland, medical malpractice insurance is available to be purchased from admitted insurers, non-admitted (surplus lines) insurers, and risk retention groups. All writers of medical malpractice insurance are licensed or authorized by the MIA to conduct business in the state. In 2020, 63 insurer groups wrote medical malpractice insurance policies in Maryland for all types of health care providers. The total medical malpractice premium collected by these insurer groups was \$310,185,294 representing an increase of 3% from the prior year. Admitted insurers accounted for 41% of the total written premium, while surplus lines insurers and risk retention groups accounted for 19% and 40% respectively. The 8% increase in written premium by risk retention groups is almost entirely due to a 6% market share increase by one risk retention group, MCIC VT, our market's largest writer of medical malpractice insurance.

While the number of insurer groups engaged in the medical malpractice market in Maryland is substantial and has not fluctuated significantly over the past ten (10) years, the marketplace remains highly concentrated with respect to premium volume. The leading admitted insurer and the leading risk retention group account for 56% of the total premium volume collectively. That said, the market’s premium levels remained stable over the past year as evidenced by the fact that only six insurers made a rate increase filing during the fiscal year 2020 (July 1, 2019, through June 30, 2020). Only two of our top ten (10) largest insurer groups made a rate impact filing in the fiscal year 2020. One of these insurers raised premiums by an average of 14.8% for 1,012 policyholders while the other lowered premiums by an average of 18% for 4,783 policyholders. Overall, medical malpractice insurance premiums have again remained affordable and stable in Maryland’s market over the past year.

INTRODUCTION

Health care providers are not required by law to purchase and maintain medical malpractice insurance. Providers who elect to not purchase this coverage cannot participate in health care networks supporting preferred provider organizations, health maintenance organizations or managed care organizations.

Medical malpractice insurance premiums began to escalate in 2002 and increased substantially in 2003 and 2004. The General Assembly intervened in 2004 and 2005, including directing the MIA to collect data and report back to the General Assembly on this critical insurance market segment annually. In response, the MIA provides this report each year, including among other metrics, information about the number of active insurers in the medical malpractice insurance market in Maryland, premium rates for selected medical specialties and data for closed medical malpractice claims.

MARYLAND’S MEDICAL MALPRACTICE INSURANCE MARKET

Admitted insurers, surplus lines insurers, and risk retention groups all provide medical malpractice insurance policies to a wide variety of health care professionals in Maryland.¹ Exhibits A1 through A5 provides detailed information about these insurer groups. As in the previous year, in 2020 the top two (2) insurer groups operating in Maryland were an admitted insurer created by the General Assembly², Medical Mutual Liability Insurance Society of Maryland (MMLIS); and, MCIC Vermont (MCIC), a risk retention group organized under Vermont law operating in Maryland as a non-admitted insurer. These two insurers again captured 56% of the market by premium volume, which was the same as in the prior fiscal year. Exhibit A1 illustrates the 2020 premium and market share data for each insurer group. Exhibit A2 lists the change in written premium for each insurer group by type of license from 2019 to 2020.

Exhibit A3 is a pie chart showing the 2020 market share of the top nine admitted insurers and a pie chart of the top nine insurers including surplus lines insurers and risk retention groups. Exhibit A4 shows the change in market share of the current top five insurers over the period from 2005 – 2020. MMLIS’ share of the market was 21%, a decrease of 6% from last year while MCIC’s share of the market increased by 6% to 35%. The total market share of the top two insurer groups remains high at 56% of the market, and continues to be stable.

MEDICAL MALPRACTICE INSURANCE PREMIUMS IN MARYLAND

In response to an increase in medical malpractice insurance premium rates between 2001 and 2005, the General Assembly created the Maryland Health Care Provider Rate Stabilization Fund (“Fund”). Insurance Article, Section 19-802 of the Annotated Code of Maryland established the Fund, effective April 1, 2005.³ The Fund subsidized medical malpractice insurance premiums paid by eligible health care providers to admitted insurers that elected to participate in the program through the calendar year 2008.

Exhibit A5 shows the history of MMLIS’ rate changes from 2003 through 2021. Of note is that the sole rate increase since 2009 was 4% in 2012. The rates of MMLIS, the State’s largest

¹ Refer to MIA’s *Comparison Guide to Medical Professional Liability Insurance Rates* (“*Comparison Guide*”) for a detailed listing of insurers and premiums across the State.

² See Chapter 544, Section 1, Laws of Maryland, 1975.

³ The Fund consists primarily of revenues generated by annual premium tax imposed on health maintenance organizations and managed care organizations pursuant to § 6-102 of the Insurance Article.

admitted writer of medical malpractice insurance by premium volume, have remained stable since 2006.

Medical malpractice insurance premiums vary by specialty, policy limits, and practice location. Exhibits B through G provides premium comparisons for twenty (20) different specialties utilizing a base premium for policy limits of \$1MM per incident / \$3MM annual aggregate for the years 2018 – 2021. Although the premium rates differ among companies within a specialty, these Exhibits indicate stability in medical malpractice insurance premiums during this time period.

Exhibits B through G also highlights the differences in premiums among insurers. To assist providers in comparing medical malpractice insurance premiums, the MIA publishes the *Comparison Guide to Maryland Medical Professional Liability Insurance Rates* (“*Comparison Guide*”) on an annual basis. The *Comparison Guide* is available on the MIA’s website (www.insurance.maryland.gov) using the following link:

<http://www.insurance.maryland.gov/Consumer/Documents/publications/medicalliabilityrateguide.pdf>

The *Comparison Guide* compares general pricing among the major admitted insurers, surplus lines insurers and risk retention groups offering medical malpractice insurance in Maryland.

By law, medical malpractice insurers are required to offer policies with high deductible options of \$25,000, \$50,000 and \$100,000.⁴ Exhibits H and I illustrate that high deductible options are not popular among providers. Although policies having a deductible of less than \$25,000 are sold, liability insurance policies, including medical malpractice insurance policies, are often issued with no deductible.

CLOSED CLAIMS

One factor affecting medical malpractice insurance premium rates is the number of claims filed, also known as claim frequency. Admitted insurers are required to submit certain closed claim information on a quarterly basis to the MIA. A claim is a demand for compensation arising from the alleged malpractice of a health care provider or facility. Exhibit J summarizes the closed claim data provided to the MIA by insurer and Exhibit K summarizes the data by specialty.

Between 2009⁵ and 2013 closed claims generally increased among all insurer types (admitted, non-admitted and risk retention groups). The number of closed claims hit a peak for admitted insurers in 2013 at 957. The number of closed claims hit a peak for non-admitted

⁴ Insurance Article, § 19-114 of the Annotated Code of Maryland. This statute was amended in the 2019 legislative session to limit this requirement to policies with annual premiums of \$5,000 or more effective October 1, 2019.

⁵ In 2005, the MIA used one form of on-line reporting, but that tool became unworkable. Since 2009, the data has been collected using a different tool that enables the MIA to access and query the data more easily. This change in systems may have resulted in a change in data collection.

insurers in 2012 at 425. The closed claim totals for 2018 were -47% and -20% from these peak totals for admitted insurers and non-admitted insurers respectively.

Exhibit L summarizes the number of lawsuits filed by jurisdiction and venue. The number of lawsuits peaked in 2013 and decreased by 41% in 2014 and again by 7% in 2015. In 2016, the number of lawsuits rose by 2% (22 lawsuits). For 2017, the number of lawsuits increased by 8 %, but was 30% below the peak year of 2014. For 2018, the number of lawsuits was 869, which was a reduction of 6% from the previous year. In 2019, the number of loss suits dropped to 742, a decrease of 15% from the previous year, which was 44% below the peak level in 2013. In 2020, the number of lawsuits dropped to 594, which was a 20% reduction from 2019 and 55% lower than the peak year of 2013.

COVID-19

In last year's report, we noted that the onset of the COVID-19 pandemic might result in marketplace changes for many lines of insurance including medical malpractice insurance. The MIA is continuing to monitor Maryland's medical malpractice insurance market for any changes attributable to the impact of COVID-19 on medical malpractice rates, premiums, and claims. To date, Maryland's marketplace for this line of business has not shown any dramatic adverse impact. It is possible that some of the reduction in the number of lawsuits filed in the 2020 reporting period is attributable in part to the impact of COVID-19 on the operation of the judiciary during this time.

CONCLUSION

The MIA continues to monitor concentration, availability, and affordability trends for the key medical malpractice insurance market in Maryland. The market continues to be relatively stable but remains concentrated with 56% of the written premium acquired by two (2) insurers. Premium rates were stable again this year across the market as a whole and within the two (2) largest market share insurers.

The stable rate environment and the continuing availability of coverage in the Maryland market are positive indicators for health care providers. Likewise, the closed claim and filed lawsuit numbers remain substantially below peak levels of 2012 – 2013. This should encourage potential risk bearers that have declined to enter or expand their presence in the Maryland market during previous times of less stability to take advantage of growth opportunities within the State.

The four carriers listed above are the four of the five largest carriers based on 2016 market share. This does not imply that they are the top 4 of 5 carriers for the entire time period shown above.

MMLIS - Medical Mutual Group

MCIC - MCIC RRG Vermont

Doctors - The Doctors Company

MedPro - Medical Protective Insurance Company (member of the Berkshire/Hathaway Group)

PRAIC - ProAssurance Group

Industry and MMLIS Written Premiums (in Millions) from 2005 to 2020
Includes Surplus Lines and RRG's

Change in Written Premium from the Prior Year for the Industry and MMLIS

Other License type includes carriers that no longer write medical professional liability and license type cannot, as of the last year of writing business, be determined. This also includes carriers that were in runoff or with license suspended/revoked.

Medical Mutual Rate Change History from 2003 to 2021

The above reflects the effective rate change per year. All rate changes are effective on January 1st of each year. For ease of viewing, we have limited the exhibit to the period from 2003 to the present. Data for years 1996 through 2002 can be found in the 2017 Annual Report.

Notes for Rate Comparison Charts (Exhibits B through G)

The company names have been abbreviated on the charts for readability purposes.

Name on Charts	Full Company Name	Exhibits
MMLIS	Medical Mutual Liability Insurance Society of Maryland	B to F
ProAd	Professional Advocates Insurance Company (1)	G
MedPro	Medical Protective Insurance Company	All
TDC	The Doctors Company	B to E1, G
