**Re: Report required by State Government Article § 23-509 (MSAR # 11311)**

Ladies and Gentlemen:

Section § 23-509 of the Education Article, Annotated Code of Maryland, provides for a grant program in the Maryland State Library Agency (MSLA) to assist in the funding of public library capital projects. Statute mandates that \$7,500,000 be included in the Governor's Capital Budget for this program each year, with an Annual Report to the Governor provided by the State Library Board on or before October 1. I am pleased to provide the attached report for ongoing projects and thank you for your support of this very successful program.

Maryland's public libraries support economic growth by providing resources for job seekers and small businesses. They deliver computer training and Wi-Fi access, along with educational programs and resources for families, as well as library materials in both print and digital formats. These resources, particularly those that are delivered virtually, have never been more important as the State's communities continue to recover from the coronavirus pandemic. Goals of the grant program include geographic diversity in the distribution of the awards as well as a wealth-based match formula to encourage local jurisdictions to fund urgent and necessary public library development across the State.

The grant program continues to meet the goal of geographic diversity in the distribution of awards. Since the program was established in FY2008, 23 public library systems including Allegany, Anne Arundel, Baltimore, Calvert, Carroll, Caroline, Cecil, Charles, Dorchester, Frederick, Harford, Howard, Kent, Montgomery, Prince George's, Queen Anne's, St. Mary's, Somerset, Talbot, Washington, Wicomico and Worcester Counties along with Baltimore City received grant awards for capital improvements. While Garrett County has not yet requested State funds, with the passage of legislation to change the Capital Match Formula and expand the distribution of funds enacted after the 2022 General Assembly Session, MSLA staff continue to work with their library administration to develop a future proposal for a new library facility in Friendsville.

**Report required by State Government Article § 23-509 (MSAR # 11311)**

**October 1, 2022**

**Page 2**

Similarly, the program has resulted in substantial local investment in public library facilities statewide. Fiscal Year 2023 is the sixteenth year that State assistance in the form of capital grants will be available to

public libraries in Maryland. Since FY2008, \$82,325,000 has been authorized which has generated an estimated \$374,500,000 in local matching funds. Library construction projects also generate jobs that stimulate the economy.

While the majority of the grant awards have funded basic, but important, renovations including roof, window and HVAC replacement, an astounding number of 19 new public libraries have been opened with State funding from the Eastern Shore to Western Maryland providing lovely views of the Chesapeake Bay, local neighborhoods and the mountains along with 21<sup>st</sup> century library services. During the fiscal 2021, a new library opened in Cecil County (Northeast). Additionally, three new state of the art library facilities are currently underway in Anne Arundel (Riviera Beach), Calvert (Twin Beaches), and Frederick (Middletown) Counties with support from the State.

According to the most recent statewide facilities assessment conducted in November 2021, more than half of the 194 public library buildings in Maryland are over twenty-five (25) years old. Consequences of this aging infrastructure are: 19 buildings need a new roof, 10 facilities require alterations for ADA compliance, 24 libraries have HVAC systems that are at the end of their useful life, 37 buildings require technological upgrades in order to provide 21<sup>st</sup> century library services, 55 existing facilities require general renovation at an estimated cost of \$89,202,000, and 15 buildings have been identified for replacement with a new structure at an estimated cost of \$301,505,000.

It is not unusual for total requests to exceed the \$7,500,000 mandated for the program. During the current FY2024 application cycle, MSLA received requests totaling \$7,971,900. We are very grateful for the additional funding of \$2,500,000 enacted after the 2022 General Assembly Session.

Again, thank you for your support of public libraries in Maryland. If I can be of any further assistance please do not hesitate to contact me at [irene.padilla@maryland.gov](mailto:irene.padilla@maryland.gov).

Sincerely,

Irene M. Padilla  
State Librarian
