EXECUTIVE SUMMARY

Health care professional liability insurance, commonly known as medical malpractice insurance, covers doctors and other health care professionals for liability claims arising from the treatment and care of patients. This annual report is based on data supplied by insurer groups to the Maryland Insurance Administration (“MIA”). The continuous availability and affordability of medical malpractice insurance to practitioners in Maryland is a vital and necessary component of Maryland’s health care system.

In 2002 and 2003, rapid and substantial increase in medical malpractice insurance premiums threatened to weaken access to high-quality health care in Maryland. The General Assembly acted in 2004 and 2005 to stabilize the medical malpractice insurance market and to require the MIA to collect relevant data and report annually to the General Assembly on the state of Maryland’s medical malpractice market. This data is summarized in Exhibits A through L.

In Maryland, medical malpractice insurance is available to be purchased from admitted insurers, non-admitted (surplus lines) insurers and risk retention groups (“RRG”). All writers of medical malpractice insurance are licensed or authorized by the MIA to conduct business in the state. In 2022, 61 insurer groups wrote medical malpractice insurance policies in Maryland for all types of health care providers. Total medical malpractice premium collected by these insurer groups was \$372,098,454, representing an increase of 14% from the prior year. Admitted insurers accounted for 37.5% of the total written premium, while surplus lines insurers and RRGs accounted for 17.8% and 43.7% respectively. The drop in market share for the admitted insurers (down 8%) and the non-admitted insurers (down 2.2%) is due in part to the significant gain in market share of an RRG¹ that was last year’s 14th largest writer and is this year’s 3rd largest writer.

While the number of insurer groups engaged in the medical malpractice market in Maryland is substantial and has not fluctuated significantly over the past ten (10) years, the marketplace remains highly concentrated with respect to premium volume. The leading admitted insurer and the two leading risk retention groups now account for 61% of the total premium volume collectively. That said, the market’s rate levels remained stable over the past year as there was only a total of eight rate increase filings across the market and our three largest writers did not make a rate impact filing. It is worth noting that trends in claim settlement values and other economic factors warrant continued monitoring, particularly in an inflationary economy, for any adverse impact on rates in this line of business. Overall, medical malpractice insurance remains available for providers with generally stable rates, although this will vary by specialty.

INTRODUCTION

Health care providers are not required by law to purchase and maintain medical malpractice insurance. Providers who elect to not purchase this coverage cannot participate in health care networks supporting preferred provider organizations, health maintenance organizations or managed care organizations.

¹ Clinicians Assurance, LLC

Medical malpractice insurance premiums began to escalate in 2002 and increased substantially in 2003 and 2004. The General Assembly intervened in 2004 and 2005, including directing the MIA to collect data and report back to the General Assembly on this critical insurance market segment annually. In response, the MIA provides this report each year, including among other metrics, information about the number of active insurers in the medical malpractice insurance market in Maryland, premium rates for selected medical specialties and data for closed medical malpractice claims.

MARYLAND'S MEDICAL MALPRACTICE INSURANCE MARKET

Admitted insurers, surplus lines insurers and RRGs all provide medical malpractice insurance policies to a wide variety of health care professionals in Maryland.² Exhibits A1 through A5 provide detailed information about these insurer groups. In 2021 the top two insurer groups operating in Maryland were an admitted insurer created by the General Assembly³, Medical Mutual Liability Insurance Society of Maryland (MMLIS); and, MCIC Vermont (MCIC), an RRG organized under Vermont law operating in Maryland. In 2022, Clinician's Assurance, Inc., also an RRG domiciled in Vermont, became the 3rd largest writer in Maryland. These three insurers captured 61% of the market by premium volume. Maryland now has eight groups capturing at least 2% of the market, as compared to seven groups in 2021. These eight groups collectively write just over 75% of the market by premium volume. Exhibit A1 illustrates the 2022 premium and market share data for each insurer group. Exhibit A2 lists the change in written premium for each insurer group by type of license from 2021 to 2022.

Exhibit A3 is a pie chart showing the 2022 market share of the top nine admitted insurers and a pie chart of the top nine insurers including surplus lines insurers and RRGs. Exhibit A4 shows the change in market share of the top writers over the period from 2007 – 2022; compares MMLIS' performance over time with the rest of the industry; and, shows the market share performance by license type. MMLIS' share of the 2022 market was 20.8%, a decrease of about 3.5% from last year while MCIC's share of the market decreased by about 1.5% to 28.7%. With the notable exception of Clinicians Assurance, LLC's entry into the top three writers, the top 10 writers of this line of business remain essentially unchanged with respect to market share.

MEDICAL MALPRACTICE INSURANCE PREMIUMS IN MARYLAND

In response to an increase in medical malpractice insurance premium rates between 2001 and 2005, the General Assembly created the Maryland Health Care Provider Rate Stabilization Fund ("Fund"). Insurance Article, Section 19-802 of the Annotated Code of Maryland established the Fund, effective April 1, 2005.⁴ The Fund subsidized medical malpractice

² Refer to MIA's *Comparison Guide to Medical Professional Liability Insurance Rates* ("Comparison Guide") for a detailed listing of insurers and premiums across the State.

³ See Chapter 544, Section 1, Laws of Maryland, 1975.

⁴ The Fund consists primarily of revenues generated by annual premium tax imposed on health maintenance organizations and managed care organizations pursuant to § 6-102 of the Insurance Article.

insurance premiums paid by eligible health care providers to admitted insurers that elected to participate in the program through calendar year 2008.

Exhibit A5 shows the history of MMLIS' rate changes from 2003 through 2023. Of note is that the sole rate increase since 2009 was 4% in 2012. The rates of MMLIS, the State's largest admitted writer of medical malpractice insurance by premium volume, have remained stable since 2006.

Medical malpractice insurance premiums vary by provider specialty, policy limits and practice location. Exhibits B through G provide premium comparisons for twenty (20) different specialties utilizing a base premium for policy limits of \$1MM per incident / \$3MM annual aggregate for the years 2020 – 2023. Although the premium rates differ among companies within a specialty, these Exhibits indicate overall stability in medical malpractice insurance premiums during this time period.

Exhibits B through G also highlight the differences in premiums among insurers. To assist providers in comparing medical malpractice insurance premiums, the MIA publishes the *Comparison Guide to Maryland Medical Professional Liability Insurance Rates* (“*Comparison Guide*”) on an annual basis. The *Comparison Guide* is available on the MIA's website (www.insurance.maryland.gov) using the following link:

<http://www.insurance.maryland.gov/Consumer/Documents/publications/medicalliabilityrateguide.pdf>

The *Comparison Guide* compares general pricing among the major admitted insurers, surplus lines insurers and risk retention groups offering medical malpractice insurance in Maryland.

By law, medical malpractice insurers are required to offer policies with high deductible options of \$25,000, \$50,000 and \$100,000.⁵ Exhibits H and I illustrate that high deductible options are not popular among providers. Although policies having a deductible of less than \$25,000 are sold, liability insurance policies, including medical malpractice insurance policies, are often issued with no deductible.

CLOSED CLAIMS

One factor affecting medical malpractice insurance premium rates is the number of claims filed, also known as claim frequency. Admitted insurers are required to submit certain closed claim information on a quarterly basis to the MIA. A claim is a demand for compensation arising from the alleged malpractice of a health care provider or facility. Exhibit J summarizes the closed claim data provided to the MIA by insurer and Exhibit K summarizes the data by specialty.

⁵ Insurance Article, § 19-114 of the Annotated Code of Maryland. This statute was amended in the 2019 legislative session to limit this requirement to policies with annual premiums of \$5,000 or more effective October 1, 2019.

Between 2009⁶ and 2013 closed claims generally increased among all insurer types (admitted, non-admitted and RRG). The number of closed claims hit a peak for admitted insurers in 2013 at 957. The number of closed claims hit a peak for non-admitted insurers in 2012 at 425. The closed claim totals for 2018 were -47% and -20% from these peak totals for admitted insurers and non-admitted insurers respectively. Closed claim counts have remained between 500 and 600 for each of the last three years.

Exhibit L summarizes the number of lawsuits filed by jurisdiction and venue. The number of lawsuits peaked in 2013 and decreased by 41% in 2014 and again by 7% in 2015. In 2016, the number of lawsuits rose by 2% (22 lawsuits). For 2017, the number of lawsuits increased by 8 %, but was still 30% below the peak year of 2013. For 2018, the number of lawsuits was 869, which was a reduction of 6% from the previous year. In 2019, the number of lawsuits dropped to 742, a decrease of 15% from the previous year, which was 44% below the peak level in 2013. In 2020, the number of lawsuits dropped to 594, which was a 20% reduction from 2019 and 55% lower than the peak year of 2013. In 2021, the number of lawsuits dropped to 536, a 10% reduction from 2020 and 60% below the peak year of 2013. Last year, the number of lawsuits increased to 569, but this total is still 36% below the peak year of 2013.

COVID-19

In last year's report, we again noted that, to date, Maryland's marketplace for this line of business has not shown any adverse impact from the COVID-19 environment. We also noted the possibility that some of the reduction in the number of lawsuits filed in the post-COVID-19 onset era might be attributable in part to the impact of COVID-19 on the operation of the judiciary during this time. Although the courts, like other government branches have largely returned to normal operations at this time, it is not yet certain whether or not COVID-19 will have an effect on ultimate medical malpractice claim litigation frequency.

CONCLUSION

The MIA continues to monitor concentration, availability and affordability trends for the key medical malpractice insurance market in Maryland. The market continues to be relatively stable but remains concentrated with 61% of the written premium acquired by three (3) insurers. Premium rates were generally stable again this year across the market as a whole.

The stable rate environment and the continuing availability of coverage in the Maryland market are positive indicators for health care providers. Likewise, the closed claim and filed lawsuit numbers remain substantially below peak levels of 2012 – 2013. This should encourage potential risk bearers that have declined to enter or expand their presence in the Maryland market during the previous times of less stability to take advantage of growth opportunities within the State.

⁶ In 2005, the MIA used one form of on-line reporting, but that tool became unworkable. Since 2009, the data has been collected using a different tool that enables the MIA to access and query the data more easily. This change in systems may have resulted in a change in data collection.

- MMLIS - Medical Mutual Group
- MCIC - MCIC RRG Vermont
- Doctors - The Doctors Company
- MedPro - Medical Protective Insurance Company (member of the Berkshire/Hathaway Group)
- PRAIC - ProAssurance Group
- Clinicians - Clinicians Assurance Inc RRG (Company new in 2020)

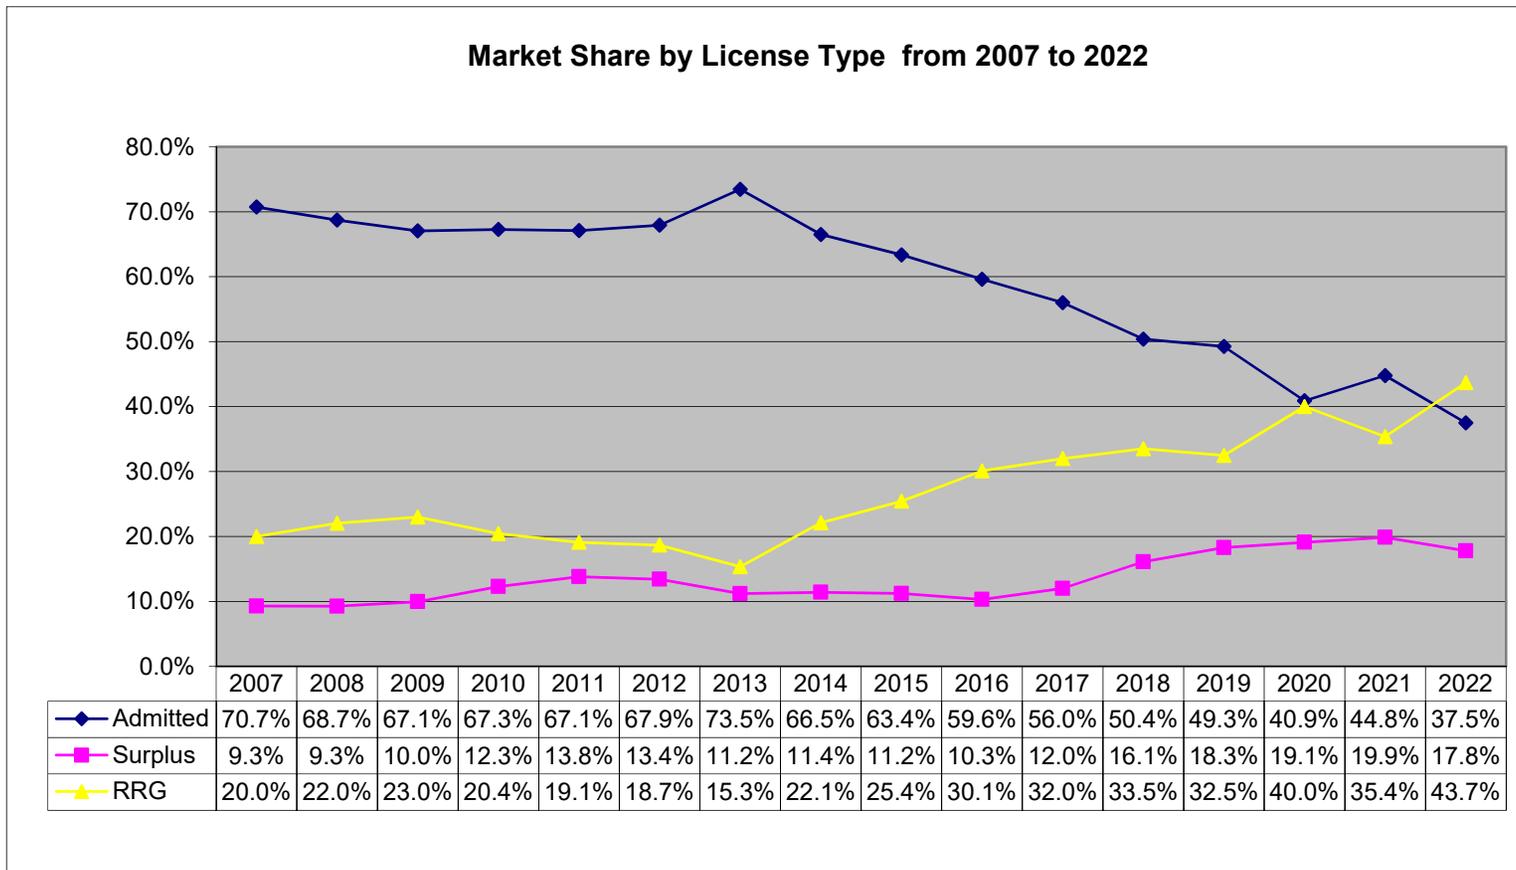

The six carriers listed above are the six largest insurers based on 2022 market share. This does not imply that they are the top 6 insurers carriers for the entire time period shown above.

Industry and MMLIS Written Premiums (in Millions) from 2007 to 2022 Includes Surplus Lines and RRG's

Change in Written Premium from the Prior Year for the Industry and MMLIS

Other License type includes carriers that no longer write medical professional liability and license type cannot, as of the last year of writing business, be determined. This also includes carriers that were in runoff or with license suspended/revoked.

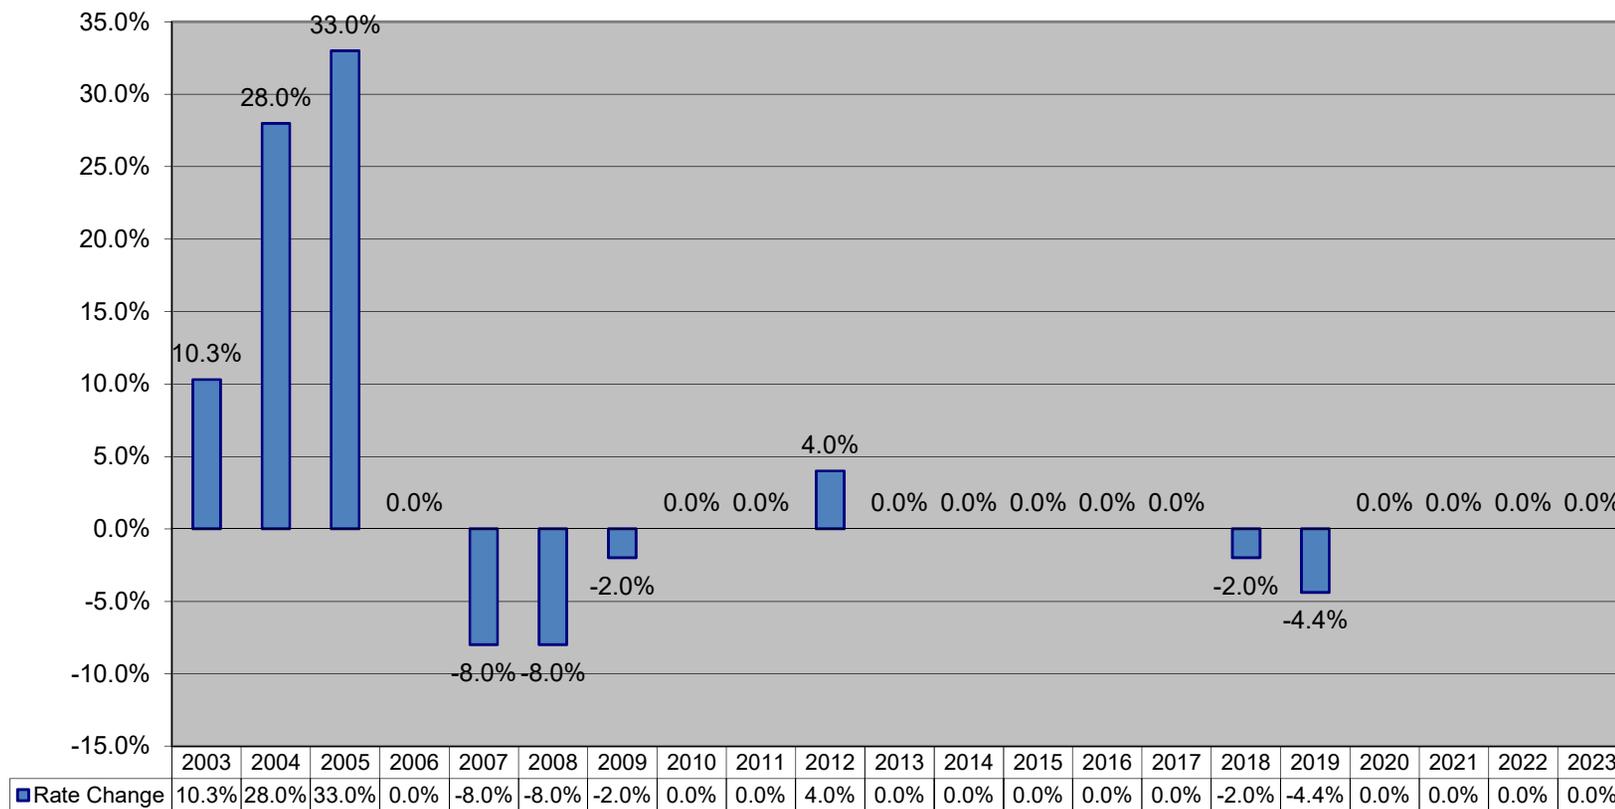

Comparison of Occurrence and Claims Made Premiums by Type of License

| TYPE OF LICENSE | 2022 OCCURENCE PREMIUM | 2022 CLAIMS MADE PREMIUM | 2022 TOTALS |
|------------------------|---------------------------------------|---|------------------------|
| ADMITTED INSURERS | 27,475,421 19.30% | 114,892,300 80.70% | 142,367,721 |
| SURPLUS LINES INSURERS | 6,199,828 9.36% | 60,004,141 90.64% | 66,203,969 |
| RISK RETENTION GROUPS | 37,366,198 22.85% | 126,160,566 77.15% | 163,526,764 |
| TOTALS | 71,041,447 19.09% | 301,057,007 80.91% | 372,098,454 |

1) Effective 2022, the annual statements split out occurrence MPL premium versus claims made MPL premiums.

2) For Risk Retention Groups, Occurrence Premiums - \$37,000,000 (99%) of that amount was reported by Clinicians Assurance Inc RRG

Medical Mutual Rate Change History from 2003 to 2023

The above reflects the effective rate change per year. All rate changes are effective on January 1st of each year. For ease of viewing, we have limited the exhibit to the period from 2003 to the present. Data for years 1996 through 2002 can be found in the 2017 Annual Report.
