

Introduction

Dual enrollment refers to any broad array of programs and opportunities that allow high school students to enroll in and take college courses. This includes programs in which students are enrolled in a dual enrollment course through a partnership agreement with their local school system and thereby receive both high school and college credit. Dual enrollment also occurs when high school students independently enroll in courses at a college and only earn college credits.

The *College and Career Readiness and College Completion Act (CCR-CCA)* (Md. Code, Ed. Art. §18-14A-01) defines dual enrollment broadly. “Dually enrolled student” means a student who is dually enrolled in:

- (i) A secondary school in the State; and
- (ii) An institution of higher education in the State.

The MLDS Center does not have the data necessarily to fully report on dual enrollment as defined by CCR-CCA. Instead, for the purposes of this report, dual enrollment was defined broadly as students who:

- 1. Had overlapping enrollment dates in a Maryland public high school and a Maryland institution of higher education (hereinafter “college”); and
- 2. Were enrolled in the college for at least one day.

State law (see Education Article §24-703.1, Annotated Code of Maryland) requires the MLDS Center to report, disaggregated by local system, on:

- 1. The number of students who are dually enrolled; and
- 2. The number and course name of the courses in which a student dually enrolls at the high school and at the public institution of higher education.

OTHER DUAL ENROLLMENT RESOURCES

In addition to this report, the MLDS Center provides a lot of additional information on Dual Enrollment. The following content is available on the MLDS Center website: <https://mldscenter.maryland.gov/centeroutput.html>.

- 1. Dual Enrollment Dashboards – These series of dashboards provide information on dually enrolled Maryland public high school students.
 - a. Statewide Dual Enrollment Trends
 - b. County Dual Enrollment Trends
- 2. Dual Enrollment Reports - Prior Years (2013-2021)
- 3. Research Reports
 - a. *The Effect of a Dual Enrollment Tuition Subsidy for Students Eligible for Free/Reduced Price Meals: Evidence from CCR-CCA in Maryland*
 - b. *The Effects of Dual Enrollment on College and Workforce Outcomes*

For additional information on this report, please contact the MLDS Center at MLDS.Center@Maryland.gov or call 410-706-2085.

Number of Students Who Are Dually Enrolled

Statewide¹ - The chart below shows dual enrollment participation by Maryland high school students, beginning in academic year 2010-2011 through 2020-2021. There has been a steady increase in dual enrollment participation since academic year 2010-2011, likely due to the introduction of the College and Career Readiness and College Completion Act of 2013. (See prior year reports at MLDS Center website: <https://mldscenter.maryland.gov/centeroutput.html>)

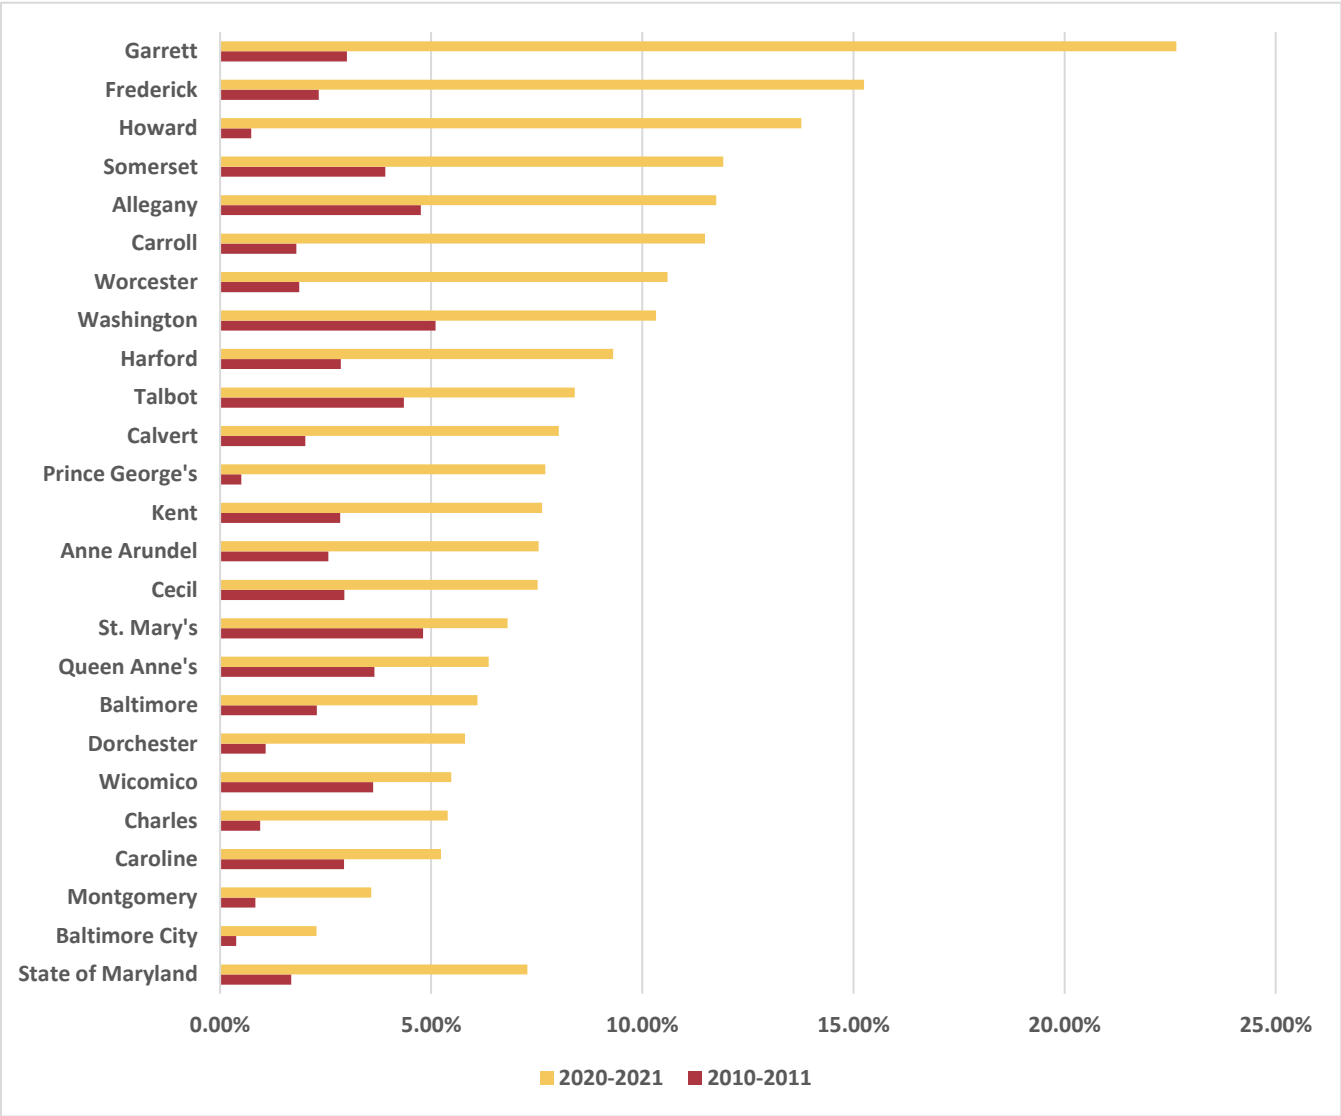

This next table shows the percent of dually enrolled high school students 2010-2011, 2014-2015, and 2017-2018 through 2020-2021. The percent change in enrollment from the prior year is also reported.

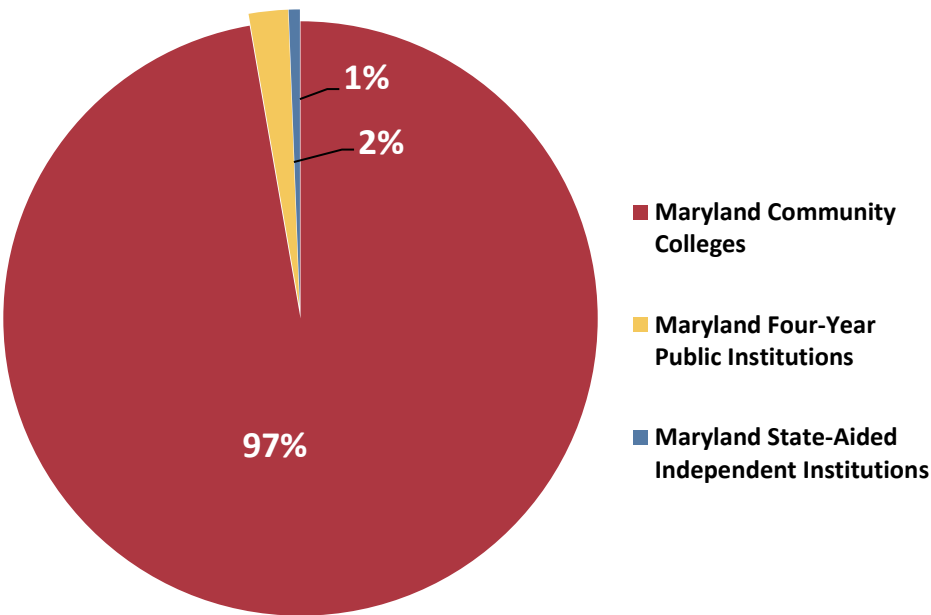

Academic Year	Total High School Student Enrollment	Dually Enrolled High School Students		Percent Change in Enrollment from Prior Year
		n	%	
2010-2011	270,794	4,569	1.69%	n/a
2014-2015	260,125	8,584	3.30%	n/a
2017-2018	266,768	13,629	5.11%	13.94%
2018-2019	269,303	15,889	5.90%	16.58%
2019-2020	272,895	18,798	6.89%	18.31%
2020-2021	273,149	19,872	7.28%	5.71%

¹Dual enrollment information for omitted academic years can be found on the Center’s website. <https://mldscenter.maryland.gov/>

Local School Systems² - All school systems in Maryland participated in dual enrollment, although the rate of participation varied widely. This chart provides the percentage of dually enrolled students by school system for 2010-2011 and 2020-2021.

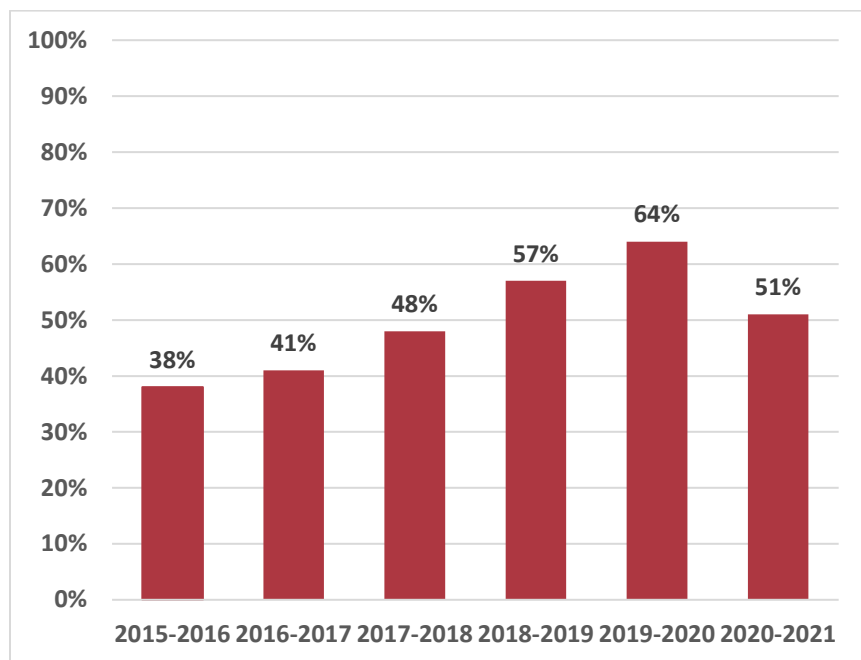

College Type -This last chart shows the college segment in which high school students were dually enrolled in academic year 2020-2021.

²The SEED School of Maryland is reported in the Baltimore City total due to the small size of the population.

Course Information

The chart and table below shows the percentage of Maryland's dually enrolled students that had a course identified as a dual enrollment course by a local school system in 2020-2021.³ The rate of identification of a course as a dual enrollment has increased since 2015-2016.⁴

Reporting - There are two sources of course-level information for dually enrolled students:

- 1) *High school Course Information* is available from the Maryland State Department of Education (MSDE) for students who dually enrolled through a partnership agreement with the local school system (LSS), provided the LSS identified the course as a dual enrollment course.
- 2) *College Course Information* from the Maryland Higher Education Commission (MHEC) is not yet available. MHEC course data were approved for inclusion in the Center's data inventory last year. The data are still be analyzed and loaded into the MLDS.

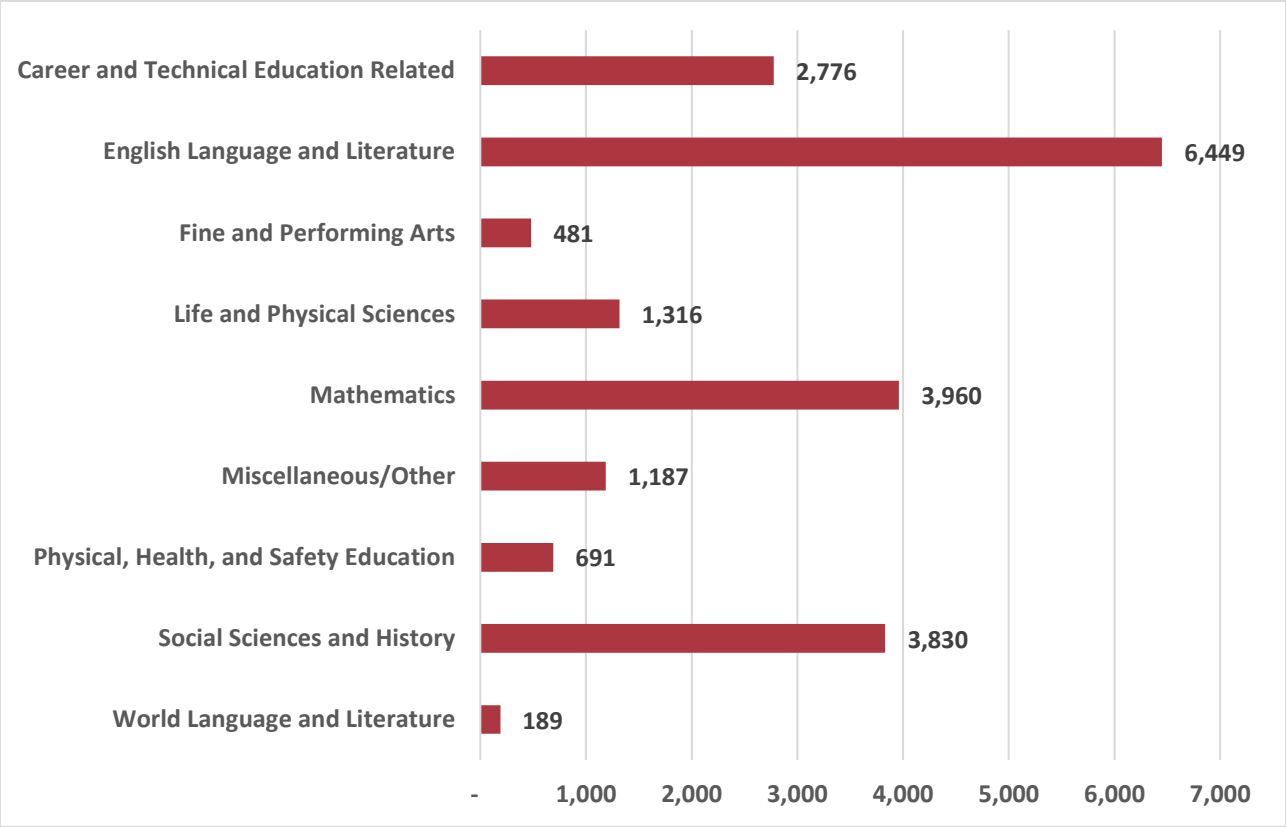

School System	Dually Enrolled	Course with Dual Enrollment Flag	
		Total	%
State of Maryland	19,872	10,228	51%
Allegany	293	285	97%
Anne Arundel	1,864	211	11%
Baltimore City	513	298	58%
Baltimore	2,078	672	32%
Calvert	416	105	25%
Caroline	90	81	90%
Carroll	933	894	96%
Cecil	353	279	79%
Charles	479	277	58%
Dorchester	81	75	93%
Frederick	2,104	1,946	92%
Garrett	260	187	72%

School System	Dually Enrolled	Course with Dual Enrollment Flag	
		Total	%
Harford	1,079	149	14%
Howard	2,535	1,042	41%
Kent	45	44	98%
Montgomery	1,841	0	0%
Prince George's	2,995	2,026	68%
Queen Anne's	154	121	79%
St. Mary's	365	263	72%
Somerset	94	94	100%
Talbot	122	119	98%
Washington	712	616	87%
Wicomico	242	228	94%
Worcester	224	216	96%

³Some dually enrolled students take courses in the summer. Those courses are not considered dual enrollment by MSDE and thus would not be coded.

⁴See the previous Dual Enrollment Reports on the MLDS Center's website to review rates of courses flagged as dual enrollment by local school systems for prior years: <https://mldscenter.maryland.gov/CenterReports.html>. At the time of writing this year's dual enrollment report course data from Montgomery County were unavailable. The absence of these data accounts for the apparent decline in the statewide rate in which dual enrollment courses were flagged from last year.

Course Subjects Overview - Courses are classified using the School Courses for the Exchange of Data (SCED) classification system. The chart below provides data on the total number of dually enrolled students by SCED across all school systems. There are 18 SCED subject areas. Reported here are the most common subject areas for dual enrollment courses. The remaining SCED subjects were grouped together as a “Miscellaneous/Other” subject area.

Course Subjects – Complete Listing – A complete list of course numbers, subject areas, and names for all dual enrollment courses by local school system for 2020-2021 can be found in the Appendix that follows this section.

Appendix: Local School Systems - Dual Enrollment Courses
