Re: Report required by State Government Article § 23-509 (MSAR # 11311)

Ladies and Gentlemen:

Section § 23-509 of the Education Article, Annotated Code of Maryland, provides for a grant program in the Maryland State Library Agency (MSLA) to assist in the funding of public library capital projects. Statute mandates that \$7,500,000 be included in the Governor's Capital Budget for this program each year, with an Annual Report to the Governor provided by the State Library Board on or before October 1. I am pleased to provide the attached report for ongoing projects and thank you for your support of this very successful program.

Maryland's public libraries support economic growth by providing resources for job seekers and small businesses. They deliver computer training and Wi-Fi access, along with educational programs and resources for families, as well as library materials in both print and digital formats. These resources, particularly those that are delivered virtually, have never been more important as the State's communities recover from the coronavirus pandemic. Goals of the grant program include geographic diversity in distribution of the awards as well as a wealth-based match formula to encourage local jurisdictions to fund urgent and necessary public library development across the State.

The grant program continues to meet the goal of geographic diversity in the distribution of awards. Since the program was established in FY2008, 23 public library systems including Allegany, Anne Arundel, Baltimore, Calvert, Carroll, Caroline, Cecil, Charles, Dorchester, Frederick, Harford, Howard, Kent, Montgomery, Prince George's, Queen Anne's, St. Mary's, Somerset, Talbot, Washington, Wicomico and Worcester Counties along with Baltimore City received grant awards for capital improvements. While Garrett County has not yet requested State funds due to their inability to meet the local match requirement, MSL staff continue to work with their library administration to develop a future proposal for a new library facility in Friendsville.

Report required by State Government Article § 23-509 (MSAR # 11311)

October 1, 2021

Page 2

Similarly, the program has resulted in substantial local investment in public library facilities statewide. Upon completion of current projects through FY2022, **the State's investment of \$74,825,000 will have generated more than \$365,000,000 in local matching funds.** Library construction projects also generate jobs that stimulate the economy.

While the majority of the grant awards have funded basic, but important, renovations including roof, window and HVAC replacement, an astounding number of 19 new public libraries have been opened with State funding from the Eastern Shore to Western Maryland providing lovely views of the Chesapeake Bay, local neighborhoods and the mountains along with 21st century library services. During the fiscal 2021, a new library opened in Cecil County (Northeast). Additionally three new state of the art library facilities are currently underway in Anne Arundel (Riviera Beach), Calvert (Twin Beaches), and Frederick (Middletown) Counties with support from the State.

The need continues for the State's investment. According to the most recent statewide facilities assessment conducted by MSLA in November 2020, more than half of the public library buildings in Maryland are over twenty five (25) years old. Consequences of this aging infrastructure are: 17 buildings need a new roof, 10 facilities require alterations for ADA compliance, 17 libraries have HVAC systems that are at the end of their useful life, 43 buildings require technological upgrades in order to provide 21st century library services, 55 existing facilities require general renovation at an estimated cost of \$77,000,000, and 8 buildings have been identified for replacement with a new structure at an estimated cost of \$65,000,000.

It is not unusual for total requests to exceed the \$7,500,000 mandated for the program. During the current FY2023 application cycle, MSLA received requests totaling \$10,956,800. We are very grateful for the additional funding of \$2,500,000 provided in the Governor's supplemental budget for FY2022 in order to fully fund all of the recommended projects

Again, thank you for your support of public libraries in Maryland. If I can be of any further assistance please do not hesitate to contact me at irene.padilla@maryland.gov.

Sincerely,

Irene M. Padilla
